

Susan K Wood

List of Publications by Citations

Source: <https://exaly.com/author-pdf/350523/susan-k-wood-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
45	Individual differences in reactivity to social stress predict susceptibility and resilience to a depressive phenotype: role of corticotropin-releasing factor. <i>Endocrinology</i> , 2010 , 151, 1795-805	4.8	181
44	Inflammatory Factors Mediate Vulnerability to a Social Stress-Induced Depressive-like Phenotype in Passive Coping Rats. <i>Biological Psychiatry</i> , 2015 , 78, 38-48	7.9	94
43	Resilience to the effects of social stress: evidence from clinical and preclinical studies on the role of coping strategies. <i>Neurobiology of Stress</i> , 2015 , 1, 164-173	7.6	88
42	Social stress-induced bladder dysfunction: potential role of corticotropin-releasing factor. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2009 , 296, R1671-8	3.2	88
41	The effects of CRF antagonists, antalarmin, CP154,526, LWH234, and R121919, in the forced swim test and on swim-induced increases in adrenocorticotropin in rats. <i>Psychopharmacology</i> , 2005 , 180, 215-237	4.7	69
40	Physical versus psychological social stress in male rats reveals distinct cardiovascular, inflammatory and behavioral consequences. <i>PLoS ONE</i> , 2017 , 12, e0172868	3.7	66
39	Depressive and cardiovascular disease comorbidity in a rat model of social stress: a putative role for corticotropin-releasing factor. <i>Psychopharmacology</i> , 2012 , 222, 325-36	4.7	61
38	The bladder-brain connection: putative role of corticotropin-releasing factor. <i>Nature Reviews Urology</i> , 2011 , 8, 19-28	5.5	60
37	Evidence for the role of corticotropin-releasing factor in major depressive disorder. <i>Neuroscience and Biobehavioral Reviews</i> , 2015 , 58, 63-78	9	58
36	Cellular adaptations of dorsal raphe serotonin neurons associated with the development of active coping in response to social stress. <i>Biological Psychiatry</i> , 2013 , 73, 1087-94	7.9	55
35	The protective effects of resveratrol on social stress-induced cytokine release and depressive-like behavior. <i>Brain, Behavior, and Immunity</i> , 2017 , 59, 147-157	16.6	54
34	Social stress engages opioid regulation of locus coeruleus norepinephrine neurons and induces a state of cellular and physical opiate dependence. <i>Neuropsychopharmacology</i> , 2013 , 38, 1833-43	8.7	53
33	Statistical considerations in reporting cardiovascular research. <i>American Journal of Physiology - Heart and Circulatory Physiology</i> , 2018 , 315, H303-H313	5.2	45
32	The brain norepinephrine system, stress and cardiovascular vulnerability. <i>Neuroscience and Biobehavioral Reviews</i> , 2017 , 74, 393-400	9	43
31	Neuroinflammation at the interface of depression and cardiovascular disease: Evidence from rodent models of social stress. <i>Neurobiology of Stress</i> , 2016 , 4, 1-14	7.6	40
30	Corticotropin-releasing factor receptor-1: a therapeutic target for cardiac autonomic disturbances. <i>Expert Opinion on Therapeutic Targets</i> , 2007 , 11, 1401-13	6.4	34
29	Essential Role of Ovarian Hormones in Susceptibility to the Consequences of Witnessing Social Defeat in Female Rats. <i>Biological Psychiatry</i> , 2018 , 84, 372-382	7.9	32

28	Individual differences in the neurobiology of social stress: implications for depression-cardiovascular disease comorbidity. <i>Current Neuropharmacology</i> , 2014 , 12, 205-11	7.6	26
27	The contribution of the locus coeruleus-norepinephrine system in the emergence of defeat-induced inflammatory priming. <i>Brain, Behavior, and Immunity</i> , 2019 , 79, 102-113	16.6	25
26	Adolescent Social Stress Produces an Enduring Activation of the Rat Locus Coeruleus and Alters its Coherence with the Prefrontal Cortex. <i>Neuropsychopharmacology</i> , 2016 , 41, 1376-85	8.7	25
25	Prevention and reversal by cocaine esterase of cocaine-induced cardiovascular effects in rats. <i>Drug and Alcohol Dependence</i> , 2010 , 106, 219-29	4.9	21
24	A corticotropin-releasing factor receptor antagonist improves urodynamic dysfunction produced by social stress or partial bladder outlet obstruction in male rats. <i>American Journal of Physiology - Regulatory Integrative and Comparative Physiology</i> , 2013 , 304, R940-50	3.2	20
23	Putative Inflammatory Sensitive Mechanisms Underlying Risk or Resilience to Social Stress. <i>Frontiers in Behavioral Neuroscience</i> , 2018 , 12, 240	3.5	19
22	Individual differences in the locus coeruleus-norepinephrine system: Relevance to stress-induced cardiovascular vulnerability. <i>Physiology and Behavior</i> , 2017 , 172, 40-48	3.5	18
21	Cardiac autonomic imbalance by social stress in rodents: understanding putative biomarkers. <i>Frontiers in Psychology</i> , 2014 , 5, 950	3.4	17
20	Guanidino N-substituted and N,N-disubstituted derivatives of the kappa-opioid antagonist GNTI. <i>Journal of Medicinal Chemistry</i> , 2003 , 46, 5505-11	8.3	15
19	Facilitation of cardiac vagal activity by CRF-R1 antagonists during swim stress in rats. <i>Neuropsychopharmacology</i> , 2006 , 31, 2580-90	8.7	12
18	Common pathways and communication between the brain and heart: connecting post-traumatic stress disorder and heart failure. <i>Stress</i> , 2019 , 22, 530-547	3	11
17	Advances in understanding mechanisms and therapeutic targets to treat comorbid depression and cardiovascular disease. <i>Neuroscience and Biobehavioral Reviews</i> , 2020 , 116, 337-349	9	8
16	Sex Differences in the Inflammatory Consequences of Stress: Implications for Pharmacotherapy. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2020 , 375, 161-174	4.7	8
15	Both CRF and CRF receptors in the bed nucleus of stria terminalis are involved in baroreflex impairment evoked by chronic stress in rats. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2021 , 105, 110009	5.5	3
14	Aging triggers an upregulation of a multitude of cytokines in the male and especially the female rodent hippocampus but more discrete changes in other brain regions. <i>Journal of Neuroinflammation</i> , 2021 , 18, 219	10.1	2
13	Stress-induced inflammation as the "connexin" between post-traumatic stress disorder and cardiovascular disease. <i>Brain, Behavior, and Immunity</i> , 2019 , 82, 3-5	16.6	1
12	The role of inflammation and oxidative stress in depression and cardiovascular disease 2020 , 175-209		1
11	Neuroinflammation and Mitochondrial Dysfunction Link Social Stress to Depression.. <i>Current Topics in Behavioral Neurosciences</i> , 2022 , 1	3.4	1

10	Stress- and drug-induced neuroimmune signaling as a therapeutic target for comorbid anxiety and substance use disorders. 2022 , 108212	0
9	Characterizing 17- β -Estradiol as a Precipitating Factor in Heightened Stress Susceptibility in Female Rats. <i>FASEB Journal</i> , 2020 , 34, 1-1	0.9
8	Anxiogenic- and depressive-like behaviors in experimental models of hypertension. <i>FASEB Journal</i> , 2007 , 21, A788	0.9
7	The duality of tyrosine receptor kinase B in stress-induced hypervigilant phenotypes. <i>FASEB Journal</i> , 2019 , 33, 807.4	0.9
6	Increased CRF2 expression in the dorsal raphe is associated with passive behavioral responses to stress. <i>FASEB Journal</i> , 2009 , 23, 591.3	0.9
5	Repeated social stress reveals two populations characterized by different behavioral and endocrine stress response profiles: a model of stress vulnerability and resilience. <i>FASEB Journal</i> , 2009 , 23, 591.2	0.9
4	A corticotropin-releasing factor (CRF) receptor antagonist prevents bladder pathology associated with either social stress or partial bladder outlet obstruction (pBOO). <i>FASEB Journal</i> , 2012 , 26, 1039.2	0.9
3	Effects of social stress on locus coeruleus activity and cognitive flexibility. <i>FASEB Journal</i> , 2012 , 26, 847.6.9	0.9
2	Differential responses to social stress are associated with qualitatively different responses of dorsal raphe nucleus (DRN)-serotonin (5-HT) neurons to corticotropin-releasing factor (CRF). <i>FASEB Journal</i> , 2012 , 26, 1039.1	0.9
1	Gene and protein expression in a rodent model of social stress: Implications for depression-cardiovascular disease comorbidity. <i>FASEB Journal</i> , 2013 , 27, 663.13	0.9
