#	Article	IF	CITATIONS
1	Use of the Internet as a source of health information amongst participants of antenatal classes. Journal of Clinical Nursing, 2012, 21, 322-330.	3.0	94
2	Lifestyle Interventions to Prevent Type 2 Diabetes: A Systematic Review of Economic Evaluation Studies. Journal of Diabetes Research, 2016, 2016, 1-14.	2.3	50
3	Information needs and Internet use in urological and breast cancer patients. Supportive Care in Cancer, 2014, 22, 545-552.	2.2	46
4	Socio-economic factors linked with mental health during the recession: a multilevel analysis. International Journal for Equity in Health, 2017, 16, 45.	3.5	40
5	Use of the internet as a source of health information by Spanish adolescents. BMC Medical Informatics and Decision Making, 2010, 10, 6.	3.0	39
6	Analysis of changes in trends in the consumption rates of benzodiazepines and benzodiazepine-related drugs. Journal of Pharmaceutical Policy and Practice, 2018, 11, 1.	2.4	32
7	Use of Social Media by Spanish Hospitals: Perceptions, Difficulties, and Success Factors. Telemedicine Journal and E-Health, 2013, 19, 137-145.	2.8	31
8	Direct and indirect costs of diabetes mellitus in Mali: A case-control study. PLoS ONE, 2017, 12, e0176128.	2.5	26
9	Adapting the Content of Cancer Web Sites to the Information Needs of Patients: Reliability and Readability. Telemedicine Journal and E-Health, 2013, 19, 956-966.	2.8	23
10	A cluster-randomized trial to reduce caesarean delivery rates in Quebec: cost-effectiveness analysis. BMC Medicine, 2017, 15, 96.	5.5	19
11	Impact, economic evaluation, and sustainability of integrated vector management in urban settings to prevent vector-borne diseases: a scoping review. Infectious Diseases of Poverty, 2018, 7, 83.	3.7	19
12	Factors related to use of the Internet as a source of health information by urological cancer patients. Supportive Care in Cancer, 2012, 20, 3087-3094.	2.2	18
13	Effectiveness of an intervention to improve diabetes self-management on clinical outcomes in patients with low educational level. Gaceta Sanitaria, 2017, 31, 40-47.	1.5	16
14	Approach to identifying research gaps on vector-borne and other infectious diseases of poverty in urban settings: scoping review protocol from the VERDAS consortium and reflections on the project's implementation. Infectious Diseases of Poverty, 2018, 7, 98.	3.7	15
15	Priorities and needs for research on urban interventions targeting vector-borne diseases: rapid review of scoping and systematic reviews. Infectious Diseases of Poverty, 2016, 5, 104.	3.7	10
16	Barriers and enablers in the implementation of a program to reduce cesarean deliveries. Reproductive Health, 2017, 14, 106.	3.1	10
17	Cost-Effectiveness of Percent Free PSA for Prostate Cancer Detection in Men with a Total PSA of 4–10 ng/ml. Urologia Internationalis, 2007, 79, 336-344.	1.3	8
18	Sex Differences in the Use of the Internet as a Source of Health Information Among Adolescents. Telemedicine Journal and E-Health, 2010, 16, 145-153.	2.8	8

#	Article	IF	CITATIONS
19	Evaluation of quality improvement for cesarean sections programmes through mixed methods. Implementation Science, 2014, 9, 182.	6.9	8
20	Identification of factors associated with diagnostic error in primary care. BMC Family Practice, 2014, 15, 92.	2.9	8
21	Acceptance or decline of requests to review manuscripts: A gender-based approach from a public health journal. Accountability in Research, 2018, 25, 94-108.	2.4	8
22	Factors associated with improvement in disability-adjusted life years in patients with HIV/AIDS. BMC Public Health, 2008, 8, 362.	2.9	6
23	Budget impact of a program for safely reducing caesarean sections in Canada. Midwifery, 2018, 60, 20-26.	2.3	6
24	Caracter $\tilde{A}$ sticas organizativas de la atenci $\tilde{A}$ <sup>3</sup> n primaria y hospitalizaci $\tilde{A}$ <sup>3</sup> n por los principales ambulatory care sensitive conditions. Atencion Primaria, 2004, 33, 305-311.	1.4	5
25	An economic evaluation of two interventions for the prevention of post-surgical infections in cardiac surgery. Revista De Calidad Asistencial: órgano De La Sociedad Española De Calidad Asistencial, 2016, 31, 27-33.	0.3	4
26	Establishing research priorities in prevention and control of vector-borne diseases in urban areas: a collaborative process. Infectious Diseases of Poverty, 2018, 7, 85.	3.7	3
27	Women's Autonomy and the Evaluation of the Information Available on the Internet on Hormone Therapy After Menopause. CIN - Computers Informatics Nursing, 2006, 24, 226-234.	0.5	2
28	Effectiveness of two interventions based on improving patient-practitioner communication on diabetes self-management in patients with low educational level: study protocol of a clustered randomized trial in primary care. BMC Health Services Research, 2013, 13, 433.	2.2	2
29	El uso de las mascarillas en la protección de las infecciones respiratorias: una revisión de revisiones. Enfermedades Infecciosas Y MicrobiologÃa ClÃnica, 2020, , .	0.5	2
