#	Paper	IF	Citations
208	The effect of heat waves on mental health in a temperate Australian city. <i>Environmental Health Perspectives</i> , 2008 , 116, 1369-75	8.4	264
207	Health impacts of workplace heat exposure: an epidemiological review. <i>Industrial Health</i> , 2014 , 52, 91-101	15	193
206	Impact of two recent extreme heat episodes on morbidity and mortality in Adelaide, South Australia: a case-series analysis. <i>Environmental Health</i> , 2011 , 10, 42	6	166
205	The effect of heat waves on hospital admissions for renal disease in a temperate city of Australia. <i>International Journal of Epidemiology</i> , 2008 , 37, 1359-65	7.8	158
204	Morbidity and mortality during heatwaves in metropolitan Adelaide. <i>Medical Journal of Australia</i> , 2007 , 187, 662-5	4	157
203	Heat waves and morbidity: current knowledge and further direction-a comprehensive literature review. <i>International Journal of Environmental Research and Public Health</i> , 2015 , 12, 5256-83	4.6	121
202	The effects of extreme heat on human mortality and morbidity in Australia: implications for public health. <i>Asia-Pacific Journal of Public Health</i> , 2011 , 23, 27S-36	2	110
201	The effects of summer temperature and heat waves on heat-related illness in a coastal city of China, 2011-2013. <i>Environmental Research</i> , 2014 , 132, 212-9	7.9	100
200	Association between high temperature and work-related injuries in Adelaide, South Australia, 2001-2010. <i>Occupational and Environmental Medicine</i> , 2014 , 71, 246-52	2.1	100
199	Heat and health in Adelaide, South Australia: assessment of heat thresholds and temperature relationships. <i>Science of the Total Environment</i> , 2012 , 414, 126-33	10.2	96
198	Climate variations and bacillary dysentery in northern and southern cities of China. <i>Journal of Infection</i> , 2007 , 55, 194-200	18.9	96
197	The impact of summer temperatures and heatwaves on mortality and morbidity in Perth, Australia 1994-2008. <i>Environment International</i> , 2012 , 40, 33-38	12.9	85
196	Predicting unprecedented dengue outbreak using imported cases and climatic factors in Guangzhou, 2014. <i>PLoS Neglected Tropical Diseases</i> , 2015 , 9, e0003808	4.8	82
195	Heat waves and climate change: applying the health belief model to identify predictors of risk perception and adaptive behaviours in adelaide, australia. <i>International Journal of Environmental Research and Public Health</i> , 2013 , 10, 2164-84	4.6	81
194	The impact of heatwaves on workers' health and safety in Adelaide, South Australia. <i>Environmental Research</i> , 2014 , 133, 90-5	7.9	77
193	Climatic variables and transmission of malaria: a 12-Year data analysis in Shuchen County, China. <i>Public Health Reports</i> , 2003 , 118, 65-71	2.5	75
192	Climate variability and hemorrhagic fever with renal syndrome transmission in Northeastern China. <i>Environmental Health Perspectives</i> , 2010 , 118, 915-20	8.4	74

191	Climate variations and Salmonella infection in Australian subtropical and tropical regions. <i>Science of the Total Environment</i> , 2010 , 408, 524-30	10.2	72
190	The health status of migrants in Australia: a review. <i>Asia-Pacific Journal of Public Health</i> , 2010 , 22, 159-93	3.8	71
189	Predicting local dengue transmission in Guangzhou, China, through the influence of imported cases, mosquito density and climate variability. <i>PLoS ONE</i> , 2014 , 9, e102755	3.7	70
188	Changes in HIV prevalence and sexual behavior among men who have sex with men in a northern Chinese city: 2002-2006. <i>Journal of Infection</i> , 2007 , 55, 456-63	18.9	69
187	Climatic, reservoir and occupational variables and the transmission of haemorrhagic fever with renal syndrome in China. <i>International Journal of Epidemiology</i> , 2002 , 31, 189-93	7.8	69
186	Association between dengue fever incidence and meteorological factors in Guangzhou, China, 2005-2014. <i>Environmental Research</i> , 2017 , 153, 17-26	7.9	68
185	Weather variables and Japanese encephalitis in the metropolitan area of Jinan city, China. <i>Journal of Infection</i> , 2007 , 55, 551-6	18.9	68
184	Are workers at risk of occupational injuries due to heat exposure? A comprehensive literature review. <i>Safety Science</i> , 2018 , 110, 380-392	5.8	63
183	Seasonal rainfall variability, the incidence of hemorrhagic fever with renal syndrome, and prediction of the disease in low-lying areas of China. <i>American Journal of Epidemiology</i> , 1998 , 148, 276-87	3.8	61
182	Weather and the transmission of bacillary dysentery in Jinan, northern China: a time-series analysis. <i>Public Health Reports</i> , 2008 , 123, 61-6	2.5	60
181	Climatic variables and transmission of malaria: a 12-year data analysis in Shuchen County, China. <i>Public Health Reports</i> , 2003 , 118, 65-71	2.5	59
180	The effects of air pollution on asthma hospital admissions in Adelaide, South Australia, 2003-2013: time-series and case-crossover analyses. <i>Clinical and Experimental Allergy</i> , 2016 , 46, 1416-1430	4.1	58
179	Perceptions of heat-susceptibility in older persons: barriers to adaptation. <i>International Journal of Environmental Research and Public Health</i> , 2011 , 8, 4714-28	4.6	58
178	Climate change and the transmission of vector-borne diseases: a review. <i>Asia-Pacific Journal of Public Health</i> , 2008 , 20, 64-76	2	58
177	Climate variations and salmonellosis transmission in Adelaide, South Australia: a comparison between regression models. <i>International Journal of Biometeorology</i> , 2008 , 52, 179-87	3.7	54
176	Risk factors for direct heat-related hospitalization during the 2009 Adelaide heatwave: a case crossover study. <i>Science of the Total Environment</i> , 2013 , 442, 1-5	10.2	52
175	The effect of meteorological variables on the transmission of hand, foot and mouth disease in four major cities of shanxi province, China: a time series data analysis (2009-2013). <i>PLoS Neglected Tropical Diseases</i> , 2015 , 9, e0003572	4.8	50
174	Extreme heat and occupational heat illnesses in South Australia, 2001-2010. <i>Occupational and Environmental Medicine</i> , 2015 , 72, 580-6	2.1	46

173	Spatiotemporal transmission dynamics of hemorrhagic fever with renal syndrome in China, 2005-2012. <i>PLoS Neglected Tropical Diseases</i> , 2014 , 8, e3344	4.8	45
172	Prevalence of suicidal ideation and associated factors among HIV-positive MSM in Anhui, China. <i>International Journal of STD and AIDS</i> , 2015 , 26, 496-503	1.4	44
171	Risk factors, health effects and behaviour in older people during extreme heat: a survey in South Australia. <i>International Journal of Environmental Research and Public Health</i> , 2013 , 10, 6721-33	4.6	44
170	Meteorological variables and malaria in a Chinese temperate city: A twenty-year time-series data analysis. <i>Environment International</i> , 2010 , 36, 439-45	12.9	44
169	Incidence Trends of Lip, Oral Cavity, and Pharyngeal Cancers: Global Burden of Disease 1990-2017. <i>Journal of Dental Research</i> , 2020 , 99, 143-151	8.1	44
168	How environmental conditions impact mosquito ecology and Japanese encephalitis: an eco-epidemiological approach. <i>Environment International</i> , 2015 , 79, 17-24	12.9	43
167	Weather: driving force behind the transmission of severe acute respiratory syndrome in China?. <i>Internal Medicine Journal</i> , 2007 , 37, 550-4	1.6	43
166	Internet use and risk behaviours: an online survey of visitors to three gay websites in China. <i>Sexually Transmitted Infections</i> , 2007 , 83, 571-6	2.8	43
165	Climate variability and Ross River virus transmission. <i>Journal of Epidemiology and Community Health</i> , 2002 , 56, 617-21	5.1	43
164	Awareness of and attitudes towards heat waves within the context of climate change among a cohort of residents in Adelaide, Australia. <i>International Journal of Environmental Research and Public Health</i> , 2012 , 10, 1-17	4.6	42
163	Preparing health services for climate change in Australia. <i>Asia-Pacific Journal of Public Health</i> , 2011 , 23, 133S-43	2	42
162	Perception, attitude and behavior in relation to climate change: a survey among CDC health professionals in Shanxi province, China. <i>Environmental Research</i> , 2014 , 134, 301-8	7.9	40
161	Weather and notified <i>Campylobacter</i> infections in temperate and sub-tropical regions of Australia: an ecological study. <i>Journal of Infection</i> , 2008 , 57, 317-23	18.9	39
160	Climate variability and transmission of Japanese encephalitis in eastern China. <i>Vector-Borne and Zoonotic Diseases</i> , 2003 , 3, 111-5	2.4	39
159	Does hot weather affect work-related injury? A case-crossover study in Guangzhou, China. <i>International Journal of Hygiene and Environmental Health</i> , 2018 , 221, 423-428	6.9	38
158	Association between high temperature and mortality in metropolitan areas of four cities in various climatic zones in China: a time-series study. <i>Environmental Health</i> , 2014 , 13, 65	6	38
157	Workers' perceptions of climate change related extreme heat exposure in South Australia: a cross-sectional survey. <i>BMC Public Health</i> , 2016 , 16, 549	4.1	38
156	Changes in rodent abundance and weather conditions potentially drive hemorrhagic fever with renal syndrome outbreaks in Xi'an, China, 2005-2012. <i>PLoS Neglected Tropical Diseases</i> , 2015 , 9, e0003530	4.8	36

155	The impact of daily temperature on renal disease incidence: an ecological study. <i>Environmental Health</i> , 2017 , 16, 114	6	36
154	Infectious Diseases, Urbanization and Climate Change: Challenges in Future China. <i>International Journal of Environmental Research and Public Health</i> , 2015 , 12, 11025-36	4.6	36
153	Transmission of haemorrhagic fever with renal syndrome in china and the role of climate factors: a review. <i>International Journal of Infectious Diseases</i> , 2015 , 33, 212-8	10.5	35
152	Landscape biodiversity correlates with respiratory health in Australia. <i>Journal of Environmental Management</i> , 2018 , 206, 113-122	7.9	35
151	Climate variability and Ross River virus infections in Riverland, South Australia, 1992-2004. <i>Epidemiology and Infection</i> , 2009 , 137, 1486-93	4.3	35
150	Differences between Internet and community samples of MSM: implications for behavioral surveillance among MSM in China. <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2008 , 20, 1128-37	2.2	35
149	The role of environmental factors in the spatial distribution of Japanese encephalitis in mainland China. <i>Environment International</i> , 2014 , 73, 1-9	12.9	34
148	The challenges of implementing an integrated One Health surveillance system in Australia. <i>Zoonoses and Public Health</i> , 2018 , 65, e229-e236	2.9	32
147	Perceptions of Workplace Heat Exposure and Controls among Occupational Hygienists and Relevant Specialists in Australia. <i>PLoS ONE</i> , 2015 , 10, e0135040	3.7	32
146	Older persons and heat-susceptibility: the role of health promotion in a changing climate. <i>Health Promotion Journal of Australia</i> , 2011 , 22 Spec No, S17-20	1.7	31
145	Hepatitis C virus infection in South Australian prisoners: seroprevalence, seroconversion, and risk factors. <i>International Journal of Infectious Diseases</i> , 2009 , 13, 201-8	10.5	31
144	Meteorological factors and the incidence of mumps in Fujian Province, China, 2005-2013: Non-linear effects. <i>Science of the Total Environment</i> , 2018 , 619-620, 1286-1298	10.2	31
143	Web-based HIV/AIDS behavioral surveillance among men who have sex with men: potential and challenges. <i>International Journal of Infectious Diseases</i> , 2008 , 12, 126-31	10.5	30
142	Surface water areas significantly impacted 2014 dengue outbreaks in Guangzhou, China. <i>Environmental Research</i> , 2016 , 150, 299-305	7.9	29
141	Spatiotemporal patterns of Japanese encephalitis in China, 2002-2010. <i>PLoS Neglected Tropical Diseases</i> , 2013 , 7, e2285	4.8	28
140	Prevalence of haemorrhagic fever with renal syndrome in mainland China: analysis of National Surveillance Data, 2004-2009. <i>Epidemiology and Infection</i> , 2012 , 140, 851-7	4.3	28
139	Evaluation of a heat warning system in Adelaide, South Australia, using case-series analysis. <i>BMJ Open</i> , 2016 , 6, e012125	3	28
138	Particulate air pollution and cardiorespiratory hospital admissions in a temperate Australian city: A case-crossover analysis. <i>Science of the Total Environment</i> , 2012 , 416, 48-52	10.2	27

137	Climate variability and transmission of epidemic polyarthrititis. <i>Lancet, The</i> , 1998 , 351, 1100	4.0	26
136	Association between apolipoprotein E gene polymorphism and depression. <i>Journal of Clinical Neuroscience</i> , 2015 , 22, 1232-8	2.2	24
135	Speaking of Climate Change: A Discursive Analysis of Lay Understandings. <i>Science Communication</i> , 2015 , 37, 217-239	5.5	24
134	Projected Years Lost due to Disabilities (YLDs) for bacillary dysentery related to increased temperature in temperate and subtropical cities of China. <i>Journal of Environmental Monitoring</i> , 2012 , 14, 510-6		24
133	Occupational blood and body fluid exposure in an Australian teaching hospital. <i>Epidemiology and Infection</i> , 2006 , 134, 465-71	4.3	24
132	El Niño and incidence of hemorrhagic fever with renal syndrome in China. <i>JAMA - Journal of the American Medical Association</i> , 2003 , 289, 176-7	27.4	24
131	Perceptions of capacity for infectious disease control and prevention to meet the challenges of dengue fever in the face of climate change: A survey among CDC staff in Guangdong Province, China. <i>Environmental Research</i> , 2016 , 148, 295-302	7.9	24
130	The effect of temperature on different Salmonella serotypes during warm seasons in a Mediterranean climate city, Adelaide, Australia. <i>Epidemiology and Infection</i> , 2016 , 144, 1231-40	4.3	24
129	Heatwave and work-related injuries and illnesses in Adelaide, Australia: a case-crossover analysis using the Excess Heat Factor (EHF) as a universal heatwave index. <i>International Archives of Occupational and Environmental Health</i> , 2019 , 92, 263-272	3.2	24
128	The impact of climate variability on infectious disease transmission in China: Current knowledge and further directions. <i>Environmental Research</i> , 2019 , 173, 255-261	7.9	23
127	What do we know about the healthcare costs of extreme heat exposure? A comprehensive literature review. <i>Science of the Total Environment</i> , 2019 , 657, 608-618	10.2	23
126	Climate change and infectious diseases in Australia: future prospects, adaptation options, and research priorities. <i>Asia-Pacific Journal of Public Health</i> , 2011 , 23, 54S-66	2	22
125	El Nino-Southern Oscillation and vector-borne diseases in Anhui, China. <i>Vector-Borne and Zoonotic Diseases</i> , 2005 , 5, 95-100	2.4	22
124	The MJA-Lancet Countdown on health and climate change: Australian policy inaction threatens lives. <i>Medical Journal of Australia</i> , 2018 , 209, 474	4	22
123	Risk factors for deaths during the 2009 heat wave in Adelaide, Australia: a matched case-control study. <i>International Journal of Biometeorology</i> , 2017 , 61, 35-47	3.7	21
122	Impact of meteorological factors on hemorrhagic fever with renal syndrome in 19 cities in China, 2005-2014. <i>Science of the Total Environment</i> , 2018 , 636, 1249-1256	10.2	21
121	Regional morbidity and mortality during heatwaves in South Australia. <i>International Journal of Biometeorology</i> , 2018 , 62, 1911-1926	3.7	21
120	Heat-health behaviours of older people in two Australian states. <i>Australasian Journal on Ageing</i> , 2015 , 34, E19-25	1.5	21

119	Trends in cancer mortality rates among migrants in Australia: 1981-2007. <i>Cancer Epidemiology</i> , 2012 , 36, e74-82	2.8	21
118	Projected burden of disease for Salmonella infection due to increased temperature in Australian temperate and subtropical regions. <i>Environment International</i> , 2012 , 44, 26-30	12.9	21
117	Effect of climate change on Australian rural and remote regions: what do we know and what do we need to know?. <i>Australian Journal of Rural Health</i> , 2008 , 16, 2-4	1.3	21
116	Advantages and challenges of using census and multiplier methods to estimate the number of female sex workers in a Chinese city. <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2007 , 19, 17-9	2.2	21
115	Is there an association between hot weather and poor mental health outcomes? A systematic review and meta-analysis. <i>Environment International</i> , 2021 , 153, 106533	12.9	21
114	Extreme heat and health: perspectives from health service providers in rural and remote communities in South Australia. <i>International Journal of Environmental Research and Public Health</i> , 2013 , 10, 5565-83	4.6	20
113	Sharps injury and body fluid exposure among health care workers in an Australian tertiary hospital. <i>Asia-Pacific Journal of Public Health</i> , 2008 , 20, 139-47	2	20
112	Extreme heat and occupational injuries in different climate zones: A systematic review and meta-analysis of epidemiological evidence. <i>Environment International</i> , 2021 , 148, 106384	12.9	20
111	The effects of ambient temperatures on the risk of work-related injuries and illnesses: Evidence from Adelaide, Australia 2003-2013. <i>Environmental Research</i> , 2019 , 170, 101-109	7.9	20
110	Extreme heat arrangements in South Australia: an assessment of trigger temperatures. <i>Health Promotion Journal of Australia</i> , 2011 , 22 Spec No, S21-7	1.7	19
109	The impact of climate change on infectious disease transmission: perceptions of CDC health professionals in Shanxi Province, China. <i>PLoS ONE</i> , 2014 , 9, e109476	3.7	19
108	Geographic variation of notified Ross River virus infections in Queensland, Australia, 1985-1996. <i>American Journal of Tropical Medicine and Hygiene</i> , 2001 , 65, 171-6	3.2	19
107	The Epidemiological Characteristics and Dynamic Transmission of Dengue in China, 2013. <i>PLoS Neglected Tropical Diseases</i> , 2016 , 10, e0005095	4.8	19
106	The risk and protective factors in the development of childhood social anxiety symptoms among Chinese children. <i>Psychiatry Research</i> , 2016 , 240, 103-109	9.9	19
105	Ambient soil cation exchange capacity inversely associates with infectious and parasitic disease risk in regional Australia. <i>Science of the Total Environment</i> , 2018 , 626, 117-125	10.2	18
104	Is a One Health Approach Utilized for Q Fever Control? A Comprehensive Literature Review. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	17
103	Daily Temperature and Bacillary Dysentery: Estimated Effects, Attributable Risks, and Future Disease Burden in 316 Chinese Cities. <i>Environmental Health Perspectives</i> , 2020 , 128, 57008	8.4	17
102	High temperatures and emergency department visits in 18 sites with different climatic characteristics in China: Risk assessment and attributable fraction identification. <i>Environment International</i> , 2020 , 136, 105486	12.9	17

101	Risk communication for new and emerging communities: The contingent role of social capital. <i>International Journal of Disaster Risk Reduction</i> , 2018 , 28, 620-628	4.5	17
100	Chronic pain and its association with obesity among older adults in China. <i>Archives of Gerontology and Geriatrics</i> , 2018 , 76, 12-18	4	17
99	The prevalence of HCV antibody in South Australian prisoners. <i>Journal of Infection</i> , 2006 , 53, 125-30	18.9	17
98	Occupational heat stress and economic burden: A review of global evidence. <i>Environmental Research</i> , 2021 , 195, 110781	7.9	17
97	Effect of apparent temperature on daily emergency admissions for mental and behavioral disorders in Yancheng, China: a time-series study. <i>Environmental Health</i> , 2019 , 18, 98	6	17
96	Assessing the effect of climate factors on childhood diarrhoea burden in Kathmandu, Nepal. <i>International Journal of Hygiene and Environmental Health</i> , 2020 , 223, 199-206	6.9	17
95	Cause-specific mortality attributable to cold and hot ambient temperatures in Hong Kong: a time-series study, 2006-2016. <i>Sustainable Cities and Society</i> , 2020 , 57, 102131	10.1	16
94	Characterising the impact of heatwaves on work-related injuries and illnesses in three Australian cities using a standard heatwave definition- Excess Heat Factor (EHF). <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2019 , 29, 821-830	6.7	15
93	Association between malaria incidence and meteorological factors: a multi-location study in China, 2005-2012. <i>Epidemiology and Infection</i> , 2018 , 146, 89-99	4.3	15
92	Extreme heat and cultural and linguistic minorities in Australia: perceptions of stakeholders. <i>BMC Public Health</i> , 2014 , 14, 550	4.1	15
91	Estimating the population of female sex workers in two Chinese cities on the basis of the HIV/AIDS behavioural surveillance approach combined with a multiplier method. <i>Sexually Transmitted Infections</i> , 2007 , 83, 228-31	2.8	15
90	Engaging stakeholders in an adaptation process: governance and institutional arrangements in heat-health policy development in Adelaide, Australia. <i>Mitigation and Adaptation Strategies for Global Change</i> , 2013 , 18, 1001-1018	3.9	14
89	Global warming and Australian public health: reasons to be concerned. <i>Australian Health Review</i> , 2009 , 33, 611-7	1.8	14
88	Transdisciplinary Research Priorities for Human and Planetary Health in the Context of the 2030 Agenda for Sustainable Development. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	14
87	Performance of Excess Heat Factor Severity as a Global Heatwave Health Impact Index. <i>International Journal of Environmental Research and Public Health</i> , 2018 , 15,	4.6	14
86	Trends in migrant mortality rates in Australia 1981-2007: a focus on the National Health Priority Areas other than cancer. <i>Ethnicity and Health</i> , 2015 , 20, 29-48	2.2	13
85	Using the excess heat factor to indicate heatwave-related urinary disease: a case study in Adelaide, South Australia. <i>International Journal of Biometeorology</i> , 2019 , 63, 435-447	3.7	12
84	The efficacy of azithromycin and doxycycline treatment for rectal chlamydial infection: a retrospective cohort study in South Australia. <i>Internal Medicine Journal</i> , 2018 , 48, 259-264	1.6	12

83	Time-series analysis of the risk factors for haemorrhagic fever with renal syndrome: comparison of statistical models. <i>Epidemiology and Infection</i> , 2007 , 135, 245-52	4.3	12
82	El Niño Southern Oscillation (ENSO) and dysentery in Shandong province, China. <i>Environmental Research</i> , 2007 , 103, 117-20	7.9	12
81	Geographical variation in risk of work-related injuries and illnesses associated with ambient temperatures: A multi-city case-crossover study in Australia, 2005-2016. <i>Science of the Total Environment</i> , 2019 , 687, 898-906	10.2	11
80	Risk factors of direct heat-related hospital admissions during the 2009 heatwave in Adelaide, Australia: a matched case-control study. <i>BMJ Open</i> , 2016 , 6, e010666	3	11
79	Determinants of heat-related injuries in Australian workplaces: Perceptions of health and safety professionals. <i>Science of the Total Environment</i> , 2020 , 718, 137138	10.2	9
78	Heatwaves differentially affect risk of Salmonella serotypes. <i>Journal of Infection</i> , 2016 , 73, 231-40	18.9	9
77	Heat Health Messages: A Randomized Controlled Trial of a Preventative Messages Tool in the Older Population of South Australia. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	9
76	Trends in mortality rates for infectious and parasitic diseases in Australia: 1907-1997. <i>Internal Medicine Journal</i> , 2003 , 33, 152-62	1.6	9
