#	Paper	IF	Citations
40	Early 2016/17 vaccine effectiveness estimates against influenza A(H3N2): I-MOVE multicentre case control studies at primary care and hospital levels in Europe. <i>Eurosurveillance</i> , 2017 , 22,	19.8	55
39	Elder abuse in Portugal: findings from the first national prevalence study. <i>Journal of Elder Abuse and Neglect</i> , 2015 , 27, 174-95	1.9	46
38	Beliefs and attitudes towards the influenza vaccine in high-risk individuals. <i>Epidemiology and Infection</i> , 2017 , 145, 1786-1796	4.3	29
37	Low 2016/17 season vaccine effectiveness against hospitalised influenza A(H3N2) among elderly: awareness warranted for 2017/18 season. <i>Eurosurveillance</i> , 2017 , 22,	19.8	21
36	Prevalence, awareness, treatment and control of diabetes in Portugal: Results from the first National Health examination Survey (INSEF 2015). <i>Diabetes Research and Clinical Practice</i> , 2018 , 140, 271-278	7.4	17
35	mRNA vaccine effectiveness against COVID-19-related hospitalisations and deaths in older adults: a cohort study based on data linkage of national health registries in Portugal, February to August 2021. <i>Eurosurveillance</i> , 2021 , 26,	19.8	12
34	Vaccine effectiveness against symptomatic SARS-CoV-2 infection in adults aged 65 years and older in primary care: I-MOVE-COVID-19 project, Europe, December 2020 to May 2021. <i>Eurosurveillance</i> , 2021 , 26,	19.8	11
33	Exploring the Correlates to Depression in Elder Abuse Victims: Abusive Experience or Individual Characteristics?. <i>Journal of Interpersonal Violence</i> , 2021 , 36, NP115-NP134	2.2	11
32	The first Portuguese National Health Examination Survey (2015): design, planning and implementation. <i>Journal of Public Health</i> , 2019 , 41, 511-517	3.5	10
31	Seroprevalence of SARS-CoV-2 Infection in Portugal in May-July 2020: Results of the First National Serological Survey (ISNCOVID-19). <i>Acta Medica Portuguesa</i> , 2021 , 34, 87-94	1.4	10
30	Comparative Effectiveness of Coronavirus Vaccine in Preventing Breakthrough Infections among Vaccinated Persons Infected with Delta and Alpha Variants. <i>Emerging Infectious Diseases</i> , 2021 , 28,	10.2	9
29	Oral hygiene habits in Portugal: results from the first Health Examination Survey (INSEF 2015). <i>Acta Odontologica Scandinavica</i> , 2019 , 77, 334-339	2.2	8
28	Factors associated to repeated influenza vaccination in the Portuguese adults with chronic conditions. <i>Vaccine</i> , 2018 , 36, 5265-5272	4.1	7
27	Differential self-report error by socioeconomic status in hypertension and hypercholesterolemia: INSEF 2015 study. <i>European Journal of Public Health</i> , 2019 , 29, 273-278	2.1	7
26	Indirect effect of 7-valent and 13-valent pneumococcal conjugated vaccines on pneumococcal pneumonia hospitalizations in elderly. <i>PLoS ONE</i> , 2019 , 14, e0209428	3.7	7
25	Elder abuse victimization patterns: latent class analysis using perpetrators and abusive behaviours. <i>BMC Geriatrics</i> , 2019 , 19, 117	4.1	6
24	Development of a culture sensitive prevalence study on older adults violence: qualitative methods contribution. <i>Journal of Adult Protection, The</i> , 2015 , 17, 126-138	0.7	6

23	Delta variant and mRNA Covid-19 vaccines effectiveness: higher odds of vaccine infection breakthroughs		6
22	Moderate influenza vaccine effectiveness in a B mismatch season: Preliminary results from the 2017/2018 season in Portugal. <i>Pulmonology</i> , 2018 , 24, 260-262	3.7	4
21	Healthcare use in patients with multimorbidity. <i>European Journal of Public Health</i> , 2020 , 30, 16-22	2.1	4
20	Sociodemographic disparities in hypertension prevalence: Results from the first Portuguese National Health Examination Survey. <i>Revista Portuguesa De Cardiologia</i> , 2019 , 38, 547-555	1	4
19	Impact of influenza vaccination programmes among the elderly population on primary care, Portugal, Spain and the Netherlands: 2015/16 to 2017/18 influenza seasons. <i>Eurosurveillance</i> , 2019 , 24,	19.8	3
18	Understanding influenza vaccination among Portuguese elderly: the social ecological framework. <i>Health Promotion International</i> , 2020 , 35, 1427-1440	3	2
17	Psychological elder abuse: measuring severity levels or potential family conflicts?. <i>Journal of Adult Protection, The</i> , 2017 , 19, 380-393	0.7	2
16	Comparative complete scheme and booster effectiveness of COVID-19 vaccines in preventing SARS-CoV-2 infections with SARS-CoV-2 Omicron (BA.1) and Delta (B.1.617.2) variants		2
15	Impact of national influenza vaccination strategy in severe influenza outcomes among the high-risk Portuguese population. <i>BMC Public Health</i> , 2019 , 19, 1690	4.1	2
14	Older adults' emotional reactions to elder abuse: Individual and victimisation determinants. <i>Health and Social Care in the Community</i> , 2019 , 27, 609-620	2.6	2
13	Violence against older adults in Portugal: findings from the first national prevalence study Irina Kislaya. <i>European Journal of Public Health</i> , 2013 , 23,	2.1	1
12	SARS-CoV-2 seroprevalence in Portugal following the third epidemic wave: results of the second National Serological Survey (ISN2COVID-19).. <i>Infectious Diseases</i> , 2022 , 1-7	3.1	1
11	Estimation of the 10-Year Risk of Fatal Cardiovascular Disease in the Portuguese Population: Results from the First Portuguese Health Examination Survey (INSEF 2015). <i>Acta Medica Portuguesa</i> , 2020 , 33, 726-732	1.4	1
10	Prevalence of anemia in the Portuguese adult population: results from the first National Health Examination Survey (INSEF 2015). <i>Zeitschrift Fur Gesundheitswissenschaften</i> , 2020 , 1	1.4	1
9	Combining self-reported and objectively measured survey data to improve hypertension prevalence estimates: Portuguese experience. <i>Archives of Public Health</i> , 2021 , 79, 45	2.6	1
8	Effect of lifestyle on blood pressure in patients under antihypertensive medication: An analysis from the Portuguese Health Examination Survey. <i>Revista Portuguesa De Cardiologia</i> , 2019 , 38, 697-705	1	1
7	High correlation between binding IgG (anti-RBD/S) and neutralizing antibodies against SARS-CoV-2 six months after vaccination		1
6	Collecting Valid and Reliable Data: Fieldwork Monitoring Strategies in a Health Examination Survey. <i>Portuguese Journal of Public Health</i> , 1-10	1.5	0

- 5 Do self-reported data accurately measure health inequalities in risk factors for cardiovascular disease?. *International Journal of Public Health*, **2019**, 64, 721-729 4
- 4 No effect modification of influenza virus vaccine effectiveness by age or chronic condition was observed in the 2010/11 to 2017/18 seasons. *Pharmacoepidemiology and Drug Safety*, **2021**, 30, 1411-1419²⁶
- 3 Effect of lifestyle on blood pressure in patients under antihypertensive medication: An analysis from the Portuguese Health Examination Survey. *Revista Portuguesa De Cardiologia (English Edition)*, **2019**, 38, 697-705 0
- 2 Sun exposure and sun protective behaviours in Portugal: results from the first National Health Examination Survey (INSEF 2015). *Zeitschrift Fur Gesundheitswissenschaften*, **2021**, 29, 375-385 1.4
- 1 Factors Associated with the Use of Fecal Immunochemical Tests and Colonoscopy in the INSEF Portuguese Population. *Portuguese Journal of Public Health*, **2021**, 39, 48-57 1.5
