#	ARTICLE	IF	CITATIONS
1	Association of polymorphisms in pre-miRNA with inflammatory biomarkers in rheumatoid arthritis in the Chinese Han population. <i>Human Immunology</i> , 2012, 73, 101-106.	2.4	77
2	Association of pre-microRNAs genetic variants with susceptibility in systemic lupus erythematosus. <i>Molecular Biology Reports</i> , 2011, 38, 1463-1468.	2.3	42
3	IL-1 β and IL-6 Are Highly Expressed in RF+IgE+ Systemic Lupus Erythematosus Subtype. <i>Journal of Immunology Research</i> , 2017, 2017, 1-8.	2.2	21
4	IL-23R and IL-17A polymorphisms correlate with susceptibility of ankylosing spondylitis in a Southwest Chinese population. <i>Oncotarget</i> , 2017, 8, 70310-70316.	1.8	15
5	Genetic polymorphism of rs9277535 in HLA-DP associated with rheumatoid arthritis and anti-CCP production in a Chinese population. <i>Clinical Rheumatology</i> , 2018, 37, 1799-1805.	2.2	11
6	The Expression of LIGHT Was Increased and the Expression of HVEM and BTLA Were Decreased in the T Cells of Patients with Rheumatoid Arthritis. <i>PLoS ONE</i> , 2016, 11, e0155345.	2.5	11
7	Prevalence of food allergen and aeroallergen sensitization among people in Sichuan, Western China: An 8-year observational study. <i>Journal of Clinical Laboratory Analysis</i> , 2019, 33, e22723.	2.1	8
8	Association of E26 Transformation Specific Sequence 1 Variants with Rheumatoid Arthritis in Chinese Han Population. <i>PLoS ONE</i> , 2015, 10, e0134875.	2.5	8
9	Anti-centrosome antibodies: Prevalence and disease association in Chinese population. <i>Scandinavian Journal of Immunology</i> , 2019, 90, e12803.	2.7	7
10	ETS1 polymorphism rs73013527 in relation to serum RANKL levels among patients with RA. <i>Medicine (United States)</i> , 2021, 100, e24562.	1.0	5
11	Systemic Lupus Erythematosus (SLE) Risk Factors: Novel Proteins Detected From Familial SLE Using Proteomics. <i>Laboratory Medicine</i> , 2009, 40, 408-411.	1.2	4
12	Analysis of inflammation-related microRNA expression in patients with ankylosing spondylitis. <i>Immunologic Research</i> , 2022, 70, 23-32.	2.9	4
13	Association of genetic polymorphisms in IL-23R and IL-17A with the susceptibility to IgA nephropathy in a Chinese Han population. <i>Genes and Immunity</i> , 2022, 23, 33-41.	4.1	4
14	Dense fine speckled immunofluorescence pattern in a Chinese population: Prevalence and clinical association. <i>Journal of Clinical Laboratory Analysis</i> , 2022, 36, e24173.	2.1	3
