#	Paper	IF	Citations
27	Association between resilience, social support, and institutional trust and post-traumatic stress disorder after natural disasters.. <i>Archives of Psychiatric Nursing</i> , 2022 , 37, 39-44	2.1	0
26	Depressive Symptoms and Mortality Among Middle-Aged and Older Adults in South Korea.. <i>Psychiatry Investigation</i> , 2022 , 19, 302-310	3.1	
25	The moderating effects of individual and community social capital on the relationship between depressive symptoms and suicide in the elderly. <i>Current Psychology</i> , 2021 , 40, 4164-4171	1.4	0
24	Autoregressive cross-lagged modelling of the relationship between social activity, depressive symptoms, and cognitive function in Korean elderly. <i>Psychogeriatrics</i> , 2021 , 21, 350-358	1.8	1
23	The relationship between exposure to risky online content, cyber victimization, perception of cyberbullying, and cyberbullying offending in Korean adolescents. <i>Children and Youth Services Review</i> , 2021 , 123, 105946	2	6
22	The long-term association between social activity, cognitive function and life satisfaction in Korean older adults: Analyzing 10 years of data using multivariate latent growth modeling. <i>Japan Journal of Nursing Science</i> , 2021 , 18, e12390	1.7	0
21	The verification of causal relationship between acculturative stress and bicultural acceptance attitude using autoregressive cross-lagged modeling. <i>Current Psychology</i> , 2021 , 40, 5691	1.4	
20	The Effect of Cigarette Use and Dual-Use on Depression and Sleep Quality. <i>Substance Use and Misuse</i> , 2021 , 56, 1869-1873	2.2	1
19	ADHD, suicidal ideation, depression, anxiety, self-esteem, and alcohol problem in Korean juvenile delinquency. <i>Medicine (United States)</i> , 2020 , 99, e19423	1.8	3
18	The association between health-related factors, physical and mental diseases, social activities, and cognitive function in elderly Koreans: a population-based cross-sectional study. <i>Psychogeriatrics</i> , 2020 , 20, 654-662	1.8	0
17	The Moderating Effects of the Facets of Mindfulness on the Relationship between Daily Life Stress and Suicidal Ideation among Korean College Students. <i>International Journal of Mental Health and Addiction</i> , 2020 , 1	8.8	3
16	The relationship between social capital, acculturative stress and depressive symptoms in multicultural adolescents: Verification using multivariate latent growth modeling. <i>International Journal of Intercultural Relations</i> , 2020 , 74, 127-135	2.3	7
15	The relationship between bicultural identity, acculturative stress, and psychological well-being in multicultural adolescents: Verification using multivariate latent growth modelling. <i>Stress and Health</i> , 2020 , 36, 51-58	3.7	3
14	Factors associated with depressive symptoms among elderly Koreans: the role of health status, work ability, financial problems, living alone, and family relationships. <i>Psychogeriatrics</i> , 2020 , 20, 304-309	1.8	4
13	Association between Fear of Falling (FOF) and all-cause mortality. <i>Archives of Gerontology and Geriatrics</i> , 2020 , 88, 104017	4	7
12	The long-term effects of perceived community disorder and social stigma on depressive symptoms among adolescent school dropouts using multivariate latent growth modeling. <i>School Psychology International</i> , 2020 , 41, 485-498	1.7	0
11	The Mediating Effect of Physical Function Decline on the Association Between Social Activity and Cognitive Function in Middle and Older Korean Adults: Analyzing Ten Years of Data Through Multivariate Latent Growth Modeling. <i>Frontiers in Psychology</i> , 2020 , 11, 2008	3.4	0

10	Individual and social stress, social capital, and depressive symptoms as predictors of adolescent suicide in South Korea: A mediated moderation model. <i>Journal of Health Psychology</i> , 2019 , 24, 1909-1919 ^{3.1}		3
9	The prediction model of suicidal thoughts in Korean adults using Decision Tree Analysis: A nationwide cross-sectional study. <i>PLoS ONE</i> , 2019 , 14, e0223220	3.7	4
8	The Relationships between Addiction to Highly Caffeinated Drinks, Burnout, and Attention-Deficit/Hyperactivity Disorder. <i>Saengyeon Jeongsin Yihag</i> , 2019 , 30, 153-160	1.2	0
7	The relationship between smartphone use for communication, social capital, and subjective well-being in Korean adolescents: Verification using multiple latent growth modeling. <i>Children and Youth Services Review</i> , 2019 , 96, 93-99	2	17
6	The influence of strain due to individual risk factors and social risk factors on depressive symptoms and suicidality-a population-based study in Korean adults: A STROBE-compliant article. <i>Medicine (United States)</i> , 2018 , 97, e11358	1.8	3
5	The influence of strain factors, social control factors, self-control and computer use on adolescent cyber delinquency: Korean National Panel Study. <i>Children and Youth Services Review</i> , 2017 , 78, 74-80	2	18
4	The relationship between the type of smartphone use and smartphone dependence of Korean adolescents: National survey study. <i>Children and Youth Services Review</i> , 2017 , 81, 207-211	2	40
3	An analysis of career maturity among Korean youths using latent growth modeling. <i>School Psychology International</i> , 2017 , 38, 434-449	1.7	8
2	The relationships between perceived parenting style, learning motivation, friendship satisfaction, and the addictive use of smartphones with elementary school students of South Korea: Using multivariate latent growth modeling. <i>School Psychology International</i> , 2015 , 36, 513-531	1.7	48
1	The moderating effect of the perception of cyber violence on the influence of exposure to violent online media on cyber offending in Korean adolescents. <i>School Psychology International</i> , 014303432110067 ^{1.7}
