#	ARTICLE	IF	CITATIONS
1	Need, demand, supply in health care: working definitions, and their implications for defining access. <i>Health Economics, Policy and Law</i> , 2023, 18, 1-13.	1.8	21
2	Program Evaluation of Population- and System-Level Policies: Evidence for Decision Making. <i>Medical Decision Making</i> , 2022, 42, 17-27.	2.4	8
3	Does the presence of general practitioners in emergency departments affect quality and safety in English NHS hospitals? A retrospective observational study. <i>BMJ Open</i> , 2022, 12, e055976.	1.9	5
4	Scale economies in the health sector: The effect of hospital volume on health gains from hip replacement surgery. <i>Journal of Economic Behavior and Organization</i> , 2021, 190, 704-729.	2.0	3
5	Who keeps on working? The importance of resilience for labour market participation. <i>PLoS ONE</i> , 2021, 16, e0258444.	2.5	2
6	Healthcare Costs for People with Serious Mental Illness in England: An Analysis of Costs Across Primary Care, Hospital Care, and Specialist Mental Healthcare. <i>Applied Health Economics and Health Policy</i> , 2020, 18, 177-188.	2.1	24
7	Using EQ-5D Data to Measure Hospital Performance: Are General Population Values Distorting Patients' Choices?. <i>Medical Decision Making</i> , 2020, 40, 511-521.	2.4	5
8	The association between primary care quality and health-care use, costs and outcomes for people with serious mental illness: a retrospective observational study. <i>Health Services and Delivery Research</i> , 2020, 8, 1-126.	1.4	2
9	Paying for efficiency: Incentivising same-day discharges in the English NHS. <i>Journal of Health Economics</i> , 2019, 68, 102226.	2.7	11
10	Association Between Antipsychotic Polypharmacy and Outcomes for People With Serious Mental Illness in England. <i>Psychiatric Services</i> , 2019, 70, 650-656.	2.0	23
11	Aggregate Distributional Cost-Effectiveness Analysis of Health Technologies. <i>Value in Health</i> , 2019, 22, 518-526.	0.3	22
12	Does regulation increase the rate at which doctors leave practice? Analysis of routine hospital data in the English NHS following the introduction of medical revalidation. <i>BMC Medicine</i> , 2019, 17, 33.	5.5	10
13	Impact of family practice continuity of care on unplanned hospital use for people with serious mental illness. <i>Health Services Research</i> , 2019, 54, 1316-1325.	2.0	27
14	Calls for routine collection of patient-reported outcome measures are getting louder. <i>Journal of Health Services Research and Policy</i> , 2019, 24, 1-2.	1.7	10
15	Prospective payment systems and discretionary coding—Evidence from English mental health providers. <i>Health Economics (United Kingdom)</i> , 2019, 28, 387-402.	1.7	6
16	Should interventions to reduce variation in care quality target doctors or hospitals?. <i>Health Policy</i> , 2018, 122, 660-666.	3.0	14
17	Socioeconomic inequality of access to healthcare: Does choice explain the gradient?. <i>Journal of Health Economics</i> , 2018, 57, 290-314.	2.7	91
18	Multidimensional performance assessment of public sector organisations using dominance criteria. <i>Health Economics (United Kingdom)</i> , 2018, 27, e13-e27.	1.7	11

#	ARTICLE	IF	CITATIONS
19	Do care plans and annual reviews of physical health influence unplanned hospital utilisation for people with serious mental illness? Analysis of linked longitudinal primary and secondary healthcare records in England. <i>BMJ Open</i> , 2018, 8, e023135.	1.9	8
20	General practitioners and emergency departments (GPED)â€”efficient models of care: a mixed-methods study protocol. <i>BMJ Open</i> , 2018, 8, e024012.	1.9	12
21	The effect of hospital ownership on quality of care: Evidence from England. <i>Journal of Economic Behavior and Organization</i> , 2018, 153, 322-344.	2.0	21
22	Identifying positive deviants in healthcare quality and safety: a mixed methods study. <i>Journal of the Royal Society of Medicine</i> , 2018, 111, 276-291.	2.0	18
23	Hospital Surgical Volumes and Mortality after Coronary Artery Bypass Grafting: Using International Comparisons to Determine a Safe Threshold. <i>Health Services Research</i> , 2017, 52, 863-878.	2.0	43
24	In the modern era of percutaneous coronary intervention: Is cardiac rehabilitation engagement purely a patient or a service level decision?. <i>European Journal of Preventive Cardiology</i> , 2017, 24, 1351-1357.	1.8	19
25	Use of large-scale HRQoL datasets to generate individualised predictions and inform patients about the likely benefit of surgery. <i>Quality of Life Research</i> , 2017, 26, 2497-2505.	3.1	18
26	Waiting time prioritisation: Evidence from England. <i>Social Science and Medicine</i> , 2016, 159, 140-151.	3.8	31
27	Location, quality and choice of hospital: Evidence from England 2002â€”2013. <i>Regional Science and Urban Economics</i> , 2016, 60, 112-124.	2.6	50
28	Choice of hospital: Which type of quality matters?. <i>Journal of Health Economics</i> , 2016, 50, 230-246.	2.7	104
29	Addressing Missing Data in Patientâ€”Reported Outcome Measures (PROMS): Implications for the Use of PROMS for Comparing Provider Performance. <i>Health Economics (United Kingdom)</i> , 2016, 25, 515-528.	1.7	44
30	Determinants of hospital length of stay for people with serious mental illness in England and implications for payment systems: a regression analysis. <i>BMC Health Services Research</i> , 2015, 15, 439.	2.2	40
31	Socioeconomic inequality in hip replacement in four European countries from 2002 to 2009--area-level analysis of hospital data. <i>European Journal of Public Health</i> , 2015, 25, 21-27.	0.3	18
32	Does the quality and outcomes framework reduce psychiatric admissions in people with serious mental illness? A regression analysis. <i>BMJ Open</i> , 2015, 5, e007342-e007342.	1.9	15
33	Comparing the performance of the Charlson/Deyo and Elixhauser comorbidity measures across five European countries and three conditions. <i>European Journal of Public Health</i> , 2015, 25, 15-20.	0.3	60
34	Comparing hospital performance within and across countries: an illustrative study of coronary artery bypass graft surgery in England and Spain. <i>European Journal of Public Health</i> , 2015, 25, 28-34.	0.3	25
35	Comparison of pre- and post-operative health-related quality of life and length of stay after primary total hip replacement in matched English and German patient cohorts. <i>Quality of Life Research</i> , 2015, 24, 513-520.	3.1	13
36	Should English healthcare providers be penalised for failing to collect patient-reported outcome measures? A retrospective analysis. <i>Journal of the Royal Society of Medicine</i> , 2015, 108, 304-316.	2.0	15

#	ARTICLE	IF	CITATIONS
37	The determinants of dentists' productivity and the measurement of output. <i>Social Science and Medicine</i> , 2015, 124, 76-84.	3.8	3
38	Do higher primary care practice performance scores predict lower rates of emergency admissions for persons with serious mental illness? An analysis of secondary panel data. <i>Health Services and Delivery Research</i> , 2015, 3, 1-68.	1.4	6
39	Hospital admissions for severe mental illness in England: Changes in equity of utilisation at the small area level between 2006 and 2010. <i>Social Science and Medicine</i> , 2014, 120, 243-251.	3.8	16
40	Variations in outcome and costs among NHS providers for common surgical procedures: econometric analyses of routinely collected data. <i>Health Services and Delivery Research</i> , 2014, 2, 1-90.	1.4	20
41	TRULY INEFFICIENT OR PROVIDING BETTER QUALITY OF CARE? ANALYSING THE RELATIONSHIP BETWEEN RISK-ADJUSTED HOSPITAL COSTS AND PATIENTS' HEALTH OUTCOMES. <i>Health Economics (United Kingdom)</i> , 2013, 22, 931-947.	1.7	40
42	Hospital Variation in Patient-Reported Outcomes at the Level of EQ-5D Dimensions. <i>Medical Decision Making</i> , 2013, 33, 804-818.	2.4	39
43	Amputations in PAD patients: Data from the German Federal Statistical Office. <i>Vascular Medicine</i> , 2010, 15, 9-14.	1.5	19
