#	Paper	IF	Citations
243	Obesity and the metabolic syndrome in developing countries. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2008 , 93, S9-30	5.6	657
242	Consensus statement for diagnosis of obesity, abdominal obesity and the metabolic syndrome for Asian Indians and recommendations for physical activity, medical and surgical management. <i>Journal of the Association of Physicians of India, The</i> , 2009 , 57, 163-70	0.4	443
241	Childhood obesity in developing countries: epidemiology, determinants, and prevention. <i>Endocrine Reviews</i> , 2012 , 33, 48-70	27.2	366
240	Diabetes in COVID-19: Prevalence, pathophysiology, prognosis and practical considerations. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 303-310	8.9	336
239	Clinical considerations for patients with diabetes in times of COVID-19 epidemic. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 211-212	8.9	299
238	BMI does not accurately predict overweight in Asian Indians in northern India. <i>British Journal of Nutrition</i> , 2001 , 86, 105-12	3.6	280
237	Chloroquine and hydroxychloroquine in the treatment of COVID-19 with or without diabetes: A systematic search and a narrative review with a special reference to India and other developing countries. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 241-246	8.9	267
236	Mucormycosis in COVID-19: A systematic review of cases reported worldwide and in India. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2021 , 15, 102146	8.9	267
235	Prevalence and trends of metabolic syndrome among adults in the asia-pacific region: a systematic review. <i>BMC Public Health</i> , 2017 , 17, 101	4.1	260
234	Obesity-related non-communicable diseases: South Asians vs White Caucasians. <i>International Journal of Obesity</i> , 2011 , 35, 167-87	5.5	251
233	Insulin resistance syndrome (metabolic syndrome) and obesity in Asian Indians: evidence and implications. <i>Nutrition</i> , 2004 , 20, 482-91	4.8	249
232	High prevalence of diabetes, obesity and dyslipidaemia in urban slum population in northern India. <i>International Journal of Obesity</i> , 2001 , 25, 1722-9	5.5	249
231	The metabolic syndrome in South Asians: epidemiology, determinants, and prevention. <i>Metabolic Syndrome and Related Disorders</i> , 2009 , 7, 497-514	2.6	224
230	Obesity, the metabolic syndrome, and type 2 diabetes in developing countries: role of dietary fats and oils. <i>Journal of the American College of Nutrition</i> , 2010 , 29, 289S-301S	3.5	199
229	Clinical and pathophysiological consequences of abdominal adiposity and abdominal adipose tissue depots. <i>Nutrition</i> , 2003 , 19, 457-66	4.8	198
228	Migration and its impact on adiposity and type 2 diabetes. <i>Nutrition</i> , 2007 , 23, 696-708	4.8	187
227	Waist circumference cutoff points and action levels for Asian Indians for identification of abdominal obesity. <i>International Journal of Obesity</i> , 2006 , 30, 106-11	5.5	182

226	Waist circumference criteria for the diagnosis of abdominal obesity are not applicable uniformly to all populations and ethnic groups. <i>Nutrition</i> , 2005 , 21, 969-76	4.8	179
225	Nutrition transition in India: secular trends in dietary intake and their relationship to diet-related non-communicable diseases. <i>Journal of Diabetes</i> , 2011 , 3, 278-92	3.8	157
224	South Asian diets and insulin resistance. <i>British Journal of Nutrition</i> , 2009 , 101, 465-73	3.6	140
223	Obesity and dyslipidemia in South Asians. <i>Nutrients</i> , 2013 , 5, 2708-33	6.7	138
222	Dietary and nutritional approaches for prevention and management of type 2 diabetes. <i>BMJ, The</i> , 2018 , 361, k2234	5.9	137
221	Effect of supervised progressive resistance-exercise training protocol on insulin sensitivity, glycemia, lipids, and body composition in Asian Indians with type 2 diabetes. <i>Diabetes Care</i> , 2008 , 31, 1282-7	14.6	131
220	Telemedicine for diabetes care in India during COVID19 pandemic and national lockdown period: Guidelines for physicians. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 273-276	8.9	123
219	High prevalence of insulin resistance in postpubertal Asian Indian children is associated with adverse truncal body fat patterning, abdominal adiposity and excess body fat. <i>International Journal of Obesity</i> , 2004 , 28, 1217-26	5.5	118
218	Comorbidities in COVID-19: Outcomes in hypertensive cohort and controversies with renin angiotensin system blockers. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 283-287	8.9	116
217	Effects of controlled school-based multi-component model of nutrition and lifestyle interventions on behavior modification, anthropometry and metabolic risk profile of urban Asian Indian adolescents in North India. <i>European Journal of Clinical Nutrition</i> , 2010 , 64, 364-73	5.2	116
216	Estimation of effects of nationwide lockdown for containing coronavirus infection on worsening of glycosylated haemoglobin and increase in diabetes-related complications: A simulation model using multivariate regression analysis. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 319-323	8.9	113
215	An evaluation of candidate definitions of the metabolic syndrome in adult Asian Indians. <i>Diabetes Care</i> , 2005 , 28, 398-403	14.6	110
214	Revisions of cutoffs of body mass index to define overweight and obesity are needed for the Asian-ethnic groups. <i>International Journal of Obesity</i> , 2003 , 27, 1294-6	5.5	107
213	Correlations of C-reactive protein levels with anthropometric profile, percentage of body fat and lipids in healthy adolescents and young adults in urban North India. <i>Atherosclerosis</i> , 2003 , 168, 305-13	3.1	107
212	Effects of nationwide lockdown during COVID-19 epidemic on lifestyle and other medical issues of patients with type 2 diabetes in north India. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 917-920	8.9	103
211	Younger age of escalation of cardiovascular risk factors in Asian Indian subjects. <i>BMC Cardiovascular Disorders</i> , 2009 , 9, 28	2.3	98
210	Effects of pistachio nuts on body composition, metabolic, inflammatory and oxidative stress parameters in Asian Indians with metabolic syndrome: a 24-wk, randomized control trial. <i>Nutrition</i> , 2014 , 30, 192-7	4.8	97
209	Epidemiology and determinants of type 2 diabetes in south Asia. <i>Lancet Diabetes and Endocrinology</i> , 2018 , 6, 966-978	18.1	89

208	Improvement in nutrition-related knowledge and behaviour of urban Asian Indian school children: findings from the Medical education for children/Adolescents for Realistic prevention of obesity and diabetes and for healthy ageing (MARG) intervention study. <i>British Journal of Nutrition</i> , 2010 , 104, 427-36	3.6	86
207	COVID-19 pandemic and challenges for socio-economic issues, healthcare and National Health Programs in India. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 757-759	8.9	85
206	Hyperhomocysteinemia, and low intakes of folic acid and vitamin B12 in urban North India. <i>European Journal of Nutrition</i> , 2002 , 41, 68-77	5.2	84
205	Diabetes and COVID-19: evidence, current status and unanswered research questions. <i>European Journal of Clinical Nutrition</i> , 2020 , 74, 864-870	5.2	83
204	Contentious issues and evolving concepts in the clinical presentation and management of patients with COVID-19 infection with reference to use of therapeutic and other drugs used in Co-morbid diseases (Hypertension, diabetes etc). <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 251-254	8.9	81
203	Physical activity patterns among South-Asian adults: a systematic review. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013 , 10, 116	8.4	81
202	Diabetes, cardiovascular disease, and chronic kidney disease in South Asia: current status and future directions. <i>BMJ, The</i> , 2017 , 357, j1420	5.9	77
201	Sugar intake, obesity, and diabetes in India. <i>Nutrients</i> , 2014 , 6, 5955-74	6.7	75
200	Consensus physical activity guidelines for Asian Indians. <i>Diabetes Technology and Therapeutics</i> , 2012 , 14, 83-98	8.1	72
199	Consensus dietary guidelines for healthy living and prevention of obesity, the metabolic syndrome, diabetes, and related disorders in Asian Indians. <i>Diabetes Technology and Therapeutics</i> , 2011 , 13, 683-94	8.1	70
198	Adverse profile of dietary nutrients, anthropometry and lipids in urban slum dwellers of northern India. <i>European Journal of Clinical Nutrition</i> , 2001 , 55, 727-34	5.2	70
197	Correlation of regional cardiovascular disease mortality in India with lifestyle and nutritional factors. <i>International Journal of Cardiology</i> , 2006 , 108, 291-300	3.2	65
196	Diabetes in South Asians. <i>Diabetic Medicine</i> , 2014 , 31, 1153-62	3.5	63
195	Subcutaneous abdominal adipose tissue is associated with the metabolic syndrome in Asian Indians independent of intra-abdominal and total body fat. <i>Heart</i> , 2010 , 96, 579-83	5.1	62
194	Diabetes in developing countries. <i>Journal of Diabetes</i> , 2019 , 11, 522-539	3.8	61
193	The high burden of obesity and abdominal obesity in urban Indian schoolchildren: a multicentric study of 38,296 children. <i>Annals of Nutrition and Metabolism</i> , 2011 , 58, 203-11	4.5	60
192	Adiponectin, insulin resistance, and C-reactive protein in postpubertal Asian Indian adolescents. <i>Metabolism: Clinical and Experimental</i> , 2004 , 53, 1336-41	12.7	60
191	Effect of a 6-month intervention with cooking oils containing a high concentration of monounsaturated fatty acids (olive and canola oils) compared with control oil in male Asian Indians with nonalcoholic fatty liver disease. <i>Diabetes Technology and Therapeutics</i> , 2014 , 16, 255-61	8.1	59

190	Impact of COVID-19 and comorbidities on health and economics: Focus on developing countries and India. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 1625-1630	8.9	57
189	Overview of trans fatty acids: biochemistry and health effects. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2011 , 5, 161-4	8.9	56
188	Effect of heating/reheating of fats/oils, as used by Asian Indians, on trans fatty acid formation. <i>Food Chemistry</i> , 2016 , 212, 663-70	8.5	51
187	A review of the epidemiology of diabetes in rural India. <i>Diabetes Research and Clinical Practice</i> , 2011 , 92, 303-11	7.4	51
186	Breakthrough COVID19 infections after vaccinations in healthcare and other workers in a chronic care medical facility in New Delhi, India. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2021 , 15, 1007-1008	8.9	51
185	Effect of oral cinnamon intervention on metabolic profile and body composition of Asian Indians with metabolic syndrome: a randomized double-blind control trial. <i>Lipids in Health and Disease</i> , 2017 , 16, 113	4.4	48
184	Metabolic syndrome in children: current issues and South Asian perspective. <i>Nutrition</i> , 2007 , 23, 895-910	4.8	48
183	COVID-19 in people living with diabetes: An international consensus. <i>Journal of Diabetes and Its Complications</i> , 2020 , 34, 107671	3.2	46
182	Resistance training for obese, type 2 diabetic adults: a review of the evidence. <i>Obesity Reviews</i> , 2010 , 11, 740-9	10.6	45
181	Obesity, Diabetes and Cardiovascular Diseases in India: Public Health Challenges. <i>Current Diabetes Reviews</i> , 2017 , 13, 65-80	2.7	45
180	COVID-19 vaccination in patients with diabetes mellitus: Current concepts, uncertainties and challenges. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2021 , 15, 505-508	8.9	44
179	Non-alcoholic fatty liver disease is closely associated with sub-clinical inflammation: a case-control study on Asian Indians in North India. <i>PLoS ONE</i> , 2013 , 8, e49286	3.7	43
178	Correlates of Type 2 diabetes mellitus in children, adolescents and young adults in north India: a multisite collaborative case-control study. <i>Diabetic Medicine</i> , 2006 , 23, 293-8	3.5	42
177	Proton magnetic resonance spectroscopy study of soleus muscle in non-obese healthy and Type 2 diabetic Asian Northern Indian males: high intramyocellular lipid content correlates with excess body fat and abdominal obesity. <i>Diabetic Medicine</i> , 2003 , 20, 361-7	3.5	42
176	Increase in the risk of type 2 diabetes during lockdown for the COVID19 pandemic in India: A cohort analysis. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 949-952	8.9	41
175	C-reactive protein and dietary nutrients in urban Asian Indian adolescents and young adults. <i>Nutrition</i> , 2006 , 22, 865-71	4.8	41
174	Abdominal obesity and type 2 diabetes in Asian Indians: dietary strategies including edible oils, cooking practices and sugar intake. <i>European Journal of Clinical Nutrition</i> , 2017 , 71, 850-857	5.2	40
173	Effect of Almond Supplementation on Glycemia and Cardiovascular Risk Factors in Asian Indians in North India with Type 2 Diabetes Mellitus: A 24-Week Study. <i>Metabolic Syndrome and Related Disorders</i> , 2017 , 15, 98-105	2.6	40

172	Recent trends in epidemiology of dyslipidemias in India. <i>Indian Heart Journal</i> , 2017 , 69, 382-392	1.6	39
171	Dyslipidemia in Asian Indians: determinants and significance. <i>Journal of the Association of Physicians of India, The</i> , 2004 , 52, 137-42	0.4	39
170	Determinants of urban-rural differences in cardiovascular risk factors in middle-aged women in India: a cross-sectional study. <i>International Journal of Cardiology</i> , 2013 , 163, 157-62	3.2	38
169	Risk factors for atherosclerosis in young individuals. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2000 , 7, 215-29		38
168	C-reactive protein in young individuals: problems and implications for Asian Indians. <i>Nutrition</i> , 2004 , 20, 478-81	4.8	37
167	Obesity in South Asia: Phenotype, Morbidities, and Mitigation. <i>Current Obesity Reports</i> , 2019 , 8, 43-52	8.4	36
166	Independent associations of low 25 hydroxy vitamin D and high parathyroid hormonal levels with nonalcoholic fatty liver disease in Asian Indians residing in north India. <i>Atherosclerosis</i> , 2013 , 230, 157-63 ^{3.1}		36
165	Body Fat Patterning, Hepatic Fat and Pancreatic Volume of Non-Obese Asian Indians with Type 2 Diabetes in North India: A Case-Control Study. <i>PLoS ONE</i> , 2015 , 10, e0140447	3.7	36
164	Obesity and the metabolic syndrome in developing countries: focus on South Asians. <i>Nestle Nutrition Institute Workshop Series</i> , 2014 , 78, 133-40	1.9	36
163	Overweight, obesity and related non-communicable diseases in Asian Indian girls and women. <i>European Journal of Clinical Nutrition</i> , 2013 , 67, 688-96	5.2	36
162	Simple anthropometric measures identify fasting hyperinsulinemia and clustering of cardiovascular risk factors in Asian Indian adolescents. <i>Metabolism: Clinical and Experimental</i> , 2006 , 55, 1569-73	12.7	36
161	The role of lipids in the development of diabetic microvascular complications: implications for therapy. <i>American Journal of Cardiovascular Drugs</i> , 2003 , 3, 325-38	4	36
160	Consensus statement on management of dyslipidemia in Indian subjects. <i>Indian Heart Journal</i> , 2014 , 66 Suppl 3, S1-51	1.6	35
159	Association of the Myostatin gene with obesity, abdominal obesity and low lean body mass and in non-diabetic Asian Indians in north India. <i>PLoS ONE</i> , 2012 , 7, e40977	3.7	35
158	Appropriate values of adiposity and lean body mass indices to detect cardiovascular risk factors in Asian Indians. <i>Diabetes Technology and Therapeutics</i> , 2011 , 13, 899-906	8.1	34
157	Management of obesity in adult Asian Indians. <i>Indian Heart Journal</i> , 2017 , 69, 539-544	1.6	33
156	Dietary intakes and familial correlates of overweight/obesity: a four-cities study in India. <i>Annals of Nutrition and Metabolism</i> , 2013 , 62, 279-90	4.5	33
155	A case-control study on insulin resistance, metabolic co-variates & prediction score in non-alcoholic fatty liver disease. <i>Indian Journal of Medical Research</i> , 2009 , 129, 285-92	2.9	33

154	Body fat, metabolic syndrome and hyperglycemia in South Asians. <i>Journal of Diabetes and Its Complications</i> , 2018 , 32, 1068-1075	3.2	32
153	Genetic variation in the patatin-like phospholipase domain-containing protein-3 (PNPLA-3) gene in Asian Indians with nonalcoholic fatty liver disease. <i>Metabolic Syndrome and Related Disorders</i> , 2013 , 11, 329-35	2.6	32
152	Body mass index and waist circumference cut-points in multi-ethnic populations from the UK and India: the ADDITION-Leicester, Jaipur heart watch and New Delhi cross-sectional studies. <i>PLoS ONE</i> , 2014 , 9, e90813	3.7	31
151	Epidemiology of microvascular complications of diabetes in South Asians and comparison with other ethnicities. <i>Journal of Diabetes</i> , 2016 , 8, 470-82	3.8	29
150	Investigation of hepatic gluconeogenesis pathway in non-diabetic Asian Indians with non-alcoholic fatty liver disease using in vivo ((31)P) phosphorus magnetic resonance spectroscopy. <i>Atherosclerosis</i> , 2009 , 203, 291-7	3.1	29
149	Effect of high-protein meal replacement on weight and cardiometabolic profile in overweight/obese Asian Indians in North India. <i>British Journal of Nutrition</i> , 2017 , 117, 1531-1540	3.6	28
148	Doctors and healthcare workers at frontline of COVID 19 epidemic: Admiration, a pat on the back, and need for extreme caution. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 255-256	8.9	26
147	Prevention of type 2 diabetes: the long and winding road. <i>Lancet, The</i> , 2009 , 374, 1655-6	4.0	26
146	Disparities in Prevalence of Cardiometabolic Risk Factors in Rural, Urban-Poor, and Urban-Middle Class Women in India. <i>PLoS ONE</i> , 2016 , 11, e0149437	3.7	26
145	Clinical management of type 2 diabetes in south Asia. <i>Lancet Diabetes and Endocrinology, the</i> , 2018 , 6, 979-991	18.1	26
144	Extensive intra-tumor heterogeneity in primary human glial tumors as a result of locus non-specific genomic alterations. <i>Journal of Neuro-Oncology</i> , 2000 , 48, 1-12	4.8	25
143	COVID19 in South Asians/Asian Indians: Heterogeneity of data and implications for pathophysiology and research. <i>Diabetes Research and Clinical Practice</i> , 2020 , 165, 108267	7.4	24
142	The benefits of yoga practice compared to physical exercise in the management of type 2 Diabetes Mellitus: A systematic review and meta-analysis. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2018 , 12, 795-805	8.9	24
141	Socioeconomic factors relating to diabetes and its management in India. <i>Journal of Diabetes</i> , 2016 , 8, 12-23	3.8	24
140	Anthropometry and body composition in northern Asian Indian patients with type 2 diabetes: receiver operating characteristics (ROC) curve analysis of body mass index with percentage body fat as standard. <i>Diabetes, Nutrition & Metabolism</i> , 2003 , 16, 32-40		24
139	Association of peroxisome proliferator activated receptor- β gene with non-alcoholic fatty liver disease in Asian Indians residing in north India. <i>Gene</i> , 2013 , 512, 143-7	3.8	23
138	Impact of intensive school-based nutrition education and lifestyle interventions on insulin resistance, β cell function, disposition index, and subclinical inflammation among Asian Indian adolescents: a controlled intervention study. <i>Metabolic Syndrome and Related Disorders</i> , 2011 , 9, 143-50	2.6	23
137	Associations of B08G/APolymorphism of Tumor Necrosis Factor(TNF) β gene and Serum TNF- β levels with Measures of Obesity, Intra-Abdominal and Subcutaneous Abdominal Fat, Subclinical Inflammation and Insulin Resistance in Asian Indians in North India. <i>Disease Markers</i> , 2011 , 31, 39-46	3.2	22

136	Secular trends in obesity, regional adiposity and metabolic parameters among Asian Indian adolescents in north India: a comparative data analysis of two selective samples 5 years apart (2003, 2008). <i>Annals of Nutrition and Metabolism</i> , 2010 , 56, 176-81	4.5	22
135	Cutoffs of abdominal adipose tissue compartments as measured by magnetic resonance imaging for detection of cardiovascular risk factors in apparently healthy adult Asian Indians in North India. <i>Metabolic Syndrome and Related Disorders</i> , 2010 , 8, 243-7	2.6	22
134	Public health and health systems: implications for the prevention and management of type 2 diabetes in south Asia. <i>Lancet Diabetes and Endocrinology</i> , 2018 , 6, 992-1002	18.1	22
133	Type 2 diabetes mellitus, metabolic syndrome, and mixed dyslipidemia: how similar, how different, and how to treat?. <i>Metabolic Syndrome and Related Disorders</i> , 2015 , 13, 1-21	2.6	21
132	Difference in prevalence of diabetes, obesity, metabolic syndrome and associated cardiovascular risk factors in a rural area of Tamil Nadu and an urban area of Delhi. <i>International Journal of Diabetes in Developing Countries</i> , 2011 , 31, 82-90	0.8	21
131	Proton magnetic resonance spectroscopy and biochemical investigation of type 2 diabetes mellitus in Asian Indians: observation of high muscle lipids and C-reactive protein levels. <i>Magnetic Resonance Imaging</i> , 2009 , 27, 94-100	3.3	20
130	Suggested use of vaccines in diabetes. <i>Indian Journal of Endocrinology and Metabolism</i> , 2012 , 16, 886-93	1.7	20
129	Dietary nutrients and insulin resistance in urban Asian Indian adolescents and young adults. <i>Annals of Nutrition and Metabolism</i> , 2008 , 52, 145-51	4.5	20
128	Primary breast lymphoma. <i>Journal of Surgical Oncology</i> , 1991 , 47, 265-70	2.8	20
127	Nutrition Transition and Obesity Among Teenagers and Young Adults in South Asia. <i>Current Diabetes Reviews</i> , 2017 , 13, 444-451	2.7	20
126	Effects of 3g of soluble fiber from oats on lipid levels of Asian Indians - a randomized controlled, parallel arm study. <i>Lipids in Health and Disease</i> , 2017 , 16, 71	4.4	19
125	Trends in prevalence of coronary risk factors in an urban Indian population: Jaipur Heart Watch-4. <i>Indian Heart Journal</i> , 2007 , 59, 346-53	1.6	19
124	Population-based intervention for cardiovascular diseases related knowledge and behaviours in Asian Indian women. <i>Indian Heart Journal</i> , 2013 , 65, 40-7	1.6	18
123	Vitamin D insufficiency is associated with abdominal obesity in urban Asian Indians without diabetes in North India. <i>Diabetes Technology and Therapeutics</i> , 2014 , 16, 392-7	8.1	18
122	Migrating husbands and changing cardiovascular risk factors in the wife: a cross sectional study in Asian Indian women. <i>Journal of Epidemiology and Community Health</i> , 2012 , 66, 881-9	5.1	18
121	Non-obese hyperlipidemic Asian northern Indian males have adverse anthropometric profile. <i>Nutrition, Metabolism and Cardiovascular Diseases</i> , 2002 , 12, 178-83	4.5	18
120	High body fat and low muscle mass are associated with increased arterial stiffness in Asian Indians in North India. <i>Journal of Diabetes and Its Complications</i> , 2015 , 29, 38-43	3.2	17
119	Glycemic parameters in patients with new-onset diabetes during COVID-19 pandemic are more severe than in patients with new-onset diabetes before the pandemic: NOD COVID India Study. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2021 , 15, 215-220	8.9	17

118	Leptin, its receptor and obesity. <i>Journal of Investigative Medicine</i> , 1996 , 44, 540-8	2.9	17
117	C-reactive protein, obesity, and insulin resistance in postmenopausal women in urban slums of North India. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2007 , 1, 83-89	8.9	16
116	Alteration of a sequence with homology to human endogenous retrovirus (HERV-K) in primary human glioma: implications for viral repeat mediated rearrangement. <i>Mutation Research - Fundamental and Molecular Mechanisms of Mutagenesis</i> , 2001 , 484, 53-9	3.3	16
115	The chemical exposome of type 2 diabetes mellitus: Opportunities and challenges in the omics era. <i>Diabetes and Metabolic Syndrome: Clinical Research and Reviews</i> , 2020 , 14, 23-38	8.9	16
