#	Article	IF	CITATIONS
1	Creating what is necessary for optimizing psychotherapy. Psychotherapy Research, 2020, 30, 41-52.	1.8	2
2	Replication and preregistration. Quality and Quantity, 2019, 53, 2647-2652.	3.7	0
3	Randomness is problematic for social science research purposes. Quality and Quantity, 2019, 53, 1495-1504.	3.7	6
4	Associational versus correlational research study design and data analysis. Quality and Quantity, 2018, 52, 2691-2707.	3.7	6
5	Mathematical expression and sampling issues of treatment contrasts: Beyond significance testing and meta-analysis to clinically useful research synthesis. Psychotherapy Research, 2018, 28, 58-75.	1.8	5
6	The scientific study of the qualities of individual human lives, rather than of their average quantities in aggregations of lives. Quality and Quantity, 2018, 52, 1315-1329.	3.7	4
7	ltem response theory requires logically unjustifiable assumptions. Quality and Quantity, 2017, 51, 1549-1561.	3.7	3
8	Case sampling for psychotherapy practice, theory, and policy guidance: Qualities and quantities. Psychotherapy Research, 2016, 26, 530-544.	1.8	8
9	The incompatibility of achieving a fully specified linear model with assuming that residual dependent-variable variance is random. Quality and Quantity, 2013, 47, 3201-3204.	3.7	9
10	The Data Analytic Implications of Human Psychology's Dimensions Being Ordinally Scaled. Review of General Psychology, 2013, 17, 318-325.	3.2	12
11	Measurement Validity is Fundamentally a Matter of Definition, Not Correlation. Review of General Psychology, 2012, 16, 391-400.	3.2	24
12	Statistical significance testing and clinical trials Psychotherapy, 2011, 48, 217-222.	1.2	21
13	What are the fundamental facts of a comparison of two treatments' outcomes?. Psychotherapy, 2011, 48, 234-236.	1.2	3
14	The role of sampling in clinical trial design. Psychotherapy Research, 2011, 21, 243-251.	1.8	14
15	Trying to Discover Sufficient Condition Causes. Methodology, 2010, 6, 59-70.	1.1	12
16	Process transforms inputs to determine outcomes: Therapists are responsible for managing process Clinical Psychology: Science and Practice, 2009, 16, 73-81.	0.9	39
17	What should be used for baselines against which to compare treatments' effectiveness?. Psychotherapy Research, 2009, 19, 358-367.	1.8	9
18	Reversion Toward the Mean Independently of Regression Toward the Mean. Methodology, 2009, 5, 3-6.	1.1	2

MERTON S KRAUSE

#	Article	IF	CITATIONS
19	Regression toward the mean in effectiveness studies: theoretically possible, not mathematically inevitable. Quality and Quantity, 2008, 42, 859-865.	3.7	2
20	Empirically certified treatments or therapists: The issue of separability Psychotherapy, 2007, 44, 347-353.	1.2	14
21	How we really ought to be comparing treatments for clinical purposes Psychotherapy, 2006, 43, 359-361.	1.2	11
22	What are you doing? What am I doing?. Journal of Theoretical and Philosophical Psychology, 2005, 25, 257-279.	0.9	2
23	How the psychotherapy research community must work toward measurement validity and why. Journal of Clinical Psychology, 2005, 61, 269-283.	1.9	14
24	What random assignment does and does not do. Journal of Clinical Psychology, 2003, 59, 751-766.	1.9	47
25	Exploring individual change Journal of Consulting and Clinical Psychology, 1998, 66, 838-845.	2.0	47
26	Trials and tribulations in the meta-analysis of treatment differences: Comment on Wampold et al. (1997) Psychological Bulletin, 1997, 122, 221-225.	6.1	42
27	Analysis of clinical trial data: The problem of outcome overlap Psychotherapy, 1994, 31, 302-307.	1.2	29
28	The attrition dilemma: Toward a new strategy for psychotherapy research Journal of Consulting and Clinical Psychology, 1986, 54, 106-110.	2.0	84
29	Program evaluation in the public interest: A new research methodology. Community Mental Health Journal, 1976, 12, 291-300.	2.0	51
