#	ARTICLE	IF	CITATIONS
1	Cardiac Rehabilitation During the COVID-19 Era: Guidance on Implementing Virtual Care. Canadian Journal of Cardiology, 2020, 36, 1317-1321.	1.7	68
2	Postinfarction left ventricular free wall rupture: a 17-year single-centre experience. European Journal of Cardio-thoracic Surgery, 2018, 53, 150-156.	1.4	59
3	The impact of the radial artery or the saphenous vein in addition to the bilateral internal mammary arteries on late survival: A propensity score analysis. Journal of Thoracic and Cardiovascular Surgery, 2019, 158, 141-151.	0.8	24
4	Current and Future Status of Extracorporeal Cardiopulmonary Resuscitation for In-Hospital Cardiac Arrest. Canadian Journal of Cardiology, 2017, 33, 51-60.	1.7	16
5	Survival effect of radial artery usage in addition to bilateral internal thoracic arterial grafting: A meta-analysis. Journal of Thoracic and Cardiovascular Surgery, 2023, 165, 2076-2085.e9.	0.8	14
6	Transfusion Thresholds for Adult Respiratory Extracorporeal Life Support: An Expert Consensus Document. Canadian Journal of Cardiology, 2020, 36, 1550-1553.	1.7	13
7	Optimizing provision of extracorporeal life support during the COVID-19 pandemic: practical considerations for Canadian jurisdictions. Cmaj, 2020, 192, E372-E374.	2.0	13
8	Does additional coronary artery bypass grafting to aortic valve replacement in elderly patients affect the early and long-term outcome?. Heart and Vessels, 2020, 35, 487-501.	1.2	11
9	Medical Optimization and Liberation of Adult Patients From VA-ECMO. Canadian Journal of Cardiology, 2020, 36, 280-290.	1.7	9
10	Left ventricular free wall rupture after myocardial infarction: Still a challenging complication. Journal of Thoracic and Cardiovascular Surgery, 2019, 158, e97-e98.	0.8	8
11	Incidence of perioperative stroke in clampless aortic anastomosis during off-pump coronary artery bypass grafting. Heart and Vessels, 2018, 33, 595-604.	1.2	6
12	Therapeutic hypothermia as an adjunct to extracorporeal membrane oxygenation for acute respiratory distress and refractory hypoxemia. Perfusion (United Kingdom), 2019, 34, 422-424.	1.0	6
13	The impact of coronary artery bypass grafting added to aortic valve replacement on long-term outcomes in octogenarian patients: a reconstructed time-to-event meta-analysis. Interactive Cardiovascular and Thoracic Surgery, 2022, 35, .	1.1	6
14	Current Status of Simulation Use in Canadian Cardiac Surgery Training Programs. Canadian Journal of Cardiology, 2021, 37, 1639-1643.	1.7	5
15	Reply: Protecting the right ventricle in COVID-19 acute respiratory distress syndrome—More data required. Journal of Thoracic and Cardiovascular Surgery, 2021, 161, e215-e216.	0.8	4
16	Controversies in extracorporeal membrane oxygenation: Immediate versus watchful waiting for venoarterial extracorporeal membrane oxygenation venting. JTCVS Open, 2021, , .	0.5	4
17	Use of Renin-Angiotensin System Blockers During the COVID-19 Pandemic: Early Guidance and Evolving Evidence. Canadian Journal of Cardiology, 2020, 36, 1180-1182.	1.7	3
18	Guiding Cardiac Care During the COVID-19 Pandemic: How Ethics Shapes Our Health System Response. Canadian Journal of Cardiology, 2020, 36, 1313-1316.	1.7	2

#	ARTICLE	IF	CITATIONS
19	SMART decisions in fluid management are worth their SALT. <i>Journal of Thoracic and Cardiovascular Surgery</i> , 2020, 160, 1250-1254.	0.8	1
20	The early and long-term outcomes of coronary artery bypass grafting added to aortic valve replacement compared to isolated aortic valve replacement in elderly patients: a systematic review and meta-analysis. <i>Heart and Vessels</i> , 2022, , 1.	1.2	1
21	Commentary: Transaortic transcatheter aortic valve implantation: A route to be protected and not neglected. <i>Journal of Thoracic and Cardiovascular Surgery</i> , 2019, 157, 1404-1405.	0.8	0
22	Letter to the Editor: Left ventricular free wall rupture: still a complication that negatively affects the in-hospital survival. <i>Heart and Vessels</i> , 2021, , 1.	1.2	0
23	Characterizing the Level of Autonomy in Canadian Cardiac Surgery Residents. <i>Annals of Thoracic Surgery</i> , 2022, , .	1.3	0
