

Roberto Dell'Acqua

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4020431/roberto-dellacqua-publications-by-year.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

77

#	Paper	IF	Citations
77	A bilateral SPCN is elicited by to-be-memorized visual stimuli displayed along the vertical midline.. <i>Psychophysiology</i> , 2022 , e14045	4.1	0
76	Computer data simulator to assess the accuracy of estimates of visual N2/N2pc event-related potential components. <i>Journal of Neural Engineering</i> , 2020 , 17, 036024	5	1
75	Development of a Computer Simulator of the Visual N2 Event-Related Potential Component for the Study of Cognitive Processes. <i>IFMBE Proceedings</i> , 2020 , 29-36	0.2	1
74	A bilateral N2pc (N2pcb) component is elicited by search targets displayed on the vertical midline. <i>Psychophysiology</i> , 2020 , 57, e13512	4.1	4
73	A Time-Frequency Analysis for the Online Detection of the N2pc Event-Related Potential (ERP) Component in Individual EEG Datasets. <i>Annual International Conference of the IEEE Engineering in Medicine and Biology Society IEEE Engineering in Medicine and Biology Society Annual International Conference</i> , 2020 , 2020, 1019-1022	0.9	1
72	Multishell Diffusion MRI-Based Tractography of the Facial Nerve in Vestibular Schwannoma. <i>American Journal of Neuroradiology</i> , 2020 , 41, 1480-1486	4.4	6
71	Distilling the distinct contralateral and ipsilateral attentional responses to lateral stimuli and the bilateral response to midline stimuli for upper and lower visual hemifield locations. <i>Psychophysiology</i> , 2020 , 57, e13651	4.1	2
70	Reward motivation and neurostimulation interact to improve working memory performance in healthy older adults: A simultaneous tDCS-fNIRS study. <i>NeuroImage</i> , 2019 , 202, 116062	7.9	18
69	Functional dissociation of anterior cingulate cortex and intraparietal sulcus in visual working memory. <i>Cortex</i> , 2019 , 121, 277-291	3.8	12
68	Mapping hemodynamic changes during hypoglycemia in the very preterm neonatal brain: preliminary results 2019 ,		1
67	On pacing trials while scanning brain hemodynamics: The case of the SNARC effect. <i>Psychonomic Bulletin and Review</i> , 2018 , 25, 2267-2273	4.1	2
66	The SNARC effect is not a unitary phenomenon. <i>Psychonomic Bulletin and Review</i> , 2018 , 25, 688-695	4.1	12
65	N2pc reflects two modes for coding the number of visual targets. <i>Psychophysiology</i> , 2018 , 55, e13219	4.1	5
64	Backward masking interrupts spatial attention, slows downstream processing, and limits conscious perception. <i>Consciousness and Cognition</i> , 2017 , 54, 101-113	2.6	3
63	On the Role of the Inferior Intraparietal Sulcus in Visual Working Memory for Lateralized Single-feature Objects. <i>Journal of Cognitive Neuroscience</i> , 2017 , 29, 337-351	3.1	8
62	Enhanced frontal activation underlies sparing from the attentional blink: Evidence from human electrophysiology. <i>Psychophysiology</i> , 2016 , 53, 623-33	4.1	12
61	Long-term continuous monitoring of the preterm brain with diffuse optical tomography and electroencephalography: a technical note on cap manufacturing. <i>Neurophotonics</i> , 2016 , 3, 045009	3.9	4

60	The distractor frequency effect in the colour-naming Stroop task: An overt naming event-related potential study. <i>Journal of Cognitive Psychology</i> , 2015 , 27, 277-289	0.9	3
59	Lack of visual field asymmetries for spatial cueing in reading parafoveal Chinese characters. <i>Psychonomic Bulletin and Review</i> , 2015 , 22, 1764-9	4.1	
58	The attentional blink impairs detection and delays encoding of visual information: evidence from human electrophysiology. <i>Journal of Cognitive Neuroscience</i> , 2015 , 27, 720-35	3.1	28
57	Colour-specific differences in attentional deployment for equiluminant pop-out colours: evidence from lateralised potentials. <i>International Journal of Psychophysiology</i> , 2014 , 91, 194-205	2.9	28
56	Number-space interactions in the human parietal cortex: Enlightening the SNARC effect with functional near-infrared spectroscopy. <i>Cerebral Cortex</i> , 2014 , 24, 444-51	5.1	48
55	On the costs of lag-1 sparing. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2014 , 40, 416-28	2.6	11
54	Taking one's time in feeling other-race pain: an event-related potential investigation on the time-course of cross-racial empathy. <i>Social Cognitive and Affective Neuroscience</i> , 2014 , 9, 454-63	4	74
53	The attentional blink freezes spatial attention allocation to targets, not distractors: evidence from human electrophysiology. <i>Brain Research</i> , 2014 , 1559, 33-45	3.7	15
52	A reference-channel based methodology to improve estimation of event-related hemodynamic response from fNIRS measurements. <i>NeuroImage</i> , 2013 , 72, 106-19	7.9	41
51	The "red-alert" effect in visual search: evidence from human electrophysiology. <i>Psychophysiology</i> , 2013 , 50, 671-9	4.1	32
50	N1pc reversal following repeated eccentric visual stimulation. <i>Psychophysiology</i> , 2013 , 50, 351-64	4.1	4
49	Contralateral cortical organisation of information in visual short-term memory: evidence from lateralized brain activity during retrieval. <i>Neuropsychologia</i> , 2012 , 50, 1748-58	3.2	30
48	Sparing from the attentional blink is not spared from structural limitations. <i>Psychonomic Bulletin and Review</i> , 2012 , 19, 232-8	4.1	27
47	Electrophysiological evidence of multitasking impairment of attentional deployment reflects target-specific processing, not distractor inhibition. <i>International Journal of Psychophysiology</i> , 2012 , 86, 152-9	2.9	27
46	Exploring the role of primary and supplementary motor areas in simple motor tasks with fNIRS. <i>Cognitive Processing</i> , 2012 , 13 Suppl 1, S97-101	1.5	13
45	Event-related potential evidence for two functionally dissociable sources of semantic effects in the attentional blink. <i>PLoS ONE</i> , 2012 , 7, e49099	3.7	7
44	Look out for strangers! Sustained neural activity during visual working memory maintenance of other-race faces is modulated by implicit racial prejudice. <i>Social Cognitive and Affective Neuroscience</i> , 2012 , 7, 314-21	4	15
43	What Phonological Facilitation Tells about Semantic Interference: A Dual-Task Study. <i>Frontiers in Psychology</i> , 2011 , 2, 57	3.4	15

42	Interhemispheric ERP asymmetries over inferior parietal cortex reveal differential visual working memory maintenance for fearful versus neutral facial identities. <i>Psychophysiology</i> , 2011 , 48, 187-97	4.1	53
41	Spatial layout of letters in nonwords affects visual short-term memory load: evidence from human electrophysiology. <i>Psychophysiology</i> , 2011 , 48, 430-6	4.1	4
40	Object-substitution masking modulates spatial attention deployment and the encoding of information in visual short-term memory: insights from occipito-parietal ERP components. <i>Psychophysiology</i> , 2011 , 48, 687-96	4.1	21
39	Surfing the attentional waves during visual curve tracing: evidence from the sustained posterior contralateral negativity. <i>Psychophysiology</i> , 2011 , 48, 1510-1516	4.1	14
38	A hemodynamic correlate of lateralized visual short-term memories. <i>Neuropsychologia</i> , 2011 , 49, 1611-21	3.2	14
37	ERP Evidence for Ultra-Fast Semantic Processing in the Picture-Word Interference Paradigm. <i>Frontiers in Psychology</i> , 2010 , 1, 177	3.4	85
36	Visual short-term memory capacity for simple and complex objects. <i>Journal of Cognitive Neuroscience</i> , 2010 , 22, 496-512	3.1	140
35	Bayesian filtering of human brain hemodynamic activity elicited by visual short-term maintenance recorded through functional near-infrared spectroscopy (fNIRS). <i>Optics Express</i> , 2010 , 18, 26550-68	3.3	21
34	Orienting attention to objects in visual short-term memory. <i>Neuropsychologia</i> , 2010 , 48, 419-28	3.2	59
33	Electrophysiological evidence of enhanced cortical activity in the human brain during visual curve tracing. <i>Vision Research</i> , 2010 , 50, 1321-7	2.1	12
32	On the representation of words and nonwords in visual short-term memory: evidence from human electrophysiology. <i>Psychophysiology</i> , 2009 , 46, 191-9	4.1	13
31	The attentional blink within and across the hemispheres: Evidence from a patient with a complete section of the corpus callosum. <i>Biological Psychology</i> , 2009 , 82, 64-9	3.2	7
30	Attentional requirements for the selection of words from different grammatical categories. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2009 , 35, 1344-51	2.2	10
29	Reevaluating encoding-capacity limitations as a cause of the attentional blink. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2009 , 35, 338-51	2.6	42
28	Attentional capture by visual singletons is mediated by top-down task set: new evidence from the N2pc component. <i>Psychophysiology</i> , 2008 , 45, 1013-24	4.1	71
27	Selective activation of the superior frontal gyrus in task-switching: an event-related fNIRS study. <i>NeuroImage</i> , 2008 , 42, 945-55	7.9	71
26	The interdependence of spatial attention and lexical access as revealed by early asymmetries in occipito-parietal ERP activity. <i>Psychophysiology</i> , 2007 , 44, 436-43	4.1	38
25	P3 latency shifts in the attentional blink: further evidence for second target processing postponement. <i>Brain Research</i> , 2007 , 1137, 131-9	3.7	47

24	Short-term consolidation of visual patterns interferes with visuo-spatial attention: converging evidence from human electrophysiology. <i>Brain Research</i> , 2007 , 1185, 158-69	3.7	25
23	The picture-word interference effect is not a Stroop effect. <i>Psychonomic Bulletin and Review</i> , 2007 , 14, 717-22	4.1	58
22	Short-term consolidation of individual identities leads to Lag-1 sparing. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2007 , 33, 593-609	2.6	22
21	Semantic and repetition priming within the attentional blink: an event-related brain potential (ERP) investigation study. <i>Biological Psychology</i> , 2007 , 76, 21-30	3.2	37
20	Attentional control and capture in the attentional blink paradigm: Evidence from human electrophysiology. <i>European Journal of Cognitive Psychology</i> , 2006 , 18, 560-578		67
19	Attentional blink and selection in the tactile domain. <i>European Journal of Cognitive Psychology</i> , 2006 , 18, 537-559		11
18	Spatial attention freezes during the attention blink. <i>Psychophysiology</i> , 2006 , 43, 394-400	4.1	128
17	On the control of visual spatial attention: evidence from human electrophysiology. <i>Psychological Research</i> , 2006 , 70, 414-24	2.5	124
16	A neuropsychological assessment of dual-task costs in closed-head injury patients using Cohen's effect size estimation method. <i>Psychological Research</i> , 2006 , 70, 553-61	2.5	7
15	Bidirectional semantic priming in the attentional blink. <i>Psychonomic Bulletin and Review</i> , 2005 , 12, 460-54.4.1	4.1	42
14	Central processing overlap modulates P3 latency. <i>Experimental Brain Research</i> , 2005 , 165, 54-68	2.3	32
13	Unitary attention in callosal agenesis. <i>Cognitive Neuropsychology</i> , 2005 , 22, 1035-53	2.3	3
12	Multitasking costs in close-head injury patients. A fine-grained analysis. <i>Experimental Brain Research</i> , 2003 , 152, 29-41	2.3	10
11	Electrophysiological evidence of visual encoding deficits in a cross-modal attentional blink paradigm. <i>Psychophysiology</i> , 2003 , 40, 629-39	4.1	50
10	Four-dot masking produces the attentional blink. <i>Vision Research</i> , 2003 , 43, 1907-13	2.1	40
9	Selective effect of closed-head injury on central resource allocation: evidence from dual-task performance. <i>Experimental Brain Research</i> , 2001 , 136, 364-78	2.3	12
8	Cross-modal attentional deficits in processing tactile stimulation. <i>Perception & Psychophysics</i> , 2001 , 63, 777-89		28
7	Is global shape sufficient for automatic object identification?. <i>Visual Cognition</i> , 2001 , 8, 801-821	1.8	6

6	Naming times and standardized norms for the Italian PD/DPSS set of 266 pictures: direct comparisons with American, English, French, and Spanish published databases. <i>Behavior Research Methods</i> , 2000 , 32, 588-615		132
5	Visual encoding of patterns is subject to dual-task interference. <i>Memory and Cognition</i> , 2000 , 28, 184-91	2.2	48
4	Selective influence of second target exposure duration and task-1 load effects in the attentional blink phenomenon. <i>Psychonomic Bulletin and Review</i> , 2000 , 7, 472-9	4.1	30
3	Attentional and structural constraints on visual encoding. <i>Psychological Research</i> , 1999 , 62, 154-164	2.5	71
2	Unconscious semantic priming from pictures. <i>Cognition</i> , 1999 , 73, B1-B15	3.5	116
1	The demonstration of short-term consolidation. <i>Cognitive Psychology</i> , 1998 , 36, 138-202	3.1	456
