#	ARTICLE	IF	CITATIONS
1	Lymphoedema: an underestimated health problem. QJM - Monthly Journal of the Association of Physicians, 2003, 96, 731-738.	0.2	440
2	Prevalence of leg ulceration in a London population. QJM - Monthly Journal of the Association of Physicians, 2004, 97, 431-437.	0.2	200
3	Health-related quality of life with lymphoedema: a review of the literature. International Wound Journal, 2005, 2, 47-62.	1.3	195
4	Measurement of Lower Leg Compression In Vivo: Recommendations for the Performance of Measurements of Interface Pressure and Stiffness. Dermatologic Surgery, 2006, 32, 224-233.	0.4	188
5	Classification of Compression Bandages: Practical Aspects. Dermatologic Surgery, 2008, 34, 600-609.	0.4	176
6	Implementing TIMERS: the race against hard-to-heal wounds. Journal of Wound Care, 2019, 28, S1-S50.	0.5	142
7	Lymphoedema: estimating the size of the problem. Palliative Medicine, 2005, 19, 300-313.	1.3	120
8	Community Leg Ulcer Clinics: Effect on Quality of Life. Phlebology, 1994, 9, 83-86.	0.6	119
9	Risk Factors for Leg Ulcer Recurrence: A Randomized Trial of Two Types of Compression Stocking. Age and Ageing, 1995, 24, 490-494.	0.7	118
10	Venous leg ulcers: patient concordance with compression therapy and its impact on healing and prevention of recurrence. International Wound Journal, 2009, 6, 386-393.	1.3	114
11	Recurrence of leg ulcers within a community ulcer service. Journal of Wound Care, 1995, 4, 57-61.	0.5	109
12	A phenomenological study of the lived experiences of people with lymphoedema. International Journal of Palliative Nursing, 2004, 10, 279-286.	0.2	90
13	Health related quality of life in patients with venous ulceration: use of the Nottingham health profile. Quality of Life Research, 2001, 10, 693-700.	1.5	87
14	Randomized trial of four-layer and two-layer bandage systems in the management of chronic venous ulceration. Wound Repair and Regeneration, 2003, 11, 166-171.	1.5	85
15	Factors associated with Healing Leg Ulceration with High Compression. Age and Ageing, 1995, 24, 407-410.	0.7	84
16	Who suffers most from leg ulceration?. Journal of Wound Care, 1998, 7, 383-385.	0.5	81
17	Randomized trial of cohesive short-stretch versus four-layer bandaging in the management of venous ulceration. Wound Repair and Regeneration, 2004, 12, 157-162.	1.5	76
18	Assessment of health-related quality of life in patients with lymphedema of the lower limb. Wound Repair and Regeneration, 2006, 14, 110-118.	1.5	75

#	ARTICLE	IF	CITATIONS
19	Chronic oedema: a prevalent health care problem for <sc>UK</sc> health services. International Wound Journal, 2017, 14, 772-781.	1.3	75
20	Clinical predictors of leg ulcer healing. British Journal of Dermatology, 2010, 162, 51-58.	1.4	72
21	Health-related quality of life and pressure ulceration assessment in patients treated in the community. Wound Repair and Regeneration, 2002, 10, 133-140.	1.5	70
22	The venous leg ulcer quality of life (VLUâ€QoL) questionnaire: development and psychometric validation. Wound Repair and Regeneration, 2007, 15, 465-473.	1.5	67
23	Variability of pressure provided by sustained compression. International Wound Journal, 2008, 5, 259-265.	1.3	61
24	Guidelines for Clinical Studies with Compression Devices in Patients with Venous Disorders of the Lower Limb. European Journal of Vascular and Endovascular Surgery, 2008, 35, 494-500.	0.8	61
25	Oxerutins in the prevention of recurrence in chronic venous ulceration: Randomized controlled trial. British Journal of Surgery, 2005, 78, 1269-1270.	0.1	59
26	A randomised controlled 8-week crossover clinical evaluation of the 3Mâ„¢ Cobanâ„¢ 2 Layer Compression System versus Proforeâ„¢ to evaluate the product performance in patients with venous leg ulcers. International Wound Journal, 2008, 5, 267-279.	1.3	52
27	Efficacy of two compression systems in the management of VLU: results of a European RCT. Journal of Wound Care, 2012, 21, 553-565.	0.5	52
28	Ankle pulses are not sufficient to detect impaired arterial circulation in patients with leg ulcers. Journal of Wound Care, 1995, 4, 134-138.	0.5	51
29	Psychological factors in leg ulceration: a case-control study. British Journal of Dermatology, 2009, 161, 750-756.	1.4	49
30	Perspectives on concordance in leg ulcer management. Journal of Wound Care, 2004, 13, 243-248.	0.5	44
31	The Concept of Chronic Edemaâ€”A Neglected Public Health Issue and an International Response: The LIMPRINT Study. Lymphatic Research and Biology, 2019, 17, 121-126.	0.5	42
32	Factors that affect concordance with compression therapy. Journal of Wound Care, 2004, 13, 291-294.	0.5	41
33	Do Clinical and Social Factors Predict Quality of Life in Leg Ulceration?. International Journal of Lower Extremity Wounds, 2006, 5, 236-243.	0.6	40
34	Longer-term changes in quality of life in chronic leg ulceration. Wound Repair and Regeneration, 2006, 14, 536-541.	1.5	38
35	Venous ulcer healing: effect of socioeconomic factors in London.. Journal of Epidemiology and Community Health, 1995, 49, 385-388.	2.0	37
36	Sociodemographic factors in chronic leg ulceration. British Journal of Dermatology, 2006, 155, 307-312.	1.4	35

#	ARTICLE	IF	CITATIONS
37	Nutritional intake in community patients with pressure ulcers. <i>Journal of Wound Care</i> , 1999, 8, 325-330.	0.5	34
38	Lymphoedema management: An international intersect between developed and developing countries. Similarities, differences and challenges. <i>Global Public Health</i> , 2012, 7, 107-123.	1.0	33
39	An exploration of patients' understanding of leg ulceration. <i>Journal of Wound Care</i> , 2002, 11, 35-39.	0.5	32
40	A preliminary randomized controlled study to determine the application frequency of a new lymphoedema bandaging system. <i>British Journal of Dermatology</i> , 2012, 166, 624-632.	1.4	32
41	The experience of patients with complex wounds and the use of NPWT in a home-care setting. <i>Journal of Wound Care</i> , 2011, 20, 512-527.	0.5	29
42	Prevalence and Risk Factors for Chronic Edema in U.K. Community Nursing Services. <i>Lymphatic Research and Biology</i> , 2019, 17, 147-154.	0.5	29
43	Quality of life issues in chronic wound management. <i>British Journal of Community Nursing</i> , 1999, 4, 283-289.	0.2	28
44	The challenges of managing complex lymphoedema/chronic oedema in the UK and Canada. <i>International Wound Journal</i> , 2012, 9, 54-69.	1.3	28
45	Cellulitis in chronic oedema of the lower leg: an international cross-sectional study. <i>British Journal of Dermatology</i> , 2021, 185, 110-118.	1.4	28
46	Implementation of a leg ulcer strategy. <i>British Journal of Dermatology</i> , 2004, 151, 857-867.	1.4	26
47	LIMPRINT: Health-Related Quality of Life in Adult Patients with Chronic Edema. <i>Lymphatic Research and Biology</i> , 2019, 17, 163-167.	0.5	26
48	Lymphedema Impact and Prevalence International Study: The Canadian Data. <i>Lymphatic Research and Biology</i> , 2019, 17, 178-186.	0.5	26
49	Graduated compression hosiery for venous ulceration. <i>Journal of Wound Care</i> , 1995, 4, 459-462.	0.5	24
50	Randomized trial of two foam dressings in the management of chronic venous ulceration. <i>Wound Repair and Regeneration</i> , 2007, 15, 197-202.	1.5	23
51	Assessing community nurses' level of knowledge of lymphoedema. <i>British Journal of Nursing</i> , 2005, 14, 8-13.	0.3	21
52	The experience of children and families with lymphoedema – a journey within a journey. <i>International Wound Journal</i> , 2010, 7, 14-26.	1.3	18
53	The Development and Validation of the LIMPRINT Methodology. <i>Lymphatic Research and Biology</i> , 2019, 17, 127-134.	0.5	18
54	Palpating Ankle Pulses is Insufficient in Detecting Arterial Insufficiency in Patients with Leg Ulceration. <i>Phlebology</i> , 1994, 9, 170-172.	0.6	17

#	ARTICLE	IF	CITATIONS
55	Issues in the assessment of leg ulceration. <i>Journal of Wound Care</i> , 1998, 7, 469-473.	0.5	17
56	Non healing leg ulcers and the nurseâ€™patient relationship. Part 2: the nurseâ€™s perspective. <i>International Wound Journal</i> , 2008, 5, 332-339.	1.3	17
57	Community-Based Treatment for Chronic Edema: An Effective Service Model. <i>Lymphatic Research and Biology</i> , 2018, 16, 92-99.	0.5	17
58	Leg ulceration in Portugal: quality of life. <i>International Wound Journal</i> , 2008, 5, 34-39.	1.3	16
59	A randomised trial to compare the performance of OxyzymeÂ® and IodozymeÂ® with standard care in the treatment of patients with venous and mixed venous/arterial ulceration. <i>Wound Medicine</i> , 2014, 6, 1-10.	2.7	16
60	LIMPRINT: Estimation of the Prevalence of Lymphoedema/Chronic Oedema in Acute Hospital in In-Patients. <i>Lymphatic Research and Biology</i> , 2019, 17, 135-140.	0.5	16
61	Patient decisionâ€™making and regret in pilonidal sinus surgery: a mixedâ€™methods study. <i>Colorectal Disease</i> , 2021, 23, 1487-1498.	0.7	16
62	Quality of Life in Venous Ulceration: A Randomized Trial of Two Bandage Systems. <i>Phlebology</i> , 1999, 14, 95.	0.6	16
63	Leg Ulceration in Portugal: Prevalence and Clinical History. <i>European Journal of Vascular and Endovascular Surgery</i> , 2005, 29, 549-553.	0.8	15
64	Four-Layer Bandaging: From Concept to Practice. <i>International Journal of Lower Extremity Wounds</i> , 2002, 1, 13-26.	0.6	14
65	Evaluation of the performance of a new compression system in patients with lymphoedema. <i>International Wound Journal</i> , 2013, 10, 203-209.	1.3	14
66	LIMPRINT in Specialist Lymphedema Services in United Kingdom, France, Italy, and Turkey. <i>Lymphatic Research and Biology</i> , 2019, 17, 141-146.	0.5	14
67	Assessing quality of life in patients with chronic leg ulceration using the Medical Outcomes Short Form-36 questionnaire. <i>Ostomy - Wound Management</i> , 2003, 49, 26-37.	0.8	14
68	Randomized Trial of an Occlusive Dressing in the Treatment of Chronic Non-Healing Leg Ulcers. <i>Phlebology</i> , 1992, 7, 105-107.	0.6	13
69	Nonâ€™adherence to treatment of chronic wounds: patient versus professional perspectives. <i>International Wound Journal</i> , 2017, 14, 1305-1312.	1.3	13
70	Quality of life in a trial of short stretch versus four-layer bandaging in the management of chronic venous ulceration. <i>Phlebology</i> , 2004, 19, 87-91.	0.6	12
71	The National Lymphoedema Framework project. <i>British Journal of Community Nursing</i> , 2006, 11, S19-S22.	0.2	11
72	Non healing leg ulcers and the nurseâ€™patient relationship. Part 1: the patientâ€™s perspective. <i>International Wound Journal</i> , 2008, 5, 340-348.	1.3	11

#	ARTICLE	IF	CITATIONS
73	Psychological Factors in Chronic Edema: A Caseâ€“Control Study. <i>Lymphatic Research and Biology</i> , 2017, 15, 252-261.	0.5	11
74	The experience of patients with lymphoedema undergoing a period of compression bandaging in the UK and Canada using the 3Mâ„¢ Cobanâ„¢ 2 compression system. <i>International Wound Journal</i> , 2011, 8, 586-598.	1.3	10
75	Leg ulceration and ethnicity. <i>Public Health</i> , 1997, 111, 327-329.	1.4	9
76	Community nurse education in leg ulcer management. <i>Journal of Wound Care</i> , 1997, 6, 201-203.	0.5	9
77	A Study Using Visual Art Methods to Explore the Perceptions and Barriers of Self-Management in Children and Adolescents with Lymphedema. <i>Lymphatic Research and Biology</i> , 2019, 17, 231-244.	0.5	8
78	A Study to Explore the Professional Conceptualization and Challenges of Self-Management in Children and Adolescents with Lymphedema. <i>Lymphatic Research and Biology</i> , 2019, 17, 221-230.	0.5	8
79	LIMPRINT: The UK Experienceâ€”Subjective Control of Swelling in Patients Attending Specialist Lymphedema Services. <i>Lymphatic Research and Biology</i> , 2019, 17, 211-220.	0.5	8
80	The Prevalence and Functional Impact of Chronic Edema and Lymphedema in Japan: LIMPRINT Study. <i>Lymphatic Research and Biology</i> , 2019, 17, 195-201.	0.5	7
81	A Study to Explore the Parental Impact and Challenges of Self-Management in Children and Adolescents Suffering with Lymphedema. <i>Lymphatic Research and Biology</i> , 2019, 17, 245-252.	0.5	7
82	LIMPRINT: A Sociological Perspective on â€œChronic Edemaâ€. <i>Lymphatic Research and Biology</i> , 2019, 17, 168-172.	0.5	7
83	Illness behavior and social support in patients with chronic venous ulcers. <i>Ostomy - Wound Management</i> , 2004, 50, 25-32.	0.8	7
84	Quality of Life and Costs Within Decongestive Lymphatic Therapy in Patients with Leg Lymphedema: A Multicountry, Open-Label, Prospective Study. <i>Lymphatic Research and Biology</i> , 2021, 19, 423-430.	0.5	6
85	Self-inflicted wounding 1: psychosomatic concepts and physical conditions. <i>British Journal of Community Nursing</i> , 1999, 4, 502-514.	0.2	5
86	Aspirin for Venous Ulcers: Randomised Trial (AVURT): study protocol for a randomised controlled trial. <i>Trials</i> , 2015, 16, 513.	0.7	5
87	Intermittent Pneumatic Compression Devices in the Management of Lymphedema. <i>JAMA Dermatology</i> , 2015, 151, 1181.	2.0	5
88	LIMPRINT Study: The Turkish Experience. <i>Lymphatic Research and Biology</i> , 2019, 17, 202-210.	0.5	5
89	Future research priorities for morbidity control of lymphedema. <i>Indian Journal of Dermatology</i> , 2017, 62, 33.	0.1	5
90	Factors Predicting Limb Volume Reduction Using Compression Bandaging Within Decongestive Lymphatic Therapy in Lymphedema: A Multicountry Prospective Study. <i>Lymphatic Research and Biology</i> , 2021, 19, 412-422.	0.5	5
