

Russell C Dale

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3590314/russell-c-dale-publications-by-year.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
62	Emerging evidence of Toll-like receptors as a putative pathway linking maternal inflammation and neurodevelopmental disorders in human offspring: A systematic review. <i>Brain, Behavior, and Immunity</i> , 2022 , 99, 91-105	16.6	2
61	Development of a translational inflammation panel for the quantification of cerebrospinal fluid Pterin, Tryptophan-Kynurenine and Nitric oxide pathway metabolites.. <i>EBioMedicine</i> , 2022 , 77, 103917	8.8	3
60	Rapid onset functional tic-like behaviours in children and adolescents during COVID-19: Clinical features, assessment and biopsychosocial treatment approach.. <i>Journal of Paediatrics and Child Health</i> , 2022 ,	1.3	2
59	Acute encephalopathy with biphasic seizures and restricted diffusion.. <i>Journal of Paediatrics and Child Health</i> , 2022 ,	1.3	
58	Autosomal dominant ADAR c.3019G>A (p.(G1007R)) variant is an important mimic of hereditary spastic paraplegia and cerebral palsy. <i>Brain and Development</i> , 2021 ,	2.2	0
57	Association of Maternal Autoimmune Disease With Attention-Deficit/Hyperactivity Disorder in Children. <i>JAMA Pediatrics</i> , 2021 , 175, e205487	8.3	14
56	Maternal autoimmunity and inflammation are associated with childhood tics and obsessive-compulsive disorder: Transcriptomic data show common enriched innate immune pathways. <i>Brain, Behavior, and Immunity</i> , 2021 , 94, 308-317	16.6	11
55	Opsoclonus-myoclonus in Aicardi-Goutières syndrome. <i>Developmental Medicine and Child Neurology</i> , 2021 , 63, 1483-1486	3.3	0
54	Overlapping central and peripheral nervous system syndromes in MOG antibody-associated disorders. <i>Neurology: Neuroimmunology and NeuroInflammation</i> , 2021 , 8,	9.1	24
53	Cerebrospinal fluid metabolites in tryptophan-kynurenine and nitric oxide pathways: biomarkers for acute neuroinflammation. <i>Developmental Medicine and Child Neurology</i> , 2021 , 63, 552-559	3.3	8
52	Psychiatric comorbidity is common in dystonia and other movement disorders. <i>Archives of Disease in Childhood</i> , 2021 , 106, 62-67	2.2	3
51	Maternal immune activation and neuroinflammation in human neurodevelopmental disorders. <i>Nature Reviews Neurology</i> , 2021 , 17, 564-579	15	30
50	Rapid Onset Functional Tic-Like Behaviors in Young Females During the COVID-19 Pandemic. <i>Movement Disorders</i> , 2021 ,	7	19
49	Cerebrospinal fluid neopterin as a biomarker of treatment response to Janus kinase inhibition in Aicardi-Goutières syndrome. <i>Developmental Medicine and Child Neurology</i> , 2021 ,	3.3	2
48	Cerebrospinal fluid free light chain quantitation is a specific biomarker for inflammatory neurological disorders in a paediatric patient cohort. <i>Pathology</i> , 2021 , 53, 753-758	1.6	
47	Cerebrospinal fluid metabolomics: detection of neuroinflammation in human central nervous system disease. <i>Clinical and Translational Immunology</i> , 2021 , 10, e1318	6.8	9
46	Maternal acute and chronic inflammation in pregnancy is associated with common neurodevelopmental disorders: a systematic review. <i>Translational Psychiatry</i> , 2021 , 11, 71	8.6	38

45	Maternal immune-related conditions during pregnancy may be a risk factor for neuropsychiatric problems in offspring throughout childhood and adolescence. <i>Psychological Medicine</i> , 2020 , 1-11	6.9	3
44	Acute symptomatic seizures secondary to autoimmune encephalitis and autoimmune-associated epilepsy: Conceptual definitions. <i>Epilepsia</i> , 2020 , 61, 1341-1351	6.4	55
43	Effects of the Positive Threshold and Data Analysis on Human MOG Antibody Detection by Live Flow Cytometry. <i>Frontiers in Immunology</i> , 2020 , 11, 119	8.4	5
42	Clinical approach to the diagnosis of autoimmune encephalitis in the pediatric patient. <i>Neurology: Neuroimmunology and NeuroInflammation</i> , 2020 , 7,	9.1	74
41	Maternal immune conditions are increased in males with autism spectrum disorders and are associated with behavioural and emotional but not cognitive co-morbidity. <i>Translational Psychiatry</i> , 2020 , 10, 286	8.6	16
40	Characterization of the human myelin oligodendrocyte glycoprotein antibody response in demyelination. <i>Acta Neuropathologica Communications</i> , 2019 , 7, 145	7.3	38
39	Maternal thyroid autoimmunity associated with acute-onset neuropsychiatric disorders and global regression in offspring. <i>Developmental Medicine and Child Neurology</i> , 2019 , 61, 984-988	3.3	6
38	Therapeutic plasma exchange in paediatric neuroimmunology: some evidence but more is needed. <i>Developmental Medicine and Child Neurology</i> , 2019 , 61, 504-505	3.3	1
37	Etiology is the key determinant of neuroinflammation in epilepsy: Elevation of cerebrospinal fluid cytokines and chemokines in febrile infection-related epilepsy syndrome and febrile status epilepticus. <i>Epilepsia</i> , 2019 , 60, 1678-1688	6.4	33
36	Mycophenolate mofetil in paediatric autoimmune or immune-mediated diseases of the central nervous system: clinical experience and recommendations. <i>Developmental Medicine and Child Neurology</i> , 2019 , 61, 458-468	3.3	9
35	Isolated seizures during the first episode of relapsing myelin oligodendrocyte glycoprotein antibody-associated demyelination in children. <i>Developmental Medicine and Child Neurology</i> , 2019 , 61, 610-614	3.3	33
34	Magnetic resonance imaging in enterovirus-71, myelin oligodendrocyte glycoprotein antibody, aquaporin-4 antibody, and multiple sclerosis-associated myelitis in children. <i>Developmental Medicine and Child Neurology</i> , 2019 , 61, 1108-1116	3.3	13
33	Mycophenolate mofetil, azathioprine and methotrexate usage in paediatric anti-NMDAR encephalitis: A systematic literature review. <i>European Journal of Paediatric Neurology</i> , 2019 , 23, 7-18	3.8	14
32	An open-label trial of JAK 1/2 blockade in progressive -associated neuroinflammation. <i>Neurology</i> , 2018 , 90, 289-291	6.5	41
31	Principles and approaches to the treatment of immune-mediated movement disorders. <i>European Journal of Paediatric Neurology</i> , 2018 , 22, 292-300	3.8	20
30	Seizure outcome after corpus callosotomy in a large paediatric series. <i>Developmental Medicine and Child Neurology</i> , 2018 , 60, 199-206	3.3	14
29	Glutamate receptor α serum antibodies in pediatric opsoclonus myoclonus ataxia syndrome. <i>Neurology</i> , 2018 , 91, e714-e723	6.5	33
28	Clinical course, therapeutic responses and outcomes in relapsing MOG antibody-associated demyelination. <i>Journal of Neurology, Neurosurgery and Psychiatry</i> , 2018 , 89, 127-137	5.5	274

27	The Immune System, Cytokines, and Biomarkers in Autism Spectrum Disorder. <i>Neuroscience Bulletin</i> , 2017 , 33, 194-204	4.3	118
26	Genetic, Phenotypic, and Interferon Biomarker Status in ADAR1-Related Neurological Disease. <i>Neuropediatrics</i> , 2017 , 48, 166-184	1.6	35
25	Cerebrospinal fluid cyto-/chemokine profile during acute herpes simplex virus induced anti-N-methyl-d-aspartate receptor encephalitis and in chronic neurological sequelae. <i>Developmental Medicine and Child Neurology</i> , 2017 , 59, 806-814	3.3	17
24	Autoimmune encephalitis in children: clinical phenomenology, therapeutics, and emerging challenges. <i>Current Opinion in Neurology</i> , 2017 , 30, 334-344	7.1	66
23	High sensitivity and specificity in proposed clinical diagnostic criteria for anti-N-methyl-D-aspartate receptor encephalitis. <i>Developmental Medicine and Child Neurology</i> , 2017 , 59, 1256-1260	3.3	31
22	Immunotherapeutics in Pediatric Autoimmune Central Nervous System Disease: Agents and Mechanisms. <i>Seminars in Pediatric Neurology</i> , 2017 , 24, 214-228	2.9	5
21	CSF cytokines/chemokines as biomarkers in neuroinflammatory CNS disorders: A systematic review. <i>Cytokine</i> , 2016 , 77, 227-37	4	153
20	Symptomatic treatment of children with anti-NMDAR encephalitis. <i>Developmental Medicine and Child Neurology</i> , 2016 , 58, 376-84	3.3	48
19	Clinical Characteristics and Functional Motor Outcomes of Enterovirus 71 Neurological Disease in Children. <i>JAMA Neurology</i> , 2016 , 73, 300-7	17.2	80
18	A clinical approach to diagnosis of autoimmune encephalitis. <i>Lancet Neurology</i> , 2016 , 15, 391-404	24.1	1774
17	Anti-MOG antibody: The history, clinical phenotype, and pathogenicity of a serum biomarker for demyelination. <i>Autoimmunity Reviews</i> , 2016 , 15, 307-24	13.6	177
16	Utility of CSF Cytokine/Chemokines as Markers of Active Intrathecal Inflammation: Comparison of Demyelinating, Anti-NMDAR and Enteroviral Encephalitis. <i>PLoS ONE</i> , 2016 , 11, e0161656	3.7	66
15	Intravenous immunoglobulin in paediatric neurology: safety, adherence to guidelines, and long-term outcome. <i>Developmental Medicine and Child Neurology</i> , 2016 , 58, 1180-1192	3.3	24
14	Postencephalitic epilepsy and drug-resistant epilepsy after infectious and antibody-associated encephalitis in childhood: Clinical and etiologic risk factors. <i>Epilepsia</i> , 2016 , 57, e7-e11	6.4	30
13	Infectious and autoantibody-associated encephalitis: clinical features and long-term outcome. <i>Pediatrics</i> , 2015 , 135, e974-84	7.4	99
12	Immune therapy in autoimmune encephalitis: a systematic review. <i>Expert Review of Neurotherapeutics</i> , 2015 , 15, 1391-419	4.3	119
11	Autoimmune Movement Disorders in Children: Clinical Characteristics and Therapeutic Considerations. <i>Journal of Pediatric Neurology</i> , 2015 , 13, 144-154	0.2	
10	Characterization of human disease phenotypes associated with mutations in TREX1, RNASEH2A, RNASEH2B, RNASEH2C, SAMHD1, ADAR, and IFIH1. <i>American Journal of Medical Genetics, Part A</i> , 2015 , 167A, 296-312	2.5	321

9	Utility and safety of rituximab in pediatric autoimmune and inflammatory CNS disease. <i>Neurology</i> , 2014 , 83, 142-50	6.5	218
8	Antibodies to MOG have a demyelination phenotype and affect oligodendrocyte cytoskeleton. <i>Neurology: Neuroimmunology and NeuroInflammation</i> , 2014 , 1, e12	9.1	109
7	Antibodies to myelin oligodendrocyte glycoprotein in bilateral and recurrent optic neuritis. <i>Neurology: Neuroimmunology and NeuroInflammation</i> , 2014 , 1, e40	9.1	157
6	International Pediatric Multiple Sclerosis Study Group criteria for pediatric multiple sclerosis and immune-mediated central nervous system demyelinating disorders: revisions to the 2007 definitions. <i>Multiple Sclerosis Journal</i> , 2013 , 19, 1261-7	5	646
5	Autoimmune epilepsy in children: case series and proposed guidelines for identification. <i>Epilepsia</i> , 2013 , 54, 1036-45	6.4	58
4	Autoantibody-associated movement disorders. <i>Neuropediatrics</i> , 2013 , 44, 336-45	1.6	26
3	Cerebrospinal fluid B-cell expansion in longitudinally extensive transverse myelitis associated with neuromyelitis optica immunoglobulin G. <i>Developmental Medicine and Child Neurology</i> , 2011 , 53, 856-860	3.3	8
2	Antibodies to native myelin oligodendrocyte glycoprotein in children with inflammatory demyelinating central nervous system disease. <i>Annals of Neurology</i> , 2009 , 66, 833-42	9.4	218
1	Cerebrospinal fluid neopterin in paediatric neurology: a marker of active central nervous system inflammation. <i>Developmental Medicine and Child Neurology</i> , 2009 , 51, 317-23	3.3	67
