

Jiang Li

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/368402/jiang-li-publications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

37 papers	471 citations	14 h-index	21 g-index
38 ext. papers	618 ext. citations	2.9 avg, IF	4.29 L-index

#	Paper	IF	Citations
37	Does a gender-neutral name associate with the research impact of a scientist?. <i>Journal of Informetrics</i> , 2022 , 16, 101251	3.1	1
36	Is Interdisciplinary Collaboration Research More Disruptive Than Monodisciplinary Research?. <i>Proceedings of the Association for Information Science and Technology</i> , 2021 , 58, 264-272	0.4	1
35	The influence of opening up peer review on the citations of journal articles. <i>Scientometrics</i> , 2021 , 126, 9393	3	1
34	Does research collaboration influence the disruption of articles? Evidence from neurosciences. <i>Scientometrics</i> , 2021 , 126, 287-303	3	1
33	Exploring the direction and diversity of interdisciplinary knowledge diffusion: A case study of professor Zeyuan Liu's scientific publications. <i>Scientometrics</i> , 2021 , 126, 6253	3	0
32	The correlation between scientific collaboration and citation count at the paper level: a meta-analysis. <i>Scientometrics</i> , 2021 , 126, 3443-3470	3	2
31	Characterizing scientists leaving science before their time: Evidence from mathematics. <i>Information Processing and Management</i> , 2021 , 58, 102661	6.3	1
30	Rethinking the disruption index as a measure of scientific and technological advances. <i>Technological Forecasting and Social Change</i> , 2021 , 172, 121071	9.5	1
29	On the relationship between supervisor-supervisee gender difference and scientific impact of doctoral dissertations: Evidence from Humanities and Social Sciences in China. <i>Journal of Information Science</i> , 2020 , 016555152096993	2	0
28	An investigation of the relationship between scientists' mobility to/from China and their research performance. <i>Journal of Informetrics</i> , 2020 , 14, 101037	3.1	7
27	Predicting the citation counts of individual papers via a BP neural network. <i>Journal of Informetrics</i> , 2020 , 14, 101039	3.1	28
26	Does opening up peer review benefit science in terms of citations?. <i>Proceedings of the Association for Information Science and Technology</i> , 2020 , 57, e258	0.4	1
25	Do neutral names have an influence on scientists' research impact. <i>Proceedings of the Association for Information Science and Technology</i> , 2020 , 57, e259	0.4	1
24	Does the mobility of scientists disrupt their collaboration stability?. <i>Journal of Information Science</i> , 2020 , 016555152094874	2	2
23	A probe into 66 factors which are possibly associated with the number of citations an article received. <i>Scientometrics</i> , 2019 , 119, 1429-1454	3	12
22	The effect of open access on journal impact factors: A causal analysis of medical journals. <i>Physica A: Statistical Mechanics and Its Applications</i> , 2019 , 533, 122043	3.3	7
21	Scientists' academic disruptiveness significantly increased after they moved to China. <i>Proceedings of the Association for Information Science and Technology</i> , 2019 , 56, 852-854	0.4	

20	Listening to the user's voice: A temporal analysis of autism-related questions on Quora. <i>Proceedings of the Association for Information Science and Technology</i> , 2019 , 56, 513-516	0.4	1
19	Knowledge flow in China's humanities and social sciences. <i>Quality and Quantity</i> , 2018 , 52, 607-626	2.4	3
18	Innovation or imitation: The diffusion of citations. <i>Journal of the Association for Information Science and Technology</i> , 2018 , 69, 1271-1282	2.7	20
17	A journal's impact factor is influenced by changes in publication delays of citing journals. <i>Journal of the Association for Information Science and Technology</i> , 2017 , 68, 780-789	2.7	9
16	Double-edged sword of interdisciplinary knowledge flow from hard sciences to humanities and social sciences: Evidence from China. <i>PLoS ONE</i> , 2017 , 12, e0184977	3.7	2
15	A vector for measuring obsolescence of scientific articles. <i>Scientometrics</i> , 2016 , 107, 745-757	3	25
14	Sleeping beauties in genius work: When were they awakened?. <i>Journal of the Association for Information Science and Technology</i> , 2016 , 67, 432-440	2.7	27
13	Distinguishing sleeping beauties in science. <i>Scientometrics</i> , 2016 , 108, 821-828	3	19
12	Patterns and evolution of coauthorship in China's humanities and social sciences. <i>Scientometrics</i> , 2015 , 102, 1997-2010	3	26
11	A bibliometric study of China's science and technology policies: 1949-2010. <i>Scientometrics</i> , 2015 , 102, 1521-1539	3	42
10	Rejoinder to "Chinese-language articles are biased in citations" <i>Journal of Informetrics</i> , 2015 , 9, 591	3.1	
9	Citation curves of all-elements-sleeping-beauties: A flash in the pan? First and then delayed recognition <i>Scientometrics</i> , 2014 , 100, 595-601	3	40
8	Abstracting the core subnet of weighted networks based on link strengths. <i>Journal of the Association for Information Science and Technology</i> , 2014 , 65, 984-994	2.7	21
7	Chinese-language articles are not biased in citations: Evidences from Chinese-English bilingual journals in Scopus and Web of Science. <i>Journal of Informetrics</i> , 2014 , 8, 912-916	3.1	11
6	A study of the heartbeat spectral for sleeping beauties <i>Journal of Informetrics</i> , 2014 , 8, 493-502	3.1	35
5	Basic research is overshadowed by applied research in China: a policy perspective. <i>Scientometrics</i> , 2014 , 99, 689-694	3	16
4	The phenomenon of all-elements-sleeping-beauties in scientific literature. <i>Scientometrics</i> , 2012 , 92, 795-799	3.6	
3	Bibliometric analysis of Chinese research on cyclization, MALDI-TOF, and antibiotics. <i>Journal of Chemical Information and Modeling</i> , 2010 , 50, 22-9	6.1	10

- 2 Ranking of library and information science researchers: Comparison of data sources for correlating citation data, and expert judgments. *Journal of Informetrics*, **2010**, 4, 554-563 3.1 45
- 1 ArticleRank: a PageRank-based alternative to numbers of citations for analysing citation networks. *ASLIB Proceedings*, **2009**, 61, 605-618 17
