#	ARTICLE	IF	CITATIONS
1	The effect of high-dose intramuscular epinephrine on the recovery of spontaneous circulation in an asphyxia-induced cardiac arrest rat model. BMC Cardiovascular Disorders, 2021, 21, 113.	1.7	3
2	Emergency Department Triage Early Warning Score (TREWS) predicts in-hospital mortality in the emergency department. American Journal of Emergency Medicine, 2020, 38, 203-210.	1.6	26
3	Effects of emergency department boarding on mortality in patients with ST-segment elevation myocardial infarction. American Journal of Emergency Medicine, 2020, 38, 1141-1145.	1.6	1
4	The ratio of N-terminal pro-B-type natriuretic peptide to troponin I for differentiating acute coronary syndrome. American Journal of Emergency Medicine, 2019, 37, 1013-1019.	1.6	2
5	Performance of the combined models of Pediatric Risk of Admission scores I and II, and C-reactive protein for prediction of hospitalization in febrile children who visited the emergency department. Pediatric Emergency Medicine Journal, 2019, 6, 69-76.	0.5	0
6	Predictor of Isolated Trauma in Head: A New Simple Predictor for Survival of Isolated Traumatic Brain Injury. Journal of Emergency Medicine, 2018, 54, 427-434.	0.7	8
7	The impact of the improvement in internal medicine consultation process on ED length of stay. American Journal of Emergency Medicine, 2018, 36, 620-624.	1.6	9
8	Therapeutic effect of ascorbic acid on dapsone-induced methemoglobinemia in rats. Clinical and Experimental Emergency Medicine, 2018, 5, 192-198.	1.6	10
9	Harmful effects of early hyperoxaemia in patients admitted to general wards: an observational cohort study in South Korea. BMJ Open, 2018, 8, e021758.	1.9	5
10	Impact of early hyperoxia on 28-day in-hospital mortality in patients with myocardial injury. PLoS ONE, 2018, 13, e0201286.	2.5	8
11	Serum lactate upon emergency department arrival as a predictor of 30-day in-hospital mortality in an unselected population. PLoS ONE, 2018, 13, e0190519.	2.5	36
12	Factors predicting the early mortality of trauma patients. Ulusal Travma Ve Acil Cerrahi Dergisi, 2018, 24, 532-538.	0.3	7
13	The Revised Trauma Score plus serum albumin level improves the prediction of mortality in trauma patients. American Journal of Emergency Medicine, 2017, 35, 1882-1886.	1.6	10
14	Pneumoperitoneum by Inguinal Laceration after Traffic Accident. Journal of Emergency Medicine, 2017, 53, e37-e39.	0.7	0
15	The new trauma score (NTS): a modification of the revised trauma score for better trauma mortality prediction. BMC Surgery, 2017, 17, 77.	1.3	52
16	Non-aneurysmal and non-traumatic subarachnoid hemorrhage after attempted suicide by incomplete hanging. Clinical and Experimental Emergency Medicine, 2017, 4, 56-59.	1.6	5
17	CLIF-SOFA score and SIRS are independent prognostic factors in patients with hepatic encephalopathy due to alcoholic liver cirrhosis. Medicine (United States), 2016, 95, e3935.	1.0	19
18	The suprasternal notch as a landmark of chest compression depth in CPR. American Journal of Emergency Medicine, 2016, 34, 433-436.	1.6	1

#	ARTICLE	IF	CITATIONS
19	Effect of multifaceted interventions on reducing return visits within 72h after non-traumatic emergency department visits. EMA - Emergency Medicine Australasia, 2015, 27, 431-439.	1.1	6
20	The Comparison of Accidental Poisonings Between Pharmaceuticals and Nonpharmaceuticals in Children Younger than 3 Years. Pediatric Emergency Care, 2015, 31, 825-829.	0.9	2
21	Perception of radiation dose and potential risks of computed tomography in emergency department medical personnel. Clinical and Experimental Emergency Medicine, 2015, 2, 123-129.	1.6	4
22	The effects of intravenous lipid emulsion on prolongation of survival in a rat model of calcium channel blocker toxicity. Clinical Toxicology, 2015, 53, 540-544.	1.9	8
23	Implementation of clinical practices to reduce return visits within 72h to a paediatric emergency department. Emergency Medicine Journal, 2015, 32, 426-432.	1.0	13
24	The uniform chest compression depth of 50 mm or greater recommended by current guidelines is not appropriate for all adults. American Journal of Emergency Medicine, 2015, 33, 1037-1041.	1.6	18
25	Changes in arterial blood gases after use of high-flow nasal cannula therapy in the ED. American Journal of Emergency Medicine, 2015, 33, 1344-1349.	1.6	41
26	Simultaneous event of brachial artery occlusion and acute embolic stroke. American Journal of Emergency Medicine, 2015, 33, 477.e3-477.e4.	1.6	5
27	Change in guardians' preference for computed tomography after explanation by emergency physicians in pediatric head injury. Clinical and Experimental Emergency Medicine, 2015, 2, 226-235.	1.6	4
28	Red cell distribution width as a predictor of mortality in organophosphate insecticide poisoning. American Journal of Emergency Medicine, 2014, 32, 743-746.	1.6	21
29	Does the quality of chest compressions deteriorate when the chest compression rate is above 120/min?. Emergency Medicine Journal, 2014, 31, 645-648.	1.0	12
30	The possibility of application of spiral brain computed tomography to traumatic brain injury. American Journal of Emergency Medicine, 2014, 32, 1051-1054.	1.6	3
31	Awareness and knowledge of sepsis in the general Korean population: comparison with the awareness and knowledge of acute myocardial infarction and stroke. Clinical and Experimental Emergency Medicine, 2014, 1, 41-48.	1.6	13
32	A risk stratification model of acute pyelonephritis to indicate hospital admission from the ED. American Journal of Emergency Medicine, 2013, 31, 1067-1072.	1.6	13
33	Low apparent diffusion coefficient cluster-based analysis of diffusion-weighted MRI for prognostication of out-of-hospital cardiac arrest survivors. Resuscitation, 2013, 84, 1393-1399.	3.0	33
34	Effect of valproic acid on survival and neurologic outcomes in an asphyxial cardiac arrest model of rats. Resuscitation, 2013, 84, 1443-1449.	3.0	13
35	Absolute Lymphocyte Count as a Predictor of Mortality in Emergency Department Patients with Paraquat Poisoning. PLoS ONE, 2013, 8, e78160.	2.5	29
