|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 1 | Encouraging the scale-up of proven interventions: Infrastructure development for the "Evidence-to-Implementation" award. <i>Journal of Clinical and Translational Science</i> , 2021, 5, e160.                                                                                | 0.6  | 0         |
| 2 | The Balanced Opioid Initiative: protocol for a clustered, sequential, multiple-assignment randomized trial to construct an adaptive implementation strategy to improve guideline-concordant opioid prescribing in primary care. <i>Implementation Science</i> , 2020, 15, 26. | 6.9  | 11        |
| 3 | Implementing a Mobile Health System to Integrate the Treatment of Addiction Into Primary Care: A Hybrid Implementation-Effectiveness Study. <i>Journal of Medical Internet Research</i> , 2018, 20, e37.                                                                      | 4.3  | 71        |
| 4 | Reducing Symptom Distress in Patients With Advanced Cancer Using an e-Alert System for Caregivers: Pooled Analysis of Two Randomized Clinical Trials. <i>Journal of Medical Internet Research</i> , 2017, 19, e354.                                                           | 4.3  | 26        |
| 5 | Using the NIATx Model to Implement User-Centered Design of Technology for Older Adults. <i>JMIR Human Factors</i> , 2016, 3, e2.                                                                                                                                              | 2.0  | 14        |
| 6 | The effect of an information and communication technology (ICT) on older adults' quality of life: study protocol for a randomized control trial. <i>Trials</i> , 2015, 16, 191.                                                                                               | 1.6  | 44        |
| 7 | A Smartphone Application to Support Recovery From Alcoholism. <i>JAMA Psychiatry</i> , 2014, 71, 566.                                                                                                                                                                         | 11.0 | 585       |
| 8 | Integrating addiction treatment into primary care using mobile health technology: protocol for an implementation research study. <i>Implementation Science</i> , 2014, 9, 65.                                                                                                 | 6.9  | 38        |
| 9 | An eHealth system supporting palliative care for patients with non-small cell lung cancer. <i>Cancer</i> , 2013, 119, 1744-1751.                                                                                                                                              | 4.1  | 85        |
