

Kimberly Finlayson

List of Publications by Citations

Source: <https://exaly.com/author-pdf/3835489/kimberly-finlayson-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
9	The current state and future directions of marine turtle toxicology research. <i>Environment International</i> , 2016 , 94, 113-123	12.9	44
8	Primary green turtle (<i>Chelonia mydas</i>) skin fibroblasts as an in vitro model for assessing genotoxicity and oxidative stress. <i>Aquatic Toxicology</i> , 2019 , 207, 13-18	5.1	16
7	Cytotoxicity of organic and inorganic compounds to primary cell cultures established from internal tissues of <i>Chelonia mydas</i> . <i>Science of the Total Environment</i> , 2019 , 664, 958-967	10.2	13
6	Towards the development of standardised sea turtle primary cell cultures for toxicity testing. <i>Ecotoxicology and Environmental Safety</i> , 2019 , 173, 63-70	7	10
5	Development and application of species-specific cell-based bioassays to assess toxicity in green sea turtles. <i>Science of the Total Environment</i> , 2020 , 747, 142095	10.2	5
4	Recovery of a subtropical rocky shore is not yet complete, four years after a moderate sized oil spill. <i>Marine Pollution Bulletin</i> , 2015 , 93, 27-36	6.7	2
3	The Karyotype of Blainvilliers Beaked Whale, <i>Mesoplodon densirostris</i> . <i>Cytogenetic and Genome Research</i> , 2020 , 160, 698-703	1.9	1
2	A comparative analysis of the karyotypes of three dolphins - Montagu, 1821, Charlton-Robb et al., 2011, and Cuvier, 1812. <i>Comparative Cytogenetics</i> , 2021 , 15, 53-63	1	1
1	Differences in marine megafauna in vitro sensitivity highlights the need for species-specific chemical risk assessments. <i>Aquatic Toxicology</i> , 2021 , 239, 105939	5.1	0
