#	ARTICLE	IF	CITATIONS
1	Self-regulatory processes in early childhood as predictors of Hispanic children's BMI z-scores during the elementary school years: Differences by acculturation and gender. <i>Appetite</i> , 2022, 168, 105778.	1.8	3
2	The association of food parenting practices with adolescents' dietary behaviors differ by youth gender, but not by parent gender. <i>Appetite</i> , 2022, 169, 105846.	1.8	10
3	Selection and use of vegetable parenting practices did not vary by parent feeding styles: Mixed methods investigation. <i>Appetite</i> , 2022, 170, 105883.	1.8	3
4	Early Care and Education Center Environmental Factors Associated with Product- and Process-Based Locomotor Outcomes in Preschool-Age Children. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 2208.	1.2	3
5	Vision 2020: How Caregiving and Work Productivity Outlook Shifted for Academic Pediatric Faculty. <i>Journal of Women's Health</i> , 2022, 31, 631-639.	1.5	4
6	An Objective System for Quantitative Assessment of Television Viewing Among Children (Family Level) Parenting, 2022, 5, e33569.	0.8	6
7	Sustainability via Active Garden Education: The Sustainability Action Plan Model and Process. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 5511.	1.2	1
8	Maternal Feeding Styles and Child Appetitive Traits: Direction of Effects in Hispanic Families With Low Incomes. <i>Frontiers in Public Health</i> , 2022, 10, .	1.3	4
9	Observations of Maternal Feeding Practices and Styles and Young Children's Obesity Risk: A Longitudinal Study of Hispanic Mothers with Low Incomes. <i>Childhood Obesity</i> , 2021, 17, 16-25.	0.8	13
10	General Parenting and Hispanic Mothers' Feeding Practices and Styles. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 380.	1.2	1
11	Maternal feeding style and child weight status among Hispanic families with low-income levels: a longitudinal study of the direction of effects. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 30.	2.0	21
12	Primary Disease Prevention for Southwest American Indian Families During the COVID-19 Pandemic: Camp in a Box. <i>Frontiers in Sociology</i> , 2021, 6, 611972.	1.0	3
13	Papás Saludables, Niños Saludables: Perspectives From Hispanic Parents and Children in a Culturally Adapted Father-Focused Obesity Program. <i>Journal of Nutrition Education and Behavior</i> , 2021, 53, 246-253.	0.3	5
14	Identifying and predicting food parenting practice profiles among Canadian parents. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 59.	2.0	8
15	Measurement challenges for childhood obesity research within and between Latin America and the United States. <i>Obesity Reviews</i> , 2021, 22, e13242.	3.1	11
16	Pilot Feasibility, Reliability, and Validity Assessment of Infant Skin Carotenoids Measured by Reflection Spectroscopy as a Non-invasive Biomarker of Carotenoid Intake. <i>Current Developments in Nutrition</i> , 2021, 5, 77.	0.1	1
17	Opportunities to Address Obesity Disparities Among High-Risk Latino Children and Adolescents. <i>Current Obesity Reports</i> , 2021, 10, 332-341.	3.5	4
18	Later sleep timing predicts accelerated summer weight gain among elementary school children: a prospective observational study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 94.	2.0	23

#	ARTICLE	IF	CITATIONS
19	Are fathers' and mothers' food parenting practices differentially associated with children's eating behaviors?. <i>Appetite</i> , 2021, 166, 105434.	1.8	16
20	Intersectionality between parenting styles, area of residence and gender on food group consumption among Costa Rican adolescents. <i>Appetite</i> , 2021, 166, 105443.	1.8	2
21	Exploring Correlates of Preschool-Aged Children's Locomotor Skills: Individual and Parent Demographics and Home Environment. <i>Perceptual and Motor Skills</i> , 2021, 128, 649-671.	0.6	6
22	Precision Food Parenting: A Proposed Conceptual Model and Research Agenda. <i>Nutrients</i> , 2021, 13, 3650.	1.7	4
23	Desafíos de medición para la investigación de la obesidad infantil en y entre América Latina y Estados Unidos. <i>Obesity Reviews</i> , 2021, 22, e13353.	3.1	0
24	Cross-Site Process Evaluation Results for the Early Childhood Education Center Setting: CORD Study. <i>Childhood Obesity</i> , 2020, 16, 350-357.	0.8	2
25	Gender Differences in the Prediction of Children's Weight Status from Measures of Non-Eating and Eating Self-Regulation. <i>Current Developments in Nutrition</i> , 2020, 4, nzaa063_041.	0.1	0
26	The physical activity parenting practices (PAPP) item Bank: a psychometrically validated tool for improving the measurement of physical activity parenting practices of parents of 5-12-year-old children. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 134.	2.0	11
27	Calibration of the food parenting practice (FPP) item bank: tools for improving the measurement of food parenting practices of parents of 5-12-year-old children. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 140.	2.0	8
28	Infant Heel Dermal Carotenoids Are Measured Rapidly and Reliably by Portable Reflection Spectroscopy. <i>Current Developments in Nutrition</i> , 2020, 4, nzaa041_026.	0.1	1
29	What parenting practices do US and Canadian parents use to encourage or discourage healthy eating among their 5-12-year-old children?. <i>Preventive Medicine Reports</i> , 2020, 20, 101234.	0.8	1
30	Feasibility of Targeting Hispanic Fathers and Children in an Obesity Intervention: <i>Papás Saludables Niños Saludables</i> . <i>Childhood Obesity</i> , 2020, 16, 379-392.	0.8	13
31	Food Parenting Practices and Children's Eating Behaviors: Comparing Mothers and Fathers. <i>Current Developments in Nutrition</i> , 2020, 4, nzaa059_071.	0.1	4
32	Obesity risk in Hispanic children: Bidirectional associations between child eating behavior and child weight status over time. <i>Eating Behaviors</i> , 2020, 36, 101366.	1.1	21
33	Cultural adaptation of "Healthy Dads, Healthy Kids" for Hispanic families: applying the ecological validity model. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 52.	2.0	15
34	Child weight status and accuracy of perceived child weight status as predictors of Latina mothers' feeding practices and styles. <i>Appetite</i> , 2019, 142, 104387.	1.8	19
35	The association of TV viewing during dinner meals with quality of dietary intake and BMI z-scores among low income, ethnic minority preschool children. <i>Appetite</i> , 2019, 140, 231-238.	1.8	6
36	Design and methodology of a cluster-randomized trial in early care and education centers to meet physical activity guidelines: Sustainability via Active Garden Education (SAGE). <i>Contemporary Clinical Trials</i> , 2019, 77, 8-18.	0.8	17

#	ARTICLE	IF	CITATIONS
37	Predicting preschool children's eating in the absence of hunger from maternal pressure to eat: A longitudinal study of low-income, Latina mothers. <i>Appetite</i> , 2018, 120, 281-286.	1.8	25
38	Authoritative parent feeding style is associated with better child dietary quality at dinner among low-income minority families. <i>American Journal of Clinical Nutrition</i> , 2018, 108, 730-736.	2.2	44
39	Stability in the feeding practices and styles of low-income mothers: questionnaire and observational analyses. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 28.	2.0	18
40	Engaging Latino Fathers in Children's Eating and Other Obesity-Related Behaviors: a Review. <i>Current Nutrition Reports</i> , 2018, 7, 29-38.	2.1	22
41	Conceptualizing physical activity parenting practices using expert informed concept mapping analysis. <i>BMC Public Health</i> , 2017, 17, 574.	1.2	47
42	Associations Between Objective and Self-Report Measures of Traffic and Crime Safety in Latino Parents of Preschool Children. <i>Journal of Immigrant and Minority Health</i> , 2017, 19, 1109-1120.	0.8	10
43	Parents' Qualitative Perspectives on Child Asking for Fruit and Vegetables. <i>Nutrients</i> , 2017, 9, 575.	1.7	3
44	What do US and Canadian parents do to encourage or discourage physical activity among their 5-12-year old children?. <i>BMC Public Health</i> , 2017, 17, 920.	1.2	6
45	Food parenting practices for 5 to 12-year old children: a concept map analysis of parenting and nutrition experts input. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017, 14, 122.	2.0	34
46	Mom Mio's Recipe Box: Assessment of the Cooking Habits of Mothers of Preschoolers and Their Perceptions of Recipes for a Video Game. <i>JMIR Serious Games</i> , 2017, 5, e20.	1.7	5
47	Obesity status trajectory groups among elementary school children. <i>BMC Public Health</i> , 2016, 16, 526.	1.2	41
48	Maternal Feeding Styles and Food Parenting Practices as Predictors of Longitudinal Changes in Weight Status in Hispanic Preschoolers from Low-Income Families. <i>Journal of Obesity</i> , 2016, 2016, 1-9.	1.1	67
49	Predicting habits of vegetable parenting practices to facilitate the design of change programmes. <i>Public Health Nutrition</i> , 2016, 19, 1976-1982.	1.1	4
50	Parental involvement in exercise and diet interventions for childhood cancer survivors: a systematic review. <i>Pediatric Research</i> , 2016, 80, 338-346.	1.1	29
51	Latina mothers' influences on child appetite regulation. <i>Appetite</i> , 2016, 103, 200-207.	1.8	19
52	Emotion regulation strategies and childhood obesity in high risk preschoolers. <i>Appetite</i> , 2016, 107, 623-627.	1.8	26
53	Are the Physical Activity Parenting Practices Reported by US and Canadian Parents Captured in Currently Published Instruments?. <i>Journal of Physical Activity and Health</i> , 2016, 13, 1070-1078.	1.0	14
54	Development of an item bank for food parenting practices based on published instruments and reports from Canadian and US parents. <i>Appetite</i> , 2016, 103, 386-395.	1.8	12

#	ARTICLE	IF	CITATIONS
55	Assessing Feedback in a Mobile Videogame. <i>Games for Health Journal</i> , 2016, 5, 203-208.	1.1	4
56	Fundamental constructs in food parenting practices: a content map to guide future research. <i>Nutrition Reviews</i> , 2016, 74, 98-117.	2.6	421
57	The association of parent's outcome expectations for child TV viewing with parenting practices and child TV viewing: an examination using path analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015, 12, 70.	2.0	19
58	Obesity Risk in Children: The Role of Acculturation in the Feeding Practices and Styles of Low-Income Hispanic Families. <i>Childhood Obesity</i> , 2015, 11, 715-721.	0.8	48
59	Prose Fiction as a Narrative Companion for a Vegetable Parenting Videogame. <i>Games for Health Journal</i> , 2015, 4, 305-311.	1.1	8
60	Executive functioning, emotion regulation, eating self-regulation, and weight status in low-income preschool children: How do they relate?. <i>Appetite</i> , 2015, 89, 1-9.	1.8	100
61	Vegetable parenting practices scale. Item response modeling analyses. <i>Appetite</i> , 2015, 91, 190-199.	1.8	3
62	Predicting use of ineffective vegetable parenting practices with the Model of Goal Directed Behavior. <i>Public Health Nutrition</i> , 2015, 18, 1028-1035.	1.1	9
63	Using the RE-AIM framework to evaluate physical activity public health programs in MÃ©xico. <i>BMC Public Health</i> , 2015, 15, 162.	1.2	24
64	Predicting use of effective vegetable parenting practices with the Model of Goal Directed Behavior. <i>Public Health Nutrition</i> , 2015, 18, 1389-1396.	1.1	18
65	Rationale, Design, and Methods for Process Evaluation in the Childhood Obesity Research Demonstration Project. <i>Journal of Nutrition Education and Behavior</i> , 2015, 47, 560-565.e1.	0.3	16
66	Training Vegetable Parenting Practices Through a Mobile Game: Iterative Qualitative Alpha Test. <i>JMIR Serious Games</i> , 2015, 3, e6.	1.7	11
67	Psychometric validity of the parent's outcome expectations for children's television viewing (POETV) scale. <i>BMC Public Health</i> , 2014, 14, 894.	1.2	10
68	Parents' perceptions of preschool children's ability to regulate eating. Feeding style differences. <i>Appetite</i> , 2014, 76, 166-174.	1.8	81
69	Development of the Comprehensive General Parenting Questionnaire for caregivers of 5-13 year olds. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014, 11, 15.	2.0	55
70	Psychometrics of the preschooler physical activity parenting practices instrument among a Latino sample. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014, 11, 3.	2.0	45
71	Environmental and cultural correlates of physical activity parenting practices among Latino parents with preschool-aged children: NiÃ±os Activos. <i>BMC Public Health</i> , 2014, 14, 707.	1.2	43
72	Psychometric assessment of scales for a Model of Goal Directed Vegetable Parenting Practices (MGDVPP). <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013, 10, 110.	2.0	25

#	ARTICLE	IF	CITATIONS
73	What Hispanic parents do to encourage and discourage 3-5 year old children to be active: a qualitative study using nominal group technique. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013, 10, 93.	2.0	40
74	Physical Activity and Screen-Media-Related Parenting Practices Have Different Associations with Children's Objectively Measured Physical Activity. <i>Childhood Obesity</i> , 2013, 9, 446-453.	0.8	46
75	Hispanic Parents of Overweight and Obese Children and Their Outcome Expectations for Children's Television Viewing: A Qualitative Study. <i>Journal of Nutrition Education and Behavior</i> , 2013, 45, 718-722.	0.3	11
76	Dimensions of vegetable parenting practices among preschoolers. <i>Appetite</i> , 2013, 69, 89-93.	1.8	30
77	Structure of Corrective Feedback for Selection of Ineffective Vegetable Parenting Practices for Use in a Simulation Videogame. <i>Games for Health Journal</i> , 2013, 2, 29-33.	1.1	9
78	Houston We Have a Problem! Measurement of Parenting. <i>Childhood Obesity</i> , 2013, 9, S-1-S-4.	0.8	51
79	Conceptual Understanding of Screen Media Parenting: Report of a Working Group. <i>Childhood Obesity</i> , 2013, 9, S-110-S-118.	0.8	39
80	Predicting Use of Ineffective Responsive, Structure and Control Vegetable Parenting Practices With the Model of Goal Directed Behavior. <i>Journal of Food Research</i> , 2013, 2, 80.	0.1	7
81	Feasibility study to objectively assess activity and location of Hispanic preschoolers: a short communication. <i>Geospatial Health</i> , 2013, 7, 375.	0.3	19
82	The Children's Behavior Questionnaire very Short Scale: Psychometric Properties and Development of a One-Item Temperament Scale. <i>Psychological Reports</i> , 2012, 110, 197-217.	0.9	21
83	Alpha Test of a Videogame to Increase Children's Vegetable Consumption. <i>Games for Health Journal</i> , 2012, 1, 219-222.	1.1	21
84	A model of goal directed vegetable parenting practices. <i>Appetite</i> , 2012, 58, 444-449.	1.8	44
85	Is Enhanced Physical Activity Possible Using Active Videogames?. <i>Games for Health Journal</i> , 2012, 1, 228-232.	1.1	21
86	Parental Influences on Children's Self-Regulation of Energy Intake: Insights from Developmental Literature on Emotion Regulation. <i>Journal of Obesity</i> , 2012, 2012, 1-12.	1.1	112
87	Identifying and Clarifying Values and Reason Statements That Promote Effective Food Parenting Practices, Using Intensive Interviews. <i>Journal of Nutrition Education and Behavior</i> , 2011, 43, 531-535.	0.3	13
88	Health Professionals' and Dietetics Practitioners' Perceived Effectiveness of Fruit and Vegetable Parenting Practices across Six Countries. <i>Journal of the American Dietetic Association</i> , 2010, 110, 1065-1071.	1.3	36
89	Parenting practices are associated with fruit and vegetable consumption in pre-school children. <i>Public Health Nutrition</i> , 2010, 13, 91-101.	1.1	113
90	Parental involvement in interventions to improve child dietary intake: A systematic review. <i>Preventive Medicine</i> , 2010, 51, 103-111.	1.6	197

#	ARTICLE	IF	CITATIONS
91	Engaging Parents to Increase Youth Physical Activity. American Journal of Preventive Medicine, 2009, 37, 141-149.	1.6	192
92	Beverage Intake Among Preschool Children and Its Effect on Weight Status. Pediatrics, 2006, 118, e1010-e1018.	1.0	250
