#	ARTICLE	IF	CITATIONS
1	Lactate Dehydrogenase as a Biomarker for Prediction of Refractory <i>Mycoplasma pneumoniae</i> Pneumonia in Children. <i>Respiratory Care</i> , 2015, 60, 1469-1475.	1.6	89
2	Combined treatment for child refractory <i>Mycoplasma pneumoniae</i> pneumonia with ciprofloxacin and glucocorticoid. <i>Pediatric Pulmonology</i> , 2011, 46, 1093-1097.	2.0	35
3	The role of eNOS in the migration and proliferation of bone marrow derived endothelial progenitor cells and in vitro angiogenesis. <i>Cell Biology International</i> , 2015, 39, 484-490.	3.0	30
4	Exosomes secreted by endothelial progenitor cells improve the bioactivity of pulmonary microvascular endothelial cells exposed to hyperoxia in vitro. <i>Annals of Translational Medicine</i> , 2019, 7, 254-254.	1.7	20
5	Combined iNO and endothelial progenitor cells improve lung alveolar and vascular structure in neonatal rats exposed to prolonged hyperoxia. <i>Pediatric Research</i> , 2015, 77, 784-792.	2.3	14
6	Haplotype of IL-8 -251T and 781C is associated with the Susceptibility to Respiratory Syncytial Virus. <i>Journal of Tropical Pediatrics</i> , 2010, 56, 242-246.	1.5	10
7	Clinical features and risk factors for severe influenza in children: A study from multiple hospitals in Shanghai. <i>Pediatrics and Neonatology</i> , 2021, 62, 428-436.	0.9	9
8	Interleukin-4 polymorphism is associated with severity of respiratory syncytial virus infection. <i>Journal of Paediatrics and Child Health</i> , 2016, 52, 25-29.	0.8	8
9	Sleep-disordered breathing and genetic findings in children with Prader-Willi syndrome in China. <i>Annals of Translational Medicine</i> , 2020, 8, 989-989.	1.7	6
10	Highly homogeneous microbial communities dominated by <i>Mycoplasma pneumoniae</i> instead of increased resistance to macrolide antibiotics is the characteristic of lower respiratory tract microbiome of children with refractory <i>Mycoplasma pneumoniae</i> pneumonia. <i>Translational Pediatrics</i> , 2021, 10, 604-615.	1.2	6
11	Characteristics of Lung Microbiota in Children's Refractory <i>Mycoplasma pneumoniae</i> Pneumonia Coinfected with Human Adenovirus B. <i>Canadian Journal of Infectious Diseases and Medical Microbiology</i> , 2022, 2022, 1-8.	1.9	4
12	The effect of vibrating positive expiratory pressure therapy on refractory <i>Mycoplasma pneumoniae</i> pneumonia prognosis in children. <i>Translational Pediatrics</i> , 2021, 10, 315-322.	1.2	0
