#	ARTICLE	IF	CITATIONS
1	Will We Fly Again? Modeling Air Travel Demand in light of COVID-19 through a London Case Study. Transportation Research Record, 2023, 2677, 105-117.	1.0	9
2	Participation in online activities while travelling: an application of the MDCEV model in the context of rail travel. Transportation, 2022, 49, 61-87.	2.1	5
3	Theory for socio-demographic enrichment performance using the inverse discrete choice modelling approach. Transportation Research Part B: Methodological, 2022, 155, 101-134.	2.8	2
4	Exploring the meaning and drivers of personal (Un-)Productivity of knowledge workers in mobile settings. Travel Behaviour & Society, 2022, 27, 26-37.	2.4	1
5	Do in-home and virtual activities impact out-of-home activity participation? Investigating end-user activity behaviour and time use for residential energy applications. Energy and Buildings, 2022, 257, 111764.	3.1	3
6	ICT, Virtual and In-Person Activity Participation, and Travel Choice Analysis. , 2021, , 452-458.		0
7	How do household activities drive electricity demand? Applying activity-based modelling in the context of the United Kingdom. Energy Research and Social Science, 2021, 82, 102318.	3.0	8
8	An approach for building occupancy modelling considering the urban context. Building and Environment, 2020, 183, 107126.	3.0	10
9	A microeconomic framework for integrated agent-based modelling of activity-travel patterns and energy consumption. Procedia Computer Science, 2020, 170, 785-790.	1.2	3
10	Travel-based multitasking: review of the role of digital activities and connectivity. Transport Reviews, 2020, 40, 429-456.	4.7	21
11	Congestion, Safety, Economic, and Environmental Challenges of Vehicle Automation in Transport Systems: Comment on "Driverless Cars will Make Passenger Rail Obsolete," by Yair Wiseman [Opinion]. IEEE Technology and Society Magazine, 2019, 38, 28-35.	0.6	1
12	Inverse discrete choice modelling: theoretical and practical considerations for imputing respondent attributes from the patterns of observed choices. Transportation Planning and Technology, 2018, 41, 58-79.	0.9	5
13	How is ICT use linked to household transport expenditure? A cross-national macro analysis of the influence of home broadband access. Journal of Transport Geography, 2017, 60, 231-242.	2.3	26
14	A framework for joint modelling of activity choice, duration, and productivity while travelling. Transportation Research Part B: Methodological, 2017, 106, 153-172.	2.8	26
15	Factors affecting outcomes of EU-supported investments in innovation among SMEs in the Greater Poland (Wielkopolska) region, Poland. Journal of Research in Marketing and Entrepreneurship, 2017, 19, 140-160.	0.7	1
16	Towards a microeconomic framework for modelling the joint choice of activity and travel behaviour and ICT use. Transportation Research, Part A: Policy and Practice, 2015, 76, 92-112.	2.0	19
