

Margriet E Van Baar

List of Publications by Citations

Source: <https://exaly.com/author-pdf/394239/margriet-e-van-baar-publications-by-citations.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
51	Functional outcome after burns: a review. <i>Burns</i> , 2006 , 32, 1-9	2.3	169
50	Burn injury. <i>Nature Reviews Disease Primers</i> , 2020 , 6, 11	51.1	147
49	Costs of burn care: a systematic review. <i>Wound Repair and Regeneration</i> , 2014 , 22, 436-50	3.6	75
48	Epidemiology and trends in severe burns in the Netherlands. <i>Burns</i> , 2014 , 40, 1406-14	2.3	55
47	Quality of life after burns in childhood (5-15 years): children experience substantial problems. <i>Burns</i> , 2011 , 37, 930-8	2.3	51
46	Clinical effectiveness of dermal substitution in burns by topical negative pressure: a multicenter randomized controlled trial. <i>Wound Repair and Regeneration</i> , 2012 , 20, 797-805	3.6	48
45	Predictors of health-related quality of life after burn injuries: a systematic review. <i>Critical Care</i> , 2018 , 22, 160	10.8	34
44	Mortality and causes of death of Dutch burn patients during the period 2006-2011. <i>Burns</i> , 2015 , 41, 235-40	2.3	33
43	Burns to the head and neck: Epidemiology and predictors of surgery. <i>Burns</i> , 2013 , 39, 1184-92	2.3	32
42	Reconstructive surgery after burns: a 10-year follow-up study. <i>Burns</i> , 2014 , 40, 1544-51	2.3	31
41	Reliability and validity of the Dutch version of the American Burn Association/Shriners Hospital for Children Burn Outcomes Questionnaire (5-18 years of age). <i>Journal of Burn Care and Research</i> , 2006 , 27, 790-802	0.8	29
40	Epidemiology of children admitted to the Dutch burn centres. Changes in referral influence admittance rates in burn centres. <i>Burns</i> , 2011 , 37, 1161-7	2.3	27
39	Predictive validity of short term scar quality on final burn scar outcome using the Patient and Observer Scar Assessment Scale in patients with minor to moderate burn severity. <i>Burns</i> , 2017 , 43, 715-723	2.3	26
38	Patient-reported scar quality of adults after burn injuries: A five-year multicenter follow-up study. <i>Wound Repair and Regeneration</i> , 2019 , 27, 406-414	3.6	24
37	Early management in children with burns: Cooling, wound care and pain management. <i>Burns</i> , 2016 , 42, 777-82	2.3	24
36	Economic burden of burn injuries in the Netherlands: A 3 months follow-up study. <i>Injury</i> , 2016 , 47, 203-10	10.5	22
35	Cost-Effectiveness of Laser Doppler Imaging in Burn Care in The Netherlands: A Randomized Controlled Trial. <i>Plastic and Reconstructive Surgery</i> , 2016 , 137, 166e-176e	2.7	22

34	Health related quality of life 5-7 years after minor and severe burn injuries: a multicentre cross-sectional study. <i>Burns</i> , 2019 , 45, 1291-1299	2.3	19
33	Long-term scar quality in burns with three distinct healing potentials: A multicenter prospective cohort study. <i>Wound Repair and Regeneration</i> , 2016 , 24, 721-30	3.6	19
32	Return to work after specialised burn care: A two-year prospective follow-up study of the prevalence, predictors and related costs. <i>Injury</i> , 2016 , 47, 1975-82	2.5	18
31	Clinical outcome of patients with self-inflicted burns. <i>Burns</i> , 2017 , 43, 789-795	2.3	17
30	Effectiveness of cerium nitrate-silver sulfadiazine in the treatment of facial burns: a multicenter, randomized, controlled trial. <i>Plastic and Reconstructive Surgery</i> , 2012 , 130, 274e-283e	2.7	17
29	Cost-effectiveness of laser Doppler imaging in burn care in the Netherlands. <i>BMC Surgery</i> , 2013 , 13, 2	2.3	15
28	Clinical effectiveness, quality of life and cost-effectiveness of Flaminal [®] versus Flamazine [®] in the treatment of partial thickness burns: study protocol for a randomized controlled trial. <i>Trials</i> , 2016 , 17, 122	2.8	14
27	Epidemiology and costs of patients with toxic epidermal necrolysis: a 27-year retrospective study. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2015 , 29, 2444-50	4.6	14
26	Epidemiology and screening of intentional burns in children in a Dutch burn centre. <i>Burns</i> , 2016 , 42, 1287-94	2.9	14
25	The prevalence and development of burn scar contractures: A prospective multicenter cohort study. <i>Burns</i> , 2019 , 45, 783-790	2.3	13
24	Cost study of dermal substitutes and topical negative pressure in the surgical treatment of burns. <i>Burns</i> , 2014 , 40, 388-96	2.3	12
23	Recovery of health-related quality of life after burn injuries: An individual participant data meta-analysis. <i>PLoS ONE</i> , 2020 , 15, e0226653	3.7	12
22	Application of hydrosurgery for burn wound debridement: An 8-year cohort analysis. <i>Burns</i> , 2019 , 45, 88-96	2.3	11
21	A systematic review on surgical and nonsurgical debridement techniques of burn wounds. <i>Journal of Plastic, Reconstructive and Aesthetic Surgery</i> , 2019 , 72, 1752-1762	1.7	9
20	Reduction in skin grafting after the introduction of hydrofiber dressings in partial thickness burns: a comparison between a hydrofiber and silver sulphadiazine. <i>Burns</i> , 2013 , 39, 130-5	2.3	9
19	Course of prevalence of scar contractures limiting function: A preliminary study in children and adolescents after burns. <i>Burns</i> , 2019 , 45, 1810-1818	2.3	8
18	Partial-thickness scalds in children: A comparison of different treatment strategies. <i>Burns</i> , 2017 , 43, 733-740	2.4	7
17	Burn intensive care treatment over the last 30 years: Improved survival and shift in case-mix. <i>Burns</i> , 2019 , 45, 1057-1065	2.3	5

16	Improved and standardized method for assessing years lived with disability after burns and its application to estimate the non-fatal burden of disease of burn injuries in Australia, New Zealand and the Netherlands. <i>BMC Public Health</i> , 2020 , 20, 121	4.1	5
15	Long-term quality of life and cost-effectiveness of treatment of partial thickness burns: A randomized controlled trial comparing enzyme alginogel vs silver sulfadiazine (FLAM study). <i>Wound Repair and Regeneration</i> , 2020 , 28, 375-384	3.6	3
14	Adequacy of a hospital-wide standard dose of 7mg/kg bodyweight gentamicin sufficient to achieve an adequate prophylactic maximum serum concentration (C) in burn patients undergoing surgical burn wound treatment. <i>Burns</i> , 2016 , 42, 1819-1824	2.3	3
13	Patient-reported scar quality of donor-sites following split-skin grafting in burn patients: Long-term results of a prospective cohort study. <i>Burns</i> , 2021 , 47, 315-321	2.3	3
12	Early excision and grafting for burns. <i>The Cochrane Library</i> , 2012 ,	5.2	2
11	Doxepin cream is not effective in reducing itch in burn scar patients: A multicenter triple-blind randomized clinical crossover trial. <i>Burns</i> , 2020 , 46, 340-346	2.3	2
10	Comparison of three different methods to estimate the burden of disease of burn injuries in Western Australia in 2011-2018. <i>Burns</i> , 2020 , 46, 1424-1431	2.3	1
9	Is the time right to put down the knife? A call for evidence-based decision making. <i>Burns</i> , 2018 , 44, 1859-1860	2.3	1
8	Epidemiology of Scars and Their Consequences: Burn Scars 2020 , 37-43		1
7	Activity impairment, work status, and work productivity loss in adults 5-7 years after burn injuries. <i>Journal of Burn Care and Research</i> , 2021 ,	0.8	1
6	Nursing problems in patients with toxic epidermal necrolysis and Stevens-Johnson syndrome in a Dutch burn centre: A 30-year retrospective study. <i>Burns</i> , 2019 , 45, 1625-1633	2.3	0
5	Outcome measures to evaluate the function of the hand after burns; a clinical initiative. <i>Burns Open</i> , 2021 , 5, 162-167	0.8	0
4	Response to letter to the editor "facial scar assessment: what do we need in future?". <i>Burns</i> , 2014 , 40, 536-7	2.3	
3	No Change in Fireworks-Related Burn Center Admissions: A 10-Year Analysis of the Admission Rates, Treatment, and Costs. <i>European Journal of Burn Care</i> , 2021 , 2, 31-40	0	
2	Clinical outcome of patients with suicide attempts: 1098 patients. <i>Burns</i> , 2018 , 44, 235-236	2.3	
1	Assessing Health-Related Quality of Life of Adult Patients with Intermediate Burns: The Added Value of an Itching and Cognition Item for the EQ-5D: A Retrospective Observational Study. <i>European Journal of Burn Care</i> , 2022 , 3, 264-277	0
