#	ARTICLE	IF	CITATIONS
1	Performing One-Session Cognitive Stimulation to Interact with Patients with Dementia in a Hospital for Mood Improvement: A Retrospective Single-Arm Cohort Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 1431.	2.6	1
2	Positive-word stimuli via a smartphone application have no immediate-term effects on multi-directional reach ability in standing position: a randomized controlled trial. <i>Annals of Medicine</i> , 2021, 53, 1402-1409.	3.8	1
3	Effects of video viewing smartphone application intervention involving positive word stimulation in people with subthreshold depression: A pilot randomized controlled trial. <i>Journal of Affective Disorders</i> , 2021, 282, 74-81.	4.1	19
4	Effects of Smartphone-Delivered Positive-Word Stimulation on Depressed Mood in People with Subthreshold Depression: Protocol for a Pilot Randomized Controlled Trial. <i>Neuropsychiatric Disease and Treatment</i> , 2021, Volume 17, 2739-2748.	2.2	1
5	Preventing the Onset of Major Depressive Disorder. <i>Kitakanto Medical Journal</i> , 2021, 71, 313-314.	0.0	0
6	An iPad application-based intervention for improving post-stroke depression symptoms in a convalescent rehabilitation ward: A pilot randomized controlled clinical trial protocol. <i>Internet Interventions</i> , 2020, 21, 100340.	2.7	6
7	Prefrontal cortex hypoactivity distinguishes severe from mild-to-moderate social anxiety as revealed by a palm-sized near-infrared spectroscopy system. <i>Journal of Neural Transmission</i> , 2020, 127, 1305-1313.	2.8	5
8	Study protocol for a pilot randomized controlled trial on a smartphone application-based intervention for subthreshold depression. <i>Medicine (United States)</i> , 2020, 99, e18934.	1.0	5
9	The effect on subjective quality of life of occupational therapy based on adjusting the challengeâ€“skill balance: a randomized controlled trial. <i>Clinical Rehabilitation</i> , 2019, 33, 1732-1746.	2.2	9
10	Effect of Adjusting the Challenge-Skill Balance for Occupational Therapy in a Recovery Rehabilitation Unit: A Pilot Study. <i>Asian Journal of Occupational Therapy</i> , 2019, 15, 11-18.	0.2	1
11	Identification of common words to improve self-confidence in Japanese students with subthreshold depression. <i>International Journal of Adolescent Medicine and Health</i> , 2019, 31, .	1.3	6
12	Feasibility and preliminary efficacy of a smartphone application intervention for subthreshold depression. <i>Microbial Biotechnology</i> , 2019, 13, 133-136.	1.7	20
13	Measurement error in the Liebowitz Social Anxiety Scale: results from a general adult population in Japan. <i>International Journal of Psychiatry in Clinical Practice</i> , 2018, 22, 289-295.	2.4	5
14	Effect of adjusting the challengeâ€“skill balance for occupational therapy: study protocol for a randomised controlled trial. <i>BMJ Open</i> , 2018, 8, e022438.	1.9	3
15	Low sense of coherence is associated with anxiety among adults: Results based on data from all 47 prefectures of Japan. <i>Comprehensive Psychiatry</i> , 2018, 86, 131-136.	3.1	9
16	Adjusting Challengeâ€“Skill Balance to Improve Quality of Life in Older Adults: A Randomized Controlled Trial. <i>American Journal of Occupational Therapy</i> , 2018, 72, 7201205030p1-7201205030p8.	0.3	9
17	Comparison of Hemodynamic Responses in the Prefrontal Cortex According to Differences in Self-Efficacy. <i>Biological Research for Nursing</i> , 2017, 19, 450-455.	1.9	3
18	Immediate effect of subliminal priming with positive reward stimuli on standing balance in healthy individuals. <i>Medicine (United States)</i> , 2017, 96, e7494.	1.0	7

#	ARTICLE	IF	CITATIONS
19	Smallest detectable change and test-retest reliability of a self-reported outcome measure: Results of the Center for Epidemiologic Studies Depression Scale, General Self-Efficacy Scale, and 12-item General Health Questionnaire. <i>Journal of Evaluation in Clinical Practice</i> , 2017, 23, 1348-1354.	1.8	23
20	Associations of Schizotypal Personality and Paranoid Ideation With the Degree of Flow Experience in Daily Life. <i>Archives of Neuroscience</i> , 2016, 3, .	0.3	1
21	Difference in mental state between Internet-addicted and non-addicted Japanese undergraduates. <i>International Journal of Adolescent Medicine and Health</i> , 2015, 27, 307-310.	1.3	11
22	Comparison of feelings of inferiority among university students with autotelic, average, and nonautotelic. <i>North American Journal of Medical Sciences</i> , 2014, 6, 440.	1.7	10
23	Prefrontal hemodynamic responses and the degree of flow experience among occupational therapy students during their performance of a cognitive task. <i>Journal of Educational Evaluation for Health Professions</i> , 2014, 11, 24.	12.6	7
24	Two-channel Near-infrared Spectroscopic Analysis of Association of Paranoia Symptoms with Prefrontal Activation. <i>Clinical Psychopharmacology and Neuroscience</i> , 2014, 12, 218-221.	2.0	1
25	Changes in flow experience among occupational therapy students: a 1-year longitudinal study. <i>Journal of Educational Evaluation for Health Professions</i> , 2014, 11, 14.	12.6	1
26	Health-Related Quality of Life and Sense of Coherence among the Unemployed with Autotelic, Average, and Non-Autotelic Personalities: A Cross-Sectional Survey in Hiroshima, Japan. <i>PLoS ONE</i> , 2013, 8, e73915.	2.5	10
27	The relationship between self-disgust, guilt, and flow experience among Japanese undergraduates. <i>Neuropsychiatric Disease and Treatment</i> , 2013, 9, 985.	2.2	10
28	Association of cognitive judgment and shyness with frequency and quality of flow experience. <i>Psychology Research and Behavior Management</i> , 2012, 5, 159.	2.8	7
29	Flow experience and health-related quality of life in community dwelling elderly Japanese. <i>Australian Journal of Cancer Nursing</i> , 2012, 14, 52-57.	1.6	29
