#	ARTICLE	IF	CITATIONS
1	Transgender identity is associated with severe suicidal ideation among Finnish adolescents. <i>International Journal of Adolescent Medicine and Health</i> , 2023, 35, 101-108.	0.6	5
2	Factors behind a remarkable increase in adolescent psychiatric inpatient treatment between 1980 and 2010 – a nationwide register study. <i>Nordic Journal of Psychiatry</i> , 2022, 76, 120-128.	0.7	6
3	Transgender identity and experiences of sexual harassment in adolescence. <i>Child Abuse Review</i> , 2022, 31, .	0.4	8
4	Sex offending among adolescents and young men with history of psychiatric inpatient care in adolescence. <i>Criminal Behaviour and Mental Health</i> , 2022, , .	0.4	1
5	Changes over time in mental health symptoms among adolescents in Tampere, Finland. <i>Scandinavian Journal of Child and Adolescent Psychiatry and Psychology</i> , 2021, 9, 96-104.	0.3	6
6	Subsequent criminal participation among young people first admitted to psychiatric inpatient care during early and middle adolescence. <i>Journal of Forensic Psychiatry and Psychology</i> , 2021, 32, 587-605.	0.6	1
7	Thinness, overweight and obesity among 6- to 17-year-old Malaysians: secular trends and sociodemographic determinants from 2006 to 2015. <i>Public Health Nutrition</i> , 2021, 24, 6309-6322.	1.1	3
8	Time trends in referrals to child and adolescent gender identity services: a study in four Nordic countries and in the UK. <i>Nordic Journal of Psychiatry</i> , 2020, 74, 40-44.	0.7	62
9	Association of Income With the Incidence Rates of First Psychiatric Hospital Admissions in Finland, 1996-2014. <i>JAMA Psychiatry</i> , 2020, 77, 274.	6.0	19
10	Associations between Involvement in Bullying and Emotional and Behavioral Symptoms: Are there Differences between Heterosexual and Sexual Minority Youth?. <i>Journal of School Violence</i> , 2020, 19, 309-322.	1.1	3
11	Adolescent development and psychosocial functioning after starting cross-sex hormones for gender dysphoria. <i>Nordic Journal of Psychiatry</i> , 2020, 74, 213-219.	0.7	23
12	An alternative term to make comprehensive sexuality education more acceptable in childhood. <i>South African Journal of Childhood Education</i> , 2020, 10, .	0.2	5
13	Transgender Identity Is Associated With Bullying Involvement Among Finnish Adolescents. <i>Frontiers in Psychology</i> , 2020, 11, 612424.	1.1	25
14	Changes in cannabis use according to socioeconomic status among Finnish adolescents from 2000 to 2015. <i>Journal of Cannabis Research</i> , 2020, 2, 44.	1.5	8
15	Normative and negative sexual experiences of transgender identifying adolescents in the community. <i>Scandinavian Journal of Child and Adolescent Psychiatry and Psychology</i> , 2020, 8, 166-175.	0.3	0
16	Sexual Orientation and Bullying Involvement in Adolescence: The Role of Gender, Age, and Mental Health. <i>Journal of School Violence</i> , 2019, 18, 319-332.	1.1	12
17	Experiences of sexual harassment are associated with high self-esteem and social anxiety among adolescent girls. <i>Nordic Journal of Psychiatry</i> , 2019, 73, 365-371.	0.7	13
18	The Steps of Sexuality – A Developmental, Emotion-Focused, Child-Centered Model of Sexual Development and Sexuality Education from Birth to Adulthood. <i>International Journal of Sexual Health</i> , 2019, 31, 319-338.	1.2	21

#	ARTICLE	IF	CITATIONS
19	Socioeconomic Trends in Adolescent Smoking in Finland From 2000 to 2015. <i>Journal of Adolescent Health</i> , 2019, 64, 776-782.	1.2	10
20	Adolescents with same-sex interest: experiences of sexual harassment are more common among boys. <i>Health Psychology and Behavioral Medicine</i> , 2019, 7, 105-127.	0.8	12
21	Sexual experiences of clinically referred adolescents with features of gender dysphoria. <i>Clinical Child Psychology and Psychiatry</i> , 2019, 24, 365-378.	0.8	10
22	Gender dysphoria in adolescent population: A 5-year replication study. <i>Clinical Child Psychology and Psychiatry</i> , 2019, 24, 379-387.	0.8	17
23	Psychometric properties of the 7-item Generalized Anxiety Disorder Scale (GAD-7) in a large representative sample of Finnish adolescents. <i>Psychiatry Research</i> , 2019, 272, 30-35.	1.7	189
24	Overview of European forensic youth care: towards an integrative mission for prevention and intervention strategies for juvenile offenders. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2019, 13, 6.	1.2	21
25	Gender identities in adolescent population: Methodological issues and prevalence across age groups. <i>European Psychiatry</i> , 2019, 55, 61-66.	0.1	42
26	Changes in delinquency according to socioeconomic status among Finnish adolescents from 2000 to 2015. <i>Scandinavian Journal of Child and Adolescent Psychiatry and Psychology</i> , 2019, 7, 52-59.	0.3	5
27	Perceived rather than actual overweight is associated with mental health problems in adolescence. <i>Nordic Journal of Psychiatry</i> , 2018, 72, 89-96.	0.7	15
28	Experiences of sexual harassment are associated with the sexual behavior of 14- to 18-year-old adolescents. <i>Child Abuse and Neglect</i> , 2018, 77, 46-57.	1.3	25
29	Socioeconomic trends in school bullying among Finnish adolescents from 2000 to 2015. <i>Child Abuse and Neglect</i> , 2018, 86, 100-108.	1.3	27
30	Adolescent sexual behavior—family characteristics, parental involvement, and associated mental disorders. <i>International Journal of Sexual Health</i> , 2018, 30, 295-308.	1.2	5
31	Gender dysphoria in adolescence: current perspectives. <i>Adolescent Health, Medicine and Therapeutics</i> , 2018, Volume 9, 31-41.	0.7	116
32	Current and recalled childhood gender identity in community youth in comparison to referred adolescents seeking sex reassignment. <i>Journal of Adolescence</i> , 2017, 56, 34-39.	1.2	14
33	Self-assessed limited prosocial emotions do not distinguish community youth with psychosocial problems from those without them. <i>Nordic Journal of Psychiatry</i> , 2017, 71, 126-130.	0.7	2
34	Self-rated psychopathic traits in a sample of treatment-seeking adolescent girls with internalizing and externalizing disorders: comparisons to girls in the community. <i>Nordic Journal of Psychiatry</i> , 2017, 71, 210-216.	0.7	3
35	Delinquency and sexual experiences across adolescence: does depression play a role?. <i>European Journal of Contraception and Reproductive Health Care</i> , 2017, 22, 298-304.	0.6	13
36	Social phobia, depression and eating disorders during middle adolescence: longitudinal associations and treatment seeking. <i>Nordic Journal of Psychiatry</i> , 2017, 71, 605-613.	0.7	20

#	ARTICLE	IF	CITATIONS
37	Parental involvement, depression, and sexual experiences across adolescence: a cross-sectional survey among adolescents of different ages. <i>Health Psychology and Behavioral Medicine</i> , 2017, 5, 258-275.	0.8	7
38	Gender differences in first onset Schizophrenia spectrum psychoses. <i>Nordic Journal of Psychiatry</i> , 2017, 71, 131-138.	0.7	23
39	Are eating disorders and their symptoms increasing in prevalence among adolescent population?. <i>Nordic Journal of Psychiatry</i> , 2017, 71, 61-66.	0.7	26
40	Trends in Alcohol Use among Adolescents from 2000 to 2011: The Role of Socioeconomic Status and Depression. <i>Alcohol and Alcoholism</i> , 2017, 52, 95-103.	0.9	51
41	Proeating disorder websites and subjective well-being: A four-country study on young people. <i>International Journal of Eating Disorders</i> , 2017, 50, 50-57.	2.1	13
42	Mortality of young offenders: a national register-based follow-up study of 15- to 19-year-old Finnish delinquents referred for forensic psychiatric examination between 1980 and 2010. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2017, 11, 37.	1.2	2
43	Do seriously offending girls differ from their age- and offence type-matched male counterparts on psychopathic traits or psychopathy-related background variables?. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2016, 10, 38.	1.2	8
44	Overweight, perceived overweight and involvement in bullying in middle adolescence. <i>Child Abuse and Neglect</i> , 2016, 54, 33-42.	1.3	11
45	Are There Differences in Neurocognition and Social Cognition Among Adolescents with Schizophrenia, a Pervasive Developmental Disorder, and Both Disorders?. <i>Applied Neuropsychology: Child</i> , 2016, 5, 303-310.	0.7	8
46	Sexual harassment and emotional and behavioural symptoms in adolescence: stronger associations among boys than girls. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2016, 51, 1193-1201.	1.6	24
47	Early pubertal timing is common among adolescent girl-to-boy sex reassignment applicants. <i>European Journal of Contraception and Reproductive Health Care</i> , 2016, 21, 483-485.	0.6	7
48	Sexual harassment victimization in adolescence: Associations with family background. <i>Child Abuse and Neglect</i> , 2016, 56, 11-19.	1.3	42
49	Short report: self-reported psychopathic traits in Finnish and Dutch samples of non-referred adolescents: exploration of cultural differences. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2016, 10, 3.	1.2	2
50	Social Phobia and Educational and Interpersonal Impairments in Adolescence: A Prospective Study. <i>Child Psychiatry and Human Development</i> , 2016, 47, 665-677.	1.1	21
51	Self-reported psychopathic traits among non-referred Finnish adolescents: psychometric properties of the Youth Psychopathic traits Inventory and the Antisocial Process Screening Device. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2015, 9, 15.	1.2	15
52	School shooting threats as a national phenomenon: comparison of police reports and psychiatric reports in Finland. <i>Nordic Journal of Criminology</i> , 2015, 16, 145-159.	1.0	8
53	Sexual experience and self-reported depression across the adolescent years. <i>Health Psychology and Behavioral Medicine</i> , 2015, 3, 337-347.	0.8	26
54	Ethical issues in child and adolescent forensic psychiatry: a review. <i>Journal of Forensic Psychiatry and Psychology</i> , 2015, 26, 759-780.	0.6	16

#	ARTICLE	IF	CITATIONS
55	Depression, conduct disorder, smoking and alcohol use as predictors of sexual activity in middle adolescence: a longitudinal study. <i>Health Psychology and Behavioral Medicine</i> , 2015, 3, 25-39.	0.8	13
56	Two years of gender identity service for minors: overrepresentation of natal girls with severe problems in adolescent development. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2015, 9, 9.	1.2	167
57	Predictive validity of the structured assessment of violence risk in youth: A 4-year follow-up. <i>Criminal Behaviour and Mental Health</i> , 2015, 25, 192-206.	0.4	23
58	The trajectories of child's internalizing and externalizing problems, social competence and adolescent self-reported problems in a Finnish normal population sample. <i>School Psychology International</i> , 2014, 35, 561-579.	1.1	28
59	Low perceived social support predicts later depression but not social phobia in middle adolescence. <i>Health Psychology and Behavioral Medicine</i> , 2014, 2, 1023-1037.	0.8	27
60	Self-reported depression is increasing among socio-economically disadvantaged adolescents – repeated cross-sectional surveys from Finland from 2000 to 2011. <i>BMC Public Health</i> , 2014, 14, 408.	1.2	58
61	Violent girls in adolescent forensic care are more often psychotic and traumatized than boys in the same level of care. <i>Journal of Forensic Psychiatry and Psychology</i> , 2014, 25, 636-657.	0.6	10
62	Is pubertal timing associated with involvement in bullying in middle adolescence?. <i>Health Psychology and Behavioral Medicine</i> , 2014, 2, 144-159.	0.8	11
63	Decrease in self-esteem mediates the association between symptoms of social phobia and depression in middle adolescence in a sex-specific manner: a 2-year follow-up of a prospective population cohort study. <i>BMC Psychiatry</i> , 2014, 14, 79.	1.1	13
64	Cognition, Imagery and Coping among Adolescents with Social Anxiety and Phobia: Testing the Clark and Wells Model in the Population. <i>Clinical Psychology and Psychotherapy</i> , 2014, 21, 252-263.	1.4	37
