#	ARTICLE	IF	CITATIONS
1	Prevalence of psychotropic medication use and association with challenging behaviour in adults with an intellectual disability. A total population study. <i>Journal of Intellectual Disability Research</i> , 2017, 61, 604-617.	2.0	81
2	A comparison of the prevalence of health problems among adults with and without intellectual disability: A total administrative population study. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2021, 34, 316-325.	2.0	26
3	Polypharmacy and psychotropic polypharmacy in adults with intellectual disability: a cross-sectional total population study. <i>Journal of Intellectual Disability Research</i> , 2020, 64, 834-851.	2.0	19
4	Mutationally-activated PI3K TM -kinase-Î± promotes de-differentiation of lung tumors initiated by the BRAFV600E oncoprotein kinase. <i>ELife</i> , 2019, 8, .	6.0	18
5	An audit of the well-being of staff working in intellectual disability settings in Ireland during the COVID-19 pandemic. <i>Tizard Learning Disability Review</i> , 2020, 25, 237-246.	0.4	15
6	Not such an ordinary life: a comparison of employment, marital status and housing profiles of adults with and without intellectual disabilities. <i>Tizard Learning Disability Review</i> , 2019, 24, 213-221.	0.4	11
7	<i>PIK3CA</i> mutated melanoma cells rely on cooperative signaling through mTORC1/2 for sustained proliferation. <i>Pigment Cell and Melanoma Research</i> , 2017, 30, 353-367.	3.3	9
8	The role of PI3K lipid signalling in melanoma initiation, progression and maintenance. <i>Experimental Dermatology</i> , 2022, 31, 43-56.	2.9	7
9	The prevalence of potential drug-drug interactions in adults with intellectual disability. <i>Journal of Intellectual Disability Research</i> , 2021, 65, 930-940.	2.0	3
10	<i>RAC1</i> mutation is not a predictive biomarker for PI3K kinase-Î² selective pathway targeted therapy. <i>Pigment Cell and Melanoma Research</i> , 2020, 33, 719-730.	3.3	2
11	Professional collaboration in searching the evidence for an ill-defined concept. <i>Health Information and Libraries Journal</i> , 2018, 35, 246-250.	2.5	1
12	Model-dependent outcomes: Sex as a biological variable in preclinical mouse models of melanoma. <i>Pigment Cell and Melanoma Research</i> , 2021, 34, 655-658.	3.3	0
13	Mortality in residential care services for people with disabilities in Ireland. <i>European Journal of Public Health</i> , 2021, 31, .	0.3	0
