#	ARTICLE	IF	CITATIONS
1	Effects of the healthy start randomized intervention on psychological stress and sleep habits among obesity-susceptible healthy weight children and their parents. PLoS ONE, 2022, 17, e0264514.	1.1	2
2	Association between intake of marine fat and adiposity development among 2-6 year old children: Substitution analyses from the Healthy Start intervention study. Nutrition, 2022, , 111775.	1.1	0
3	Longitudinal association of nighttime sleep duration with emotional and behavioral problems in early childhood: results from the Danish Healthy Start Study. Sleep, 2021, 44, .	0.6	14
4	Primary prevention of fat and weight gain among obesity susceptible healthy weight preschool children. Main results from the "Healthy Start" randomized controlled intervention. Pediatric Obesity, 2021, 16, e12736.	1.4	6
5	Associations between Parental Stress and Subsequent Changes in Dietary Intake and Quality among Preschool Children Susceptible to Obesity. International Journal of Environmental Research and Public Health, 2021, 18, 3590.	1.2	0
6	Associations between Child Mental Well-Being or Conflicts during Mealtime and Picky Eating Behaviour. International Journal of Environmental Research and Public Health, 2021, 18, 5621.	1.2	3
7	Consumption of sugar-sweetened beverages and metabolic markers in children " a narrative review of the evidence. Nutrition Bulletin, 2021, 46, 264-278.	0.8	1
8	Longitudinal Associations between Intake of Fruit and Vegetables and Height Attainment from Preschool to School Entry. International Journal of Environmental Research and Public Health, 2021, 18, 6106.	1.2	2
9	Early Postpartum Stress, Anxiety, Depression, and Resilience Development among Danish First-Time Mothers before and during First-Wave COVID-19 Pandemic. International Journal of Environmental Research and Public Health, 2021, 18, 11734.	1.2	6
10	Longitudinal associations between body composition and regional fat distribution and later attained height at school entry among preschool children predisposed to overweight. European Journal of Clinical Nutrition, 2020, 74, 465-471.	1.3	2
11	Associations between maternal stress during pregnancy and offspring obesity risk later in life" A systematic literature review. Obesity Reviews, 2020, 21, e12951.	3.1	20
12	Joining Parents' Bed at Night and Overweight among 2- to 6-Year-Old Children - Results from the "Healthy Start" Randomized Intervention. Obesity Facts, 2018, 11, 372-380.	1.6	3
13	Duration of exclusive breastfeeding may be related to eating behaviour and dietary intake in obesity prone normal weight young children. PLoS ONE, 2018, 13, e0200388.	1.1	30
14	Relationship between pickiness and subsequent development in body mass index and diet intake in obesity prone normal weight preschool children. PLoS ONE, 2017, 12, e0172772.	1.1	12
15	Effects of the Healthy Start randomized intervention trial on physical activity among normal weight preschool children predisposed to overweight and obesity. PLoS ONE, 2017, 12, e0185266.	1.1	18
16	Interactions between genetic variants associated with adiposity traits and soft drinks in relation to longitudinal changes in body weight and waist circumference. American Journal of Clinical Nutrition, 2016, 104, 816-826.	2.2	44
17	Replacing sugary drinks with milk is inversely associated with weight gain among young obesity-predisposed children. British Journal of Nutrition, 2015, 114, 1448-1455.	1.2	28
18	Substituting sugar-sweetened beverages with water or milk is inversely associated with body fatness development from childhood to adolescence. Nutrition, 2015, 31, 38-44.	1.1	64

#	ARTICLE	IF	CITATIONS
19	Child Behavioural Problems and Body Size among 2-6 Year Old Children Predisposed to Overweight. Results From the "Healthy Start" Study. PLoS ONE, 2013, 8, e78974.	1.1	14
20	Intake of Liquid and Solid Sucrose in Relation to Changes in Body Fatness over 6 Years among 8- to 10-Year-Old Children: The European Youth Heart Study. Obesity Facts, 2012, 5, 506-512.	1.6	28
21	The Healthy Start project: a randomized, controlled intervention to prevent overweight among normal weight, preschool children at high risk of future overweight. BMC Public Health, 2012, 12, 590.	1.2	37
22	Predisposition to Obesity: Should We Target Those Most Susceptible?. Current Obesity Reports, 2012, 1, 35-41.	3.5	15
