#	ARTICLE	IF	CITATIONS
1	The Role Played by Contaminated Surfaces in the Transmission of Nosocomial Pathogens. <i>Infection Control and Hospital Epidemiology</i> , 2011, 32, 687-699.	1.8	515
2	Evidence that contaminated surfaces contribute to the transmission of hospital pathogens and an overview of strategies to address contaminated surfaces in hospital settings. <i>American Journal of Infection Control</i> , 2013, 41, S6-S11.	2.3	375
3	COVID-19 social distancing in the Kingdom of Saudi Arabia: Bold measures in the face of political, economic, social and religious challenges. <i>Travel Medicine and Infectious Disease</i> , 2020, 37, 101692.	3.0	237
4	Minimum Infective Dose of the Major Human Respiratory and Enteric Viruses Transmitted Through Food and the Environment. <i>Food and Environmental Virology</i> , 2011, 3, 1-30.	3.4	156
5	Prevalence of MERS-CoV Nasal Carriage and Compliance With the Saudi Health Recommendations Among Pilgrims Attending the 2013 Hajj. <i>Journal of Infectious Diseases</i> , 2014, 210, 1067-1072.	4.0	99
6	Antibiotic resistance amongst healthcare-associated pathogens in China. <i>International Journal of Antimicrobial Agents</i> , 2012, 40, 389-397.	2.5	79
7	Etiology of severe community-acquired pneumonia during the 2013 Hajj part of the MERS-CoV surveillance program. <i>International Journal of Infectious Diseases</i> , 2014, 25, 186-190.	3.3	79
8	Meningococcal disease during the Hajj and Umrah mass gatherings. <i>International Journal of Infectious Diseases</i> , 2016, 47, 60-64.	3.3	69
9	Molecular Characterization of Carbapenemase Production Among Gram-Negative Bacteria in Saudi Arabia. <i>Microbial Drug Resistance</i> , 2015, 21, 307-314.	2.0	67
10	Meningococcal disease surveillance in the Asia-Pacific region (2020): The global meningococcal initiative. <i>Journal of Infection</i> , 2020, 81, 698-711.	3.3	51
11	Prevalence and antimicrobial resistance among Gram-negative pathogens in Saudi Arabia. <i>Journal of Chemotherapy</i> , 2014, 26, 257-272.	1.5	40
12	Interferon-induced transmembrane protein-3 genetic variant rs12252 is associated with COVID-19 mortality. <i>Genomics</i> , 2021, 113, 1733-1741.	2.9	39
13	Tuberculosis knowledge, attitude and practice among healthcare workers during the 2016 Hajj. <i>PLoS ONE</i> , 2019, 14, e0210913.	2.5	38
14	Prevention of meningococcal disease during the Hajj and Umrah mass gatherings: past and current measures and future prospects. <i>International Journal of Infectious Diseases</i> , 2016, 47, 71-78.	3.3	37
15	The molecular basis of β -lactamase production in Gram-negative bacteria from Saudi Arabia. <i>Journal of Medical Microbiology</i> , 2015, 64, 127-136.	1.8	35
16	The threat of meningococcal disease during the Hajj and Umrah mass gatherings: A comprehensive review. <i>Travel Medicine and Infectious Disease</i> , 2018, 24, 51-58.	3.0	35
17	Carriage of <i>Neisseria meningitidis</i> in the Hajj and Umrah mass gatherings. <i>International Journal of Infectious Diseases</i> , 2016, 47, 65-70.	3.3	32
18	COVID-19 pandemic: it is time to temporarily close places of worship and to suspend religious gatherings. <i>Journal of Travel Medicine</i> , 2021, 28, .	3.0	32

#	ARTICLE	IF	CITATIONS
19	Antimicrobial resistance among Gram-positive pathogens in Saudi Arabia. <i>Journal of Chemotherapy</i> , 2012, 24, 125-136.	1.5	28
20	Environmental sampling for respiratory pathogens in Jeddah airport during the 2013 Hajj season. <i>American Journal of Infection Control</i> , 2014, 42, 1266-1269.	2.3	28
21	Umrah. An opportunity for mass gatherings health research. <i>Journal of King Abdulaziz University, Islamic Economics</i> , 2017, 38, 868-871.	1.1	28
22	Respiratory tract infections among French Hajj pilgrims from 2014 to 2017. <i>Scientific Reports</i> , 2019, 9, 17771.	3.3	28
23	A cohort study of the impact and acquisition of nasopharyngeal carriage of <i>Streptococcus pneumoniae</i> during the Hajj. <i>Travel Medicine and Infectious Disease</i> , 2016, 14, 242-247.	3.0	26
24	Isolation and identification of human coronavirus 229E from frequently touched environmental surfaces of a university classroom that is cleaned daily. <i>American Journal of Infection Control</i> , 2018, 46, 105-107.	2.3	26
25	Tuberculosis and mass gatherings—opportunities for defining burden, transmission risk, and the optimal surveillance, prevention, and control measures at the annual Hajj pilgrimage. <i>International Journal of Infectious Diseases</i> , 2016, 47, 86-91.	3.3	25
26	Strengthening health security at the Hajj mass gatherings: characteristics of the infectious diseases surveillance systems operational during the 2015 Hajj. <i>Journal of Travel Medicine</i> , 2017, 24, .	3.0	25
27	The dynamics and interactions of respiratory pathogen carriage among French pilgrims during the 2018 Hajj. <i>Emerging Microbes and Infections</i> , 2019, 8, 1701-1710.	6.5	25
28	Undiagnosed Active Pulmonary Tuberculosis among Pilgrims during the 2015 Hajj Mass Gathering: A Prospective Cross-sectional Study. <i>American Journal of Tropical Medicine and Hygiene</i> , 2017, 97, 1304-1309.	1.4	23
29	Middle East Respiratory Syndrome Corona virus, MERS-CoV. Conclusions from the 2nd Scientific Advisory Board Meeting of the WHO Collaborating Center for Mass Gathering Medicine, Riyadh. <i>International Journal of Infectious Diseases</i> , 2014, 24, 51-53.	3.3	21
30	Seroprevalence of Herpes Simplex Virus Type 1 and Type 2 and Coinfection With HIV and Syphilis. <i>Sexually Transmitted Diseases</i> , 2015, 42, 526-532.	1.7	21
31	Acquisition of enteric pathogens by pilgrims during the 2016 Hajj pilgrimage: A prospective cohort study. <i>Travel Medicine and Infectious Disease</i> , 2018, 25, 26-30.	3.0	21
32	Antibiotic use for respiratory infections among Hajj pilgrims: A cohort survey and review of the literature. <i>Travel Medicine and Infectious Disease</i> , 2019, 30, 39-45.	3.0	21
33	Tuberculosis in Saudi Arabia: prevalence and antimicrobial resistance. <i>Journal of Chemotherapy</i> , 2012, 24, 1-5.	1.5	20
34	Knowledge, attitude and practice (KAP) survey regarding antibiotic use among pilgrims attending the 2015 Hajj mass gathering. <i>Travel Medicine and Infectious Disease</i> , 2019, 28, 52-58.	3.0	19
35	Prevalence of Diabetes and Hypertension among Hajj Pilgrims: A Systematic Review. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1155.	2.6	19
36	Proportion of adult community-acquired pneumonia cases attributable to <i>Streptococcus pneumoniae</i> among Hajj pilgrims in 2016. <i>International Journal of Infectious Diseases</i> , 2018, 69, 68-74.	3.3	18

#	ARTICLE	IF	CITATIONS
37	The Role of Contaminated Surfaces in the Transmission of Nosocomial Pathogens. , 2014, , 27-58.		18
38	Bacterial respiratory carriage in French Hajj pilgrims and the effect of pneumococcal vaccine and other individual preventive measures: A prospective cohort survey. Travel Medicine and Infectious Disease, 2019, 31, 101343.	3.0	17
39	Acquisition of respiratory viruses and presence of respiratory symptoms in French pilgrims during the 2016 Hajj: A prospective cohort study. Travel Medicine and Infectious Disease, 2019, 30, 32-38.	3.0	15
40	The Jeddah tool. Journal of King Abdulaziz University, Islamic Economics, 2020, 41, 121-122.	1.1	15
41	Prevention of meningococcal disease at mass gatherings: Lessons from the Hajj and Umrah. Vaccine, 2018, 36, 4603-4609.	3.8	14
42	Knowledge, Attitude and Practice of Pilgrims Regarding Heat-Related Illnesses during the 2017 Hajj Mass Gathering. International Journal of Environmental Research and Public Health, 2019, 16, 3215.	2.6	14
43	Meningococcal serogroup A, C, W, and Y serum bactericidal antibody profiles in Hajj pilgrims. International Journal of Infectious Diseases, 2014, 28, 171-175.	3.3	13
44	Impact of the Hajj on pneumococcal carriage and the effect of various pneumococcal vaccines. Vaccine, 2018, 36, 7415-7422.	3.8	13
45	Summer Hajj pilgrimage in the era of global warming: a call for vigilance and better understanding of the risks. Journal of Travel Medicine, 2019, 26, .	3.0	13
46	The global meningitis genome partnership. Journal of Infection, 2020, 81, 510-520.	3.3	13
47	Mass gatherings and mass gatherings health. Journal of King Abdulaziz University, Islamic Economics, 2016, 37, 729-730.	1.1	12
48	Strengthening health security at the Hajj mass gatherings: a Harmonised Hajj Health Information System. Journal of Travel Medicine, 2018, 25, .	3.0	12
49	Risk Communication Effectiveness During COVID-19 Pandemic Among General Population in Saudi Arabia. Risk Management and Healthcare Policy, 2021, Volume 14, 779-790.	2.5	12
50	Knowledge, Attitude, and Perceived Risks Towards COVID-19 Pandemic and the Impact of Risk Communication Messages on Healthcare Workers in Saudi Arabia. Risk Management and Healthcare Policy, 2021, Volume 14, 2811-2824.	2.5	11
51	Health risk assessment at mass gatherings: a report of the camel festival in Saudi Arabia. Eastern Mediterranean Health Journal, 2019, 25, 647-655.	0.8	11
52	Eradicating leprosy in Saudi Arabia: Outcome of a ten-year surveillance (2003â€“2012). Travel Medicine and Infectious Disease, 2014, 12, 771-777.	3.0	10
53	Medication utilization pattern among outpatients during the Hajj mass gathering. Saudi Pharmaceutical Journal, 2020, 28, 1122-1128.	2.7	10
54	Gastrointestinal symptoms and the acquisition of enteric pathogens in Hajj pilgrims: a 3-year prospective cohort study. European Journal of Clinical Microbiology and Infectious Diseases, 2021, 40, 315-323.	2.9	10

#	ARTICLE	IF	CITATIONS
55	The Hajj Health Requirements: time for a serious review?. <i>Lancet, The</i> , 2016, 387, 845-846.	13.7	9
56	Environmental investigation of respiratory pathogens during the Hajj 2016 and 2018. <i>Travel Medicine and Infectious Disease</i> , 2020, 33, 101500.	3.0	8
57	Acquisition of multidrug-resistant bacteria and encoding genes among French pilgrims during the 2017 and 2018 Hajj. <i>European Journal of Clinical Microbiology and Infectious Diseases</i> , 2021, 40, 1199-1207.	2.9	8
58	Gastrointestinal symptoms and knowledge and practice of pilgrims regarding food and water safety during the 2019 Hajj mass gathering. <i>BMC Public Health</i> , 2021, 21, 1288.	2.9	8
59	Risk factors for heat-related illnesses during the Hajj mass gathering: an expert review. <i>Reviews on Environmental Health</i> , 2023, 38, 33-43.	2.4	8
60	Potential Cross-Reactive Immunity to COVID-19 Infection in Individuals With Laboratory-Confirmed MERS-CoV Infection: A National Retrospective Cohort Study From Saudi Arabia. <i>Frontiers in Immunology</i> , 2021, 12, 727989.	4.8	7
61	Meningococcal disease during the Hajj and Umrah mass gatherings: A, C, W, Y may be covered but don't forget the B and X factors!. <i>Travel Medicine and Infectious Disease</i> , 2017, 15, 5-7.	3.0	6
62	Pneumococcal disease during Hajj and Umrah: Research agenda for evidence-based vaccination policy for these events. <i>Travel Medicine and Infectious Disease</i> , 2019, 29, 8-15.	3.0	6
63	No measles cases during the 2019 Hajj. <i>Lancet Infectious Diseases, The</i> , 2019, 19, 1169-1170.	9.1	5
64	Adherence of Healthcare Workers to Saudi Management Guidelines of Heat-Related Illnesses during Hajj Pilgrimage. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1156.	2.6	5
65	A Longitudinal Study Regarding the Health Profile of the 2017 South African Hajj Pilgrims. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3607.	2.6	4
66	Dynamics and genetic diversity of Haemophilus influenzae carriage among French pilgrims during the 2018 Hajj: A prospective cohort survey. <i>Travel Medicine and Infectious Disease</i> , 2020, 38, 101883.	3.0	4
67	Lack of Vibrio cholerae among French pilgrims during the 2017 and 2018 Hajj. <i>Travel Medicine and Infectious Disease</i> , 2020, 36, 101506.	3.0	3
68	Recommendations from the 4th International Conference on Mass Gatherings Medicine, Saudi Arabia. <i>Eastern Mediterranean Health Journal</i> , 2020, 26, 503-505.	0.8	3
69	Lack of Zika Virus and Other Recognized Flaviviruses among the Mosquito Vectors during and Post the Hajj Mass Gathering. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 6275.	2.6	2
70	Novel Respiratory Viruses in the Context of Mass-Gathering Events: A Systematic Review to Inform Event Planning from a Health Perspective. <i>Prehospital and Disaster Medicine</i> , 2021, 36, 599-610.	1.3	2
71	Pattern of utilization, disease presentation, and medication prescribing and dispensing at 51 primary healthcare centers during the Hajj mass gathering. <i>BMC Health Services Research</i> , 2022, 22, 143.	2.2	2
72	The Hajj health requirements: changing a mindset. <i>Lancet, The</i> , 2016, 388, 25-26.	13.7	1

#	ARTICLE	IF	CITATIONS
73	Management of hospitalized drug sensitive pulmonary tuberculosis patients during the Hajj mass gathering: A cross sectional study. <i>Travel Medicine and Infectious Disease</i> , 2019, 32, 101451.	3.0	1
74	Acquisition of respiratory and gastrointestinal pathogens among health care workers during the 2015 Hajj season. <i>American Journal of Infection Control</i> , 2019, 47, 1071-1076.	2.3	1
75	Medication Handling and Storage among Pilgrims during the Hajj Mass Gathering. <i>Healthcare (Switzerland)</i> , 2021, 9, 626.	2.0	1
76	Insulin Knowledge, Handling, and Storage among Diabetic Pilgrims during the Hajj Mass Gathering. <i>Journal of Diabetes Research</i> , 2021, 2021, 1-8.	2.3	1
77	Reply to Karagoz et al. <i>Journal of Infectious Diseases</i> , 2014, 210, 1681-1682.	4.0	0
