

Murat Yilmaz

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3566756/murat-yilmaz-publications-by-citations.pdf>

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
53	An examination of personality traits and how they impact on software development teams. <i>Information and Software Technology</i> , 2017 , 86, 101-122	3.4	46
52	Exploring the Relationship between Software Process Adaptive Capability and Organisational Performance. <i>IEEE Transactions on Software Engineering</i> , 2015 , 41, 1169-1183	3.5	40
51	Effective Social Productivity Measurements during Software Development [An Empirical Study. <i>International Journal of Software Engineering and Knowledge Engineering</i> , 2016 , 26, 457-490	1	20
50	Teaching ISO/IEC 12207 software lifecycle processes: A serious game approach. <i>Computer Standards and Interfaces</i> , 2017 , 54, 129-138	3.5	19
49	An Investigation of Software Development Process Terminology. <i>Communications in Computer and Information Science</i> , 2016 , 351-361	0.3	15
48	A 3D virtual environment for training soccer referees. <i>Computer Standards and Interfaces</i> , 2019 , 64, 1-10	3.5	15
47	A Gamification Approach to Improve the Software Development Process by Exploring the Personality of Software Practitioners. <i>Communications in Computer and Information Science</i> , 2016 , 71-83	0.3	14
46	In search of the origins and enduring impact of Agile software development 2018 ,		14
45	A Systematic Approach to the Comparison of Roles in the Software Development Processes. <i>Communications in Computer and Information Science</i> , 2012 , 198-209	0.3	13
44	A Hierarchy of SPI Activities for Software SMEs: Results from ISO/IEC 12207-Based SPI Assessments. <i>Communications in Computer and Information Science</i> , 2012 , 62-74	0.3	12
43	Towards a Serious Game to Teach ISO/IEC 12207 Software Lifecycle Process: An Interactive Learning Approach. <i>Communications in Computer and Information Science</i> , 2015 , 217-229	0.3	11
42	Refactoring Software Development Process Terminology Through the Use of Ontology. <i>Communications in Computer and Information Science</i> , 2016 , 47-57	0.3	11
41	Software Development Roles. <i>Software Engineering Notes: an Informal Newsletter of the Special Interest Committee on Software Engineering / ACM</i> , 2015 , 40, 1-5	0.4	11
40	Exploring Software Process Variation Arising from Differences in Situational Context. <i>Communications in Computer and Information Science</i> , 2017 , 29-42	0.3	10
39	Overcoming Public Speaking Anxiety of Software Engineers Using Virtual Reality Exposure Therapy. <i>Communications in Computer and Information Science</i> , 2017 , 191-202	0.3	10
38	Improving Software Development Process through Economic Mechanism Design. <i>Communications in Computer and Information Science</i> , 2010 , 177-188	0.3	9
37	An Empirical Investigation into Social Productivity of a Software Process: An Approach by Using the Structural Equation Modeling. <i>Communications in Computer and Information Science</i> , 2011 , 155-166	0.3	9

36	Towards the Understanding and Classification of the Personality Traits of Software Development Practitioners: Situational Context Cards Approach 2012 ,		8
35	A software process engineering approach to improving software team productivity using socioeconomic mechanism design. <i>Software Engineering Notes: an Informal Newsletter of the Special Interest Committee on Software Engineering / ACM</i> , 2011 , 36, 1-5	0.4	7
34	Social Capital as a Determinant Factor of Software Development Productivity. <i>International Journal of Human Capital and Information Technology Professionals</i> , 2012 , 3, 40-62	0.6	7
33	Applying Blockchain to Improve the Integrity of the Software Development Process. <i>Communications in Computer and Information Science</i> , 2019 , 260-271	0.3	7
32	A Systematic Investigation into the Use of Game Elements in the Context of Software Business Landscapes: A Systematic Literature Review. <i>Communications in Computer and Information Science</i> , 2017 , 384-398	0.3	7
31	A serious game for improving the decision making skills and knowledge levels of Turkish football referees according to the laws of the game. <i>SpringerPlus</i> , 2016 , 5, 622		6
30	The Impact of Situational Context on Software Process: A Case Study of a Very Small-Sized Company in the Online Advertising Domain. <i>Communications in Computer and Information Science</i> , 2018 , 28-39	0.3	6
29	Integration of accessibility design patterns with the software implementation process of ISO/IEC 29110. <i>Journal of Software: Evolution and Process</i> , 2019 , 31, e1987	1	6
28	A Market Based Approach for Resolving Resource Constrained Task Allocation Problems in a Software Development Process. <i>Communications in Computer and Information Science</i> , 2012 , 25-36	0.3	6
27	An Exploration of Individual Personality Types in Software Development. <i>Communications in Computer and Information Science</i> , 2014 , 111-122	0.3	5
26	Software Developer's Journey. <i>Communications in Computer and Information Science</i> , 2016 , 203-211	0.3	4
25	Adopting virtual reality as a medium for software development process education 2018 ,		4
24	Examining Reward Mechanisms for Effective Usage of Application Lifecycle Management Tools. <i>Communications in Computer and Information Science</i> , 2017 , 259-268	0.3	4
23	Exploring the Belief Systems of Software Development Professionals. <i>Cybernetics and Systems</i> , 2015 , 46, 528-542	1.9	4
22	A Multivocal Literature Review of Function-as-a-Service (FaaS) Infrastructures and Implications for Software Developers. <i>Communications in Computer and Information Science</i> , 2020 , 58-75	0.3	4
21	A Machine-Based Personality Oriented Team Recommender for Software Development Organizations. <i>Communications in Computer and Information Science</i> , 2015 , 75-86	0.3	4
20	Software Development Overall Efficiency Improvement in a CMMI Level 5 Organization Within the scope of a Case Study 2018 ,		4
19	Towards a Role Playing Game for Exploring the Roles in Scrum to Improve Collaboration Problems. <i>Communications in Computer and Information Science</i> , 2018 , 254-264	0.3	4

18	Assessing Personality Traits in a Large Scale Software Development Company: Exploratory Industrial Case Study. <i>Communications in Computer and Information Science</i> , 2019 , 192-206	0.3	3
17	The Changing Role of the Software Engineer. <i>Communications in Computer and Information Science</i> , 2019 , 682-694	0.3	3
16	Software Testing: A Changing Career. <i>Communications in Computer and Information Science</i> , 2019 , 731-742	0.3	3
15	Designing Games for Improving the Software Development Process. <i>Communications in Computer and Information Science</i> , 2015 , 303-310	0.3	3
14	CENGO: A Web-Based Serious Game to Increase the Programming Knowledge Levels of Computer Engineering Students. <i>Communications in Computer and Information Science</i> , 2019 , 237-248	0.3	2
13	Visualization, Monitoring and Control Techniques for Use in Scrum Software Development: An Analytic Hierarchy Process Approach. <i>Communications in Computer and Information Science</i> , 2020 , 45-57	0.3	2
12	Auction-based serious game for bug tracking. <i>IET Software</i> , 2019 , 13, 386-392	1	2
11	To Work from Home (WFH) or Not to Work from Home? Lessons Learned by Software Engineers During the COVID-19 Pandemic. <i>Communications in Computer and Information Science</i> , 2021 , 14-33	0.3	2
10	Towards a process management life-cycle model for graduation projects in computer engineering. <i>PLoS ONE</i> , 2018 , 13, e0208012	3.7	2
9	Adopting Augmented Reality for the Purpose of Software Development Process Training and Improvement: An Exploration. <i>Communications in Computer and Information Science</i> , 2018 , 195-206	0.3	1
8	Maximizing the value of the software development process by game theoretic analysis 2010 ,		1
7	Gamifying the Onboarding Process for Novice Software Practitioners. <i>Communications in Computer and Information Science</i> , 2016 , 242-248	0.3	1
6	PlaySAFe: Results from a Virtual Reality Study Using Digital Game-Based Learning for SAFe Agile Software Development. <i>Communications in Computer and Information Science</i> , 2021 , 695-707	0.3	1
5	Understanding personality differences in software organisations using Keirseley temperament sorter. <i>IET Software</i> , 2015 , 9, 129-134	1	0
4	Managing the social aspects of software development ecosystems: An industrial case study on personality. <i>Journal of Software: Evolution and Process</i> , 2020 , 32, e2277	1	0
3	Agile Software Development [Do We Really Calculate the Costs? A Multivocal Literature Review. <i>Communications in Computer and Information Science</i> , 2020 , 203-219	0.3	0
2	Assessing Application Lifecycle Management (ALM) Potentials from an Industrial Perspective. <i>Communications in Computer and Information Science</i> , 2020 , 326-338	0.3	0
1	Coding vs presenting: a multicultural study on emotions. <i>Information Technology and People</i> , 2020 , 33, 1575-1599	3.4
