#	ARTICLE	IF	CITATIONS
1	Follow-up after very preterm birth in Europe. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2022, 107, 113-114.	2.8	11
2	Maternal education and cognitive development in 15 European very-preterm birth cohorts from the RECAP <i>Preterm</i> platform. International Journal of Epidemiology, 2022, 50, 1824-1839.	1.9	18
3	Clarity and consistency in stillbirth reporting in Europe: why is it so hard to get this right?. European Journal of Public Health, 2022, 32, 200-206.	0.3	7
4	Nursesâ€™ involvement in end-of-life decisions in neonatal intensive care units. Nursing Ethics, 2022, 29, 569-581.	3.4	2
5	Motorâ€™related health care for 5â€™yearâ€™old children born extremely preterm with movement impairments. Developmental Medicine and Child Neurology, 2022, 64, 1131-1144.	2.1	4
6	High Healthcare Use at Age 5â€™Years in a European Cohort of Children Born Very Preterm. Journal of Pediatrics, 2022, 243, 69-77.e9.	1.8	8
7	Early factors associated with risk of developmental coordination disorder in very preterm children: A prospective areaâ€™based cohort study in Italy. Paediatric and Perinatal Epidemiology, 2022, 36, 683-695.	1.7	5
8	Movement Difficulties at Age Five Among Extremely Preterm Infants. Pediatrics, 2022, 149, .	2.1	7
9	Managing motherâ€™s own milk for very preterm infants in neonatal units in 11 European countries. Acta Paediatrica, International Journal of Paediatrics, 2021, 110, 123-126.	1.5	3
10	Parentsâ€™ ratings of post-discharge healthcare for their children born very preterm and their suggestions for improvement: a European cohort study. Pediatric Research, 2021, 89, 1004-1012.	2.3	19
11	Variation in very preterm extrauterine growth in a European multicountry cohort. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2021, 106, 316-323.	2.8	18
12	Using Robson's Tenâ€™Group Classification System for comparing caesarean section rates in Europe: an analysis of routine data from the Euroâ€™Peristat study. BJOG: an International Journal of Obstetrics and Gynaecology, 2021, 128, 1444-1453.	2.3	23
13	Understanding participation in European cohort studies of preterm children: the views of parents, healthcare professionals and researchers. BMC Medical Research Methodology, 2021, 21, 19.	3.1	4
14	Association between postnatal growth and neurodevelopmental impairment by sex at 2 years of corrected age in a multi-national cohort of very preterm children. Clinical Nutrition, 2021, 40, 4948-4955.	5.0	11
15	Neonatal Morbidity and Mortality in Advanced Aged Mothersâ€™ Maternal Age Is Not an Independent Risk Factor for Infants Born Very Preterm. Frontiers in Pediatrics, 2021, 9, 747203.	1.9	5
16	Producing valid statistics when legislation, culture and medical practices differ for births at or before the threshold of survival: report of a European workshop. BJOG: an International Journal of Obstetrics and Gynaecology, 2020, 127, 314-318.	2.3	16
17	What drives change in neonatal intensive care units? A qualitative study with physicians and nurses in six European countries. Pediatric Research, 2020, 88, 257-264.	2.3	8
18	Cliniciansâ€™ Self-Reported Practices Related to End-of-Life Care for Infants in NICUs in Jordan. JOGNN - Journal of Obstetric, Gynecologic, and Neonatal Nursing, 2020, 49, 78-90.	0.5	1

#	ARTICLE	IF	CITATIONS
19	Priorities for collaborative research using very preterm birth cohorts. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2020, 105, 538-544.	2.8	20
20	The impact of choice of norms on classification of motor impairment for children born very preterm. Early Human Development, 2020, 146, 105056.	1.8	6
21	EPICE cohort: two-year neurodevelopmental outcomes after very preterm birth. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2020, 105, 350-356.	2.8	25
22	Maternal education and language development at 2 years corrected age in children born very preterm: results from a European population-based cohort study. Journal of Epidemiology and Community Health, 2020, 74, 346-353.	3.7	23
23	Unit policies regarding tocolysis after preterm premature rupture of membranes: association with latency, neonatal and 2-year outcomes (EPICE cohort). Scientific Reports, 2020, 10, 9535.	3.3	3
24	Cohort Profile: Effective Perinatal Intensive Care in Europe (EPICE) very preterm birth cohort. International Journal of Epidemiology, 2020, 49, 372-386.	1.9	34
25	Limitation of life-sustaining treatment in NICU: Physicians' beliefs and attitudes in the Buenos Aires region. Early Human Development, 2020, 142, 104955.	1.8	10
26	Low socio-economic conditions and prematurity-related morbidities explain healthcare use and costs for 2-year-old very preterm children. Acta Paediatrica, International Journal of Paediatrics, 2020, 109, 1791-1800.	1.5	3
27	Improving Understanding of Participation and Attrition Phenomena in European Cohort Studies: Protocol for a Multi-Situated Qualitative Study. JMIR Research Protocols, 2020, 9, e14997.	1.0	7
28	Breastfeeding outcomes in European NICUs: impact of parental visiting policies. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2019, 104, F151-F158.	2.8	22
29	Low breastfeeding continuation to 6 months for very preterm infants: European multiregional cohort study. Maternal and Child Nutrition, 2019, 15, e12657.	3.0	55
30	Characteristics, management and outcomes of very preterm triplets in 19 European regions. International Journal of Gynecology and Obstetrics, 2019, 147, 397-403.	2.3	6
31	Specialist health care services use in a European cohort of infants born very preterm. Developmental Medicine and Child Neurology, 2019, 61, 832-839.	2.1	10
32	End-of-Life Decisions 20 Years after EURONIC: Neonatologists' Self-Reported Practices, Attitudes, and Treatment Choices in Germany, Switzerland, and Austria. Journal of Pediatrics, 2019, 207, 154-160.	1.8	26
33	OC22...Parental rating of follow-up care for their very preterm children in Europe. , 2019, , .		0
34	Wide variation in severe neonatal morbidity among very preterm infants in European regions. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2019, 104, F36-F45.	2.8	50
35	Risk of Developmental Coordination Disorder in Italian very preterm children at school age compared to general population controls. European Journal of Paediatric Neurology, 2019, 23, 296-303.	1.6	13
36	The Impact of Ethical and Legal Decision-Making in Neonatal Intensive Care on Psychosocial Wellbeing of the Health Care Professionals: The Overview of the HUNIC Project Study Design. European Journal of Mental Health, 2019, 14, 311-323.	0.4	0

#	ARTICLE	IF	CITATIONS
37	International variations in the gestational age distribution of births: an ecological study in 34 high-income countries. <i>European Journal of Public Health</i> , 2018, 28, 303-309.	0.3	23
38	How do late terminations of pregnancy affect comparisons of stillbirth rates in Europe? Analyses of aggregated routine data from the EuroPeristat Project. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2018, 125, 226-234.	2.3	26
39	Room for improvement in breast milk feeding after very preterm birth in Europe: Results from the ESCP-EPICE cohort. <i>Maternal and Child Nutrition</i> , 2018, 14, .	3.0	63
40	Quantifying the burden of stillbirths before 28 weeks of completed gestational age in high-income countries: a population-based study of 19 European countries. <i>Lancet, The</i> , 2018, 392, 1639-1646.	13.7	35
41	Lung function in a cohort of 5-year-old children born very preterm. <i>Pediatric Pulmonology</i> , 2018, 53, 1633-1639.	2.0	16
42	Using antenatal corticosteroids in pregnancies when there is a risk of very preterm delivery. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2017, 106, 194-195.	1.5	1
43	Variability in the management and outcomes of extremely preterm births across five European countries: a population-based cohort study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2017, 102, F400-F408.	2.8	39
44	Association of Short Antenatal Corticosteroid Administration-to-Birth Intervals With Survival and Morbidity Among Very Preterm Infants. <i>JAMA Pediatrics</i> , 2017, 171, 678.	6.2	101
45	Variation in term birthweight across European countries affects the prevalence of small for gestational age among very preterm infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2017, 106, 1447-1455.	1.5	52
46	Variability in Very Preterm Stillbirth and In-Hospital Mortality Across Europe. <i>Pediatrics</i> , 2017, 139, .	2.1	39
47	Changes in management policies for extremely preterm births and neonatal outcomes from 2003 to 2012: two population-based studies in ten European regions. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2017, 124, 1595-1604.	2.3	21
48	Can the Apgar Score be Used for International Comparisons of Newborn Health?. <i>Paediatric and Perinatal Epidemiology</i> , 2017, 31, 338-345.	1.7	38
49	Muscle magnetic resonance imaging in spinal muscular atrophy type 3: Selective and progressive involvement. <i>Muscle and Nerve</i> , 2017, 55, 651-656.	2.2	30
50	Variations in very preterm birth rates in 30 high-income countries: are valid international comparisons possible using routine data?. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2017, 124, 785-794.	2.3	49
51	Maternal Education Is Associated with Disparities in Breastfeeding at Time of Discharge but Not at Initiation of Enteral Feeding in the Neonatal Intensive Care Unit. <i>Journal of Pediatrics</i> , 2017, 182, 59-65.e7.	1.8	32
52	Association of Short Antenatal Corticosteroid Administration-to-Birth Intervals With Survival and Morbidity Among Very Preterm Infants: Results From the EPICE Cohort. <i>Obstetrical and Gynecological Survey</i> , 2017, 72, 696-699.	0.4	0
53	Authors' reply to Page and Rafi. <i>BMJ, The</i> , 2016, 354, i4671.	6.0	0
54	Variations in rates of severe perineal tears and episiotomies in 20 European countries: a study based on routine national data in EuroPeristat Project. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2016, 95, 746-754.	2.8	138

#	ARTICLE	IF	CITATIONS
55	Road Traffic Pollution and Childhood Leukemia: A Nationwide Case-control Study in Italy. Archives of Medical Research, 2016, 47, 694-705.	3.3	10
56	Declines in stillbirth and neonatal mortality rates in Europe between 2004 and 2010: results from the Euro-Peristat project. Journal of Epidemiology and Community Health, 2016, 70, 609-615.	3.7	66
57	Authors' reply re: Wide differences in mode of delivery within Europe: risk-stratified analyses of aggregated routine data from the Euro-Peristat study. BJOG: an International Journal of Obstetrics and Gynaecology, 2016, 123, 2231-2231.	2.3	1
58	Admission Hypothermia in Very Preterm Infants and Neonatal Mortality and Morbidity. Journal of Pediatrics, 2016, 175, 61-67.e4.	1.8	108
59	Nationwide study of headache pain in Italy shows that pain assessment is still inadequate in paediatric emergency care. Acta Paediatrica, International Journal of Paediatrics, 2016, 105, e200-8.	1.5	14
60	Use of evidence based practices to improve survival without severe morbidity for very preterm infants: results from the EPICE population based cohort. BMJ, The, 2016, 354, i2976.	6.0	122
61	Translating Neurodevelopmental Care Policies Into Practice: The Experience of Neonatal ICUs in France—The EPIPAGE-2 Cohort Study. Pediatric Critical Care Medicine, 2016, 17, 957-967.	0.5	39
62	Does the antenatal detection of fetal growth restriction (FGR) have a prognostic value for mortality and short-term morbidity for very preterm infants? Results from the MOSAIC cohort. Journal of Maternal-Fetal and Neonatal Medicine, 2016, 29, 596-601.	1.5	7
63	Wide differences in mode of delivery within Europe: risk-stratified analyses of aggregated routine data from the Euro-Peristat study. BJOG: an International Journal of Obstetrics and Gynaecology, 2016, 123, 559-568.	2.3	190
64	Size at birth by gestational age and hospital mortality in very preterm infants: Results of the area-based ACTION project. Early Human Development, 2015, 91, 77-85.	1.8	2
65	Approaches to supporting lactation and breastfeeding for very preterm infants in the NICU: a qualitative study in three European regions. BMJ Open, 2015, 5, e006973.	1.9	29
66	SETIL: Italian multicentric epidemiological case-control study on risk factors for childhood leukaemia, non hodgkin lymphoma and neuroblastoma: study population and prevalence of risk factors in Italy. Italian Journal of Pediatrics, 2014, 40, 103.	2.6	9
67	Growth Hormone Response to Standard Provocative Stimuli and Combined Tests in Very Young Children with Prader-Willi Syndrome. Hormone Research in Paediatrics, 2014, 81, 189-195.	1.8	19
68	Mortality and major morbidities in very preterm infants born from assisted conception or naturally conceived: results of the area-based ACTION study. BMC Pregnancy and Childbirth, 2014, 14, 307.	2.4	9
69	Response to "How can we achieve consensual indicators to be better accepted and more widely used?". European Journal of Obstetrics, Gynecology and Reproductive Biology, 2014, 173, 124.	1.1	0
70	Timeliness of routine immunization in a population-based Italian cohort of very preterm infants: Results of the ACTION follow-up project. Vaccine, 2014, 32, 793-799.	3.8	45
71	Lack of institutional pathways for referral: results of a survey among pediatric surgeons on prenatal consultation for congenital anomalies. Prenatal Diagnosis, 2013, 33, 904-907.	2.3	6
72	Building a European perinatal health information system: plurality, innovation and realism. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2013, 171, 193-194.	1.1	2

#	ARTICLE	IF	CITATIONS
73	Procedural pain in neonates: the state of the art in the implementation of national guidelines in Italy. Paediatric Anaesthesia, 2013, 23, 407-414.	1.1	32
74	Pain management policies and practices in pediatric emergency care: a nationwide survey of Italian hospitals. BMC Pediatrics, 2013, 13, 139.	1.7	35
75	Performance of the pediatric index of mortality 2 (PIM-2) in cardiac and mixed intensive care units in a tertiary children's referral hospital in Italy. BMC Pediatrics, 2013, 13, 100.	1.7	26
76	Risk of childhood leukaemia and non-Hodgkin's lymphoma after parental occupational exposure to solvents and other agents: the SETIL Study. Occupational and Environmental Medicine, 2013, 70, 648-655.	2.8	44
77	Cause-Specific Mortality of Very Preterm Infants and Antenatal Events. Journal of Pediatrics, 2013, 162, 1125-1132.e4.	1.8	25
78	Pregnancy disorders leading to very preterm birth influence neonatal outcomes: results of the population-based ACTION cohort study. Pediatric Research, 2013, 73, 794-801.	2.3	90
79	Increased morbidity and mortality in very preterm/VLBW infants with congenital heart disease. Intensive Care Medicine, 2013, 39, 1104-1112.	8.2	49
80	Interaction of child disability and stressful life events in predicting maternal psychological health. Results of an area-based study of very preterm infants at two years corrected age. Research in Developmental Disabilities, 2013, 34, 3433-3441.	2.2	5
81	Birth of a child with congenital heart disease: emotional reactions of mothers and fathers according to time of diagnosis. Journal of Maternal-Fetal and Neonatal Medicine, 2013, 26, 1249-1253.	1.5	52
82	The second European Perinatal Health Report: documenting changes over 6 years in the health of mothers and babies in Europe. Journal of Epidemiology and Community Health, 2013, 67, 983-985.	3.7	72
83	Perceived Risk Of Malpractice Suits. Health Affairs, 2013, 32, 2058-2058.	5.2	0
84	Corrections. Archives of Disease in Childhood, 2012, 97, 583.1-583.	1.9	24
85	Parental involvement and kangaroo care in European neonatal intensive care units. Pediatric Critical Care Medicine, 2012, 13, 568-577.	0.5	79
86	Quality of life in a cohort of patients diagnosed with renal failure in childhood and who received renal transplant. Pediatric Transplantation, 2012, 16, 840-845.	1.0	25
87	Development of a score based on urinalysis to improve the management of urinary tract infection in children. Clinica Chimica Acta, 2012, 413, 478-482.	1.1	14
88	Attitudes of Swedish midwives towards management of extremely preterm labour and birth. Midwifery, 2012, 28, e857-e864.	2.3	2
89	Multiple forms of hypogonadism of central, peripheral or combined origin in males with Prader-Willi syndrome. Clinical Endocrinology, 2012, 76, 72-77.	2.4	56
90	Cognitive assessment of very preterm infants at 2-year corrected age: Performance of the Italian version of the PARCA-R parent questionnaire. Early Human Development, 2012, 88, 159-163.	1.8	15

#	ARTICLE	IF	CITATIONS
91	Trend of healthcare-associated infections in children: annual prevalence surveys in a research hospital in Italy, 2007–2010. <i>Journal of Hospital Infection</i> , 2012, 80, 6-12.	2.9	15
92	Variations in breastfeeding rates for very preterm infants between regions and neonatal units in Europe: results from the MOSAIC cohort. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2011, 96, F450-F452.	2.8	88
93	Attitudes of Midwives in Sweden Toward a Woman's Refusal of an Emergency Cesarean Section or a Cesarean Section on Request. <i>Birth</i> , 2011, 38, 71-79.	2.2	13
94	Breastfeeding of Very Preterm Infants at Discharge from Nicu: Results from the Italian Area-Based Action Study. <i>Pediatric Research</i> , 2011, 70, 49-49.	2.3	0
95	Ethically complex decisions in the neonatal intensive care unit: impact of the new French legislation on attitudes and practices of physicians and nurses. <i>Journal of Medical Ethics</i> , 2011, 37, 240-243.	1.8	23
96	Ethical issues in neonatal intensive care. <i>Annali Dell'Istituto Superiore Di Sanita</i> , 2011, 47, 273-7.	0.4	7
