

Claus Vinther Nielsen

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3576819/claus-vinther-nielsen-publications-by-citations.pdf>
Version: 2024-03-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

42 papers	341 citations	10 h-index	16 g-index
47 ext. papers	454 ext. citations	2.7 avg, IF	3.79 L-index

#	Paper	IF	Citations
42	Type 1 Modic changes was a significant risk factor for 1-year outcome in sick-listed low back pain patients: a nested cohort study using magnetic resonance imaging of the lumbar spine. <i>Spine Journal</i> , 2014 , 14, 2568-81	4	50
41	The patient education - Learning and Coping Strategies - improves adherence in cardiac rehabilitation (LC-REHAB): A randomised controlled trial. <i>International Journal of Cardiology</i> , 2017 , 236, 65-70	3.2	37
40	Effect of Inpatient Multicomponent Occupational Rehabilitation Versus Less Comprehensive Outpatient Rehabilitation on Sickness Absence in Persons with Musculoskeletal- or Mental Health Disorders: A Randomized Clinical Trial. <i>Journal of Occupational Rehabilitation</i> , 2018 , 28, 170-179	3.6	29
39	Preoperative cognitive-behavioural intervention improves in-hospital mobilisation and analgesic use for lumbar spinal fusion patients. <i>BMC Musculoskeletal Disorders</i> , 2016 , 17, 217	2.8	28
38	What are the short-term and long-term effects of occupation-focused and occupation-based occupational therapy in the home on older adults' occupational performance? A systematic review. <i>Scandinavian Journal of Occupational Therapy</i> , 2017 , 24, 235-248	2.1	21
37	Work Participation Among Employees with Common Mental Disorders: A Meta-synthesis. <i>Journal of Occupational Rehabilitation</i> , 2018 , 28, 452-464	3.6	17
36	A web-based platform to accommodate symptoms of anxiety and depression by featuring social interaction and animated information in patients undergoing lumbar spine fusion: a randomized clinical trial. <i>Spine Journal</i> , 2019 , 19, 827-839	4	15
35	Back pain was less explained than leg pain: a cross-sectional study using magnetic resonance imaging in low back pain patients with and without radiculopathy. <i>BMC Musculoskeletal Disorders</i> , 2015 , 16, 374	2.8	11
34	Multiple somatic symptoms in employees participating in a randomized controlled trial associated with sickness absence because of nonspecific low back pain. <i>Spine Journal</i> , 2014 , 14, 2868-76	4	11
33	Intensive client-centred occupational therapy in the home improves older adults' occupational performance. Results from a Danish randomized controlled trial. <i>Scandinavian Journal of Occupational Therapy</i> , 2019 , 26, 325-342	2.1	11
32	Sequence analysis to assess labour market participation following vocational rehabilitation: an observational study among patients sick-listed with low back pain from a randomised clinical trial in Denmark. <i>BMJ Open</i> , 2017 , 7, e015661	3	8
31	Do Patient-Reported Outcome Measures describe functioning in patients with low back pain, using the Brief International Classification of Functioning, Disability and Health Core Set as a reference?. <i>Journal of Rehabilitation Medicine</i> , 2016 , 48, 618-24	3.4	8
30	Effects of a randomized controlled intervention trial on return to work and health care utilization after long-term sickness absence. <i>BMC Public Health</i> , 2016 , 16, 1149	4.1	8
29	Managing employees' depression from the employees', co-workers' and employers' perspectives. An integrative review. <i>Disability and Rehabilitation</i> , 2020 , 42, 445-459	2.4	8
28	Being active after hip fracture; older people's lived experiences of facilitators and barriers. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2018 , 13, 1554024	2	8
27	Medication adherence, biological and lifestyle risk factors in patients with myocardial infarction: a ten-year follow-up on socially differentiated cardiac rehabilitation. <i>Scandinavian Journal of Primary Health Care</i> , 2019 , 37, 182-190	2.7	7
26	Effect of the patient education - Learning and Coping strategies - in cardiac rehabilitation on return to work at one year: a randomised controlled trial show (LC-REHAB). <i>BMC Cardiovascular Disorders</i> , 2018 , 18, 101	2.3	7

25	Labour market participation and sick leave among patients diagnosed with myasthenia gravis in Denmark 1997-2011: a Danish nationwide cohort study. <i>BMC Neurology</i> , 2016 , 16, 224	3.1	6
24	Lumbar Spine Fusion Patients' Use of an Internet Support Group: Mixed Methods Study. <i>Journal of Medical Internet Research</i> , 2019 , 21, e9805	7.6	6
23	Expanded cardiac rehabilitation in socially vulnerable patients with myocardial infarction: a 10-year follow-up study focusing on mortality and non-fatal events. <i>BMJ Open</i> , 2018 , 8, e019307	3	5
22	"Keep it simple": Perspectives of patients with low back pain on how to qualify a patient-centred consultation using patient-reported outcomes. <i>Musculoskeletal Care</i> , 2019 , 17, 313-326	1.6	5
21	Being active when living within a large body: experiences during lifestyle intervention. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2020 , 15, 1736769	2	4
20	Does adding case management to standard rehabilitation affect functional ability, pain, or the rate of return to work after lumbar spinal fusion? A randomized controlled trial with two-year follow-up. <i>Clinical Rehabilitation</i> , 2020 , 34, 357-368	3.3	4
19	Comparing multidisciplinary and brief intervention in employees with different job relations on sick leave due to low back pain: protocol of a randomised controlled trial. <i>BMC Public Health</i> , 2017 , 17, 959	4.1	3
18	Balancing one's mood: experiences of physical activity in adults with severe obesity 18 months after lifestyle intervention. <i>Zeitschrift Fur Evidenz, Fortbildung Und Qualitat Im Gesundheitswesen</i> , 2020 , 153-154, 23-31	1.4	3
17	Being active 10 years after hip fracture: a qualitative interview study of aged adults' experiences of meaningfulness. <i>BMC Geriatrics</i> , 2020 , 20, 263	4.1	3
16	eHealth interventions to facilitate work participation: a scoping review protocol. <i>JBIR Database of Systematic Reviews and Implementation Reports</i> , 2019 , 17, 1026-1033	1.6	3
15	Does socially differentiated cardiac rehabilitation affect the use of healthcare services after myocardial infarction? A 10-year follow-up study. <i>BMJ Open</i> , 2019 , 9, e030807	3	2
14	Municipal return to work management in cancer survivors: a controlled intervention study. <i>Acta Oncologica</i> , 2021 , 60, 370-378	3.2	2
13	Diabetes prevention interventions for women after gestational diabetes mellitus: an overview of reviews. <i>Endocrinology, Diabetes and Metabolism</i> , 2021 , 4, e00230	2.7	2
12	Systematic review of interventions targeting sickness absence among pregnant women in healthcare settings and workplaces. <i>BMJ Open</i> , 2018 , 8, e024032	3	2
11	Older adults' experiences and expectations after discharge from home-based occupational therapy. <i>British Journal of Occupational Therapy</i> , 2018 , 81, 450-459	1	1
10	Diffuse central sensitization in low back patients: A secondary analysis of cross-sectional data including tender point examination and magnetic resonance imaging of the lumbar spine. <i>Medicine (United States)</i> , 2020 , 99, e22198	1.8	1
9	Being with others during physical activity: experiences of well-being among adults with severe obesity. <i>Physiotherapy Theory and Practice</i> , 2020 , 1-13	1.5	1
8	Assessment of functioning and disability in patients with low back pain - the low back pain assessment tool. Part 1: development. <i>Disability and Rehabilitation</i> , 2021 , 1-12	2.4	1

- 7 Assessment of functioning and disability in patients with low back pain - the low back pain assessment tool. Part 2: field-testing. *Disability and Rehabilitation*, **2021**, 1-9 2.4 1
- 6 eHealth interventions to facilitate work participation: a scoping review. *JB I Evidence Synthesis*, **2021**, 19, 2739-2759 2.1 1
- 5 Differences in work participation between incident colon and rectal cancer patients-a 10-year follow-up study with matched controls. *Journal of Cancer Survivorship*, **2021**, 1 5.1 0
- 4 A Mental Health Profile of 900 Newly Arrived Refugees in Denmark Using ICD-10 Diagnoses. *Sustainability*, **2022**, 14, 418 3.6 0
- 3 Case manager-assisted rehabilitation for lumbar spinal fusion patients: an economic evaluation alongside a randomized controlled trial with two-year follow-up. *Clinical Rehabilitation*, **2020**, 34, 460-470³
- 2 0144 Sick leave patterns as predictors of disability pension or long-term sick leave: A 6.75-year follow-up study in municipal eldercare workers. *Occupational and Environmental Medicine*, **2014**, 71, A78.1¹-A78
- 1 Enduring life in between a sense of renewal and loss of courage: lifeworld perspectives one year after hip fracture. *International Journal of Qualitative Studies on Health and Well-being*, **2021**, 16, 1934996²
