

Ral G Paredes

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3847684/raul-g-paredes-publications-by-year.pdf>

Version: 2024-04-09

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

37 papers	1,442 citations	17 h-index	37 g-index
37 ext. papers	1,556 ext. citations	3.6 avg, IF	4.77 L-index

#	Paper	IF	Citations
37	In vivo evaluation of tricalcium phosphate scaffold for cranial prosthesis application. <i>Materials Chemistry and Physics</i> , 2022 , 283, 125993	4.4	
36	Pheromones and Same-Sex Sexual Behavior. <i>Archives of Sexual Behavior</i> , 2021 , 50, 2309-2311	3.5	1
35	Differential changes in GAP-43 or synaptophysin during appetitive and aversive taste memory formation. <i>Behavioural Brain Research</i> , 2021 , 397, 112937	3.4	0
34	Sexual behavior in rodents: Where do we go from here?. <i>Hormones and Behavior</i> , 2020 , 118, 104678	3.7	3
33	Effects of Mating and Social Exposure on Cell Proliferation in the Adult Male Prairie Vole (). <i>Neural Plasticity</i> , 2020 , 2020, 8869669	3.3	3
32	Motivational Drive in Non-copulating and Socially Monogamous Mammals. <i>Frontiers in Behavioral Neuroscience</i> , 2019 , 13, 238	3.5	2
31	Paced mating increases the expression of μ -opioid receptors in the ventromedial hypothalamus of male rats. <i>Behavioural Brain Research</i> , 2019 , 359, 401-407	3.4	5
30	The First Mating Experience Induces New Neurons in the Olfactory Bulb in Male Mice. <i>Neuroscience</i> , 2019 , 396, 166-174	3.9	3
29	Neurogenesis and sexual behavior. <i>Frontiers in Neuroendocrinology</i> , 2018 , 51, 68-79	8.9	13
28	Hormones and the Coolidge effect. <i>Molecular and Cellular Endocrinology</i> , 2018 , 467, 42-48	4.4	7
27	Sexual Incentive and Choice. <i>Current Sexual Health Reports</i> , 2018 , 10, 132-141	1.2	1
26	Sexual Motivation: A Comparative Approach in Vertebrate Species. <i>Current Sexual Health Reports</i> , 2018 , 10, 114-123	1.2	5
25	Female Sexual Behavior in Rodents, Lagomorphs, and Goats 2017 , 59-82		6
24	Animal Models in Sexual Medicine: The Need and Importance of Studying Sexual Motivation. <i>Sexual Medicine Reviews</i> , 2017 , 5, 5-19	5.6	15
23	Neurogenesis in the olfactory bulb induced by paced mating in the female rat is opioid dependent. <i>PLoS ONE</i> , 2017 , 12, e0186335	3.7	9
22	Sexual Behavior Increases Cell Proliferation in the Rostral Migratory Stream and Promotes the Differentiation of the New Cells into Neurons in the Accessory Olfactory Bulb of Female Rats. <i>Frontiers in Neuroscience</i> , 2016 , 10, 48	5.1	15
21	Sexual Stimulation Increases the Survival of New Cells in the Accessory Olfactory Bulb of the Male Rat. <i>Frontiers in Neuroscience</i> , 2016 , 10, 65	5.1	13

20	Infusion of endomorphin-1 (EM-1) in the MPOA and the Me modulate sexual and socio-sexual behavior in the male rat. <i>Brain Research</i> , 2013 , 1517, 36-43	3.7	10
19	Effects of chronic estradiol or testosterone treatment upon sexual behavior in sexually sluggish male rats. <i>Pharmacology Biochemistry and Behavior</i> , 2012 , 101, 336-41	3.9	17
18	Sexual activity increases the number of newborn cells in the accessory olfactory bulb of male rats. <i>Frontiers in Neuroanatomy</i> , 2012 , 6, 25	3.6	22
17	Paced-mating increases the number of adult new born cells in the internal cellular (granular) layer of the accessory olfactory bulb. <i>PLoS ONE</i> , 2011 , 6, e19380	3.7	31
16	Copulatory pattern of male rats in a multiple partner choice arena. <i>Journal of Sexual Medicine</i> , 2010 , 7, 3845-56	1.1	10
15	Endomorphin-1, effects on male sexual behavior. <i>Physiology and Behavior</i> , 2009 , 97, 98-101	3.5	14
14	Evaluating the neurobiology of sexual reward. <i>ILAR Journal</i> , 2009 , 50, 15-27	1.7	71
13	Infusions of naloxone into the medial preoptic area, ventromedial nucleus of the hypothalamus, and amygdala block conditioned place preference induced by paced mating behavior. <i>Hormones and Behavior</i> , 2008 , 54, 709-16	3.7	67
12	Olfactory, partner preference and Fos expression in the vomeronasal projection pathway of sexually sluggish male rats. <i>Physiology and Behavior</i> , 2006 , 88, 389-97	3.5	21
11	Sexual behavior of female rats in a multiple-partner preference test. <i>Hormones and Behavior</i> , 2005 , 47, 290-6	3.7	28
10	Sexual incentive motivation, olfactory preference, and activation of the vomeronasal projection pathway by sexually relevant cues in non-copulating and naive male rats. <i>Hormones and Behavior</i> , 2004 , 46, 330-40	3.7	68
9	Has dopamine a physiological role in the control of sexual behavior? A critical review of the evidence. <i>Progress in Neurobiology</i> , 2004 , 73, 179-226	10.9	133
8	Medial preoptic area/anterior hypothalamus and sexual motivation. <i>Scandinavian Journal of Psychology</i> , 2003 , 44, 203-12	2.2	83
7	Sexual and olfactory preference in noncopulating male rats. <i>Physiology and Behavior</i> , 2003 , 80, 155-62	3.5	30
6	Naloxone blocks place preference conditioning after paced mating in female rats.. <i>Behavioral Neuroscience</i> , 2001 , 115, 1363-1367	2.1	83
5	Only self-paced mating is rewarding in rats of both sexes. <i>Hormones and Behavior</i> , 2001 , 40, 510-7	3.7	126
4	What do female rats like about sex? Paced mating. <i>Behavioural Brain Research</i> , 1999 , 105, 117-27	3.4	198
3	Lesions of the medial preoptic area/anterior hypothalamus (MPOA/AH) modify partner preference in male rats. <i>Brain Research</i> , 1998 , 813, 1-8	3.7	121

- 2 Sexual behavior regulated (paced) by the female induces conditioned place preference.. *Behavioral Neuroscience*, **1997**, 111, 123-128 2.1 191
- 1 Sexual behavior enhances postictal behavioral depression in kindled rats: opioid involvement. *Behavioural Brain Research*, **1992**, 52, 175-82 3.4 17
