#	ARTICLE	IF	CITATIONS
1	Time-of-year Variation in Intraocular Pressure. Journal of Glaucoma, 2021, Publish Ahead of Print, 952-962.	1.6	3
2	Even-number Measurement Bias With Goldmann Applanation Tonometry. Journal of Glaucoma, 2020, 29, 124-126.	1.6	6
3	Krukenberg's Spindles Strongly Suggest Long Anterior Zonule Associated Pigment Dispersion Mechanism in Older Patients. , 2020, 61, 8.		6
4	Capsulorhexis challenge with long anterior lens zonules. American Journal of Ophthalmology Case Reports, 2020, 19, 100756.	0.7	2
5	Long Anterior Lens Zonules and Intraocular Pressure. , 2018, 59, 2015.		14
6	Morphologic Patterns Formed by the Anomalous Fibers Occurring Along the Anterior Capsule of the Crystalline Lens in People With the Long Anterior Zonule Trait. Anatomical Record, 2017, 300, 1336-1347.	1.4	10
7	Anterior Chamber Depth, Lens Thickness, and Related Measures in African American Females With Long Anterior Zonules. Journal of Glaucoma, 2016, 25, 45-48.	1.6	4
8	Quantification of long anterior lens zonules and their resulting zonule-free zone sizes. Clinical and Experimental Ophthalmology, 2015, 43, 773-775.	2.6	11
9	Remnants of the Anterior Tunica Vasculosa Lentis and Long Anterior Lens Zonules. Journal of Glaucoma, 2014, 23, 441-445.	1.6	10
10	Cataract surgery in African Americans with long anterior lens zonules. Clinical and Experimental Ophthalmology, 2014, 42, 898-900.	2.6	7
11	Investigating Ocular Dimensions in African Americans With Long Anterior Zonules. Journal of Glaucoma, 2013, 22, 393-397.	1.6	15
12	Multispectral Diagnostic Imaging of the Iris in Pigment Dispersion Syndrome. Journal of Glaucoma, 2012, 21, 351-357.	1.6	4
13	Long anterior lens zonules. Clinical and Experimental Ophthalmology, 2012, 40, 764-766.	2.6	8
14	Quantification of Pupil Parameters in Diseased and Normal Eyes With Near Infrared Iris Transillumination Imaging. Ophthalmic Surgery Lasers and Imaging Retina, 2012, 43, 196-204.	0.7	5
15	Novel Observations and Potential Applications Using Digital Infrared Iris Imaging. Ophthalmic Surgery Lasers and Imaging Retina, 2009, 40, 207-216.	0.7	7
16	Possible Association Between Long Anterior Lens Zonules and Plateau Iris Configuration. Journal of Glaucoma, 2008, 17, 393-396.	1.6	14
17	Infrared Imaging Technique may Help Demonstrate Iris Transillumination Defects in Blacks who Show Other Pigment Dispersion Syndrome Clinical Signs. Journal of Glaucoma, 2007, 16, 440-447.	1.6	13
18	A Cross-Sectional Study of Krukenberg Spindles and Pigmented Lens Striae in a Predominately Black Population. Journal of Glaucoma, 2005, 14, 57-63.	1.6	18

#	ARTICLE	IF	CITATIONS
19	Digital Infrared Photography Assists in the Detection of Iris and Ciliary Body Cysts. <i>Journal of Glaucoma</i> , 2003, 12, 288-291.	1.6	8
20	Digital Camera System to Perform Infrared Photography of Iris Transillumination. <i>Journal of Glaucoma</i> , 2002, 11, 426-428.	1.6	11
21	Prevalence of Pigmented Lens Striae in a Black Population: a Potential Indicator of Age-Related Pigment Dispersal in the Anterior Segment. <i>Optometry and Vision Science</i> , 2002, 79, 681-687.	1.2	23
22	Pigmented Striae of the Anterior Lens Capsule and Age-Associated Pigment Dispersion of Variable Degree in a Group of Older African-Americans: An Age, Race, and Gender Matched Study. <i>International Ophthalmology</i> , 2001, 24, 313-322.	1.4	10
23	Iris Transillumination Defects in the Pigment Dispersion Syndrome as Detected with Infrared Videography: A Comparison Between a Group of Blacks and a Group of Nonblacks. <i>Optometry and Vision Science</i> , 1999, 76, 544-549.	1.2	21
