

Alison K McConnell

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/3908990/alison-k-mcconnell-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
87	Association Between Inspiratory Muscle Function and Balance Ability in Older People: A Pooled Data Analysis Before and After Inspiratory Muscle Training. <i>Journal of Aging and Physical Activity</i> , 2021 , 1-13	1.6	0
86	Inspiratory muscle training for the treatment of dynamic upper airway collapse in racehorses: A preliminary investigation. <i>Veterinary Journal</i> , 2021 , 275, 105708	2.5	1
85	Comparison of balance changes after inspiratory muscle or Otago exercise training. <i>PLoS ONE</i> , 2020 , 15, e0227379	3.7	4
84	Inspiratory muscle training and testing: Rationale, development and feasibility. <i>Equine Veterinary Journal</i> , 2020 , 52, 620-626	2.4	3
83	The effects of 8-weeks of inspiratory muscle training on the balance of healthy older adults: a randomized, double-blind, placebo-controlled study. <i>Physiological Reports</i> , 2019 , 7, e14076	2.6	12
82	Implementation of sit-stand desks as a workplace health initiative: stakeholder views. <i>International Journal of Workplace Health Management</i> , 2019 , 12, 369-386	1.3	2
81	The Relationship between Military Combat and Cardiovascular Risk: A Systematic Review and Meta-Analysis. <i>International Journal of Vascular Medicine</i> , 2019 , 2019, 9849465	1.2	7
80	Randomised controlled trial of adjunctive inspiratory muscle training for patients with COPD. <i>Thorax</i> , 2018 , 73, 942-950	7.3	47
79	"Functional" Inspiratory and Core Muscle Training Enhances Running Performance and Economy. <i>Journal of Strength and Conditioning Research</i> , 2016 , 30, 2942-51	3.2	25
78	Inspiratory muscle training improves breathing pattern during exercise in COPD patients. <i>European Respiratory Journal</i> , 2016 , 47, 1261-4	13.6	27
77	The effect of a sit-stand workstation intervention on daily sitting, standing and physical activity: protocol for a 12-month workplace randomised control trial. <i>BMC Public Health</i> , 2015 , 15, 152	4.1	11
76	Efficacy of a Novel Method for Inspiratory Muscle Training in People With Chronic Obstructive Pulmonary Disease. <i>Physical Therapy</i> , 2015 , 95, 1264-73	3.3	63
75	Inspiratory muscle training affects proprioceptive use and low back pain. <i>Medicine and Science in Sports and Exercise</i> , 2015 , 47, 12-9	1.2	41
74	Impaired postural control reduces sit-to-stand-to-sit performance in individuals with chronic obstructive pulmonary disease. <i>PLoS ONE</i> , 2014 , 9, e88247	3.7	28
73	British Thoracic Society guideline on pulmonary rehabilitation in adults: does objectivity have a sliding scale?. <i>Thorax</i> , 2014 , 69, 387-8	7.3	2
72	Exercise physiology and training principles 2013 , 37-55		1
71	The respiratory muscles 2013 , 57-96		

70	Functional benefits of respiratory muscle training 2013 , 97-131		1
69	Methods of respiratory muscle training 2013 , 135-147		3
68	Implementing respiratory muscle training 2013 , 149-173		4
67	Functional training of the respiratory muscles 2013 , 175-223		
66	Measurement validity of an electronic inspiratory loading device during a loaded breathing task in patients with COPD. <i>Respiratory Medicine</i> , 2013 , 107, 633-5	4.6	39
65	The assessment of inspiratory muscle fatigue in healthy individuals: a systematic review. <i>Respiratory Medicine</i> , 2013 , 107, 331-46	4.6	38
64	Inspiratory muscle training protocol for patients with chronic obstructive pulmonary disease (IMTCO study): a multicentre randomised controlled trial. <i>BMJ Open</i> , 2013 , 3,	3	48
63	Greater diaphragm fatigability in individuals with recurrent low back pain. <i>Respiratory Physiology and Neurobiology</i> , 2013 , 188, 119-23	2.8	29
62	Letter to the Editor. <i>Journal of Strength and Conditioning Research</i> , 2013 , 27, e1	3.2	
61	Postural strategy and back muscle oxygenation during inspiratory muscle loading. <i>Medicine and Science in Sports and Exercise</i> , 2013 , 45, 1355-62	1.2	13
60	Proprioceptive changes impair balance control in individuals with chronic obstructive pulmonary disease. <i>PLoS ONE</i> , 2013 , 8, e57949	3.7	57
59	CrossTalk opposing view: respiratory muscle training does improve exercise tolerance. <i>Journal of Physiology</i> , 2012 , 590, 3397-8; discussion 3399-400	3.9	20
58	Rebuttal from Alison K. McConnell. <i>Journal of Physiology</i> , 2012 , 590, 3401-3401	3.9	78
57	The influence of rowing-related postures upon respiratory muscle pressure and flow generating capacity. <i>European Journal of Applied Physiology</i> , 2012 , 112, 4143-50	3.4	6
56	Respiratory and locomotor muscle blood-volume and oxygenation kinetics during intense intermittent exercise. <i>European Journal of Sport Science</i> , 2012 , 12, 321-330	3.9	4
55	Respiratory-related limitations in physically demanding occupations. <i>Aviation, Space, and Environmental Medicine</i> , 2012 , 83, 424-30		23
54	Diagnosis of exercise-induced bronchoconstriction: eucapnic voluntary hyperpnoea challenges identify previously undiagnosed elite athletes with exercise-induced bronchoconstriction. <i>British Journal of Sports Medicine</i> , 2011 , 45, 1126-31	10.3	39
53	Effect of inspiratory muscle training on exercise tolerance in asthmatic individuals. <i>Medicine and Science in Sports and Exercise</i> , 2011 , 43, 2031-8	1.2	31

52	Acute cardiorespiratory responses to inspiratory pressure threshold loading. <i>Medicine and Science in Sports and Exercise</i> , 2010 , 42, 1696-703	1.2	23
51	The effect of inspiratory muscles fatigue on postural control in people with and without recurrent low back pain. <i>Spine</i> , 2010 , 35, 1088-94	3.3	53
50	Pre-operative inspiratory muscle training preserves postoperative inspiratory muscle strength following major abdominal surgery - a randomised pilot study. <i>Annals of the Royal College of Surgeons of England</i> , 2010 , 92, 700-7	1.4	64
49	Inspiratory muscle training improves 100 and 200 m swimming performance. <i>European Journal of Applied Physiology</i> , 2010 , 108, 505-11	3.4	86
48	Acute effects of inspiratory pressure threshold loading upon airway resistance in people with asthma. <i>Respiratory Physiology and Neurobiology</i> , 2009 , 166, 159-63	2.8	6
47	Influence of prior activity (warm-up) and inspiratory muscle training upon between- and within-day reliability of maximal inspiratory pressure measurement. <i>Respiration</i> , 2009 , 78, 197-202	3.7	26
46	Respiratory Muscle Training as an Ergogenic Aid. <i>Journal of Exercise Science and Fitness</i> , 2009 , 7, S18-S27 ^{3,1}		17
45	Influence of different breathing frequencies on the severity of inspiratory muscle fatigue induced by high-intensity front crawl swimming. <i>Journal of Strength and Conditioning Research</i> , 2009 , 23, 1169-74 ^{3,2}		22
44	Changes in respiratory muscle and lung function following marathon running in man. <i>Journal of Sports Sciences</i> , 2008 , 26, 1295-301	3.6	37
43	Lung disease and dysfunction 2008 , 97-118		
42	Inspiratory Muscle Training Improves Exercise Tolerance and Attenuates Inspiratory Muscle Fatigue and the Perception of Dyspnea in Asthmatic Individuals.. <i>Medicine and Science in Sports and Exercise</i> , 2008 , 40, S305	1.2	1
41	The influence of inspiratory and expiratory muscle training upon rowing performance. <i>European Journal of Applied Physiology</i> , 2007 , 99, 457-66	3.4	83
40	Inspiratory muscle training: a simple cost-effective treatment for inspiratory stridor. <i>British Journal of Sports Medicine</i> , 2007 , 41, 694-5; discussion 695	10.3	14
39	Influence of acute inspiratory loading upon diaphragm motor-evoked potentials in healthy humans. <i>Journal of Applied Physiology</i> , 2007 , 102, 1883-90	3.7	23
38	Diaphragm and intercostal surface EMG and muscle performance after acute inspiratory muscle loading. <i>Respiratory Physiology and Neurobiology</i> , 2007 , 155, 213-9	2.8	40
37	Acute and chronic responses of the upper airway to inspiratory loading in healthy awake humans: an MRI study. <i>Respiratory Physiology and Neurobiology</i> , 2007 , 157, 270-80	2.8	19
36	Inspiratory muscle training in pulmonary rehabilitation program in COPD patients. <i>Respiratory Medicine</i> , 2007 , 101, 1500-5	4.6	47
35	Screening elite winter athletes for exercise induced asthma: a comparison of three challenge methods. <i>British Journal of Sports Medicine</i> , 2006 , 40, 179-82; discussion 179-82	10.3	60

34	Mid-expiratory flow versus FEV1 measurements in the diagnosis of exercise induced asthma in elite athletes. <i>Thorax</i> , 2006 , 61, 111-4	7.3	23
33	The influence of inspiratory muscle work history and specific inspiratory muscle training upon human limb muscle fatigue. <i>Journal of Physiology</i> , 2006 , 577, 445-57	3.9	81
32	Maximal voluntary hyperpnoea increases blood lactate concentration during exercise. <i>European Journal of Applied Physiology</i> , 2006 , 96, 600-8	3.4	7
31	The role of inspiratory muscle function and training in the genesis of dyspnoea in asthma and COPD. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2005 , 14, 186-94		13
30	Respiratory muscle training in chronic obstructive pulmonary disease: inspiratory, expiratory, or both?. <i>Current Opinion in Pulmonary Medicine</i> , 2005 , 11, 140-4	3	30
29	The effect of inspiratory muscle training upon maximum lactate steady-state and blood lactate concentration. <i>European Journal of Applied Physiology</i> , 2005 , 94, 277-84	3.4	40
28	Impact of changes in the IOC-MC asthma criteria: a British perspective. <i>Thorax</i> , 2005 , 60, 629-32	7.3	62
27	In favour of respiratory muscle training. <i>Chronic Respiratory Disease</i> , 2005 , 2, 219-21	3	
26	Impact Of The International Olympic Committee ??? Medical Commision Change In Asthma Diagnosis ??? A British Perspective. <i>Medicine and Science in Sports and Exercise</i> , 2005 , 37, S229	1.2	
25	Respiratory muscle training in healthy humans: resolving the controversy. <i>International Journal of Sports Medicine</i> , 2004 , 25, 284-93	3.6	104
24	Inspiratory muscle training as a tool for the management of patients with COPD. <i>European Respiratory Journal</i> , 2004 , 24, 510-1; author reply 511	13.6	5
23	Inter-test reliability for non-invasive measures of respiratory muscle function in healthy humans. <i>European Journal of Applied Physiology</i> , 2004 , 91, 167-76	3.4	42
22	Influence of environmental temperature on exercise-induced inspiratory muscle fatigue. <i>European Journal of Applied Physiology</i> , 2004 , 91, 656-63	3.4	12
21	Dyspnoea in health and obstructive pulmonary disease : the role of respiratory muscle function and training. <i>Sports Medicine</i> , 2004 , 34, 117-32	10.6	39
20	Specificity and reversibility of inspiratory muscle training. <i>Medicine and Science in Sports and Exercise</i> , 2003 , 35, 237-44	1.2	90
19	Inspiratory muscle fatigue in swimmers after a single 200 m swim. <i>Journal of Sports Sciences</i> , 2003 , 21, 659-64	3.6	56
18	Effects of inspiratory muscle training upon recovery time during high intensity, repetitive sprint activity. <i>International Journal of Sports Medicine</i> , 2002 , 23, 353-60	3.6	67
17	Inspiratory muscle fatigue in trained cyclists: effects of inspiratory muscle training. <i>Medicine and Science in Sports and Exercise</i> , 2002 , 34, 785-92	1.2	87

16	Effects of inspiratory muscle training on time-trial performance in trained cyclists. <i>Journal of Sports Sciences</i> , 2002 , 20, 547-62	3.6	123
15	Re: Evaluation of an inspiratory muscle trainer in healthy humans (Respir Med 2001; 95: 526-531). <i>Respiratory Medicine</i> , 2002 , 96, 129-33	4.6	1
14	Development of an automated pressure-threshold loading device for evaluation of inspiratory muscle performance. <i>Sports Engineering</i> , 2001 , 4, 87-94	1.4	1
13	Specific respiratory warm-up improves rowing performance and exertional dyspnea. <i>Medicine and Science in Sports and Exercise</i> , 2001 , 33, 1189-93	1.2	47
12	Assessment of maximum inspiratory pressure. Prior submaximal respiratory muscle activity (Warm-up) enhances maximum inspiratory activity and attenuates the learning effect of repeated measurement. <i>Respiration</i> , 2001 , 68, 22-7	3.7	55
11	Inspiratory muscle training improves rowing performance. <i>Medicine and Science in Sports and Exercise</i> , 2001 , 33, 803-9	1.2	182
10	The influence of prior activity upon inspiratory muscle strength in rowers and non-rowers. <i>International Journal of Sports Medicine</i> , 1999 , 20, 542-7	3.6	35
9	Do fire-fighters develop specific ventilatory responses in order to cope with exercise whilst wearing self-contained breathing apparatus?. <i>European Journal of Applied Physiology and Occupational Physiology</i> , 1999 , 80, 107-12		10
8	Maximum static respiratory pressures in healthy elderly men and women: issues of reproducibility and interpretation. <i>Respiration</i> , 1999 , 66, 251-8	3.7	63
7	Inspiratory muscle fatigue following running to volitional fatigue: the influence of baseline strength. <i>International Journal of Sports Medicine</i> , 1997 , 18, 169-73	3.6	38
6	The ventilatory response to moderate hypocapnic exercise in human beings. <i>Respiration Physiology</i> , 1996 , 103, 147-56		5
5	Assessment of spinal curvature. <i>International Journal of Rehabilitation Research</i> , 1996 , 19, 271-278	1.8	13
4	Ventilatory sensitivity to carbon dioxide: the influence of exercise and athleticism. <i>Medicine and Science in Sports and Exercise</i> , 1996 , 28, 685-91	1.2	23
3	Estimation of arterial PCO ₂ in the elderly. <i>Journal of Applied Physiology</i> , 1995 , 79, 2086-93	3.7	25
2	Ventilatory responses to exercise and carbon dioxide in elderly and younger humans. <i>European Journal of Applied Physiology and Occupational Physiology</i> , 1993 , 66, 332-7		8
1	A comparison of the ventilatory responses to exercise of elderly and younger humans. <i>Journal of Gerontology</i> , 1992 , 47, B137-41		21
