#	Paper	IF	Citations
30	Association of Lifestyle Changes Due to the COVID-19 Pandemic with Nutrient Intake and Physical Activity Levels during Pregnancy in Japan. <i>Nutrients</i> , 2021 , 13,	6.7	2
29	Association of occupational stress during pregnancy with premature birth and small for gestational age: A systematic review of observational studies. <i>Journal of Japan Academy of Midwifery</i> , 2020 , 34, 25-37	9.2	2
28	Effects of tea consumption during pregnancy on preterm birth and small for gestational age: A systematic review [J. Jpn. Acad. Midwif., Vol. 33, No. 2, 128-141, 2019]. <i>Journal of Japan Academy of Midwifery</i> , 2020 , 34, 126-130	0.2	
27	Post-breastfeeding stress response and breastfeeding self-efficacy as modifiable predictors of exclusive breastfeeding at 3 months postpartum: a prospective cohort study. <i>BMC Pregnancy and Childbirth</i> , 2020 , 20, 730	3.2	1
26	Factors related to vegetable intake among pregnant Japanese women: A cross-sectional study. <i>Appetite</i> , 2019 , 132, 175-181	4.5	3
25	Effects of tea consumption during pregnancy on preterm birth and small for gestational age: A systematic review. <i>Journal of Japan Academy of Midwifery</i> , 2019 , 33, 128-141	0.2	
24	Association of body image before or during pregnancy with gestational weight gain: A systematic review. <i>Journal of Japan Academy of Midwifery</i> , 2019 , 33, 117-127	0.2	1
23	Physical activity levels in the second trimester of pregnancy and related demographic factors: A cross-sectional secondary data analysis. <i>Cogent Medicine</i> , 2019 , 6, 1704607	1.4	2
22	Effects of skipping breakfast on dietary intake and circulating and urinary nutrients during pregnancy. <i>Asia Pacific Journal of Clinical Nutrition</i> , 2019 , 28, 99-105	1	3
21	Utilisation of maternal and child health handbook in Mongolia: A cross-sectional study. <i>Health Education Journal</i> , 2018 , 77, 458-469	1.5	5
20	The Effects of a Yoga Exercise and Nutritional Guidance Program on Pregnancy Outcomes Among Healthy Pregnant Japanese Women: A Study Protocol for a Randomized Controlled Trial. <i>Journal of Alternative and Complementary Medicine</i> , 2018 , 24, 603-610	2.4	1
19	Pre-pregnancy BMI, gestational weight gain and body image are associated with dietary under-reporting in pregnant Japanese women. <i>Journal of Nutritional Science</i> , 2018 , 7, e12	2.7	5
18	Effects of moisturizing skincare on skin barrier function and the prevention of skin problems in 3-month-old infants: A randomized controlled trial. <i>Journal of Dermatology</i> , 2018 , 45, 24-30	1.6	20
17	Availability of two self-administered diet history questionnaires for pregnant Japanese women: A validation study using 24-hour urinary markers. <i>Journal of Epidemiology</i> , 2017 , 27, 172-179	3.4	11
16	Effect of tailored dietary guidance for pregnant women on nutritional status: A double-cohort study. <i>Maternal and Child Nutrition</i> , 2017 , 13,	3.4	7
15	Aetiological relationships between factors associated with postnatal traumatic symptoms among Japanese primiparas and multiparas: A longitudinal study. <i>Midwifery</i> , 2017 , 44, 14-23	2.8	10
14	Immediate stress reduction effects of yoga during pregnancy: One group pre-post test. <i>Women and Birth</i> , 2016 , 29, e82-e88	3.3	21

13	A Systematic Review of the Physical, Mental, Social, and Economic Problems of Immigrant Women in the Perinatal Period in Japan. <i>Journal of Immigrant and Minority Health</i> , 2015 , 17, 1863-81	2.2	16
12	Associations of dietary intake and plasma concentrations of eicosapentaenoic and docosahexaenoic acid with prenatal depressive symptoms in Japan. <i>Australian Journal of Cancer Nursing</i> , 2015 , 17, 257-62	1.9	13
11	Validity of a self-administered diet history questionnaire for estimating vitamin D intakes of Japanese pregnant women. <i>Maternal and Child Nutrition</i> , 2015 , 11, 525-36	3.4	20
10	The biomarker-based validity of a brief-type diet history questionnaire for estimating eicosapentaenoic acid and docosahexaenoic acid intakes in pregnant Japanese women. <i>Asia Pacific Journal of Clinical Nutrition</i> , 2015 , 24, 316-22	1	5
9	Demographic and lifestyle factors associated with vitamin D status in pregnant Japanese women. <i>Journal of Nutritional Science and Vitaminology</i> , 2014 , 60, 420-8	1.1	21
8	Adapting the Pregnancy Physical Activity Questionnaire for Japanese pregnant women. <i>JOGNN - Journal of Obstetric, Gynecologic, and Neonatal Nursing</i> , 2014 , 43, 107-116	1.2	13
7	Relationship between plasma total homocysteine level and dietary caffeine and vitamin B6 intakes in pregnant women. <i>Australian Journal of Cancer Nursing</i> , 2014 , 16, 164-70	1.9	10
6	Validity of a diet history questionnaire estimating β -carotene, vitamin C and β -tocopherol intakes in Japanese pregnant women. <i>International Journal of Food Sciences and Nutrition</i> , 2013 , 64, 694-9	3.7	21
5	Estimation of eicosapentaenoic acid and docosahexaenoic acid intakes in pregnant Japanese women without nausea by using a self-administered diet history questionnaire. <i>Nutrition Research</i> , 2013 , 33, 473-8	4	19
4	Association between oxidized LDL and folate during pregnancy. <i>Biological Research for Nursing</i> , 2013 , 15, 213-8	2.6	
3	Validity and reproducibility of folate and vitamin B(12) intakes estimated from a self-administered diet history questionnaire in Japanese pregnant women. <i>Nutrition Journal</i> , 2012 , 11, 15	4.3	23
2	Relationship between the plasma total homocysteine levels and skipping breakfast during pregnancy. <i>Journal of Japan Academy of Midwifery</i> , 2010 , 24, 252-260	0.2	1
1	Association between the serum folate levels and tea consumption during pregnancy. <i>BioScience Trends</i> , 2010 , 4, 225-30	9.9	29
