#	Article	IF	CITATIONS
1	LncRNA H19-mediated M2 polarization of macrophages promotes myofibroblast differentiation in pulmonary fibrosis induced by arsenic exposure. Environmental Pollution, 2021, 268, 115810.	7.5	44
2	Liver Kinase B1—A Potential Therapeutic Target in Hormone-Sensitive Breast Cancer in Older Women. Cancers, 2019, 11, 149.	3.7	12
3	Treatment strategies and survival outcomes in older women with breast cancer: A comparative study between the FOCUS cohort and Nottingham cohort. Journal of Geriatric Oncology, 2018, 9, 635-641.	1.0	5
4	Oestrogen receptor negative early operable primary breast cancer in older women—Biological characteristics and long-term clinical outcome. PLoS ONE, 2017, 12, e0188528.	2.5	4
5	Evaluation of C-reactive protein and hematologicalÂparameters in smokeless tobacco users:ÂA comparative cross-sectional study. Pakistan Journal of Medical Sciences, 2021, 37, 983-987.	0.6	2
6	Differing pattern of biological characteristics of early operable primary breast cancer according to age Journal of Clinical Oncology, 2016, 34, e23272-e23272.	1.6	1
7	Relationships of cyclin E with clinical outcome and biomarkers in older women with early operable primary breast cancer Journal of Clinical Oncology, 2017, 35, e12031-e12031.	1.6	1
8	Novel molecular classification of colorectal cancer and correlation with long-term survival Journal of Clinical Oncology, 2021, 39, e15514-e15514.	1.6	0
9	Potential of a novel technique for constructing tissue microarrays from core needle biopsy as seen in older women with primary breast cancer Journal of Clinical Oncology, 2016, 34, e23283-e23283.	1.6	0
10	Age standardized pattern of cancers in Pakistani population from 2008 to 2014 Journal of Clinical Oncology, 2017, 35, e13060-e13060.	1.6	0
11	Biology and clinical outcomes of estrogen receptor positive (ER+) early primary breast cancer (BC) in older (≥70 years) women—A study based on core needle biopsies (CNB) Journal of Clinical Oncology,	1.6	Ο
