Version: 2024-02-01

#	Article	IF	CITATIONS
1	Photodiagnosis of genital herpes and warts: a sociomaterial perspective on users' experiences of online sexual health care. Culture, Health and Sexuality, 2023, 25, 192-205.	1.8	1
2	Improving online clinical sexual and reproductive health information to support self-care: A realist review. Digital Health, 2022, 8, 205520762210844.	1.8	2
3	Agreement between self-reported and researcher-measured height, weight and blood pressure measurements for online prescription of the combined oral contraceptive pill: an observational study. BMJ Open, 2022, 12, e054981.	1.9	0
4	Emergency contraception from the pharmacy 20 years on: a mystery shopper study. BMJ Sexual and Reproductive Health, 2021, 47, 55-60.	1.7	10
5	Supporting blood pressure measurement prior to online prescription of the combined oral contraceptive. BMJ Sexual and Reproductive Health, 2021, 47, 157-158.	1.7	1
6	Provision of the progestogen-only pill by community pharmacies as bridging contraception for women receiving emergency contraception: the Bridge-it RCT. Health Technology Assessment, 2021, 25, 1-92.	2.8	2
7	Contraception in Person-Contraception Online (CiP-CO) cohort study. BMJ Sexual and Reproductive Health, 2021, , bmjsrh-2021-201168.	1.7	1
8	Photodiagnosis of genital herpes and warts within a specialist online sexual health service: an observational (mixed methods) study of user experience and clinical outcomes. BMJ Open, 2021, 11, e042160.	1.9	1
9	Expanding choice through online contraception: a theory of change to inform service development and evaluation. BMJ Sexual and Reproductive Health, 2020, 46, 108-115.	1.7	6
10	How do users of a â€~digital-only' contraceptive service provide biometric measurements and what does this teach us about safe and effective online care? A qualitative interview study. BMJ Open, 2020, 10, e037851.	1.9	3
11	Use of effective contraception following provision of the progestogen-only pill for women presenting to community pharmacies for emergency contraception (Bridge-It): a pragmatic cluster-randomised crossover trial. Lancet, The, 2020, 396, 1585-1594.	13.7	24
12	Online contraceptive discussion forums: a qualitative study to explore information provision. BMJ Sexual and Reproductive Health, 2020, 47, bmjsrh-2020-200719.	1.7	2
13	How can we facilitate online disclosure of safeguarding concerns in under 18s to support transition from online to face-to-face care?. International Journal of STD and AIDS, 2020, 31, 553-559.	1.1	2
14	A cohort study of the service-users of online contraception. BMJ Sexual and Reproductive Health, 2020, 46, 287-293.	1.7	9
15	Safetxt: a safer sex intervention delivered by mobile phone messaging on sexually transmitted infections (STI) among young people in the UK - protocol for a randomised controlled trial. BMJ Open, 2020, 10, e031635.	1.9	9
16	Communication Strategies Used to Obtain Clinical Histories Before Remotely Prescribing Antibiotics for Postal Treatment of Uncomplicated Genital Chlamydia: Service Evaluation. Journal of Medical Internet Research, 2020, 22, e15970.	4.3	0
17	Two-Way Text Messaging to Support Self-Care and Delivery of an Online Sexual Health Service: Mixed Methods Evaluation. JMIR MHealth and UHealth, 2020, 8, e17191.	3.7	2
18	User preference for HIV self-testing or self-sampling within a free online sexual health service: a service evaluation. International Journal of STD and AIDS, 2019, 30, 1239-1242.	1.1	5

#	Article	IF	CITATIONS
19	Does internet-accessed STI (e-STI) testing increase testing uptake for chlamydia and other STIs among a young population who have never tested? Secondary analyses of data from a randomised controlled trial. Sexually Transmitted Infections, 2019, 95, 569-574.	1.9	30
20	"Putting people in charge of their own health and care?―Using metaâ€narrative review and the example of online sexual health services to reâ€think relationships between eâ€health and agency. Health Expectations, 2019, 22, 838-848.	2.6	8
21	Choose to test: self-selected testing for sexually transmitted infections within an online service. Sexually Transmitted Infections, 2019, 95, 171-174.	1.9	7
22	Online testing for sexually transmitted infections: A whole systems approach to predicting value. PLoS ONE, 2019, 14, e0212420.	2.5	19
23	Pragmatic cluster randomised cohort cross-over trial to determine the effectiveness of bridging from emergency to regular contraception: the Bridge-It study protocol. BMJ Open, 2019, 9, e029978.	1.9	8
24	The service-users of online contraception: a cohort study. Lancet, The, 2019, 394, S80.	13.7	1
25	Comparing the characteristics of users of an online service for STI self-sampling with clinic service users: a cross-sectional analysis. Sexually Transmitted Infections, 2018, 94, 377-383.	1.9	39
26	Ethical learning on international medical electives: a case-based analysis of medical student learning experiences. BMC Medical Education, 2018, 18, 78.	2.4	12
27	Web-Based Activity Within a Sexual Health Economy: Observational Study. Journal of Medical Internet Research, 2018, 20, e74.	4.3	16
28	Effect of an internet-based sexually transmitted infection testing and results service on diagnoses and testing uptake: a single-blind, randomised controlled trial. Lancet, The, 2017, 390, S95.	13.7	2
29	Internet-accessed sexually transmitted infection (e-STI) testing and results service: A randomised, single-blind, controlled trial. PLoS Medicine, 2017, 14, e1002479.	8.4	88
30	Screening for Child Sexual Exploitation in Online Sexual Health Services: An Exploratory Study of Expert Views. Journal of Medical Internet Research, 2017, 19, e30.	4.3	14
31	Safetxt: a pilot randomised controlled trial of an intervention delivered by mobile phone to increase safer sex behaviours in young people. BMJ Open, 2016, 6, e013045.	1.9	9
32	P072â€Equity of access to online sexually transmitted infection self-sampling services in Lambeth and Southwark: An early view of the data: Abstract P072 Table 1. Sexually Transmitted Infections, 2016, 92, A43.2-A44.	1.9	1
33	P139â€Screening for child exploitation in online sexual health services: An exploratory study of expert views. Sexually Transmitted Infections, 2016, 92, A68.1-A68.	1.9	0
34	UG5â€SH:24 – User perspectives on an online sexual health service. Sexually Transmitted Infections, 2016, 92, A19.3-A20.	1.9	2
35	P247â€Can text messages increase safer sex behaviours in young people: intervention development and pilot randomised controlled trial. Sexually Transmitted Infections, 2016, 92, A101.3-A102.	1.9	0
36	Learning from Somaliland? Transferability of learning from volunteering to national health service practice in the UK. Globalization and Health, 2016, 12, 9.	4.9	3

#	Article	IF	CITATIONS
37	Preparing students for the ethical challenges on international health electives: A systematic review of the literature on educational interventions. Medical Teacher, 2016, 38, 911-920.	1.8	27
38	Young People's Views and Experiences of a Mobile Phone Texting Intervention to Promote Safer Sex Behavior. JMIR MHealth and UHealth, 2016, 4, e26.	3.7	30
39	Can Internet-Based Sexual Health Services Increase Diagnoses of Sexually Transmitted Infections (STI)? Protocol for a Randomized Evaluation of an Internet-Based STI Testing and Results Service. JMIR Research Protocols, 2016, 5, e9.	1.0	11
40	Can text messages increase safer sex behaviours in young people? Intervention development and pilot randomised controlled trial. Health Technology Assessment, 2016, 20, 1-82.	2.8	30
41	Towards a simple typology of international health partnerships. Globalization and Health, 2015, 11, 49.	4.9	14
42	How online sexual health services could work; generating theory to support development. BMC Health Services Research, 2015, 15, 540.	2.2	17
43	O20â€On-line STI testing services: improving access, efficiency and user experience. Sexually Transmitted Infections, 2015, 91, A7.2-A7.	1.9	1
44	Self-Reported Impact of Chlamydia Testing on Subsequent Behavior. Sexually Transmitted Diseases, 2015, 42, 486-491.	1.7	2
45	P163â€Young adults' views of being offered re-testing for chlamydia after a positive result: results of a 2014 online survey. Sexually Transmitted Infections, 2015, 91, A69.2-A69.	1.9	Ο
46	Microscopy outperformed in a comparison of five methods for detecting Trichomonas vaginalis in symptomatic women. International Journal of STD and AIDS, 2015, 26, 251-256.	1.1	48
47	A systematic review of risk factors for neonatal mortality in Adolescent Mother's in Sub Saharan Africa. BMC Research Notes, 2014, 7, 750.	1.4	22
48	Exploration of gender differences of Chlamydia trachomatis infection amongst young people reveals limitations of using sexual histories to assess risk in high-prevalence areas. International Journal of STD and AIDS, 2014, 25, 564-570.	1.1	2
49	Would You Tell Everyone This? Facebook Conversations as Health Promotion Interventions. Journal of Medical Internet Research, 2014, 16, e108.	4.3	53
50	Do health partnerships with organisations in lower income countries benefit the UK partner? A review of the literature. Globalization and Health, 2013, 9, 38.	4.9	30
51	Internet testing for Chlamydia trachomatisin England, 2006 to 2010. BMC Public Health, 2012, 12, 1095.	2.9	34
52	Chlamydia screening in England: a qualitative study of the narrative behind the policy. BMC Public Health, 2012, 12, 317.	2.9	9
53	Using educational outreach and a financial incentive to increase general practices' contribution to chlamydia screening in South-East London 2003–2011. BMC Public Health, 2012, 12, 802.	2.9	26
54	â€~Do it yourself' sexual health care: the user experience. Sexual Health, 2011, 8, 23.	0.9	13

#	Article	IF	CITATIONS
55	Chlamydia trachomatis screening in young women. Current Opinion in Obstetrics and Gynecology, 2011, 23, 315-320.	2.0	9
56	Screening and treatment of Chlamydia trachomatis infections. BMJ: British Medical Journal, 2010, 340, c1915-c1915.	2.3	37
57	Look who's taking notes in your clinic: mystery shoppers as evaluators in sexual health services. Health Expectations, 2008, 11, 54-62.	2.6	15
58	Sexual health networks: linking providers for improvement. Journal of Family Planning and Reproductive Health Care, 2007, 33, 193-193.	0.8	1
59	Linking with Mtwara, Tanzania: a personal view on skill sharing for sexual health. Journal of Family Planning and Reproductive Health Care, 2007, 33, 119-120.	0.8	0
60	Chlamydia testing in community pharmacies: evaluation of a feasibility pilot in south east London. Quality and Safety in Health Care, 2007, 16, 303-307.	2.5	49
61	Managing patients who express racist views. Journal of Family Planning and Reproductive Health Care, 2006, 32, 47-48.	0.8	0
62	Involving service users in sexual health service development. Journal of Family Planning and Reproductive Health Care, 2005, 31, 281-284.	0.8	14
63	Towards consensus on good practice in the prescription of emergency contraception for young people. Journal of Family Planning and Reproductive Health Care, 2004, 30, 62-63.	0.8	0
64	Managing genital infection in community family planning clinics: an alternative approach to holistic sexual health service provision. Sexually Transmitted Infections, 2004, 80, 142-144.	1.9	13
65	Peri-abortion contraception: a qualitative study of users' experiences. Journal of Family Planning and Reproductive Health Care, 2004, 30, 55-56.	0.8	16
66	Community attitudes to the sexual behaviour of young people in an urban area with high rates of sexual ill-health. Journal of Family Planning and Reproductive Health Care, 2004, 30, 225-228.	0.8	6
67	Decision making and referral prior to abortion: a qualitative study of women's experiences. Journal of Family Planning and Reproductive Health Care, 2004, 30, 51-54.	0.8	54
68	Barriers to the involvement of clients in family planning service development: lessons learnt from experience. Journal of Family Planning and Reproductive Health Care, 2003, 29, 199-203.	0.8	15
