Version: 2024-02-01

| # | Article                                                                                                                                                                                                                   | IF  | CITATIONS |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1 | Polystyrene bead ingestion promotes adiposity and cardiometabolic disease in mice. Ecotoxicology and Environmental Safety, 2022, 232, 113239.                                                                             | 6.0 | 33        |
| 2 | Electronic cigarette solvents, pulmonary irritation, and endothelial dysfunction: role of<br>acetaldehyde and formaldehyde. American Journal of Physiology - Heart and Circulatory Physiology,<br>2021, 320, H1510-H1525. | 3.2 | 28        |
| 3 | Acute and chronic vascular effects of inhaled crotonaldehyde in mice: Role of TRPA1. Toxicology and Applied Pharmacology, 2020, 402, 115120.                                                                              | 2.8 | 18        |
| 4 | Tobacco Smoke and Endothelial Dysfunction: Role of Aldehydes?. Current Hypertension Reports, 2020, 22, 73.                                                                                                                | 3.5 | 14        |
| 5 | Acetaldehyde Induces an Endothelium-Dependent Relaxation of Superior Mesenteric Artery: Potential<br>Role in Postprandial Hyperemia. Frontiers in Physiology, 2019, 10, 1315.                                             | 2.8 | 12        |
| 6 | A Simple Method for Normalization of Aortic Contractility. Journal of Vascular Research, 2018, 55, 177-186.                                                                                                               | 1.4 | 8         |
| 7 | A novel evaluation of endothelial dysfunction ex vivo: "Teaching an Old Drug a New Trickâ€.<br>Physiological Reports, 2021, 9, e15120.                                                                                    | 1.7 | 0         |
