

John Breeze

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3521615/john-breeze-publications-by-citations.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
123	Combat-related craniofacial and cervical injuries: a 5-year review from the British military. <i>Journal of Trauma</i> , 2011 , 71, 108-13		37
122	The use of fine needle core biopsy under ultrasound guidance in the diagnosis of a parotid mass. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2009 , 47, 78-9	1.4	35
121	Health-related quality of life after maxillectomy: obturator rehabilitation compared with flap reconstruction. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2016 , 54, 857-862	1.4	33
120	Experimental penetration of fragment simulating projectiles into porcine tissues compared with simulants. <i>Journal of Clinical Forensic and Legal Medicine</i> , 2013 , 20, 296-9	1.7	31
119	Maxillofacial injuries in military personnel treated at the Royal Centre for Defence Medicine June 2001 to December 2007. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2010 , 48, 613-6	1.4	30
118	Mandibular fractures in British military personnel secondary to blast trauma sustained in Iraq and Afghanistan. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2011 , 49, 607-11	1.4	26
117	Surface wound mapping of battlefield ocularo-facial injury. <i>Injury</i> , 2012 , 43, 1856-60	2.5	25
116	Ear injuries sustained by British service personnel subjected to blast trauma. <i>Journal of Laryngology and Otology</i> , 2011 , 125, 13-7	1.8	25
115	Defining combat helmet coverage for protection against explosively propelled fragments. <i>Journal of the Royal Army Medical Corps</i> , 2015 , 161, 9-13	0.8	24
114	Face, neck, and eye protection: adapting body armour to counter the changing patterns of injuries on the battlefield. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2011 , 49, 602-6	1.4	23
113	Demonstrating the effectiveness of body armour: a pilot prospective computerised surface wound mapping trial performed at the Role 3 hospital in Afghanistan. <i>Journal of the Royal Army Medical Corps</i> , 2015 , 161, 36-41	0.8	22
112	Current concepts in the epidemiology and management of battlefield head, face and neck trauma. <i>Journal of the Royal Army Medical Corps</i> , 2009 , 155, 274-8	0.8	21
111	Clinical and post mortem analysis of combat neck injury used to inform a novel coverage of armour tool. <i>Injury</i> , 2015 , 46, 629-33	2.5	19
110	Damage control surgery and combat-related maxillofacial and cervical injuries: a systematic review. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2016 , 54, 8-12	1.4	19
109	Defining the essential anatomical coverage provided by military body armour against high energy projectiles. <i>Journal of the Royal Army Medical Corps</i> , 2016 , 162, 284-90	0.8	19
108	Skill sets required for the management of military head, face and neck trauma: a multidisciplinary consensus statement. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 133-138	0.8	18
107	Determining the wounding effects of ballistic projectiles to inform future injury models: a systematic review. <i>Journal of the Royal Army Medical Corps</i> , 2014 , 160, 273-8	0.8	18

106	Mortality and morbidity from combat neck injury. <i>Journal of Trauma</i> , 2012 , 72, 969-74		18
105	Does preliminary optimisation of an anatomically correct skull-brain model using simple simulants produce clinically realistic ballistic injury fracture patterns?. <i>International Journal of Legal Medicine</i> , 2017 , 131, 1043-1053	3.1	17
104	Refrigeration and freezing of porcine tissue does not affect the retardation of fragment simulating projectiles. <i>Journal of Clinical Forensic and Legal Medicine</i> , 2015 , 32, 77-83	1.7	16
103	Novel method for comparing coverage by future methods of ballistic facial protection. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2015 , 53, 3-7	1.4	16
102	Is an osteotome necessary for pterygomaxillary dysjunction or dysjunction through the tuberosity during Le Fort I osteotomy? A systematic review. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2016 , 54, 248-52	1.4	16
101	Perforation of fragment simulating projectiles into goat skin and muscle. <i>Journal of the Royal Army Medical Corps</i> , 2013 , 159, 84-9	0.8	16
100	Management of devastating ocular trauma--experience of maxillofacial surgeons deployed to a forward field hospital. <i>Journal of the Royal Army Medical Corps</i> , 2010 , 156, 106-9	0.8	16
99	Clinical strategies in the management of complex maxillofacial injuries sustained by British military personnel. <i>Journal of the Royal Army Medical Corps</i> , 2010 , 156, 110-3	0.8	16
98	Clinicians and patients' acceptance of the virtual clinic concept in maxillofacial surgery: a departmental survey. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2020 , 58, 458-461	1.4	16
97	Characterisation of explosive fragments injuring the neck. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2013 , 51, e263-6	1.4	15
96	Developmental framework to validate future designs of ballistic neck protection. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2013 , 51, 47-51	1.4	14
95	Oral and maxillofacial surgical contribution to 21 months of operating theatre activity in Kandahar Field Hospital: 1 February 2007-31 October 2008. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2011 , 49, 464-8	1.4	14
94	Determining the dimensions of essential medical coverage required by military body armour plates utilising Computed Tomography. <i>Injury</i> , 2016 , 47, 1932-8	2.5	14
93	Contemporary management of maxillofacial ballistic trauma. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2017 , 55, 661-665	1.4	13
92	Management of maxillofacial wounds sustained by British service personnel in Afghanistan. <i>International Journal of Oral and Maxillofacial Surgery</i> , 2011 , 40, 483-6	2.9	13
91	Five months of surgery in the multinational field hospital in Afghanistan with an emphasis on oral and maxillofacial injuries. <i>Journal of the Royal Army Medical Corps</i> , 2010 , 156, 125-8	0.8	12
90	Ultrasound guided localisation during the excision of an impalpable branchial cyst. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2008 , 46, 686-7	1.4	12
89	Use of hearing protection on military operations. <i>Journal of the Royal Army Medical Corps</i> , 2011 , 157, 381-4	0.8	10

88	How are we currently training and maintaining clinical readiness of US and UK military surgeons responsible for managing head, face and neck wounds on deployment?. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 183-185	0.8	10
87	Health-related quality of life after treatment for neoplasia of the major salivary glands: a pilot study. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2016 , 54, 806-11	1.4	9
86	The challenges in developing a finite element injury model of the neck to predict the penetration of explosively propelled projectiles. <i>Journal of the Royal Army Medical Corps</i> , 2014 , 160, 220-5	0.8	8
85	Anthropometric assessment of cervical neurovascular structures using CTA to determine zone-specific vulnerability to penetrating fragmentation injuries. <i>Clinical Radiology</i> , 2013 , 68, 34-8	2.9	8
84	Comparing the comfort and potential military performance restriction of neck collars from the body armor of six different countries. <i>Military Medicine</i> , 2011 , 176, 1274-7	1.3	8
83	Following COVID-19 clinicians now overwhelmingly accept virtual clinics in Oral and Maxillofacial Surgery. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2020 , 58, e290-e295	1.4	8
82	The risk of fracture to the tibia from a fragment simulating projectile. <i>Journal of the Mechanical Behavior of Biomedical Materials</i> , 2020 , 102, 103525	4.1	7
81	The index of orthognathic functional treatment need accurately prioritises those patients already selected for orthognathic surgery within the NHS. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2016 , 54, 511-4	1.4	7
80	Injury representation against ballistic threats using three novel numerical models. <i>Journal of the Royal Army Medical Corps</i> , 2017 , 163, 193-198	0.8	6
79	Patient-reported quality of life outcomes following treatment for oral cancer. <i>International Journal of Oral and Maxillofacial Surgery</i> , 2018 , 47, 296-301	2.9	6
78	Optimising ballistic facial coverage from military fragmenting munitions: a consensus statement. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2017 , 55, 173-178	1.4	6
77	Personal Armour Used by UK Armed Forces and UK Police Forces 2017 , 47-62		6
76	Comparing the Management of Eye Injuries by Coalition Military Surgeons during the Iraq and Afghanistan Conflicts. <i>Ophthalmology</i> , 2020 , 127, 458-466	7.3	6
75	Using computerised surface wound mapping to compare the potential medical effectiveness of Enhanced Protection Under Body Armour Combat Shirt collar designs. <i>Journal of the Royal Army Medical Corps</i> , 2015 , 161, 22-6	0.8	5
74	Success rates and complications of autologous onlay bone grafts and sinus lifts in patients with congenital hypodontia and after trauma. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2017 , 55, 830-833	1.4	5
73	Ergonomic assessment of future methods of ballistic neck protection. <i>Military Medicine</i> , 2013 , 178, 899-903		5
72	Outcomes from penetrating ballistic cervical injury. <i>Journal of the Royal Army Medical Corps</i> , 2012 , 158, 96-100	0.8	5
71	Defining the minimum anatomical coverage required to protect the axilla and arm against penetrating ballistic projectiles. <i>Journal of the Royal Army Medical Corps</i> , 2016 , 162, 270-5	0.8	5

70	Nerve agents: emergency preparedness. <i>BMJ Military Health</i> , 2020 , 166, 42-46	1	5
69	Outcomes following penetrating neck injury during the Iraq and Afghanistan conflicts: A comparison of treatment at US and United Kingdom medical treatment facilities. <i>Journal of Trauma and Acute Care Surgery</i> , 2020 , 88, 696-703	3.3	4
68	The surgical management of facial trauma in British soldiers during combat operations in Afghanistan. <i>Injury</i> , 2017 , 48, 70-74	2.5	4
67	An integrated approach towards future ballistic neck protection materials selection. <i>Proceedings of the Institution of Mechanical Engineers, Part H: Journal of Engineering in Medicine</i> , 2013 , 227, 581-7	1.7	4
66	Facial injury management undertaken at US and UK medical treatment facilities during the Iraq and Afghanistan conflicts: a retrospective cohort study. <i>BMJ Open</i> , 2019 , 9, e033557	3	4
65	Survival after traumatic brain injury improves with deployment of neurosurgeons: a comparison of US and UK military treatment facilities during the Iraq and Afghanistan conflicts. <i>Journal of Neurology, Neurosurgery and Psychiatry</i> , 2020 , 91, 359-365	5.5	3
64	The ballistic performance of bone when impacted by fragments. <i>International Journal of Legal Medicine</i> , 2020 , 134, 1387-1393	3.1	3
63	Prolonged deployed hospital care in the management of military eye injuries. <i>Eye</i> , 2020 , 34, 2106-2111	4.4	3
62	Is instant messaging the future of workplace communication for oral and maxillofacial surgery?. <i>Faculty Dental Journal</i> , 2015 , 6, 180-186	0.6	3
61	Determining the velocity required for skin perforation by fragment simulating projectiles: a systematic review. <i>Journal of the Royal Army Medical Corps</i> , 2013 , 159, 265-70	0.8	3
60	Pleomorphic adenoma arising from accessory parotid tissue presenting as dysphonia. <i>Journal of the Royal Army Medical Corps</i> , 2008 , 154, 57-9	0.8	3
59	Are soldiers at increased risk of third molar symptoms when on operational tour in Iraq? A prospective cohort study. <i>Journal of the Royal Army Medical Corps</i> , 2007 , 153, 102-4	0.8	3
58	Isolated orbital wall blowout fractures due to primary blast injury. <i>Journal of the Royal Army Medical Corps</i> , 2009 , 155, 70	0.8	3
57	Contemporary surgical management of hypodontia. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2017 , 55, 454-460	1.4	2
56	Dispatches from the editor: how should we reward those that peer review for our military journal?. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 1-2	0.8	2
55	Numbness of the lower lip does not adversely affect quality of life or patients'satisfaction after mandibular orthognathic surgery. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2018 , 56, 421-424	1.4	2
54	Avulsive Soft Tissue Injuries. <i>Atlas of the Oral and Maxillofacial Surgery Clinics of North America</i> , 2019 , 27, 135-142	0.9	2
53	Combat Facial Fractures Sustained During Operation Resolute Support and Operation Freedom& Sentinel in Afghanistan. <i>Military Medicine</i> , 2020 , 185, 414-416	1.3	2

52	Mapping the Risk of Fracture of the Tibia From Penetrating Fragments. <i>Frontiers in Bioengineering and Biotechnology</i> , 2020 , 8, 544214	5.8	2
51	Gelatine Backing Affects the Performance of Single-Layer Ballistic-Resistant Materials Against Blast Fragments. <i>Frontiers in Bioengineering and Biotechnology</i> , 2020 , 8, 744	5.8	2
50	Extending existing recommended military casualty evacuation timelines will likely increase morbidity and mortality: a UK consensus statement. <i>BMJ Military Health</i> , 2020 , 166, 287-293	1	2
49	Comparing the medical coverage provided by four contemporary military combat helmets against penetrating traumatic brain injury. <i>BMJ Military Health</i> , 2021 ,	1	2
48	Highlights of the edition: the military medical ethics special issue. <i>Journal of the Royal Army Medical Corps</i> , 2019 , 165, 217-218	0.8	2
47	Noise-induced hearing loss in the military dental setting: a UK legislative perspective. <i>BMJ Military Health</i> , 2020 , 166, e53-e56	1	2
46	Sizing of ballistic arm protection for the VIRTUS body armour and load carriage system. <i>BMJ Military Health</i> , 2021 , 167, 163-167	1	2
45	Penetration of Energised Metal Fragments to Porcine Thoracic Tissues.. <i>Journal of Biomechanical Engineering</i> , 2021 ,	2.1	2
44	Defining the medical coverage of ballistic protection to the pelvis and thigh. <i>BMJ Military Health</i> , 2020 , 166, 129-134	1	1
43	Minimum depths to essential structures in a UK military population using computed tomography: application to stab-resistant body armour. <i>International Journal of Legal Medicine</i> , 2020 , 134, 691-695	3.1	1
42	Dispatches from the Editor: Is the end of the print military medical journal inevitable?. <i>Journal of the Royal Army Medical Corps</i> , 2017 , 163, 365	0.8	1
41	Commentary on: Assessment method of bullet effectiveness based on a human vulnerability model. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 179	0.8	1
40	Dispatches from the editor: what do authors want from our military health journal?. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 65-66	0.8	1
39	Highlights of this edition. <i>Journal of the Royal Army Medical Corps</i> , 2017 , 163, 1-1	0.8	1
38	Ergonomic assessment of enhanced protection under body armour combat shirt neck collars. <i>Journal of the Royal Army Medical Corps</i> , 2014 , 160, 32-7	0.8	1
37	Rising carcinoembryonic antigen during follow-up for colonic carcinoma--an unusual presentation of medullary carcinoma of the thyroid. <i>Clinical Oncology</i> , 2008 , 20, 382	2.8	1
36	Penetrating Neck Injuries Treated at a U.S. Role 3 Medical Treatment Facility in Afghanistan During Operation Resolute Support. <i>Military Medicine</i> , 2020 ,	1.3	1
35	Management of casualties in Misrata following the civil uprising in Libya, with an emphasis on maxillofacial injuries. <i>Faculty Dental Journal</i> , 2016 , 7, 40-45	0.6	1

34	Penetrating Neck Injury 2017 , 257-273		1
33	Torso body armour coverage defined according to feasibility of haemorrhage control within the prehospital environment: a new paradigm for combat trauma protection. <i>BMJ Military Health</i> , 2020 ,	1	1
32	Current opinion in the assessment and management of ballistic trauma to the craniomaxillofacial region. <i>Current Opinion in Otolaryngology and Head and Neck Surgery</i> , 2020 , 28, 251-257	2	1
31	Optimising the Anatomical Coverage Provided by Military Body Armour Systems 2016 , 291-299		1
30	Towards the future: The final issue of the journal of the Royal Army Medical Corps 1903-2019. <i>Journal of the Royal Army Medical Corps</i> , 2019 , 165, 381-382	0.8	1
29	Determining the optimum anatomical coverage of side plates for the VIRTUS body armour and load carriage system. <i>BMJ Military Health</i> , 2021 , 167, 147-152	1	1
28	Success rates and complications of eminectomies: a retrospective case series. <i>Oral Surgery</i> , 2018 , 11, 28-32	0.6	1
27	Exploring Dentist Opinions on the Provision of Intravenous Sedation in Primary Dental Care for UK Armed Forces Personnel. <i>Military Medicine</i> , 2020 , 185, e1187-e1192	1.3	0
26	Computed tomography can improve the selection of fragment simulating projectiles from which to test future body armor materials. <i>Military Medicine</i> , 2013 , 178, 690-5	1.3	0
25	The future is here: the first issue of BMJ Military Health. <i>BMJ Military Health</i> , 2020 , 166, 1-2	1	0
24	Operation RUMAN and the Ministry of Defence response to Hurricane Irma. <i>Journal of the Royal Army Medical Corps</i> , 2019 , 165, 436-437	0.8	0
23	Fragmenting Munitions 2017 , 21-28		0
22	Dispatches from the editor: how can we responsibly harness social media to improve our military health journal?. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 393-396	0.8	0
21	Highlights of this edition. <i>Journal of the Royal Army Medical Corps</i> , 2016 , 162, 147.1-147	0.8	
20	Highlights of this edition. <i>Journal of the Royal Army Medical Corps</i> , 2016 , 162, 399-399	0.8	
19	Highlights of this edition. <i>Journal of the Royal Army Medical Corps</i> , 2016 , 162, 233-233	0.8	
18	Highlights of this edition. <i>Journal of the Royal Army Medical Corps</i> , 2016 , 162, 317-317	0.8	
17	Dispatches from the editor: blast injury is everyone's problem. <i>Journal of the Royal Army Medical Corps</i> , 2019 , 165, 1-2	0.8	

16	Letter in response to Macdonald C, Nakhdjvani A, Shah A. The "Swiss-Roll" flap: a modified C-V flap for nipple reconstruction. <i>The Breast</i> 20 (2011) 475-477. <i>Breast</i> , 2012 , 21, 109	3.6
15	Intra-oral injury assessment and recording in evacuated military personnel. <i>International Journal of Oral and Maxillofacial Surgery</i> , 2013 , 42, 419	2.9
14	Highlights of this edition. <i>Journal of the Royal Army Medical Corps</i> , 2017 , 163, 77-77	0.8
13	Highlights of the edition. <i>Journal of the Royal Army Medical Corps</i> , 2017 , 163, 295	0.8
12	In response to: Umar G, Obisesan O, Bryant C, Rood JP. Elimination of permanent injuries to the inferior alveolar nerve following surgical intervention of the "high risk" third molar. <i>Br J Oral Maxillofac Surg</i> 2013;51(4):353-7. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2013 , 51, 992	1.4
11	Can early detection rates for cancer referred to an oral and maxillofacial surgery department be improved by consultant triage of referral letters?. <i>Oral Surgery</i> , 2009 , 2, 77-79	0.6
10	Oral and maxillofacial surgery. <i>Journal of the Royal Army Medical Corps</i> , 2008 , 154, 176-80	0.8
9	Physician assistant utilisation in the US Armed Forces: applicability to the UK Defence Medical Services. <i>BMJ Military Health</i> , 2021 , 167, 56-58	1
8	Dispatches from the Editor in Chief: highlights of the June 2020 issue. <i>BMJ Military Health</i> , 2020 , 166, 125	1
7	Developing a craniomaxillofacial and cervical equipment module for surgeons in the austere environment: a systematic review. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2020 , 58, 139-145	1.4
6	Energised Fragments, Bullets and Fragment Simulating Projectiles 2016 , 219-226	
5	Dispatches from the editor: military psychology, a force multiplier. <i>Journal of the Royal Army Medical Corps</i> , 2019 , 165, 63-64	0.8
4	Dispatches from the editor in chief: highlights of the June edition. <i>Journal of the Royal Army Medical Corps</i> , 2019 , 165, 139	0.8
3	Dispatches from the editor: highlights of this edition. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 139	0.8
2	Dispatches from the editor: highlights of the August 2018 edition. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 227	0.8
1	Dispatches from the editor: highlights of the September 2018 issue. <i>Journal of the Royal Army Medical Corps</i> , 2018 , 164, 315	0.8
