#	ARTICLE	IF	CITATIONS
1	Treating High-Risk TIA and Minor Stroke Patients With Dual Antiplatelet Therapy: A National Survey of Emergency Medicine Physicians. <i>Neurohospitalist</i> , The, 2022, 12, 13-18.	0.3	4
2	Intranasal ketorolac versus intravenous ketorolac for treatment of migraine headaches in children: A randomized clinical trial. <i>Academic Emergency Medicine</i> , 2022, 29, 465-475.	0.8	5
3	Learning Outcomes of High-fidelity versus Table-Top Simulation in Undergraduate Emergency Medicine Education: Prospective, Randomized, Crossover-Controlled Study. <i>Western Journal of Emergency Medicine</i> , 2022, 23, 20-25.	0.6	1
4	The Relative Efficacy of Seven Skeletal Muscle Relaxants. An Analysis of Data From Randomized Studies. <i>Journal of Emergency Medicine</i> , 2022, 62, 455-461.	0.3	7
5	A Randomized, Placebo-Controlled Study of Intranasal Fentanyl as an Analgesic Adjunct For Incision and Drainage of Abscess. <i>Journal of Emergency Medicine</i> , 2022, , .	0.3	0
6	Oxycodone induced euphoria in ED patients with acute musculoskeletal pain. A secondary analysis of data from a randomized trial. <i>American Journal of Emergency Medicine</i> , 2022, 53, 240-244.	0.7	4
7	Should COVID-19 symptoms be used to cohort patients in the emergency department? A retrospective analysis. <i>American Journal of Emergency Medicine</i> , 2022, 54, 274-278.	0.7	0
8	Peripheral Nerve Blocks for Headache: A Precise Approach to Pain Management in the Emergency Department. <i>Annals of Emergency Medicine</i> , 2022, 79, 262-264.	0.3	1
9	Inflammatory markers are poorly predictive of clinical outcomes among hospitalized patients with COVID-19. <i>American Journal of Emergency Medicine</i> , 2021, 46, 595-598.	0.7	10
10	A randomized controlled trial of oxycodone/acetaminophen versus acetaminophen alone for emergency department patients with musculoskeletal pain refractory to ibuprofen. <i>Academic Emergency Medicine</i> , 2021, 28, 859-865.	0.8	6
11	A Randomized Trial Comparing the Efficacy of Five Oral Analgesics for Treatment of Acute Musculoskeletal Extremity Pain in the Emergency Department. <i>Annals of Emergency Medicine</i> , 2021, 77, 345-356.	0.3	12
12	Randomized Study of Metoclopramide Plus Diphenhydramine for Acute Posttraumatic Headache. <i>Neurology</i> , 2021, 96, e2323-e2331.	1.5	6
13	Introduction of a smartphone based behavioral intervention for migraine in the emergency department. <i>General Hospital Psychiatry</i> , 2021, 69, 12-19.	1.2	8
14	Author Response: Characterizing Opioid Use in a US Population With Migraine: Results From the CaMEO Study. <i>Neurology</i> , 2021, 96, 683-684.	1.5	1
15	A randomized controlled trial of ibuprofen versus ketorolac versus diclofenac for acute, nonradicular low back pain. <i>Academic Emergency Medicine</i> , 2021, 28, 1228-1235.	0.8	6
16	A randomized study of IV prochlorperazine plus diphenhydramine versus IV hydromorphone for migraine-associated symptoms: A post hoc analysis. <i>Headache</i> , 2021, 61, 1227-1233.	1.8	1
17	Clinical predictors of poor 30-day headache outcomes after an emergency department visit for acute post-traumatic headache. <i>American Journal of Emergency Medicine</i> , 2021, 49, 158-162.	0.7	1
18	Head Computed tomography during emergency department treat-and-release visit for headache is associated with increased risk of subsequent cerebrovascular disease hospitalization. <i>Diagnosis</i> , 2021, 8, 199-208.	1.2	8

#	ARTICLE	IF	CITATIONS
19	Under Treatment of High-Risk TIA Patients with Clopidogrel-Aspirin in the Emergency Setting. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2021, 30, 1061-1145.	0.7	1
20	Reply. <i>Journal of Emergency Medicine</i> , 2021, 61, 351.	0.3	0
21	Second-line interventions for migraine in the emergency department: A narrative review. <i>Headache</i> , 2021, 61, 1467-1474.	1.8	2
22	Emergency medicine physicians'™ perspectives on diagnostic accuracy in neurology: a qualitative study. <i>Diagnosis</i> , 2021, .	1.2	1
23	Ibuprofen Plus Acetaminophen Versus Ibuprofen Alone for Acute Low Back Pain: An Emergency Department-based Randomized Study. <i>Academic Emergency Medicine</i> , 2020, 27, 229-235.	0.8	22
24	Adjuvant Antibiotic Therapy After Incision and Drainage of Cutaneous Abscesses. <i>Academic Emergency Medicine</i> , 2020, 27, 427-428.	0.8	1
25	Opioid Use During the Six Months After an Emergency Department Visit for Acute Pain: A Prospective Cohort Study. <i>Annals of Emergency Medicine</i> , 2020, 75, 578-586.	0.3	19
26	A Randomized, Double-blind, Emergency Department-based Study of Greater Occipital Nerve Block With Bupivacaine vs Intravenous Metoclopramide for Treatment of Migraine. <i>Headache</i> , 2020, 60, 2380-2388.	1.8	17
27	In reply:. <i>Annals of Emergency Medicine</i> , 2020, 75, 676-677.	0.3	0
28	A Retrospective Cohort Study of Urgent Care Visits and Revisits for Headache/Migraine. <i>Pain Medicine</i> , 2020, 21, 2458-2464.	0.9	3
29	Predicting the Transition to Chronic Pain 6 Months After an Emergency Department Visit for Acute Pain: A Prospective Cohort Study. <i>Journal of Emergency Medicine</i> , 2020, 59, 805-811.	0.3	7
30	Characterizing opioid use in a US population with migraine. <i>Neurology</i> , 2020, 95, e457-e468.	1.5	48
31	Intravenous Magnesium Sulfate for Acute Asthma Exacerbation in Adults. <i>Academic Emergency Medicine</i> , 2020, 27, 1061-1063.	0.8	2
32	Depression and Functional Outcomes in Patients Presenting to the Emergency Department With Low Back Pain. <i>Academic Emergency Medicine</i> , 2020, 27, 725-733.	0.8	3
33	Medical Expulsive Therapy (Alpha Blockers) for Urologic Stone Disease. <i>Academic Emergency Medicine</i> , 2020, 27, 923-924.	0.8	5
34	Randomized Clinical Trial of Intravenous (IV) Acetaminophen as an Adjunct to IV Hydromorphone for Acute Severe Pain in Emergency Department Patients. <i>Academic Emergency Medicine</i> , 2020, 27, 717-724.	0.8	4
35	Comparison between carbon monoxide poisoning from hookah smoking versus other sources. <i>Clinical Toxicology</i> , 2020, 58, 1320-1325.	0.8	10
36	Opioid-induced Euphoria Among Emergency Department Patients With Acute Severe Pain: An Analysis of Data From a Randomized Trial. <i>Academic Emergency Medicine</i> , 2020, 27, 1100-1105.	0.8	8

#	ARTICLE	IF	CITATIONS
37	Response to Mazerâ€”Amirshahi et al, Intravenous Acetaminophen and Hydromorphone: The Bad and the Ugly of Emergency Department Pain Management. <i>Academic Emergency Medicine</i> , 2020, 27, 795-796.	0.8	0
38	Migraine in the Emergency Department. <i>Neurologic Clinics</i> , 2019, 37, 743-752.	0.8	5
39	Intensive Glucose Control for Critically Ill Patients. <i>Academic Emergency Medicine</i> , 2019, 26, 1391-1392.	0.8	0
40	A Randomized, Placebo-Controlled Trial of Ibuprofen Plus Metaxalone, Tizanidine, or Baclofen for Acute Low Back Pain. <i>Annals of Emergency Medicine</i> , 2019, 74, 512-520.	0.3	35
41	Randomized Trial of Intravenous Lidocaine Versus Hydromorphone for Acute Abdominal Pain in the Emergency Department. <i>Annals of Emergency Medicine</i> , 2019, 74, 233-240.	0.3	13
42	A Randomized Trial of a Long-Acting Depot Corticosteroid Versus Dexamethasone to Prevent Headache Recurrence Among Patients With Acute Migraine Who Are Discharged From an Emergency Department. <i>Annals of Emergency Medicine</i> , 2019, 73, 141-149.	0.3	8
43	The Treatment of Acute Pain in the Emergency Department: A White Paper Position Statement Prepared for the American Academy of Emergency Medicine. <i>Journal of Emergency Medicine</i> , 2018, 54, 731-736.	0.3	43
44	Emergent management of primary headache. <i>Current Opinion in Neurology</i> , 2018, 31, 286-290.	1.8	18
45	Opioid-Induced â€œLikeabilityâ€”and â€œFeeling Goodâ€”Are Not Associated With Return Visits to an ED Among Migraine Patients Administered IV Hydromorphone. <i>Headache</i> , 2018, 58, 750-754.	1.8	4
46	An exploratory study of IV metoclopramide + diphenhydramine for acute post-traumatic headache. <i>American Journal of Emergency Medicine</i> , 2018, 36, 285-289.	0.7	24
47	A Randomized, Double-Blind, Placebo-Controlled Trial of Naproxen With or Without Orphenadrine or Methocarbamol for Acute Low Back Pain. <i>Annals of Emergency Medicine</i> , 2018, 71, 348-356.e5.	0.3	49
48	A Retrospective Nested Cohort Study of Emergency Department Revisits for Migraine in New York City. <i>Headache</i> , 2018, 58, 399-406.	1.8	17
49	A qualitative analysis of the needs and expectations of patients who present to the emergency department for management of migraine. <i>American Journal of Emergency Medicine</i> , 2018, 36, 1314-1315.	0.7	3
50	Pain One Week After an Emergency Department Visit for Acute Low Back Pain Is Associated With Poor Threeâ€”month Outcomes. <i>Academic Emergency Medicine</i> , 2018, 25, 1138-1145.	0.8	18
51	A Randomized, Shamâ€”Controlled Trial of Bilateral Greater Occipital Nerve Blocks With Bupivacaine for Acute Migraine Patients Refractory to Standard Emergency Department Treatment With Metoclopramide. <i>Headache</i> , 2018, 58, 1427-1434.	1.8	27
52	Predicting three-month functional outcomes after an ED visit for acute low back pain. <i>American Journal of Emergency Medicine</i> , 2017, 35, 299-305.	0.7	16
53	Diazepam Is No Better Than Placebo When Added to Naproxen for Acute Low Back Pain. <i>Annals of Emergency Medicine</i> , 2017, 70, 169-176.e1.	0.3	54
54	A Prospective Analysis of Patients Presenting for Medical Attention at a Large Electronic Dance Music Festival. <i>Prehospital and Disaster Medicine</i> , 2017, 32, 78-82.	0.7	25

#	ARTICLE	IF	CITATIONS
55	Emergency practice, acute low back pain, and chiropractic manipulation. American Journal of Emergency Medicine, 2017, 35, 1577-1578.	0.7	0
56	Randomized study of IV prochlorperazine plus diphenhydramine vs IV hydromorphone for migraine. Neurology, 2017, 89, 2075-2082.	1.5	58
57	Managing Migraine. Annals of Emergency Medicine, 2017, 69, 202-207.	0.3	26
58	Complementary therapies in addition to medication for patients with nonchronic, nonradicular low back pain: a systematic review. American Journal of Emergency Medicine, 2017, 35, 55-61.	0.7	10
59	Management of Adults With Acute Migraine in the Emergency Department: The American Headache Society Evidence Assessment of Parenteral Pharmacotherapies. Headache, 2016, 56, 911-940.	1.8	157
60	Pulmonary contusion in the pan-scan era. Injury, 2016, 47, 1031-1034.	0.7	29
61	Intravenous fluids for migraine: a post hoc analysis of clinical trial data. American Journal of Emergency Medicine, 2016, 34, 713-716.	0.7	33
62	Diphenhydramine as Adjuvant Therapy for Acute Migraine: An Emergency Department-Based Randomized Clinical Trial. Annals of Emergency Medicine, 2016, 67, 32-39.e3.	0.3	32
63	Age But Not Sex Is Associated With Efficacy and Adverse Events Following Administration of Intravenous Migraine Medication: An Analysis of a Clinical Trial Database. Headache, 2015, 55, 1342-1355.	1.8	7
64	Can Computed Tomography-Assessed Right-Sided Ventricular Dysfunction Predict Mortality in Hemodynamically Stable Pulmonary Embolism?. Annals of Emergency Medicine, 2015, 66, 546-548.	0.3	0
65	Convincing the skeptic. How to fix emergency department headache management. Cephalalgia, 2015, 35, 641-643.	1.8	6
66	Current management of migraine in US emergency departments: An analysis of the National Hospital Ambulatory Medical Care Survey. Cephalalgia, 2015, 35, 301-309.	1.8	79
67	Naproxen With Cyclobenzaprine, Oxycodone/Acetaminophen, or Placebo for Treating Acute Low Back Pain. JAMA - Journal of the American Medical Association, 2015, 314, 1572.	3.8	159
68	Factors Associated With Emergency Department Visits for Migraine: An Observational Study. Headache, 2014, 54, 1611-1618.	1.8	27
69	Randomized trial of IV valproate vs metoclopramide vs ketorolac for acute migraine. Neurology, 2014, 82, 976-983.	1.5	79
70	Parenteral Treatment of Episodic Tension-Type Headache: A Systematic Review. Headache, 2014, 54, 260-268.	1.8	23
71	Evaluation and Treatment of Migraine in the Emergency Department: A Review. Headache, 2014, 54, 1131-1145.	1.8	42
72	The association between headache and elevated blood pressure among patients presenting to an ED. American Journal of Emergency Medicine, 2014, 32, 976-981.	0.7	19
