#	ARTICLE	IF	CITATIONS
1	A multinational online survey of the goal setting practice of rehabilitation staff with stroke survivors with aphasia. <i>Aphasiology</i> , 2023, 37, 479-503.	1.4	6
2	Developing, monitoring, and reporting of fidelity in aphasia trials: core recommendations from the collaboration of aphasia trialists (CATs) trials for aphasia panel. <i>Aphasiology</i> , 2023, 37, 1733-1755.	1.4	3
3	Development of a tailored intervention to implement an Intensive and Comprehensive Aphasia Program (ICAP) into Australian health services. <i>Aphasiology</i> , 2023, 37, 1386-1409.	1.4	6
4	Access G-AP: development of an accessible goal setting and action planning resource for stroke survivors with aphasia. <i>Disability and Rehabilitation</i> , 2023, 45, 2107-2117.	0.9	1
5	Many ways of measuring: a scoping review of measurement instruments for use with people with aphasia. <i>Aphasiology</i> , 2022, 36, 401-466.	1.4	16
6	Establishing consensus on a definition of aphasia: an e-Delphi study of international aphasia researchers. <i>Aphasiology</i> , 2022, 36, 385-400.	1.4	24
7	Development and diagnostic validation of the Brisbane Evidence-Based Language Test. <i>Disability and Rehabilitation</i> , 2022, 44, 625-636.	0.9	6
8	“œlt”s like a lifeboat” stakeholder perspectives of an intensive comprehensive aphasia program (ICAP) œ. <i>Aphasiology</i> , 2022, 36, 268-290.	1.4	6
9	Development of an online implementation intervention for aphasia clinicians to increase the intensity and comprehensiveness of their service. <i>Disability and Rehabilitation</i> , 2022, 44, 4629-4638.	0.9	8
10	Friendship matters: a research agenda for aphasia. <i>Aphasiology</i> , 2022, 36, 317-336.	1.4	23
11	Utilising a systematic review-based approach to create a database of individual participant data for meta- and network meta-analyses: the RELEASE database of aphasia after stroke. <i>Aphasiology</i> , 2022, 36, 513-533.	1.4	3
12	Dosage, Intensity, and Frequency of Language Therapy for Aphasia: A Systematic Review œBased, Individual Participant Data Network Meta-Analysis. <i>Stroke</i> , 2022, 53, 956-967.	1.0	44
13	Developing connections for engagement in stroke rehabilitation. <i>Brain Impairment</i> , 2022, 23, 42-59.	0.5	6
14	Precision rehabilitation for aphasia by patient age, sex, aphasia severity, and time since stroke? A prespecified, systematic review-based, individual participant data, network, subgroup meta-analysis. <i>International Journal of Stroke</i> , 2022, 17, 1067-1077.	2.9	12
15	Barriers and facilitators to implementing stepped psychological care for people with aphasia: Perspectives of stroke health professionals. <i>Topics in Stroke Rehabilitation</i> , 2021, 28, 581-593.	1.0	16
16	A narrative review of communication accessibility for people with aphasia and implications for multi-disciplinary goal setting after stroke. <i>Aphasiology</i> , 2021, 35, 1-32.	1.4	7
17	Posttraumatic growth following aphasia: a prospective cohort study of the first year post-stroke. <i>Aphasiology</i> , 2021, 35, 291-313.	1.4	4
18	Stroke health professionals œ™ management of depression after post-stroke aphasia: a qualitative study. <i>Disability and Rehabilitation</i> , 2021, 43, 217-228.	0.9	31

#	ARTICLE	IF	CITATIONS
19	Predictors of Poststroke Aphasia Recovery. <i>Stroke</i> , 2021, 52, 1778-1787.	1.0	46
20	Core Outcome Set Use in Poststroke Aphasia Treatment Research: Examining Barriers and Facilitators to Implementation Using the Theoretical Domains Framework. <i>Journal of Speech, Language, and Hearing Research</i> , 2021, 64, 3969-3982.	0.7	7
21	Exploring changing needs following minor stroke. <i>Health and Social Care in the Community</i> , 2020, 28, 347-356.	0.7	9
22	“It was really dark”: the experiences and preferences of people with aphasia to manage mood changes and depression. <i>Aphasiology</i> , 2020, 34, 19-46.	1.4	41
23	Beyond the statistics: a research agenda in aphasia awareness. <i>Aphasiology</i> , 2020, 34, 458-471.	1.4	20
24	Inter-rater reliability, intra-rater reliability and internal consistency of the Brisbane Evidence-Based Language Test. <i>Disability and Rehabilitation</i> , 2020, , 1-9.	0.9	3
25	Prognostication in post-stroke aphasia: How do speech pathologists formulate and deliver information about recovery?. <i>International Journal of Language and Communication Disorders</i> , 2020, 55, 520-536.	0.7	15
26	Measuring access to primary healthcare services after stroke: A spatial analytic approach. <i>Brain Impairment</i> , 2019, 20, 240-250.	0.5	5
27	Implementing aphasia recommendations in the acute setting: speech-language pathologists’ perspectives of a behaviour change intervention. <i>Aphasiology</i> , 2019, 33, 606-628.	1.4	10
28	The seven habits of highly effective aphasia therapists: The perspective of people living with aphasia. <i>International Journal of Speech-Language Pathology</i> , 2019, 21, 438-447.	0.6	13
29	Family-Centered Care in Aphasia. <i>Topics in Language Disorders</i> , 2019, 39, 29-54.	0.9	18
30	Increasing the intensity and comprehensiveness of aphasia services: identification of key factors influencing implementation across six countries. <i>Aphasiology</i> , 2019, 33, 865-887.	1.4	27
31	Individualised active communication education (I-ACE): another clinical option for adults with hearing impairment with a focus on problem solving and self-management. <i>International Journal of Audiology</i> , 2019, 58, 504-509.	0.9	13
32	A systematic review of falls in hospital for patients with communication disability: Highlighting an invisible population. <i>Journal of Safety Research</i> , 2019, 68, 89-105.	1.7	19
33	Fidelity protocol for the Action Success Knowledge (ASK) trial: a psychosocial intervention administered by speech and language therapists to prevent depression in people with post-stroke aphasia. <i>BMJ Open</i> , 2019, 9, e023560.	0.8	12
34	A content analysis of documentation on communication disability in hospital progress notes: diagnosis, function, and patient safety. <i>Clinical Rehabilitation</i> , 2019, 33, 943-956.	1.0	10
35	A core outcome set for aphasia treatment research: The ROMA consensus statement. <i>International Journal of Stroke</i> , 2019, 14, 180-185.	2.9	127
36	Closing the evidence-practice gaps in aphasia management: are we there yet? Where has a decade of implementation research taken us? A review and guide for clinicians. <i>Aphasiology</i> , 2019, 33, 970-995.	1.4	17

#	ARTICLE	IF	CITATIONS
37	Using the International Classification of Functioning, Disability, and Health to identify outcome domains for a core outcome set for aphasia: a comparison of stakeholder perspectives. <i>Disability and Rehabilitation</i> , 2019, 41, 564-573.	0.9	21
38	“œt”s not really worth my while” understanding contextual factors contributing to decisions to participate in community aphasia groups. <i>Disability and Rehabilitation</i> , 2019, 41, 1024-1036.	0.9	14
39	Barriers and facilitators to meeting aphasia guideline recommendations: what factors influence speech pathologists’ practice?. <i>Disability and Rehabilitation</i> , 2019, 41, 1596-1607.	0.9	42
40	Time to step up. , 2019, , 1-16.		0
41	Factors that influence Australian speech-language pathologists’ self-reported uptake of aphasia rehabilitation recommendations from clinical practice guidelines. <i>Aphasiology</i> , 2018, 32, 646-665.	1.4	20
42	Combating social isolation for people with severe chronic aphasia through community aphasia groups: consumer views on getting it right and wrong. <i>Aphasiology</i> , 2018, 32, 493-517.	1.4	24
43	What really matters to people with aphasia when it comes to group work? A qualitative investigation of factors impacting participation and integration. <i>International Journal of Language and Communication Disorders</i> , 2018, 53, 526-541.	0.7	12
44	A systematic review of rehabilitation interventions to prevent and treat depression in post-stroke aphasia. <i>Disability and Rehabilitation</i> , 2018, 40, 1870-1892.	0.9	113
45	Exploring participant perspectives of community aphasia group participation: from “œl know where I belong now” to “œSome people didn’t really fit in”. <i>Aphasiology</i> , 2018, 32, 139-163.	1.4	19
46	Priorities for Closing the Evidence-Practice Gaps in Poststroke Aphasia Rehabilitation: A Scoping Review. <i>Archives of Physical Medicine and Rehabilitation</i> , 2018, 99, 1413-1423.e24.	0.5	20
47	Discourse measurement in aphasia research: have we reached the tipping point? A core outcome set “œ or greater standardisation of discourse measures?. <i>Aphasiology</i> , 2018, 32, 479-482.	1.4	16
48	Engaging people experiencing communication disability in stroke rehabilitation: a qualitative study. <i>International Journal of Language and Communication Disorders</i> , 2018, 53, 981-994.	0.7	30
49	The Acute Aphasia Implementation Study (AAIMS): a pilot cluster randomized controlled trial. <i>International Journal of Language and Communication Disorders</i> , 2018, 53, 1021-1056.	0.7	27
50	Diagnosis of aphasia in stroke populations: A systematic review of language tests. <i>PLoS ONE</i> , 2018, 13, e0194143.	1.1	61
51	Recommendations for post-stroke aphasia rehabilitation: an updated systematic review and evaluation of clinical practice guidelines. <i>Aphasiology</i> , 2017, 31, 1-24.	1.4	44
52	The top ten: best practice recommendations for aphasia. <i>Aphasiology</i> , 2017, 31, 131-151.	1.4	53
53	Which treatment outcomes are most important to aphasia clinicians and managers? An international e-Delphi consensus study. <i>Aphasiology</i> , 2017, 31, 643-673.	1.4	54
54	Which outcomes are most important to people with aphasia and their families? an international nominal group technique study framed within the ICF. <i>Disability and Rehabilitation</i> , 2017, 39, 1364-1379.	0.9	156

#	ARTICLE	IF	CITATIONS
55	Does intensity matter in aphasia rehabilitation?. <i>Lancet, The</i> , 2017, 389, 1494-1495.	6.3	10
56	The Aphasia Action, Success, and Knowledge Programme: Results from an Australian Phase I Trial of a Speech-Pathology-Led Intervention for People with Aphasia Early Post Stroke. <i>Brain Impairment</i> , 2017, 18, 284-298.	0.5	21
57	Barriers and facilitators to using the CommFit [®] , [©] smart phone app to measure talk time for people with aphasia. <i>Aphasiology</i> , 2017, 31, 901-927.	1.4	6
58	An exploratory investigation of the daily talk time of people with non-fluent aphasia and non-aphasic peers. <i>International Journal of Speech-Language Pathology</i> , 2017, 19, 418-429.	0.6	9
59	Determinants of Living Well With Aphasia in the First Year Poststroke: A Prospective Cohort Study. <i>Archives of Physical Medicine and Rehabilitation</i> , 2017, 98, 235-240.	0.5	44
60	Undetected and underserved: the untold story of patients who had a minor stroke. <i>Medical Journal of Australia</i> , 2017, 206, 337-338.	0.8	6
61	Aphasia in Later Life. , 2017, , 284-290.		0
62	Who Benefits From an Intensive Comprehensive Aphasia Program?. <i>Topics in Language Disorders</i> , 2016, 36, 168-184.	0.9	21
63	Let [™] s call it <i>aphasia</i> ! Rationales for eliminating the term <i>dysphasia</i> . <i>International Journal of Stroke</i> , 2016, 11, 848-851.	2.9	22
64	"I do the best I can [™] ": an in-depth exploration of the aphasia management pathway in the acute hospital setting. <i>Disability and Rehabilitation</i> , 2016, 38, 1765-1779.	0.9	22
65	Core Outcomes in Aphasia Treatment Research: An e-Delphi Consensus Study of International Aphasia Researchers. <i>American Journal of Speech-Language Pathology</i> , 2016, 25, S729-S742.	0.9	42
66	Reducing the psychosocial impact of aphasia on mood and quality of life in people with aphasia and the impact of caregiving in family members through the Aphasia Action Success Knowledge (Aphasia ASK) program: study protocol for a randomized controlled trial. <i>Trials</i> , 2016, 17, 153.	0.7	43
67	"Communication is taking a back seat": speech pathologists [™] perceptions of aphasia management in acute hospital settings. <i>Aphasiology</i> , 2016, 30, 585-608.	1.4	34
68	Preliminary psychometric analyses of two assessment measures quantifying communicative and social activities: the COMACT and SOCACT. <i>Aphasiology</i> , 2016, 30, 898-921.	1.4	2
69	Aphasia in Later Life. , 2016, , 1-7.		0
70	Neuroscientific Implications in Assessment and Intervention for Aphasia. <i>Folia Phoniatica Et Logopaedica</i> , 2015, 67, 285-292.	0.5	1
71	New Zealand speech [™] language therapists' perspectives on service provision for M ^ā ori with aphasia. <i>Speech, Language and Hearing</i> , 2015, 18, 140-147.	0.6	11
72	Development and validation of Australian aphasia rehabilitation best practice statements using the RAND/UCLA appropriateness method. <i>BMJ Open</i> , 2015, 5, e007641.	0.8	55
