citing authors

#	ARTICLE	IF	CITATIONS
1	Nonparametric Tests of Stochastic Dominance in Income Distributions. <i>Econometrica</i> , 1996, 64, 1183.	4.2	276
2	The size distribution of Chinese cities. <i>Regional Science and Urban Economics</i> , 2005, 35, 756-776.	2.6	169
3	Toward an empirical analysis of polarization. <i>Journal of Econometrics</i> , 2004, 122, 1-26.	6.5	110
4	Nonparametric estimation and inference about the overlap of two distributions. <i>Journal of Econometrics</i> , 2012, 171, 1-23.	6.5	69
5	Do Economic Reforms Accelerate Urban Growth? The Case of China. <i>Urban Studies</i> , 2004, 41, 2197-2210.	3.7	48
6	Making inferences about the polarization, welfare and poverty of nations: a study of 101 countries 1970â€“1995. <i>Journal of Applied Econometrics</i> , 2004, 19, 537-550.	2.3	34
7	Welfare rankings from multivariate data, a nonparametric approach. <i>Journal of Public Economics</i> , 2011, 95, 247-252.	4.3	24
8	A new approach to measuring and studying the characteristics of class membership: Examining poverty, inequality and polarization in urban China. <i>Journal of Econometrics</i> , 2016, 191, 348-359.	6.5	23
9	The empirical assessment of multidimensional welfare, inequality and poverty: Sample weighted multivariate generalizations of the Kolmogorovâ€“Smirnov two sample tests for stochastic dominance. <i>Journal of Economic Inequality</i> , 2008, 6, 73-87.	3.5	21
10	Distributional Overlap: Simple, Multivariate, Parametric, and Nonparametric Tests for Alienation, Convergence, and General Distributional Difference Issues. <i>Econometric Reviews</i> , 2009, 29, 247-275.	1.1	20
11	POLARIZATION OF THE POOR: MULTIVARIATE RELATIVE POVERTY MEASUREMENT SANS FRONTIERS. <i>Review of Income and Wealth</i> , 2010, 56, 84-101.	2.4	19
12	A polarization-cohesion perspective on cross-country convergence. <i>Journal of Economic Growth</i> , 2012, 17, 49-69.	1.9	19
13	THE POWER AND SIZE OF NONPARAMETRIC TESTS FOR COMMON DISTRIBUTIONAL CHARACTERISTICS. <i>Econometric Reviews</i> , 2001, 20, 1-30.	1.1	14
14	Assessing the convergence and mobility of nations without artificially specified class boundaries. <i>Journal of Economic Growth</i> , 2016, 21, 283-304.	1.9	11
15	Similarity, dissimilarity and exceptionality: generalizing Giniâ€™s transvariation to measure â€œdifferentnessâ€ in many distributions. <i>Metron</i> , 2017, 75, 161-180.	1.2	11
16	LIFE EXPECTANCY AND ECONOMIC WELFARE: THE EXAMPLE OF AFRICA IN THE 1990s. <i>Review of Income and Wealth</i> , 2005, 51, 455-468.	2.4	10
17	CHILD POVERTY, INVESTMENT IN CHILDREN AND GENERATIONAL MOBILITY: THE SHORT AND LONG TERM WELLBEING OF CHILDREN IN URBAN CHINA AFTER THE ONE CHILD POLICY. <i>Review of Income and Wealth</i> , 2009, 55, 607-629.	2.4	10
18	Measuring Advances in Equality of Opportunity: The Changing Gender Gap in Educational Attainment in Canada in the Last Half Century. <i>Social Indicators Research</i> , 2014, 119, 73-99.	2.7	10

#	ARTICLE	IF	CITATIONS
19	Efficiency Analysis and the Lower Convex Hull Approach. , 2008, , 176-191.		10
20	Poverty status probability: a new approach to measuring poverty and the progress of the poor. Journal of Economic Inequality, 2014, 12, 469-488.	3.5	8
21	Increasing discriminatory power in well-being analysis using convex stochastic dominance. Social Choice and Welfare, 2018, 51, 551-561.	0.8	8
22	Income Inequality, Cohesiveness and Commonality in the Euro Area: A Semi-Parametric Boundary-Free Analysis. Econometrics, 2018, 6, 15.	0.9	8
23	Rectangular Latent Markov Models for Time-Specific Clustering, with An Analysis of the Wellbeing of Nations. Journal of the Royal Statistical Society Series C: Applied Statistics, 2019, 68, 603-621.	1.0	8
24	Somewhere Between Utopia and Dystopia: Choosing From Multiple Incomparable Prospects. Journal of Business and Economic Statistics, 2020, 38, 502-515.	2.9	7
25	Polarization Measurement and Inference in Many Dimensions When Subgroups Can Not Be Identified. Economics, 2011, 5, .	0.6	6
26	Poverty in America 1970-1990: who did gain ground? An application of stochastic dominance criteria employing simultaneous inequality tests in a partial panel. Journal of Applied Econometrics, 2003, 18, 621-640.	2.3	5
27	An empirical examination of matching theories: The one child policy, partner choice and matching intensity in urban China. Journal of Comparative Economics, 2013, 41, 468-489.	2.2	5
28	Institutions and Economic Outcomes: A Dominance-Based Analysis. Econometric Reviews, 2013, 32, 164-182.	1.1	5
29	Measuring Aspects of Mobility, Polarization and Convergence in the Absence of Cardinality: Indices Based Upon Transitional Typology. Social Indicators Research, 2018, 139, 887-907.	2.7	5
30	Measuring Multi-group Polarization, Segmentation and Ambiguity: Increasingly Unequal Yet Similar Constituent Canadian Income Distributions. Social Indicators Research, 2019, 145, 1001-1032.	2.7	3
31	Multilateral Wellbeing Comparison in a Many Dimensioned World. Global Perspectives on Wealth and Distribution, 2019, , .	0.0	3
32	More unequal yet more alike, the changing patterns of family formation, generational mobility and household income inequality in China: a counter-factual analysis. Journal of Economic Inequality, 2019, 17, 359-378.	3.5	3
33	On unit free assessment of the extent of multilateral distributional variation. Econometrics Journal, 2021, 24, 502-518.	2.3	3
34	Quantifying the Progress of Economic and Social Justice: Charting Changes in Equality of Opportunity in the USA, 1960â€”2000. Journal of Human Development and Capabilities, 2017, 18, 17-45.	2.0	2
35	Somewhere between Utopia and Dystopia: Choosing from Incomparable Prospects. SSRN Electronic Journal, 2017, , .	0.4	2
36	Measuring the progress of equality of educational opportunity in absence of cardinal comparability. Metron, 2020, 78, 155-174.	1.2	2

#	ARTICLE	IF	CITATIONS
37	Sufficient conditions for $j$ th order stochastic dominance for discrete cardinal variables, and their formulae. <i>Economics Letters</i> , 2021, , 110144.	1.9	2
38	Boats and Tides and "Trickle Down" Theories: What Economists Presume about Wellbeing When They Employ Stochastic Process Theory in Modeling Behavior. <i>Economics</i> , 2012, 6, .	0.6	0
39	The 1986 paper by Kanbur and Stiglitz on "Intergenerational Mobility and Dynastic Inequality". <i>Journal of Economic Inequality</i> , 2016, 14, 417-418.	3.5	0
40	A note on a family of criteria for evaluating test statistics. <i>Communications in Statistics - Theory and Methods</i> , 2016, 45, 3138-3144.	1.0	0
41	Measuring the Wellbeing of Groups. <i>Global Perspectives on Wealth and Distribution</i> , 2019, , 1-21.	0.0	0
42	Statistical Matters. <i>Global Perspectives on Wealth and Distribution</i> , 2019, , 23-60.	0.0	0
43	Comparing Latent Subgroups. <i>Global Perspectives on Wealth and Distribution</i> , 2019, , 135-151.	0.0	0
44	Ambiguity, Comparability, Segmentation and All That. <i>Global Perspectives on Wealth and Distribution</i> , 2019, , 153-180.	0.0	0
45	Some Applications. <i>Global Perspectives on Wealth and Distribution</i> , 2019, , 181-202.	0.0	0
46	Partial Orderings. <i>Global Perspectives on Wealth and Distribution</i> , 2019, , 97-134.	0.0	0
47	Complete Orderings: Index Types and the Ambiguity Problem. <i>Global Perspectives on Wealth and Distribution</i> , 2019, , 61-95.	0.0	0
48	Health, loneliness and the ageing process in the absence of cardinal measure: Rendering intangibles tangible. <i>Journal of the Economics of Ageing</i> , 2022, 22, 100369.	1.3	0
