| #  | ARTICLE                                                                                                                                                                                                                                          | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Long-term treatment of allogeneic adipose-derived stem cells in a dog with rheumatoid arthritis. <i>Journal of Veterinary Science</i> , 2022, 23, .                                                                                              | 0.5 | 2         |
| 2  | Senescence Marker Protein 30 (SMP30): A Novel Pan-Species Diagnostic Marker for the Histopathological Diagnosis of Breast Cancer in Humans and Animals. <i>International Journal of Molecular Sciences</i> , 2021, 22, 2340.                     | 1.8 | 3         |
| 3  | Dataset of Swimming behavioral alterations in <i>Danio rerio</i> by <i>Nemopilema nomurai</i> jellyfish venom. <i>Data in Brief</i> , 2021, 34, 106721.                                                                                          | 0.5 | 2         |
| 4  | Corrigendum to “ <i>Danio rerio</i> as an alternative vertebrate model for jellyfish venom study: The toxinological aspects of <i>Nemopilema nomurai</i> venom” [Toxicol. Lett. 335 (2020) 91-97]. <i>Toxicology Letters</i> , 2021, 339, 20-22. | 0.4 | 1         |
| 5  | Mesenchymal Stem Cell and MicroRNA Therapy of Musculoskeletal Diseases. <i>International Journal of Stem Cells</i> , 2021, 14, 150-167.                                                                                                          | 0.8 | 11        |
| 6  | A Rare Case of Canine Metastatic Spermatocytic Tumor without Sarcomatous and Anaplastic Variants. <i>Acta Veterinaria</i> , 2021, 71, 239-246.                                                                                                   | 0.2 | 0         |
| 7  | Vitamin C Deficiency Inhibits Nonalcoholic Fatty Liver Disease Progression through Impaired de Novo Lipogenesis. <i>American Journal of Pathology</i> , 2021, 191, 1550-1563.                                                                    | 1.9 | 12        |
| 8  | Oral leiomyosarcoma in a dog. <i>Journal of Biomedical Translational Research</i> , 2021, 22, 199-204.                                                                                                                                           | 0.1 | 0         |
| 9  | Massive lymphangiosarcoma in a dog: a case report. <i>Korean Journal of Veterinary Research</i> , 2021, 61, e32.                                                                                                                                 | 0.1 | 0         |
| 10 | <i>Danio rerio</i> as an alternative vertebrate model for jellyfish venom study: The toxinological aspects of <i>Nemopilema nomurai</i> venom. <i>Toxicology Letters</i> , 2020, 335, 91-97.                                                     | 0.4 | 7         |
| 11 | Thymic Hematoma Found in a Wild Eurasian Otter ( <i>Lutra lutra</i> ). <i>Journal of Wildlife Diseases</i> , 2020, 56, 950-952.                                                                                                                  | 0.3 | 0         |
| 12 | Preputial gland adenoma in a wild nutria ( <i>Myocastor coypus</i> ): a case report. <i>Journal of Veterinary Science</i> , 2020, 21, e1.                                                                                                        | 0.5 | 1         |
| 13 | Protective Effects of Nutria Bile against Thioacetamide-Induced Liver Injury in Mice. <i>Evidence-based Complementary and Alternative Medicine</i> , 2019, 2019, 1-10.                                                                           | 0.5 | 4         |
| 14 | Sertoli Cell Tumor (SCT) in a Captive Black Bear ( <i>Ursus americanus</i> ). <i>Veterinary Sciences</i> , 2019, 6, 77.                                                                                                                          | 0.6 | 3         |
| 15 | Therapeutic Effect of <i>Rumex japonicus</i> Houtt. on DNCB-Induced Atopic Dermatitis-Like Skin Lesions in Balb/c Mice and Human Keratinocyte HaCaT Cells. <i>Nutrients</i> , 2019, 11, 573.                                                     | 1.7 | 21        |
| 16 | Nanoparticle-Patterned Multicompartmental Chitosan Capsules for Oral Delivery of Oligonucleotides. <i>ACS Biomaterials Science and Engineering</i> , 2018, 4, 4163-4173.                                                                         | 2.6 | 17        |
| 17 | Sebaceous cell differentiation in a canine oral papilloma. <i>Journal of Veterinary Diagnostic Investigation</i> , 2018, 30, 569-571.                                                                                                            | 0.5 | 3         |
| 18 | A Case of Fascioliasis in A Wild Nutria, <i>Myocastor coypus</i> , in Republic of Korea. <i>Korean Journal of Parasitology</i> , 2018, 56, 375-378.                                                                                              | 0.5 | 4         |

| #  | ARTICLE                                                                                                                                                                                                                                                                      | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Chemotherapeutic Management in a Labrador Retriever with Cutaneous Nonepitheliotropic B-cell Lymphoma. <i>Journal of Veterinary Clinics</i> , 2018, 35, 150-154.                                                                                                             | 0.2 | 0         |
| 20 | Anti-rheumatoid arthritic effect of fermented Adlay and <i>Achyranthes japonica</i> Nakai on collagen-induced arthritis in mice. <i>Food and Agricultural Immunology</i> , 2017, 28, 14-26.                                                                                  | 0.7 | 3         |
| 21 | Maysin and Its Flavonoid Derivative from Centipedegrass Attenuates Amyloid Plaques by Inducing Humoral Immune Response with Th2 Skewed Cytokine Response in the Tg (APP <sup>swe</sup> , PS1 <sup>dE9</sup> ) Alzheimer's Mouse Model. <i>PLoS ONE</i> , 2017, 12, e0169509. | 1.1 | 14        |
| 22 | Effect of autologous platelet-rich plasma application on cutaneous wound healing in dogs. <i>Journal of Veterinary Science</i> , 2016, 17, 79.                                                                                                                               | 0.5 | 57        |
| 23 | Histopathological findings in wild Nutrias ( <i>Myocastor coypus</i> ) with <i>Capillaria hepatica</i> infection. <i>Journal of Veterinary Medical Science</i> , 2016, 78, 1887-1891.                                                                                        | 0.3 | 8         |
| 24 | Diagnostic Laparoscopic Biopsy in Dogs and Cats. <i>Journal of Veterinary Clinics</i> , 2016, 33, 21-24.                                                                                                                                                                     | 0.2 | 0         |
| 25 | Laparoscopic Splenectomy in Two Dogs Using Sonicision <sup>TM</sup> . <i>Journal of Veterinary Clinics</i> , 2016, 33, 214-217.                                                                                                                                              | 0.2 | 0         |
| 26 | Age-associated Change of C/EBP Family Proteins Causes Severe Liver Injury and Acceleration of Liver Proliferation after CCl <sub>4</sub> Treatments. <i>Journal of Biological Chemistry</i> , 2014, 289, 1106-1118.                                                          | 1.6 | 30        |
| 27 | JNK1 and JNK2 regulate $\alpha$ -SMA in hepatic stellate cells during CCl <sub>4</sub> -induced fibrosis in the rat liver. <i>Pathology International</i> , 2013, 63, 483-491.                                                                                               | 0.6 | 34        |
| 28 | Inhibition of Kupffer Cell Activity Improves Transplantation of Human Adipose-Derived Stem Cells and Liver Functions. <i>Cell Transplantation</i> , 2013, 22, 447-459.                                                                                                       | 1.2 | 9         |
| 29 | Ascorbic acid deficiency accelerates aging of hepatic stellate cells with up-regulation of PPAR $\gamma$ . <i>Histology and Histopathology</i> , 2012, 27, 171-9.                                                                                                            | 0.5 | 5         |
| 30 | Mucosa-associated lymphoid tissue lymphoma of the third eyelid conjunctiva in a dog. <i>Veterinary Ophthalmology</i> , 2011, 14, 61-65.                                                                                                                                      | 0.6 | 31        |
| 31 | Fetal death of dogs after the ingestion of a soil conditioner. <i>Experimental and Toxicologic Pathology</i> , 2011, 63, 113-117.                                                                                                                                            | 2.1 | 11        |
| 32 | Morphological abnormalities, impaired fetal development and decrease in myostatin expression following somatic cell nuclear transfer in dogs. <i>Molecular Reproduction and Development</i> , 2011, 78, 337-346.                                                             | 1.0 | 15        |
| 33 | The Protective Effect of ENA Actiminer Resource A on CCl <sub>4</sub> -Induced Liver Injury in Rats. <i>Marine Biotechnology</i> , 2011, 13, 462-473.                                                                                                                        | 1.1 | 7         |
| 34 | Frequency of vacuolating cytotoxin A (VacA)-positive <i>Helicobacter pylori</i> seropositivity and TGF- $\beta$ 1 decrease in atrial fibrillation. <i>International Journal of Cardiology</i> , 2010, 145, 345-346.                                                          | 0.8 | 18        |
| 35 | Actinomycosis in a Pet Rabbit. <i>Journal of Veterinary Dentistry</i> , 2009, 26, 110-111.                                                                                                                                                                                   | 0.1 | 1         |
| 36 | Cutaneous hemangiosarcoma in a German Shepherd dog. <i>Basic and Applied Pathology</i> , 2008, 1, 52-53.                                                                                                                                                                     | 0.2 | 1         |
