#	ARTICLE	IF	CITATIONS
1	An updated review of epidemiologic studies on the relationship between exposure to whole-body vibration and low back pain (1986-1997). <i>International Archives of Occupational and Environmental Health</i> , 1999, 72, 351-365.	2.3	252
2	Whole-body vibration and low-back pain. <i>International Archives of Occupational and Environmental Health</i> , 1987, 59, 205-220.	2.3	193
3	Back pain and exposure to whole body vibration in helicopter pilots. <i>Ergonomics</i> , 1990, 33, 1007-1026.	2.1	123
4	Self-reported back pain in tractor drivers exposed to whole-body vibration. <i>International Archives of Occupational and Environmental Health</i> , 1990, 62, 109-115.	2.3	107
5	Measurement error of waist circumference: gaps in knowledge. <i>Public Health Nutrition</i> , 2013, 16, 281-288.	2.2	99
6	Back disorders in crane operators exposed to whole-body vibration. <i>International Archives of Occupational and Environmental Health</i> , 1988, 60, 129-137.	2.3	80
7	Long-term sick leave and disability pensioning due to back disorders of tractor drivers exposed to whole-body vibration. <i>International Archives of Occupational and Environmental Health</i> , 1990, 62, 117-122.	2.3	69
8	Working for a healthier tomorrow. <i>Occupational and Environmental Medicine</i> , 2009, 66, 1-2.	2.8	55
9	The prevalence of occupational exposure to ergonomic risk factors: A systematic review and meta-analysis from the WHO/ILO Joint Estimates of the Work-related Burden of Disease and Injury. <i>Environment International</i> , 2021, 146, 106157.	10.0	54
10	Information demands of occupational health physicians and their attitude towards evidence-based medicine. <i>Scandinavian Journal of Work, Environment and Health</i> , 2004, 30, 327-330.	3.4	45
11	The effect of occupational exposure to ergonomic risk factors on osteoarthritis of hip or knee and selected other musculoskeletal diseases: A systematic review and meta-analysis from the WHO/ILO Joint Estimates of the Work-related Burden of Disease and Injury. <i>Environment International</i> , 2021, 150, 106349.	10.0	41
12	Caution required when relying on a colleague's advice; a comparison between professional advice and evidence from the literature. <i>BMC Health Services Research</i> , 2005, 5, 59.	2.2	38
13	Evaluation of an occupational health intervention programme on whole-body vibration in forklift truck drivers: a controlled trial. <i>Occupational and Environmental Medicine</i> , 2006, 63, 461-468.	2.8	36
14	Person-related factors associated with work participation in employees with health problems: a systematic review. <i>International Archives of Occupational and Environmental Health</i> , 2018, 91, 497-512.	2.3	33
15	Work-relatedness of lumbosacral radiculopathy syndrome. <i>Neurology</i> , 2018, 91, 558-564.	1.1	31
16	Long-term sickness absence due to back disorders in crane operators exposed to whole-body vibration. <i>International Archives of Occupational and Environmental Health</i> , 1988, 61, 59-64.	2.3	28
17	Developing search strategies in Medline on the occupational origin of diseases. <i>American Journal of Industrial Medicine</i> , 2006, 49, 127-137.	2.1	27
18	A Knowledge Infrastructure for Occupational Safety and Health. <i>Journal of Occupational and Environmental Medicine</i> , 2010, 52, 1262-1268.	1.7	27

#	ARTICLE	IF	CITATIONS
19	Enhancing evidence-based advice of occupational health physicians. <i>Scandinavian Journal of Work, Environment and Health</i> , 2007, 33, 368-378.	3.4	27
20	Does body mass index increase the risk of low back pain in a population exposed to whole body vibration?. <i>Applied Ergonomics</i> , 2008, 39, 779-785.	3.1	22
21	Occupational physicians: what are their questions in daily practice? An observation study. <i>Occupational Medicine</i> , 2006, 56, 191-198.	1.4	20
22	Extensive variability of work participation outcomes measured in randomized controlled trials: a systematic review. <i>Journal of Clinical Epidemiology</i> , 2022, 142, 60-99.	5.0	20
23	Effectiveness and efficiency of a literature search strategy to answer questions on the etiology of occupational diseases: a controlled trial. <i>International Archives of Occupational and Environmental Health</i> , 2007, 80, 239-247.	2.3	19
24	Comparing the Use of an Online Expert Health Network against Common Information Sources to Answer Health Questions. <i>Journal of Medical Internet Research</i> , 2012, 14, e9.	4.3	19
25	The Economic Burden of Visual Impairment and Comorbid Fatigue: A Cost-of-Illness Study (From a Tj ETQq1 1 0.784314 rgBT /Overlook	1.8	18
26	Process Evaluation of an Occupational Health Guideline Aimed at Preventing Weight Gain Among Employees. <i>Journal of Occupational and Environmental Medicine</i> , 2011, 53, 722-729.	1.7	17
27	An online network tool for quality information to answer questions about occupational safety and health: usability and applicability. <i>BMC Medical Informatics and Decision Making</i> , 2010, 10, 63.	3.0	15
28	Exploring the patient perspective of fatigue in adults with visual impairment: a qualitative study. <i>BMJ Open</i> , 2017, 7, e015023.	1.9	14
29	Can Workers Answer Their Questions about Occupational Safety and Health: Challenges and Solutions. <i>Industrial Health</i> , 2012, 50, 239-249.	1.0	12
30	Do dutch workers seek and find information on occupational safety and health?. <i>American Journal of Industrial Medicine</i> , 2012, 55, 250-259.	2.1	11
31	An online expert network for high quality information on occupational safety and health: cross-sectional study of user satisfaction and impact. <i>BMC Medical Informatics and Decision Making</i> , 2011, 11, 72.	3.0	7
32	Preferred Methods of Measuring Work Participation: An International Survey Among Trialists and Cochrane Systematic Reviewers. <i>Journal of Occupational Rehabilitation</i> , 2022, 32, 620-628.	2.2	7
33	Understanding fatigue in adults with visual impairment: A path analysis study of sociodemographic, psychological and health-related factors. <i>PLoS ONE</i> , 2019, 14, e0224340.	2.5	6
34	Adapting Citizen Science to Improve Health in an Occupational Setting: Preliminary Results of a Qualitative Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4917.	2.6	6
35	The view and policy of management of occupational health services on the performance of workers's health surveillance: a qualitative exploration. <i>BMC Health Services Research</i> , 2019, 19, 473.	2.2	5
36	Physicians' Perspectives on Person-Related Factors Associated With Work Participation and Methods Used to Obtain Information About These Factors. <i>Journal of Occupational and Environmental Medicine</i> , 2019, 61, 499-504.	1.7	5

#	ARTICLE	IF	CITATIONS
37	Supporting Occupational Physicians in the Implementation of Workers' Health Surveillance: Development of an Intervention Using the Behavior Change Wheel Framework. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1939.	2.6	5
38	Improving fit to work assessments for rail safety workers by exploring work limitations. <i>International Archives of Occupational and Environmental Health</i> , 2016, 89, 803-811.	2.3	4
39	Obtaining person-related information from employees with chronic health problems: a focus group study. <i>International Archives of Occupational and Environmental Health</i> , 2019, 92, 1003-1012.	2.3	4
40	Interventions on cognitions and perceptions that influence work participation of employees with chronic health problems: a scoping review. <i>BMC Public Health</i> , 2020, 20, 1610.	2.9	4
41	Protection Against Solar Ultraviolet Radiation in Outdoor Construction Workers: Study Protocol for a Non-randomized Controlled Intervention Study. <i>Frontiers in Public Health</i> , 2021, 9, 602933.	2.7	4
42	Determinants for the implementation of person-centered tools for workers with chronic health conditions: a mixed-method study using the Tailored Implementation for Chronic Diseases checklist. <i>BMC Public Health</i> , 2021, 21, 1091.	2.9	3
43	Workers' health surveillance targeting mental health: evaluation of a training. <i>Occupational Medicine</i> , 2022, 72, 244-247.	1.4	3
44	E-nergEYEze, a vision-specific eHealth intervention based on cognitive behavioral therapy and self-management to reduce fatigue in adults with visual impairment: study protocol for a randomized controlled trial. <i>Trials</i> , 2021, 22, 966.	1.6	3
45	Work-relatedness of inguinal hernia: a systematic review including meta-analysis and GRADE. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2020, 24, 943-950.	2.0	2
46	Training on involving cognitions and perceptions in the occupational health management and work disability assessment of workers: development and evaluation. <i>BMC Medical Education</i> , 2022, 22, 20.	2.4	2
47	Job-specific mandatory medical examinations for the police force. <i>Occupational Medicine</i> , 2017, 67, 469-476.	1.4	1
48	Effects of a training program for occupational health professionals on the cognitions and perceptions of workers: a randomized controlled trial. <i>International Archives of Occupational and Environmental Health</i> , 2022, , 1.	2.3	1
49	Stimulating Sunscreen Use Among Outdoor Construction Workers: A Pilot Study. <i>Frontiers in Public Health</i> , 2022, 10, 857553.	2.7	1
