#	ARTICLE	IF	CITATIONS
1	Multimorbidity among People Experiencing Homelessnessâ€”Insights from Primary Care Data. International Journal of Environmental Research and Public Health, 2021, 18, 6498.	1.2	18
2	Overcoming inefficiencies arising due to the impact of the modifiable areal unit problem on single-aggregation disease maps. International Journal of Health Geographics, 2020, 19, 40.	1.2	17
3	Burden of primary careâ€”type emergency department presentations using clinical assessment by general practitioners: A crossâ€”sectional study. EMA - Emergency Medicine Australasia, 2019, 31, 780-786.	0.5	16
4	Anxiety and alcohol in the workingâ€”age population are driving a rise in mental healthâ€”related emergency department presentations: 15 year trends in emergency department presentations in Western Australia. EMA - Emergency Medicine Australasia, 2020, 32, 80-87.	0.5	5
5	Modelling the Relationship between Rainfall and Mental Health Using Different Spatial and Temporal Units. International Journal of Environmental Research and Public Health, 2021, 18, 1312.	1.2	4
6	Predicting Future Geographic Hotspots of Potentially Preventable Hospitalisations Using All Subset Model Selection and Repeated K-Fold Cross-Validation. International Journal of Environmental Research and Public Health, 2021, 18, 10253.	1.2	4
7	Impact of the modifiable areal unit problem in assessing determinants of emergency department demand. EMA - Emergency Medicine Australasia, 2021, 33, 794-802.	0.5	4
8	Impact of Australian Bureau of Statistics data perturbation techniques on the precision of Census population counts, and the propagation of this impact in a geospatial analysis of high-risk foot hospital admissions among an Indigenous population. Australian Geographer, 2022, 53, 105-126.	1.0	3
9	Reducing Bruzziâ€™s Formula to Remove Instability in the Estimation of Population Attributable Fraction for Health Outcomes. American Journal of Epidemiology, 2018, 187, 170-179.	1.6	0
10	Analysing geographic variation in lower urgency emergency department presentations using readily â€”available administrative boundaries and a novel spatial smoothing technique. Australian Geographer, 2020, 51, 1-13.	1.0	0
