citing authors

#	ARTICLE	IF	CITATIONS
1	Time-of-Day Effects in Resting-State Functional Magnetic Resonance Imaging: Changes in Effective Connectivity and Blood Oxygenation Level Dependent Signal. <i>Brain Connectivity</i> , 2022, 12, 515-523.	1.7	15
2	A randomized controlled trial on the effect of blue-blocking glasses compared to partial blue-blockers on melatonin profile among nulliparous women in third trimester of the pregnancy. <i>Neurobiology of Sleep and Circadian Rhythms</i> , 2022, 12, 100074.	2.8	3
3	A randomized controlled trial on the effects of blue-blocking glasses compared to partial blue-blockers on sleep outcomes in the third trimester of pregnancy. <i>PLoS ONE</i> , 2022, 17, e0262799.	2.5	0
4	Sleep Homeostasis and Night Work: A Polysomnographic Study of Daytime Sleep Following Three Consecutive Simulated Night Shifts. <i>Nature and Science of Sleep</i> , 2022, Volume 14, 243-254.	2.7	0
5	Scientists Against War: A Plea to World Leaders for Better Governance. <i>Sleep and Vigilance</i> , 2022, 6, 1-6.	0.8	6
6	Bright light exposure during simulated night work improves cognitive flexibility. <i>Chronobiology International</i> , 2022, , 1-16.	2.0	0
7	Effect of Dietary Nitrate Supplementation on Sleep in Chronic Obstructive Pulmonary Disease Patients. <i>Nature and Science of Sleep</i> , 2021, Volume 13, 435-446.	2.7	1
8	Sleep, evening light exposure and perceived stress in healthy nulliparous women in the third trimester of pregnancy. <i>PLoS ONE</i> , 2021, 16, e0252285.	2.5	12
9	In the twilight zone: An epidemiological study of sleep-related hallucinations. <i>Comprehensive Psychiatry</i> , 2021, 108, 152247.	3.1	3
10	Predictors and correlates of lifetime and persistent non-suicidal self-injury and suicide attempts among adult survivors of childhood sexual abuse. <i>HÅrre Utbildning</i> , 2020, 11, 1815282.	3.0	13
11	Cognitive function and brain plasticity in a rat model of shift work: role of daily rhythms, sleep and glucocorticoids. <i>Scientific Reports</i> , 2020, 10, 13141.	3.3	8
12	Blue-Enriched White Light Improves Performance but Not Subjective Alertness and Circadian Adaptation During Three Consecutive Simulated Night Shifts. <i>Frontiers in Psychology</i> , 2020, 11, 2172.	2.1	10
13	Alerting and Circadian Effects of Short-Wavelength vs. Long-Wavelength Narrow-Bandwidth Light during a Simulated Night Shift. <i>Clocks & Sleep</i> , 2020, 2, 502-522.	2.0	16
14	Longitudinal Relationships between Perceived Social Support and Symptom Outcomes: Findings from a sample of Adult Survivors of Childhood Sexual Abuse. <i>Child Abuse and Neglect</i> , 2020, 107, 104566.	2.6	7
15	Validation of sleep stage classification using non-contact radar technology and machine learning (Somnofy®). <i>Sleep Medicine</i> , 2020, 75, 54-61.	1.6	63
16	Role of nocturnal light intensity on adaptation to three consecutive night shifts: a counterbalanced crossover study. <i>Occupational and Environmental Medicine</i> , 2020, 77, 249-255.	2.8	15
17	Blue-blocking glasses as additive treatment for mania: Effects on actigraphy-derived sleep parameters. <i>Journal of Sleep Research</i> , 2020, 29, e12984.	3.2	22
18	Insomnia symptom trajectories among adult survivors of childhood sexual abuse: A longitudinal study. <i>Child Abuse and Neglect</i> , 2019, 93, 263-276.	2.6	16

#	ARTICLE	IF	CITATIONS
19	Can night shift workers benefit from light exposure?. Journal of Physiology, 2018, 596, 2269-2270.	2.9	0
20	A Pilot Study of Impulse Radio Ultra Wideband Radar Technology as a New Tool for Sleep Assessment. Journal of Clinical Sleep Medicine, 2018, 14, 1249-1254.	2.6	20
21	Sleep deprivation and hallucinations. A qualitative study of military personnel. Military Psychology, 2018, 30, 430-436.	1.1	3
22	State-Dependent Modulation of Visual Evoked Potentials in a Rodent Genetic Model of Electroencephalographic Instability. Frontiers in Systems Neuroscience, 2018, 12, 36.	2.5	1
23	Cumulative childhood maltreatment and its dose-response relation with adult symptomatology: Findings in a sample of adult survivors of sexual abuse. Child Abuse and Neglect, 2017, 65, 99-111.	2.6	89
24	A Rodent Model of Night-Shift Work Induces Short-Term and Enduring Sleep and Electroencephalographic Disturbances. Journal of Biological Rhythms, 2017, 32, 48-63.	2.6	15
25	Life Threat and Sleep Disturbances in Adolescents: A Two-Year Follow-Up of Survivors From the 2011 UtÅya, Norway, Terror Attack. Journal of Traumatic Stress, 2017, 30, 219-228.	1.8	12
26	Posttraumatic symptom profiles among adult survivors of childhood sexual abuse: A longitudinal study. Child Abuse and Neglect, 2017, 67, 280-293.	2.6	35
27	No Escaping the Rat Race: Simulated Night Shift Work Alters the Time-of-Day Variation in BMAL1 Translational Activity in the Prefrontal Cortex. Frontiers in Neural Circuits, 2017, 11, 70.	2.8	17
28	Shift in Food Intake and Changes in Metabolic Regulation and Gene Expression during Simulated Night-Shift Work: A Rat Model. Nutrients, 2016, 8, 712.	4.1	16
29	How Perceived Pain Influence Sleep and Mood More Than The Reverse: A Novel, Exploratory Study with Patients Awaiting Total Hip Arthroplasty. Frontiers in Psychology, 2016, 7, 1689.	2.1	18
30	Reading from an iPad or from a book in bed: the impact on human sleep. A randomized controlled crossover trial. Sleep Medicine, 2016, 21, 86-92.	1.6	75
31	Lentiviral HSV-tk-mediated suicide gene therapy is not toxic for normal brain cells. Journal of Gene Medicine, 2016, 18, 234-243.	2.8	10
32	The impact of e-reading on sleep. Sleep Medicine, 2016, 23, 109-110.	1.6	0
33	Blue-light blocking glasses as additive treatment for mania: a randomized placebo-controlled trial. Bipolar Disorders, 2016, 18, 221-232.	1.9	102
34	Mild daily stressors in adulthood may counteract behavioural effects after constant presence of mother during early life. Physiology and Behavior, 2016, 165, 313-321.	2.1	6
35	Effects of social defeat on sleep and behaviour: Importance of the confrontational behaviour. Physiology and Behavior, 2014, 127, 54-63.	2.1	17
36	Sleep and protein synthesis-dependent synaptic plasticity: impacts of sleep loss and stress. Frontiers in Behavioral Neuroscience, 2013, 7, 224.	2.0	62

#	ARTICLE	IF	CITATIONS
37	Post-transcriptional effects and interactions between chronic mild stress and acute sleep deprivation: Regulation of translation factor and cytoplasmic polyadenylation element-binding protein phosphorylation. Behavioural Brain Research, 2012, 235, 251-262.	2.2	26
38	A double exposure to social defeat induces sub-chronic effects on sleep and open field behaviour in rats. Physiology and Behavior, 2008, 95, 553-561.	2.1	28
