

Tae-Hwan Yoon

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3764650/tae-hwan-yoon-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
20	Effect of Medial Open-Wedge High Tibial Osteotomy on the Patellofemoral Joint According to Postoperative Realignment. <i>American Journal of Sports Medicine</i> , 2019 , 47, 1863-1873	6.8	15
19	Efficacy of combined osteotomy and ulnar nerve transposition for cubitus valgus with ulnar nerve palsy in adults. <i>Clinical Orthopaedics and Related Research</i> , 2013 , 471, 3244-50	2.2	14
18	Clinical outcomes of minimally invasive open reduction and internal fixation by screw and washer for displaced greater tuberosity fracture of the humerus. <i>Journal of Shoulder and Elbow Surgery</i> , 2018 , 27, e173-e177	4.3	9
17	Clinical and diagnostic outcomes in arthroscopic treatment for posterolateral plicae impingement within the radiocapitellar joint. <i>Medicine (United States)</i> , 2019 , 98, e15497	1.8	8
16	An intact subscapularis tendon and compensatory teres minor hypertrophy yield lower failure rates for non-operative treatment of irreparable, massive rotator cuff tears. <i>Knee Surgery, Sports Traumatology, Arthroscopy</i> , 2019 , 27, 3240-3245	5.5	7
15	Arthroscopic Repair of Large and Massive Rotator Cuff Tears: Complete Repair with Aggressive Release Compared with Partial Repair Alone at a Minimum Follow-up of 5 Years. <i>Journal of Bone and Joint Surgery - Series A</i> , 2020 , 102, 1248-1254	5.6	6
14	Does an "Off-Track" Hill-Sachs Lesion That Is Misclassified as "Non-Engaging" Affect Outcomes From Bankart Repair Alone Compared With Bankart Repair Combined With Remplissage?. <i>Arthroscopy - Journal of Arthroscopic and Related Surgery</i> , 2021 , 37, 450-456	5.4	6
13	Arthroscopic gel-type autologous chondrocyte implantation presents histologic evidence of regenerating hyaline-like cartilage in the knee with articular cartilage defect. <i>Knee Surgery, Sports Traumatology, Arthroscopy</i> , 2020 , 28, 941-951	5.5	4
12	Bone Marrow Stimulation in Arthroscopic Repair for Large to Massive Rotator Cuff Tears With Incomplete Footprint Coverage. <i>American Journal of Sports Medicine</i> , 2020 , 48, 3322-3327	6.8	2
11	Attrition of rotator cuff without progression to tears during 2-5 years of conservative treatment for impingement syndrome. <i>Archives of Orthopaedic and Trauma Surgery</i> , 2019 , 139, 377-382	3.6	2
10	Clinical Outcomes for Isolated Subscapularis Tears With Advanced Fatty Infiltration: Nonoperative Treatment Versus Arthroscopic Single-Row Repair. <i>Orthopaedic Journal of Sports Medicine</i> , 2021 , 9, 2325-2332	3.5	2
9	Is there relationship between brain atrophy and higher incidence of hip fracture in old age?--A preliminary study. <i>Yonsei Medical Journal</i> , 2013 , 54, 1511-5	3	1
8	Arthroscopic Revision Rotator Cuff Repair: The Role of Previously Neglected Subscapularis Tears. <i>American Journal of Sports Medicine</i> , 2021 , 49, 3952-3958	6.8	1
7	Biomechanical evaluation of a modified proximal humeral locking plate application for distal extra-articular diaphyseal humeral fractures. <i>Journal of Orthopaedic Research</i> , 2021 , 39, 1877-1883	3.8	1
6	Anterior rotator cable disruption does not affect outcomes in rotator cuff tear with subscapularis involvement. <i>Knee Surgery, Sports Traumatology, Arthroscopy</i> , 2021 , 29, 154-161	5.5	1
5	Association Between Excessive Joint Laxity and a Wider Hill-Sachs Lesion in Anterior Shoulder Instability. <i>American Journal of Sports Medicine</i> , 2021 , 49, 3981-3987	6.8	0
4	Subscapularis re-tears associated with preoperative advanced fatty infiltration and greater subscapularis involvement, leading to inferior functional outcomes and decreased acromiohumeral distance. <i>Knee Surgery, Sports Traumatology, Arthroscopy</i> , 2021 , 29, 2624-2630	5.5	0

3	Anatomic fit of precontoured extra-articular distal humeral locking plates: a cadaveric study. <i>Clinics in Shoulder and Elbow</i> , 2021 , 24, 66-71	0.8	o
2	The Relationship Between Preoperative MRI Findings and Clinical Outcomes in Surgical Treatment of Lumbar Disc Herniation. <i>Journal of Korean Society of Spine Surgery</i> , 2014 , 21, 24	0.2	
1	Incomplete footprint coverage under tension in repair of isolated supraspinatus full-thickness tear. <i>Scientific Reports</i> , 2021 , 11, 7425	4.9
