#	ARTICLE	IF	CITATIONS
1	Timing of neonatal stoma closure: a survey of health professional perspectives and current practice. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 448-450.	2.8	3
2	Outcomes in relation to early parenteral nutrition use in preterm neonates born between 30 and 33 weeks gestation: a propensity score matched observational study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 131-136.	2.8	6
3	Why is Kangaroo Mother Care not yet scaled in the UK? A systematic review and realist synthesis of a frugal innovation for newborn care. BMJ Innovations, 2022, 8, 9-20.	1.7	9
4	Early versus later initiation of parenteral nutrition for very preterm infants: a propensity score-matched observational study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 137-142.	2.8	6
5	Post-natal growth of very preterm neonates – Authors' reply. The Lancet Child and Adolescent Health, 2022, 6, e11.	5.6	0
6	Review of a frugal cooling mattress to induce therapeutic hypothermia for treatment of hypoxic-ischaemic encephalopathy in the UK NHS. Globalization and Health, 2022, 18, 43.	4.9	4
7	Planned delivery or expectant management in preeclampsia: an individual participant data meta-analysis. American Journal of Obstetrics and Gynecology, 2022, 227, 218-230.e8.	1.3	9
8	Changing clinical characteristics of infants treated for hypoxic-ischaemic encephalopathy in England, Wales and Scotland: a population-based study using the National Neonatal Research Database. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2021, 106, 501-508.	2.8	12
9	Increase in the use of inhaled nitric oxide in neonatal intensive care units in England: a retrospective population study. BMJ Paediatrics Open, 2021, 5, e000897.	1.4	5
10	Identification of variation in nutritional practice in neonatal units in England and association with clinical outcomes using agnostic machine learning. Scientific Reports, 2021, 11, 7178.	3.3	10
11	Administration of parenteral nutrition during therapeutic hypothermia: a population level observational study using routinely collected data held in the National Neonatal Research Database. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2021, 106, 608-613.	2.8	4
12	Feeding during neonatal therapeutic hypothermia, assessed using routinely collected National Neonatal Research Database data: a retrospective, UK population-based cohort study. The Lancet Child and Adolescent Health, 2021, 5, 408-416.	5.6	17
13	Nutritional management in newborn babies receiving therapeutic hypothermia: two retrospective observational studies using propensity score matching. Health Technology Assessment, 2021, 25, 1-106.	2.8	4
14	Incorporating parent, former patient and clinician perspectives in the design of a national UK double-cluster, randomised controlled trial addressing uncertainties in preterm nutrition. BMJ Paediatrics Open, 2021, 5, e001112.	1.4	9
15	Comparison of NICE Guideline CG149 and the Sepsis Risk Calculator for the Management of Early-Onset Sepsis on the Postnatal Ward. Neonatology, 2021, 118, 562-568.	2.0	8
16	Birthweight and patterns of postnatal weight gain in very and extremely preterm babies in England and Wales, 2008–19: a cohort study. The Lancet Child and Adolescent Health, 2021, 5, 719-728.	5.6	19
17	Changes in neonatal admissions, care processes and outcomes in England and Wales during the COVID-19 pandemic: a whole population cohort study. BMJ Open, 2021, 11, e054410.	1.9	16
18	Validation of transcutaneous bilirubinometry during phototherapy for detection and monitoring of neonatal jaundice in a low-income setting. Paediatrics and International Child Health, 2020, 40, 25-29.	1.0	12

#	ARTICLE	IF	CITATIONS
19	Challenges in Advancing Necrotizing Enterocolitis Research. Clinics in Perinatology, 2019, 46, 19-27.	2.1	7
20	Optimising nutrition during therapeutic hypothermia. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2019, 104, F230-F231.	2.8	10
21	Developing routinely recorded clinical data from electronic patient records as a national resource to improve neonatal health care: the Medicines for Neonates research programme. Programme Grants for Applied Research, 2019, 7, 1-396.	1.0	17
22	Use of pasteurised human donor milk across neonatal networks in England. Early Human Development, 2018, 118, 32-36.	1.8	16
23	Incidence of neonatal necrotising enterocolitis in high-income countries: a systematic review. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2018, 103, F182-F189.	2.8	173
24	Survival of very preterm infants admitted to neonatal care in England 2008â€“2014: time trends and regional variation. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2018, 103, F208-F215.	2.8	137
25	Study protocol: optimising newborn nutrition during and after neonatal therapeutic hypothermia in the United Kingdom: observational study of routinely collected data using propensity matching. BMJ Open, 2018, 8, e026739.	1.9	9
26	The United Kingdom National Neonatal Research Database: A validation study. PLoS ONE, 2018, 13, e0201815.	2.5	55
27	Incidence and enteral feed antecedents of severe neonatal necrotising enterocolitis across neonatal networks in England, 2012â€“13: a whole-population surveillance study. The Lancet Gastroenterology and Hepatology, 2017, 2, 43-51.	8.1	93
28	Proposed Definition of Necrotizing Enterocolitis May Be of Limited Valueâ€”Reply. JAMA Pediatrics, 2017, 171, 711.	6.2	0
29	Development of a Gestational Ageâ€“Specific Case Definition for Neonatal Necrotizing Enterocolitis. JAMA Pediatrics, 2017, 171, 256.	6.2	82
30	Term admissions to neonatal units in England: a role for transitional care? A retrospective cohort study. BMJ Open, 2017, 7, e016050.	1.9	41
31	The impact of a regional care bundle on maternal breast milk use in preterm infants: outcomes of the East of England quality improvement programme. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2014, 99, F395-F401.	2.8	22
32	G529(P) Enteral feed exposures in preterm infants born less than 32 weeks in England. Archives of Disease in Childhood, 2014, 99, A54-A54.	1.9	0
33	O-045â€¦Incidence And Outcomes Of Severe Necrotising Enterocolitis In Infants Less Than 32 Weeks Gestation: A Prospective Population Study. Archives of Disease in Childhood, 2014, 99, A38.1-A38.	1.9	2
