#	ARTICLE	IF	CITATIONS
1	Values at stake at the end of life: Analyses of personal preferences among Swedish physicians. <i>Clinical Ethics</i> , 2023, 18, 239-244.	0.5	0
2	Rawlsian reasoning about fairness at the end of life. <i>BMJ Supportive and Palliative Care</i> , 2023, 13, e1398-e1404.	0.8	0
3	Response to Colombari et al. (2021). <i>International Journal of Legal Medicine</i> , 2022, 136, 393-393.	1.2	0
4	Trust and digital privacy in healthcare: a cross-sectional descriptive study of trust and attitudes towards uses of electronic health data among the general public in Sweden. <i>BMC Medical Ethics</i> , 2022, 23, 19.	1.0	21
5	Interesting data about confessions and AHT, but suboptimal analysis. Commentary to Vinchon et al. <i>Child's Nervous System</i> , 2022, 38, 869-870.	0.6	1
6	Does High-Magnitude Centripetal Force and Abrupt Shift in Tangential Acceleration Explain High Risk of Subdural Hemorrhage?. <i>Neurotrauma Reports</i> , 2022, 3, 248-249.	0.5	0
7	Survey results raise important issues about the ethical aspects of intensive care treatment for extremely preterm infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, 110, 1989-1990.	0.7	0
8	Why Programs for Managing Colicky Crying Fail to Prevent Abusive Head Trauma and Suggestions for Improvement. <i>JAMA Pediatrics</i> , 2021, 175, 671-672.	3.3	6
9	Unsubstantiated belief in the diagnostic accuracy of the triad of abusive head trauma may lead to incorrect diagnoses of alleged abuse cases. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, , .	0.7	5
10	Trends in Swedish physicians' attitudes towards physician-assisted suicide: a cross-sectional study. <i>BMC Medical Ethics</i> , 2021, 22, 86.	1.0	11
11	How to play the final chess match" or at least lose with dignity. <i>Monthly Notices of the Royal Astronomical Society: Letters</i> , 2021, 92, 633-634.	1.2	3
12	Abusive Head Trauma and Infant Crying" A Flawed Analysis" Reply. <i>JAMA Pediatrics</i> , 2021, 175, 1181-1182.	3.3	0
13	Streetlight focus and optimism bias " A bad combination?. <i>European Journal of Radiology</i> , 2021, 143, 109940.	1.2	0
14	Neck Injuries Caused by Delivery Modes? Late Questions to the Matshes et al. <i>Academic Forensic Pathology</i> , 2021, 11, 215-216.	0.3	0
15	How to reveal disguised paternalism: version 2.0. <i>BMC Medical Ethics</i> , 2021, 22, 170.	1.0	2
16	No similarities between the Wakefield report on measles, mumps and rubella vaccine and the Swedish report on traumatic shaking. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2020, 109, 1326-1329.	0.7	2
17	Is there an association between infantile colic and subdural hemorrhage?. <i>Medical Hypotheses</i> , 2020, 144, 110256.	0.8	0
18	Is there a common denominator for Brief Resolved Unexplained Events, Sudden Infant Death Syndrome, and alleged Shaken Baby Syndrome?. <i>Medical Hypotheses</i> , 2020, 144, 109939.	0.8	5

#	ARTICLE	IF	CITATIONS
19	Can Burnout Among Child Abuse Clinicians be Caused by Doubt that They are Doing the Right Thing?. , 2020, 24, .		1
20	Hidden clinical values and overestimation of shaken baby cases. <i>Clinical Ethics</i> , 2019, 14, 151-154.	0.5	3
21	Is Delayed Speech Development a Long-Term Sequela of Birth-Related Subdural Hematoma?. <i>American Journal of Neuroradiology</i> , 2019, 40, E10-E10.	1.2	1
22	Challenges to patient centredness â€“ a comparison of patient and doctor experiences from primary care. <i>BMC Family Practice</i> , 2019, 20, 83.	2.9	19
23	Is the procedure of diagnosing abusive head trauma a purely medical matter?. <i>Pediatric Radiology</i> , 2019, 49, 422-423.	1.1	5
24	Respectful encounters from healthcare professionals and return to work among 9032 long-term sick-listed due to cancer or due to other diagnoses: results from a Swedish population-based survey. <i>Supportive Care in Cancer</i> , 2019, 27, 3555-3561.	1.0	3
25	The Swedish systematic review of traumatic shaking is not flawed and should not be ignored. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2019, 108, 381-381.	0.7	1
26	From Child Protection to Paradigm Protectionâ€”The Genesis, Development, and Defense of a Scientific Paradigm. <i>Journal of Medicine and Philosophy</i> , 2019, 44, 378-390.	0.4	8
27	In order to ensure that evidence is unbiased it is sometimes necessary to retreat to the scientific ivory tower. <i>Forensic Science, Medicine, and Pathology</i> , 2019, 15, 164-164.	0.6	0
28	Consensus should be adapted to the evidence and not viceâ€™versa. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 1476-1476.	0.7	4
29	Vinchonâ€™s responses raise additional questions about the shaken baby-study. <i>Child's Nervous System</i> , 2018, 34, 11-13.	0.6	0
30	Pouring out the dirty bathwater without throwing away either the baby or its parents: commentary to Saunders et al.. <i>Pediatric Radiology</i> , 2018, 48, 284-286.	1.1	8
31	What are the medical indications for providing extremely premature infants with intensive care?. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 196-197.	0.7	3
32	Value-impregnated factual claims may undermine medical decision-making. <i>Clinical Ethics</i> , 2018, 13, 151-158.	0.5	11
33	Traumatic shaking: The role of the triad in medical investigations of suspected traumatic shaking. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 3-23.	0.7	45
34	A diagnostic test can prove anything if you use incorrect assumptions and circular reasoning. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 2051-2053.	0.7	3
35	â€œRight to recommend, wrong to requireâ€• an empirical and philosophical study of the views among physicians and the general public on smoking cessation as a condition for surgery. <i>BMC Medical Ethics</i> , 2018, 19, 2.	1.0	8
36	Easier to see the speck in your critical peersâ€™ eyes than the log in your own? Response to Debelleet al. <i>Archives of Disease in Childhood</i> , 2018, 103, archdischild-2018-315380.	1.0	4

#	ARTICLE	IF	CITATIONS
37	Is focusing on the triad in suspected child abuse cases really irrelevant and of no practical use?. Acta Paediatrica, International Journal of Paediatrics, 2018, 107, 1675-1676.	0.7	10
38	Insufficient evidence for "shaken baby syndrome" a systematic review. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1021-1027.	0.7	104
39	The shaken baby syndrome report was not the result of a conspiracy. Response to Dr. Narang et al.. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1050-1051.	0.7	7
40	A misunderstanding. Response to Dr Bilo et al.. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1046-1046.	0.7	4
41	What are acceptable conclusions? Response to Dr. Ludvigsson. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1032-1032.	0.7	3
42	Questions about isolated traumatic shaking and confessions. Child's Nervous System, 2017, 33, 731-732.	0.6	6
43	Authors' overarching reply to all the responses received to the systematic literature review on shaken baby syndrome. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1031-1031.	0.7	6
44	Conflicts of interest issues. Response to Lucas et al.. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1036-1036.	0.7	3
45	The scientific evidence regarding retinal haemorrhages. Response to Hellgren et al. and Levin. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1041-1042.	0.7	5
46	Is accepting circular reasoning in shaken baby studies bad science or misconduct?. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1445-1446.	0.7	14
47	May the fear of being falsely accused of having shaken a baby increase parents' demands for scheduled Caesareans?. Acta Paediatrica, International Journal of Paediatrics, 2017, 106, 1052-1052.	0.7	6
48	Value-impregnated factual claims and slippery-slope arguments. Medicine, Health Care and Philosophy, 2017, 20, 147-150.	0.9	5
49	Heed or disregard a cancer patient's critical blogging? An experimental study of two different framing strategies. BMC Medical Ethics, 2016, 17, 30.	1.0	3
50	"Are smokers less deserving of expensive treatment? A randomised controlled trial that goes beyond official values". BMC Medical Ethics, 2015, 16, 28.	1.0	12
51	Physicians' practices when frustrating patients' needs: a comparative study of restrictiveness in offering abortion and sedation therapy: Table 1. Journal of Medical Ethics, 2014, 40, 306-309.	1.0	9
52	To treat or not to treat a newborn child with severe brain damage? A cross-sectional study of physicians' and the general population's perceptions of intentions. Medicine, Health Care and Philosophy, 2014, 17, 81-88.	0.9	3
53	Are physicians' estimations of future events value-impregnated? Cross-sectional study of double intentions when providing treatment that shortens a dying patient's life. Medicine, Health Care and Philosophy, 2014, 17, 397-402.	0.9	5
54	Response to Brierley. Journal of Medical Ethics, 2013, 39, 779-779.	1.0	0

#	ARTICLE	IF	CITATIONS
55	Police in an intensive care unit: what can happen?. Journal of Medical Ethics, 2013, 39, 772-775.	1.0	6
56	Duelling with doctors, restoring honour and avoiding shame? A cross-sectional study of sick-listed patients's experiences of negative healthcare encounters with special reference to feeling wronged and shame. Journal of Medical Ethics, 2013, 39, 654-657.	1.0	6
57	What is meant by patient-centredness being value-based?. Scandinavian Journal of Primary Health Care, 2013, 31, 188-189.	0.6	6
58	Shared decision-making in patient-doctor consultations - How does it relate to other patient-centred aspects and satisfaction?. Clinical Ethics, 0, , 147775092110158.	0.5	1
