#	ARTICLE	IF	CITATIONS
1	Effectiveness of a multicomponent intervention to enhance implementation of a healthy canteen policy in Australian primary schools: a randomised controlled trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016, 13, 106.	4.6	105
2	Multi-strategic intervention to enhance implementation of healthy canteen policy: a randomised controlled trial. <i>Implementation Science</i> , 2017, 12, 6.	6.9	73
3	Barriers to implementation of a healthy canteen policy: A survey using the theoretical domains framework. <i>Health Promotion Journal of Australia</i> , 2019, 30, 9-14.	1.2	59
4	Associations Between Digital Health Intervention Engagement, Physical Activity, and Sedentary Behavior: Systematic Review and Meta-analysis. <i>Journal of Medical Internet Research</i> , 2021, 23, e23180.	4.3	48
5	The effectiveness of lunchbox interventions on improving the foods and beverages packed and consumed by children at centre-based care or school: a systematic review and meta-analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 38.	4.6	46
6	CAF��: a multicomponent audit and feedback intervention to improve implementation of healthy food policy in primary school canteens: a randomised controlled trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016, 13, 126.	4.6	39
7	Scale up of a multi-strategic intervention to increase implementation of a school healthy canteen policy: findings of an intervention trial. <i>BMC Public Health</i> , 2018, 18, 860.	2.9	36
8	Implementation of a School Physical Activity Policy Improves Student Physical Activity Levels: Outcomes of a Cluster-Randomized Controlled Trial. <i>Journal of Physical Activity and Health</i> , 2020, 17, 1009-1018.	2.0	35
9	A randomised controlled trial of an intervention to increase the implementation of a healthy canteen policy in Australian primary schools: study protocol. <i>Implementation Science</i> , 2014, 9, 147.	6.9	31
10	Comparing, Contrasting, and Integrating Dissemination and Implementation Outcomes Included in the RE-AIM and Implementation Outcomes Frameworks. <i>Frontiers in Public Health</i> , 2020, 8, 430.	2.7	31
11	Availability of food and beverage items on school canteen menus and association with items purchased by children of primary-school age. <i>Public Health Nutrition</i> , 2018, 21, 2907-2914.	2.2	28
12	Identifying opportunities to develop the science of implementation for community-based non-communicable disease prevention: A review of implementation trials. <i>Preventive Medicine</i> , 2019, 118, 279-285.	3.4	26
13	Validity of four measures in assessing school canteen menu compliance with state��based healthy canteen policy. <i>Health Promotion Journal of Australia</i> , 2016, 27, 215-221.	1.2	25
14	Economic analysis of three interventions of different intensity in improving school implementation of a government healthy canteen policy in Australia: costs, incremental and relative cost effectiveness. <i>BMC Public Health</i> , 2018, 18, 378.	2.9	25
15	A cluster randomised controlled trial of an intervention to increase the implementation of school physical activity policies and guidelines: study protocol for the physically active children in education (PACE) study. <i>BMC Public Health</i> , 2019, 19, 170.	2.9	24
16	A Multicomponent mHealth-Based Intervention (SWAP IT) to Decrease the Consumption of Discretionary Foods Packed in School Lunchboxes: Type I Effectiveness��Implementation Hybrid Cluster Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2021, 23, e25256.	4.3	19
17	CAF��: a multicomponent audit and feedback intervention to improve implementation of healthy food policy in primary school canteens: protocol of a randomised controlled trial. <i>BMJ Open</i> , 2015, 5, e006969.	1.9	17
18	Mechanisms of implementing public health interventions: a pooled causal mediation analysis of randomised trials. <i>Implementation Science</i> , 2018, 13, 42.	6.9	14

#	ARTICLE	IF	CITATIONS
19	Online canteens: awareness, use, barriers to use, and the acceptability of potential online strategies to improve public health nutrition in primary schools. Health Promotion Journal of Australia, 2017, 28, 67-71.	1.2	12
20	Feasibility and principal acceptability of school-based mobile communication applications to disseminate healthy lunchbox messages to parents. Health Promotion Journal of Australia, 2019, 30, 108-113.	1.2	12
21	A cross-sectional study of the nutritional quality of student canteen purchases from New South Wales primary-school canteens. Public Health Nutrition, 2019, 22, 3092-3100.	2.2	12
22	Interventions to Improve Child Physical Activity in the Early Childhood Education and Care Setting: An Umbrella Review. International Journal of Environmental Research and Public Health, 2022, 19, 1963.	2.6	11
23	Effectiveness of a dissemination strategy on the uptake of an online menu planning program: A controlled trial. Health Promotion Journal of Australia, 2019, 30, 20-25.	1.2	10
24	Cluster randomised controlled trial of an online intervention to improve healthy food purchases from primary school canteens: a study protocol of the "click & crunch" trial. BMJ Open, 2019, 9, e030538.	1.9	9
25	Protocol for an effectiveness-implementation hybrid trial to assess the effectiveness and cost-effectiveness of an m-health intervention to decrease the consumption of discretionary foods packed in school lunchboxes: the "SWAP IT" trial. BMC Public Health, 2019, 19, 1510.	2.9	9
26	Physical Activity Behaviors of Children Who Register for the Universal, State-Wide Active Kids Voucher: Who Did the Voucher Program Reach?. International Journal of Environmental Research and Public Health, 2020, 17, 5691.	2.6	9
27	The Efficacy of Workplace Interventions on Improving the Dietary, Physical Activity and Sleep Behaviours of School and Childcare Staff: A Systematic Review. International Journal of Environmental Research and Public Health, 2020, 17, 4998.	2.6	8
28	Effectiveness of a Multistrategy Behavioral Intervention to Increase the Nutritional Quality of Primary School Students' Web-Based Canteen Lunch Orders (Click & Crunch): Cluster Randomized Controlled Trial. Journal of Medical Internet Research, 2021, 23, e26054.	4.3	8
29	Assessing the potential impact of a front-of-pack nutritional rating system on food availability in school canteens: A randomised controlled trial. Appetite, 2018, 121, 309-315.	3.7	7
30	Healthiness of Food and Beverages for Sale at Two Public Hospitals in New South Wales, Australia. Nutrients, 2018, 10, 216.	4.1	7
31	Two-year follow-up of a randomised controlled trial to assess the sustainability of a school-based intervention to improve the implementation of a school-based nutrition policy. Health Promotion Journal of Australia, 2019, 30, 26-33.	1.2	6
32	A randomised controlled trial of an implementation strategy delivered at scale to increase outdoor free play opportunities in early childhood education and care (ECEC) services: a study protocol for the get outside get active (GOGA) trial. BMC Public Health, 2022, 22, 610.	2.9	6
33	A cluster randomised controlled trial of a secondary school intervention to reduce intake of sugar-sweetened beverages: Mid-intervention impact of switch environmental strategies. Health Promotion Journal of Australia, 2021, , .	1.2	5
34	Secondary school implementation of a healthy eating policy. Health Promotion Journal of Australia, 2021, 32, 21-25.	1.2	5
35	Prevalence of current school-level nutrition policies and practices of secondary schools in NSW, Australia. Health Promotion Journal of Australia, 2021, 32, 216-226.	1.2	5
36	A trial of a six-month sugar-sweetened beverage intervention in secondary schools from a socioeconomically disadvantaged region in Australia. Australian and New Zealand Journal of Public Health, 2021, 45, 599-607.	1.8	5

#	ARTICLE	IF	CITATIONS
37	Enhancing the potential effects of text messages delivered via an m-health intervention to improve packing of healthy school lunchboxes. Public Health Nutrition, 2021, 24, 2867-2876.	2.2	3
38	Investigating differences between traditional (paper bag) ordering and online ordering from primary school canteens: a cross-sectional study comparing menu, usage and lunch order characteristics. Public Health Nutrition, 2021, 24, 2502-2511.	2.2	2
39	Evaluation of a voucher scheme to increase child physical activity in participants of a school physical activity trial in the Hunter region of Australia. BMC Public Health, 2021, 21, 570.	2.9	1
40	Exploring the effect of a school-based cluster-randomised controlled trial to increase the scheduling of physical activity for primary school students on teachers' physical activity. Health Promotion Journal of Australia, 2021, , .	1.2	0
41	An exploratory analysis to identify behavior change techniques of implementation interventions associated with the implementation of healthy canteen policies. Translational Behavioral Medicine, 2021, 11, 1606-1616.	2.4	0
