#	ARTICLE	IF	CITATIONS
1	Distribution maps of vegetation alliances in Europe. <i>Applied Vegetation Science</i> , 2022, 25, .	1.9	23
2	Phytosociology and taxonomic notes on some endemic-rich associations of the Naples Gulf. <i>Hacquetia</i> , 2022, 21, 1-14.	0.4	0
3	Foraging diet of the two commonest non-native parakeets (Aves, Psittaciformes) in Italy: assessing their impact on ornamental and commercial plants. <i>Rendiconti Lincei</i> , 2022, 33, 431-439.	2.2	2
4	The road to invasion: fine-grained distribution and suitability model for <i>Carpobrotus</i> sp. pl., a plant invader on a small Mediterranean island. <i>Folia Geobotanica</i> , 2021, 56, 1-11.	0.9	4
5	Climate and socio-economic factors explain differences between observed and expected naturalization patterns of European plants around the world. <i>Global Ecology and Biogeography</i> , 2021, 30, 1514-1531.	5.8	8
6	A fine-grained analysis of a Monk parakeet (<i>Myiopsitta monachus</i>) nest suggests a nonhomogeneous internal structure. <i>Zoology and Ecology</i> , 2021, , 33-36.	0.2	1
7	Polystyrene seedling trays used as substrate by native plants. <i>Environmental Science and Pollution Research</i> , 2020, 27, 6690-6694.	5.3	6
8	Do disturbance-sensitive and habitat-specialized species have a smaller range size? Evidence for a set of common mammals at regional scale. <i>Ethology Ecology and Evolution</i> , 2019, 31, 479-490.	1.4	1
9	Beyond the urban-rural gradient: Self-organizing map detects the nine landscape types of the city of Rome. <i>Urban Forestry and Urban Greening</i> , 2019, 38, 354-370.	5.3	13
10	Unsafe management of a zoological garden as a cause of introduction of an alien species into the wild: First documented case of feral naturalized population of <i>Lama glama</i> in Europe. <i>Journal for Nature Conservation</i> , 2019, 49, 22-26.	1.8	3
11	Fishing lines and fish hooks as neglected marine litter: first data on chemical composition, densities, and biological entrapment from a Mediterranean beach. <i>Environmental Science and Pollution Research</i> , 2019, 26, 1000-1007.	5.3	44
12	The ophiolitic communities of Shebenik-Jablanice National Park (Albania). <i>Rendiconti Lincei</i> , 2018, 29, 309-328.	2.2	2
13	Children as drivers of change: The operational support of young generations to conservation practices. <i>Environmental Practice</i> , 2018, 20, 129-135.	0.3	6
14	Comparing disturbance and generalism in birds and mammals: A hump-shaped pattern. <i>Basic and Applied Ecology</i> , 2018, 30, 96-99.	2.7	3
15	The forest communities of Shebenik-Jabllanic National Park (Central Albania). <i>Phytocoenologia</i> , 2018, 48, 51-76.	0.5	6
16	Assessing disturbance-sensitivity and generalism in mammals: Corroborating a hump-shaped relationship using a hemerobiotic approach. <i>Ecological Indicators</i> , 2017, 76, 178-183.	6.3	10
17	Paradoxical environmental conservation: Failure of an unplanned urban development as a driver of passive ecological restoration. <i>Environmental Development</i> , 2017, 24, 179-186.	4.1	10
18	Plastisphere in action: evidence for an interaction between expanded polystyrene and dunal plants. <i>Environmental Science and Pollution Research</i> , 2017, 24, 11856-11859.	5.3	45

#	ARTICLE	IF	CITATIONS
19	Recovering ability of deciduous Oak Forest after different stages of tree cutting in Central Italy. <i>Rendiconti Lincei</i> , 2017, 28, 53-64.	2.2	4
20	Vegetation Database of Albania. <i>Phytocoenologia</i> , 2017, 47, 107-108.	0.5	6
21	The Disturbance Regime. <i>Environmental Science and Engineering</i> , 2016, , 31-46.	0.2	1
22	European Vegetation Archive (EVA): an integrated database of European vegetation plots. <i>Applied Vegetation Science</i> , 2016, 19, 173-180.	1.9	247
23	An Introduction to Disturbance Ecology. <i>Environmental Science and Engineering</i> , 2016, , .	0.2	63
24	Applying indicators of disturbance from plant ecology to vertebrates: The hemeroby of bird species. <i>Ecological Indicators</i> , 2016, 61, 799-805.	6.3	22
25	<i>Phlomis fruticosa</i> scrublands in the central Mediterranean region: syntaxonomy and ecology. <i>Phytocoenologia</i> , 2015, 45, 49-68.	0.5	6
26	The Vegetation of the Buna River Protected Landscape (Albania). <i>Hacquetia</i> , 2015, 14, 129-174.	0.4	14
27	Don't think local! Scale in conservation, parochialism, dogmatic bureaucracy and the implementing of the European Directives. <i>Journal for Nature Conservation</i> , 2015, 24, 24-30.	1.8	25
28	Can the flora-based humus functionality index (RxN) predict humus forms in Mediterranean plant communities? A case study in Castelporziano State Natural Reserve. <i>Rendiconti Lincei</i> , 2015, 26, 451-460.	2.2	1
29	Comparing disturbance-sensitivity between plants and birds: a fine-grained analysis in a suburban remnant wetland. <i>Israel Journal of Ecology and Evolution</i> , 2014, 60, 11-17.	0.6	8
30	Humus forms in a Mediterranean area (Castelporziano Reserve, Rome, Italy): classification, functioning and organic carbon storage. <i>Geoderma</i> , 2014, 235-236, 90-99.	5.1	26
31	Comparing alpha-diversity between plants and birds in a remnant wetland: evidence for a threshold and implication for management. <i>Wetlands Ecology and Management</i> , 2014, 22, 565-569.	1.5	2
32	Does human-induced heterogeneity differently affect diversity in vascular plants and breeding birds? Evidences from three Mediterranean forest patches. <i>Rendiconti Lincei</i> , 2011, 22, 25-30.	2.2	9
33	Correspondences between plants and soil/environmental factors in beech forests of Central Apennines: from homogeneity to complexity. <i>Rendiconti Lincei</i> , 2010, 21, 27-43.	2.2	6
34	Detecting river environmental quality through plant and macroinvertebrate bioindicators in the Aniene River (Central Italy). <i>Aquatic Ecology</i> , 2009, 43, 477-486.	1.5	29
35	Floristic gradients of herbaceous vegetation and P/N ratio in soil in a Mediterranean area. <i>Plant Ecology</i> , 2007, 194, 231-242.	1.6	20
36	Halotolerant and halophytic vegetation from cliffs in Central Mediterranean Peninsular Italy with emphasis on Southern Lazio. <i>Phytocoenologia</i> , 2004, 34, 447-464.	0.5	4

#	ARTICLE	IF	CITATIONS
37	Reliability and effectiveness of Ellenberg's indices in checking flora and vegetation changes induced by climatic variations. , 2001, , 281-304.		17
38	Dasypyrum villosum vegetation in the territory of Rome. Rendiconti Lincei, 1998, 9, 149-170.	2.2	17
39	Lo status delle comunità dei Brometalia rubenti-tectorum del Mediterraneo in differenti schemi sintattonomici. Rendiconti Lincei, 1998, 9, 241-255.	2.2	11
40	The vanishing landscape of the Campagna Romana. Landscape and Urban Planning, 1993, 24, 69-76.	7.5	25
41	Anthills: stressor or opportunity for plant assemblage diversity? Evidence from Mediterranean Dasypyretum grasslands. Ethology Ecology and Evolution, 0, , 1-12.	1.4	0
42	Finite Mixture Model-based classification of a complex vegetation system. Vegetation Classification and Survey, 0, 1, 77-86.	0.0	4
