#	ARTICLE	IF	CITATIONS
1	Randomised controlled trial testing the feasibility of an exercise and nutrition intervention for patients with ovarian cancer during and after first-line chemotherapy (BENITA-study). <i>BMJ Open</i> , 2022, 12, e054091.	1.9	7
2	Arm Ergometry to Improve Mobility in Progressive Multiple Sclerosis (AMBOS)â€”Results of a Pilot Randomized Controlled Trial. <i>Frontiers in Neurology</i> , 2021, 12, 644533.	2.4	5
3	Moderators of Exercise Effects on Cancer-related Fatigue: A Meta-analysis of Individual Patient Data. <i>Medicine and Science in Sports and Exercise</i> , 2020, 52, 303-314.	0.4	50
4	Aerobic Exercise Induces Functional and Structural Reorganization of CNS Networks in Multiple Sclerosis: A Randomized Controlled Trial. <i>Frontiers in Human Neuroscience</i> , 2020, 14, 255.	2.0	10
5	Effects and moderators of exercise on muscle strength, muscle function and aerobic fitness in patients with cancer: a meta-analysis of individual patient data. <i>British Journal of Sports Medicine</i> , 2019, 53, 812-812.	6.7	67
6	Short-term interval aerobic exercise training does not improve memory functioning in relapsing-remitting multiple sclerosisâ€”a randomized controlled trial. <i>PeerJ</i> , 2018, 6, e6037.	2.0	28
7	Targeting Exercise Interventions to Patients With Cancer in Need: An Individual Patient Data Meta-Analysis. <i>Journal of the National Cancer Institute</i> , 2018, 110, 1190-1200.	6.3	72
8	Effects and moderators of exercise on quality of life and physical function in patients with cancer: An individual patient data meta-analysis of 34 RCTs. <i>Cancer Treatment Reviews</i> , 2017, 52, 91-104.	7.7	398
9	Physical condition, nutritional status, fatigue, and quality of life in oncological out-patients. <i>SAGE Open Medicine</i> , 2017, 5, 205031211774367.	1.8	17
10	Aberrant peak lactate response in MS. <i>NeuroRehabilitation</i> , 2017, 41, 811-822.	1.3	2
11	Physical and Psychological Well-Being in Overweight Children Participating in a Long-Term Intervention Based on Judo Practice. <i>Advances in Physical Education</i> , 2017, 07, 85-100.	0.4	5
12	Effects of exercise on Irisin, BDNF and IL-6 serum levels in patients with progressive multiple sclerosis. <i>Journal of Neuroimmunology</i> , 2016, 299, 53-58.	2.3	88
13	Dietary Interventions in Multiple Sclerosis: Development and Pilot-Testing of an Evidence Based Patient Education Program. <i>PLoS ONE</i> , 2016, 11, e0165246.	2.5	37
14	Psychologische Evaluation und Beratung im Vorfeld einer Organ-Lebendspende. , 2016, , 413-424.		0
15	Anterior vertical miniâ€”incision vs. retroperitoneoscopic nephrectomy in living kidney donation: a prospective study on donors' quality of life and clinical outcome. <i>Clinical Transplantation</i> , 2015, 29, 1029-1038.	1.6	3
16	Changes of Motivational Variables in Patients with Multiple Sclerosis in an Exercise Intervention: Associations between Physical Performance and Motivational Determinants. <i>Behavioural Neurology</i> , 2015, 2015, 1-7.	2.1	6
17	Determination of ethyl glucuronide in hair improves evaluation of longâ€”term alcohol abstention in liver transplant candidates. <i>Liver International</i> , 2014, 34, 469-476.	3.9	52
18	Family strain and its relation to psychosocial dysfunction in children and adolescents after liver transplantation. <i>Pediatric Transplantation</i> , 2014, 18, 851-859.	1.0	18

#	ARTICLE	IF	CITATIONS
19	Lifestyle medicine potential for reversing a world of chronic disease epidemics: from cell to community. <i>International Journal of Clinical Practice</i> , 2014, 68, 1289-1292.	1.7	62
20	Donor Quality of Life up to Two Years After Living Donor Liver Transplantation. <i>Transplantation</i> , 2014, 97, 582-589.	1.0	40
21	Cognitive Performance in Pediatric Liver Transplant Recipients. <i>American Journal of Transplantation</i> , 2013, 13, 2956-2965.	4.7	42
22	Supportive care needs in patients with cardiovascular disorders. <i>Patient Education and Counseling</i> , 2013, 91, 378-384.	2.2	21
23	Psychosocial Adjustment after Pediatric Liver Transplantation: The Parents' Perspective. <i>Transplantation</i> , 2012, 94, 28.	1.0	0
24	Intervention Studies in Transplantation Medicine: Results from An Update of the German Consultation-Liaison Guidelines. <i>Transplantation</i> , 2012, 94, 288.	1.0	0
25	Quality of Life Up to 2 Years after Living Liver Donation - A Prospective Study. <i>Transplantation</i> , 2012, 94, 375.	1.0	0
26	A prospective study on living related kidney donors' quality of life in the first year: choosing appropriate reference data. <i>Clinical Transplantation</i> , 2012, 26, E418-27.	1.6	29
27	Decreased hydrocortisone sensitivity of T cell function in multiple sclerosis-associated major depression. <i>Psychoneuroendocrinology</i> , 2012, 37, 1712-1718.	2.7	14
28	Dynamic Development of Glucocorticoid Resistance during Autoimmune Neuroinflammation. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2012, 97, E1402-E1410.	3.6	37
29	Influence of kinship on donors' mental burden in living donor liver transplantation. <i>Liver Transplantation</i> , 2012, 18, 901-906.	2.4	13
30	Modulation of glucocorticoid sensitivity in T cells: A novel mechanism for the beneficial effects of pregnancy in multiple sclerosis. <i>Journal of Reproductive Immunology</i> , 2012, 94, 33-34.	1.9	0
31	Endocrine and immune substrates of depressive symptoms and fatigue in multiple sclerosis patients with comorbid major depression. <i>Journal of Neurology, Neurosurgery and Psychiatry</i> , 2011, 82, 814-818.	1.9	85
32	To Donate or Not to Donate: Decision Making and Psychosocial Determinants in Living Liver Donation. <i>Transplantation</i> , 2011, 92, 846-847.	1.0	1
33	Effects of a Physical Exercise Rehabilitation Group Program on Anxiety, Depression, Body Image, and Health-Related Quality of Life among Breast Cancer Patients. <i>Onkologie</i> , 2011, 34, 248-253.	0.8	88
34	Attention and Executive Functioning Deficits in Liver-Transplanted Children. <i>Transplantation</i> , 2010, 90, 1567-1573.	1.0	36
35	Reply: Quality of life in actual living liver donors versus potential living liver donors. <i>Liver Transplantation</i> , 2010, 16, 692-693.	2.4	0
36	Responsiveness of patient-based and external rating scales in multiple sclerosis: Head-to-head comparison in three clinical settings. <i>Journal of the Neurological Sciences</i> , 2010, 290, 102-106.	0.6	20

#	ARTICLE	IF	CITATIONS
37	Mental and physical quality of life in actual living liver donors versus potential living liver donors: A prospective, controlled, multicenter study. <i>Liver Transplantation</i> , 2009, 15, 1676-1687.	2.4	48
38	Sense of coherence and social support predict living liver donors'™ emotional stress prior to living donor liver transplantation. <i>Clinical Transplantation</i> , 2008, 22, 273-280.	1.6	31
39	The factorial structure of the Chronic Liver Disease Questionnaire (CLDQ). <i>Quality of Life Research</i> , 2008, 17, 575-584.	3.1	47
40	Psychological strain in urgent indications for living donor liver transplantation. <i>Liver Transplantation</i> , 2007, 13, 886-895.	2.4	62
41	Psychosocial aspects of pediatric living donor liver transplantation. <i>Liver Transplantation</i> , 2006, 12, 1661-1666.	2.4	21
42	Fatigue in multiple sclerosis: an example of cytokine mediated sickness behaviour?. <i>Journal of Neurology, Neurosurgery and Psychiatry</i> , 2006, 77, 34-39.	1.9	275
43	Physical exercise in multiple sclerosis: supportive care or a putative disease-modifying treatment. <i>Expert Review of Neurotherapeutics</i> , 2006, 6, 347-355.	2.8	82
44	Cognitive Abilities in Children after Liver Transplantation. <i>Transplantation</i> , 2005, 79, 1252-1256.	1.0	56
45	Hypothalamo-pituitary-adrenal axis activity predicts disease progression in multiple sclerosis. <i>Journal of Neuroimmunology</i> , 2005, 165, 186-191.	2.3	52
46	Altered cytokine responses to cognitive stress in multiple sclerosis patients with fatigue. <i>Multiple Sclerosis Journal</i> , 2005, 11, 51-57.	3.0	40
47	Impact of aerobic training on immune-endocrine parameters, neurotrophic factors, quality of life and coordinative function in multiple sclerosis. <i>Journal of the Neurological Sciences</i> , 2004, 225, 11-18.	0.6	244
48	Evolution of Donor Morbidity in Living Related Liver Transplantation. <i>Annals of Surgery</i> , 2004, 240, 1013-1026.	4.2	148
49	Basal serum levels and reactivity of nerve growth factor and brain-derived neurotrophic factor to standardized acute exercise in multiple sclerosis and controls. <i>Journal of Neuroimmunology</i> , 2003, 138, 99-105.	2.3	258
50	Endocrine and cytokine responses to standardized physical stress in multiple sclerosis. <i>Brain, Behavior, and Immunity</i> , 2003, 17, 473-481.	4.1	59
51	Cognitive impairment in multiple sclerosis does not affect reliability and validity of self-report health measures. <i>Multiple Sclerosis Journal</i> , 2003, 9, 404-410.	3.0	107
52	Cognitive performance of children who have undergone liver transplantation. <i>Transplantation</i> , 2003, 75, 1236-1240.	1.0	50
53	Endocrine and Cytokine Responses to Acute Psychological Stress in Multiple Sclerosis. <i>Brain, Behavior, and Immunity</i> , 2002, 16, 282-287.	4.1	60
54	Transplantation for alcoholic liver disease. <i>Journal of Hepatology</i> , 2002, 36, 130-137.	3.7	97

#	ARTICLE	IF	CITATIONS
55	PROLACTIN STIMULATION IN MULTIPLE SCLEROSIS – AN INDICATOR OF DISEASE SUBTYPES AND ACTIVITY?. Endocrine Research, 2002, 28, 9-18.	1.2	19
56	Oral terbutaline differentially affects cytokine (IL-10, IL-12, TNF, IFN γ) release in multiple sclerosis patients and controls. Journal of Neuroimmunology, 2002, 132, 189-195.	2.3	18
57	Comparison of quality of life and family stress in families of children with living-related liver transplants versus families of children who received a cadaveric liver. Transplantation Proceedings, 2001, 33, 1496-1497.	0.6	24
58	A psychosocial group intervention reduced psychological distress and enhanced coping in primary breast cancer. Evidence-Based Mental Health, 2001, 4, 15-15.	4.5	1
59	A comprehensive coping strategy programme reduced nausea and fatigue after autologous bone marrow transplantation for breast cancer. Evidence-Based Mental Health, 2001, 4, 14-14.	4.5	1
60	Effects of an educational segment concerning organ donation and transplantation. Transplantation Proceedings, 2000, 32, 62-63.	0.6	20
61	Predictors of the intention to donate organs: an empirical model. Transplantation Proceedings, 2000, 32, 64-65.	0.6	11
62	Changes of Immunological Parameters in Healthy Subjects Under Examination Stress. International Journal of Neuroscience, 1990, 51, 241-242.	1.6	17
63	Psychosocial challenges before and after organ transplantation. Transplant Research and Risk Management, 0, , 45.	0.7	37
